Dear Shareholders,

It gives me immense pleasure to welcome you to our 8th Annual General Meeting of Mcon Rasayan India Ltd. We thank you for your wholesome support throughout the year and look forward to the same in future.

The year 2023-24 has been the year of growth, consolidation and excellence. We have grown in terms of our Annual turnover, our total team size, our manufacturing capacity and also our network of dealers & distributors. We consolidated a few steps to ensure efficiency in what we are doing by standardizing our vendor base, bringing more products from Sarigam plant to Ambheti plant for manufacturing thus effectively reducing operations cost and also creating state of art testing laboratory at Ambheti plant.

This year we saw a mix of spending on the infrastructure and real estate projects. The year began on a very high note and there was lot of activity happening in the construction domain. The Government was also dynamic in completion of projects as it had to deliver the results before the General Assembly Elections. The NIP, a key initiative aimed at improving the country's infrastructure, saw continued investment and progress. The focus was on large-scale projects such as roads, railways, ports, and airports.

FINANCIAL RESULTS 2022-23

Your Company generated a total revenue approx. of ₹ 42 crores in FY23-24 as compared to approx. ₹ 31.04 crores in FY22-23, a growth of 35.67 %.

Mumbai continues to be the major contributor of our business, having a share of 62%, followed by Pune, South Gujarat, Rajasthan and the rest of the territories. We did really good progress in the Builder & Contractor segment in the Residential projects and that segment contributed more than 60% sales to the total turnover. The major advantage that the Company had was that it has a comprehensive range of speciality building materials and construction chemicals – From Foundation to Finishing starting from Admixtures and Curing compounds for Concrete, Tile Adhesives and Tile jointing grouts, Waterproofing systems for new and old constructions, Paints and Surface finish products like Wall putty for the finishing of the buildings, Protective Coatings to protect Concrete and Steel structures, Concrete repair systems for structural repairs of the buildings, Readymix mortars for plastering and block walling activity while Industrial grouts and floor hardeners for Industrial segment. This helped into penetrating easily in the residential project segment.

Dear Shareholders,

Mcon Rasayan India Ltd. Has prided itself to be a Distributor centric manufacturing company and we have ensured that during the journey of our growth, our distributors need to be our partners and should see incremental growth in their business with help and support of the company. We keep on doing various engagement programs for our Distributors, Dealers, Retailers, Contractors and Corporate Customers. The essence, of these meetings is to facilitate collaboration, education, and communication between Mcon Rasayan and the Customers using or selling our products. By enhancing product knowledge, customer engagement, and overall sales strategies, these meetings contribute significantly to our sales success.

The key features of our Customer Engagement programs are:

 <p>PRODUCT KNOWLEDGE</p> <p>This includes understanding the features, benefits, and potential applications of different building materials.</p>	 <p>CUSTOMER ENGAGEMENT</p> <p>To engage directly with customers & specifiers so that they can provide better feedback leading to improved customer satisfaction and potentially higher sales.</p>	 <p>RELATIONSHIP BUILDING</p> <p>Building strong relationships with customers can lead to better collaboration and communication.</p>	 <p>PROMOTION AND CROSS-SELLING</p> <p>These meetings are used to introduce new products, promotions, and special offers.</p>

This type of exhibitions create fantastic brand recall. We are happy that we are continuing with our pursuit to get connected to the Construction industry and participating in further more exhibitions in the coming financial year.

Mcon Rasayan has also given some extraordinary schemes to the Distributors in which the distributors have won domestic and foreign trips, airconditioners, two wheelers and so on. The Distributor meet and award ceremony of Mcon has always been a big hit among Distributors as we meet all our channel partners at one place and there is a great exchange of knowledge and ideas.

We have reinforced our Sales team in last one year with some senior members from the Construction chemical industry joining our brand wagon. Our products are not merely commodities; they are catalysts for your dreams to flourish, for your ambitions to soar. As we delve into the realm of groundbreaking products, let me remind you of the immortal words of Steve Jobs: "Innovation distinguishes between a leader and a follower." Today, we are not simply offering a product; we are offering a revolution.

MR. NANDAN PRADHAN
Whole Time Director

Dear Shareholders,

In 2023, the construction industry in India experienced significant growth, driven by both public and private sector investments. The government's robust infrastructure initiatives, including the National Infrastructure Pipeline (NIP) and Pradhan Mantri Awas Yojana (PMAY), played a crucial role in this expansion. Urbanization surged, leading to increased demand for residential, commercial, and industrial spaces. Key projects in smart cities and transportation infrastructure, such as highways and metro systems, advanced significantly.

Mcon Rasayan India Ltd. focussed on taking the growth speed a notch faster and ensuring that we maintain a decent bottom line for our products. This year saw a lot of new and emerging competition as few of the paint companies entered into the foray of Construction chemicals. We at Mcon ensured that we hold on to our grounds in the areas where we have already made strong market presence like Mumbai, Pune, Vapi etc. and at the same time enter into new markets and make a base over there. We managed to have a strong hold and penetration into the market of Rajasthan and Madhya Pradesh.

Your company also saw diversification and aggression on the market segment front. Our frontend Sales warriors captured new markets segments by starting Retail market in 5 new cities, getting approval from 2 new Government bodies and also creating a special task force for the Specification selling. We established our presence in the heart of India – Madhya Pradesh by appointing 4 new Distributors and conducting more than 8 contractor meets in that region. Our penetration into the Infrastructure segment further deepened as we captured few more sites related to Water Treatment plants, reservoirs and dams.

We at Mcon Rasayan have always been recognised in the industry as a Powder based manufacturer. We although take pride in this fact, still we are working towards moving our focus to the liquid and paste products. This shift is necessary to improve our topline as well as improve our EBIDTA. We have identified like minded partners as our Distributors who are more focussed and have a strong customer base to sell the liquid products.

We the team at Mcon Rasayan India Ltd. are super excited for the coming year and how the things will unfold in the days to come. Our players are geared up with their ammunition and raring to go and create landmark projects for Mcon Rasayan. Our Sales team of more than 50 sales warriors will take the market by storm. We have rebranded our Paints range, introduced innovative products in our Tile adhesive range, brought in some high end products in the waterproofing systems and thus have ensured that the customer stays attracted to Brand Mcon.

At Mcon Rasayan, we firmly believe that Customer service and sales are integral to a business's success and reputation. Exceptional customer service ensures that clients feel valued and heard, fostering long-term loyalty and satisfaction. It involves understanding customer needs, addressing concerns promptly, and providing personalized support. We have automated our ordering systems by bringing in CRM so that the voice of customer can be heard at all levels. We are also automating the loyalty programs for the contractors and masons. Mcon believes that the right blend of technology and human touch can take us to newer milestones. Training and empowering staff in both areas enhance their ability to deliver outstanding experiences. Ultimately, a focus on excellent customer service and strategic sales efforts contributes to customer retention, increased sales, and a positive brand image.

I want to take this opportunity to thank my Core Team of Sales and Operations for their dedication and hard work. Your commitment has been pivotal in achieving our business targets and driving our success. As we move forward, let's continue to focus on delivering exceptional value to our clients and pushing the boundaries of excellence. I'm confident that with our collective effort, we'll achieve even greater milestones. Here's to our continued success and growth!

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India :

- a) In the case of the Balance Sheet, of the state of affairs of the company as at **31st March, 2024** and
- b) in case of Profit and Loss Account, of the **Profit** of the Company for the year ended on that date.
- c) in case of Cash Flow Statement, cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI'S Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Board Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT ON THE STANDALONE FINANCIAL STATEMENT OF
MCON RASAYAN INDIA LIMITED FOR THE YEAR ENDED 31ST MARCH 2024**

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

We have audited the internal financial controls over financial reporting of **Mcon Rasayan India Limited** (“the Company”) as of 31st March, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- 1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. This section shall include discussion on the following matters within the limits set by the listed entity's competitive position:

a. Industry structure and developments:

The construction industry in India is a critical sector for the country's economic development, contributing significantly to GDP and employment. As of 2023 - 24, several key trends and developments are shaping the industry:

- **Infrastructure Projects:** There is a strong focus on infrastructure development, including highways, bridges, and urban transportation systems. Major projects like the Bharatmala Pariyojana and various smart city initiatives are driving demand. Pradhan Mantri Awas Yojana – Urban (PMAY-U)(73) a flagship Mission of Government of India being implemented by Ministry of Housing and Urban Affairs which has picked up pace in this year and will continue for next few years. This type of impetus by the Government on the Infrastructure expenses will ensure a better business opportunity for Mcon Rasayan.
- **Residential and Commercial Construction:** The demand for residential housing, especially affordable housing, remains high. Commercial real estate is also experiencing growth, driven by the expansion of the IT sector and the rise of new business hubs. There have been special initiatives given by government to this sector.
- The construction industry has seen some important developments in the recent times, the speed of construction has increased with implementation of new concreting techniques like self compacting concrete, high early strength concrete and tunnel formwork. These changing technological advancements have created requirement for construction chemicals like shuttering oil, gun grade non shrink grouts and high end tile adhesives.
- Mcon Rasayan India Ltd. is in the business of manufacturing, marketing and selling of modern building materials and construction chemicals with a suite of more than 80 products which includes a range of construction materials and construction chemicals in both powder and liquid forms. The products are marketed and sold under the "MCON" brand. Mcon Rasayan India Ltd has been spreading its wings across India by entering into the markets of North India and South India after proving their prowess in the western zone of the country.

b. Opportunities and Strengths:

Opportunities to Mcon Rasayan India Ltd. : Mcon Rasayan India Ltd. has a tremendous scope in the geography that its operating and also the product segment of Construction Chemicals and Modern building materials:

- Significant positive for infrastructure: The government's capital expenditure is set to rise to Rs 11.1 Lc Cr, reflecting an encouraging growth of 17% for FY25 compared to the revised FY24 estimates. Its unwavering focus remains on Roads, Power, Urban Development, and Railways, which are expected to drive significant long-term economic multipliers. Notably, the government has announced increased capital outlays for Railways at Rs 2.55 Lc Cr, which will substantially enhance railway infrastructure. Additionally, allocation to the PM Awas Yojana has been increased to Rs 84,670 Cr, up from Rs 54,000 Cr in the previous fiscal year
- The Construction sector of India presents several promising opportunities due to various factors such as urbanization, infrastructure development, real estate growth, and changing consumer preferences. Also now that we are entering into the markets of North India, it has its unique advantages like:
 - **Urban Expansion:** North India, especially Delhi NCR, has seen rapid urban expansion and infrastructure development, driven by high population density and economic growth. Major projects include metro expansions, expressways, and smart city initiatives.
 - **Real Estate Boom:** The real estate sector in North India, particularly in Delhi NCR, is characterized by high demand for both residential and commercial properties. There's a focus on luxury housing as well as affordable housing under schemes like PMAY.
 - **Infrastructure Projects:** Major infrastructure projects include the construction of expressways such as the Delhi-Mumbai Expressway and large-scale urban development projects aimed at decongesting major cities.
 - **Government Initiatives:** The region benefits from significant central government funding and initiatives aimed at improving urban infrastructure and connectivity.

The awareness that has been created in last 5 years for the use of construction chemicals across major product segments is a big opportunity for Mcon Rasayan to spread its business in the Retail segment and small contractor use segments, as tile adhesives for fixing the tiles, liquid waterproofing coatings for waterproof repairs of homes and buildings, modern ready to use repair mortars for structural repairs have gained momentum.

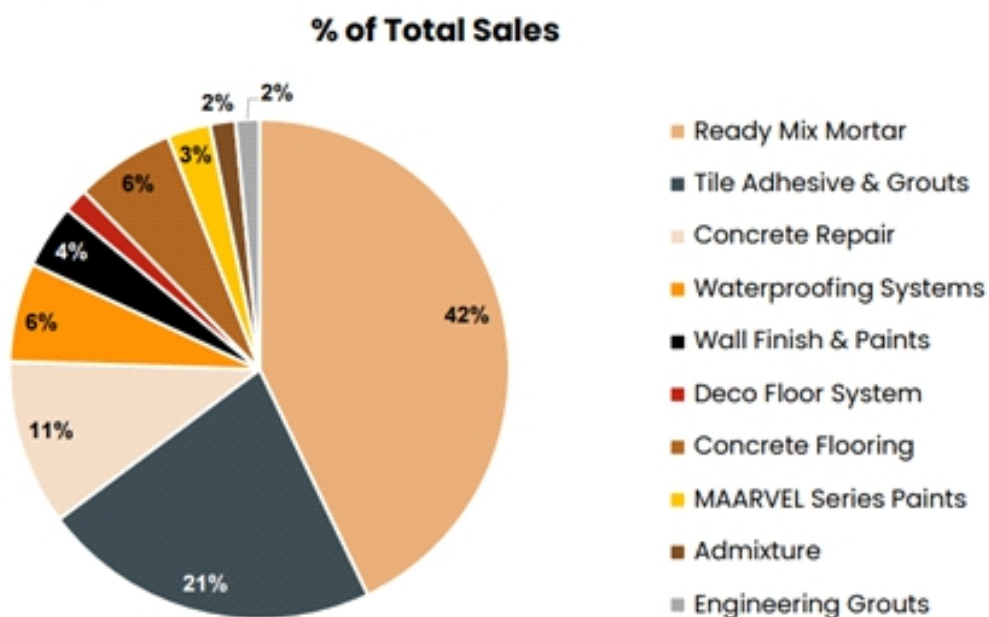

RISKS AND CONCERNS:

- **Regulatory and Compliance Risks:** India's regulatory environment can be complex and subject to changes. The construction chemicals industry is affected by regulations related to import duties and GST on Cement. Changes in these regulations can impact product formulations, raw material availability, and operational practices, requiring companies to invest in compliance management and product adaptation.
- **Quality and Performance Risks:** Construction chemicals play a crucial role in ensuring the durability and structural integrity of buildings and infrastructure. Any compromise in product quality can lead to construction failures, safety concerns, and financial losses for all stakeholders involved. Maintaining consistent quality and performance standards across a diverse range of construction chemicals can be challenging, particularly in a market with varying levels of technological expertise.
- **Economic and Market Fluctuations:** The construction industry in India is influenced by economic cycles, interest rates, and government spending on infrastructure projects. This vulnerability can affect revenues and profitability for manufacturers and suppliers in the industry.
- **Competition and Pricing Pressures:** The construction chemicals market in India is becoming increasingly competitive as more players enter the field. Intense competition can lead to price wars and margin erosion.

c. Segment-wise or product-wise performance.

In the financial year of 2023 – 24 Mcon Rasayan has consciously worked on its product mix and thus improved on its Gross margins. Many of our champion products did really well during this period. We have continued to value and appreciate our Network and our Distributors as our strength and come what may we have done major business through them. In this financial year we have crossed our benchmark of appointing more than 75 distributors across India. And the results were really encouraging. In the year we did value growth of 33% and volume growth of 42%.

Product Mix

• **Strategic gains**

We have strategized and optimised our supply chain by the way our products and services reach customers thus enhance market penetration, improve efficiency, and drive growth. We have developed strong relationships with key channel partners. Mcon Rasayan ensured that our Distributors align with our brand values and can effectively reach our target market. These strategies were strongly complemented by leveraging the brand strength and looking at product innovation to grow the premium and high margin product mix.

Innovation in construction chemicals is crucial for advancing building techniques, improving durability, and enhancing sustainability in the construction industry. We at Mcon Rasayan further gave some fantastic products to the Construction sector like Micro Concrete Under Water, Crystalline waterproof admixture, Corrosion inhibiting coating and so on, which got excellent response from the specifiers, the government officials and also the contractors and it also helped us in bettering our bottom lines.

In the tiling and flooring product segment, we enhanced our **high-strength adhesives so that the tiles can be fixed with a better** bonding strength for a variety of substrates, including challenging materials like composites and glass. Also we brought in **flexible sealants that** offer greater flexibility and durability, accommodating movement and expansion in building materials without compromising performance.

The waterproofing and adhesives product categories, two of our ongoing category saw major expansions, as we continued to grow significantly ahead of the overall portfolio growth. Our emphasis on product innovation and solution-focused approach to meet varied customer requirements through an evolving product plus service combination, has allowed us to make significant inroads in these large categories.

The major contributor in terms of volume and value was again the Ready mix mortar segment as our Readyplaster and Block adhesives were appreciated and sought after in spite of the tough price war going on in this category. We did a total tonnage of 2255 MT in the readymix mortar segment which contributed to total of 56 % of our total tonnage sold in

d. Outlook

The outlook for construction chemicals in India is quite promising. Several factors contribute to this positive trend:

- 1. Infrastructure Growth:** India's rapid urbanization and infrastructure development, including projects like smart cities, highways, and residential complexes, drive demand for advanced construction chemicals. Especially when the speed of construction is a big criteria for timely finishing of the project so the use of construction chemicals is a promising alternative for all the stakeholders of the project.
- 2. Government Initiatives:** Government schemes like the Pradhan Mantri Awas Yojana and National Infrastructure Pipeline are boosting the construction sector, leading to increased use of construction chemicals.
- 3. Technological Advancements:** Advances in construction technology and the increasing use of high-performance materials are pushing the demand for specialized construction chemicals. Grade of concrete has been pushed from M25 to M100 thus the need for admixtures to ensure that such high grade concrete has to be made possible.
- 4. Sustainability Trends:** There's a growing emphasis on sustainable construction practices. Construction chemicals that enhance energy efficiency, reduce carbon footprints, and improve the longevity of structures are gaining traction. Mcon Rasayan has ensured the same by bringing in products like Self cure readymix plaster, high grade curing compounds and VOC free paints focus on sustainability.
- 5. Rising Standards:** Increasing awareness of the benefits of using high-quality construction chemicals, such as improved durability and maintenance, is influencing their adoption. Mcon Rasayan has brought in liquid membranes which give a 100% waterproofing to your terraces without breaking the surface and a good life to your structure.
- 6. Economic Factors:** The growing economy and increased disposable income contribute to higher spending on construction and renovation, thereby boosting demand for construction chemicals. Post covid people have understood the concept of Home is an important part of your day to day life so they are creating beautiful spaces inside the house by using some unique versatile materials.

The future will see a greater focus on tailoring waterproofing systems to specific climate conditions. In regions with heavy monsoons, for instance, waterproofing solutions will need to be particularly robust and capable of withstanding prolonged

exposure to heavy rainfall. Mcon Rasayan has introduced waterproofing sandwich systems which will sustain weathering and rains for more than 15 years and give the home owner a peaceful life.

The successful implementation of future waterproofing technologies and practices hinges on skilled professionals who can design, install, and maintain these systems. As the industry evolves, investing in skill development and training programs will be crucial. Mcon Rasayan has already taken initiative in this regard by conducting training programs for the applicators and then certifying them as the Authorised Applicators. We have resolved to make more than 1000 Authorised applicators who will have the knowledge of correctly doing the application of waterproofing membranes so that we can ensure that the product is applied in a proper manner and the consumer gets the utmost benefits from the same.

e. Risks And Concerns.

Innovation and Development

- **New Formulations:** R&D enables the development of new waterproofing formulations that provide better protection against water ingress. This includes the creation of more effective chemical compounds or additives that enhance performance.
- **Testing and Validation:** R&D involves rigorous testing to ensure that waterproofing chemicals meet industry standards and perform effectively under different conditions. This includes resistance to water pressure, chemical exposure, and environmental stressors. To address these concerns, Mcon Rasayan has set up its own R&D centre in Navi Mumbai and also one more with the best laboratory set up at the Ambheti factory.

Raw material availability

- Our business relies on a stable supply of raw materials, such as cement, aggregates(sand), and additives. Any disruptions in the supply chain, such as shortages or price fluctuations, can impact our production capacity and cost structure. We have done our bit to mitigate these risks by having a huge sand storage area at our Ambethi plant with a sand processing plant to ensure that we get an uninterrupted supply of good quality river sand for all our powder products. Also we have strong tie up with multiple vendors who can supply us high volume consistent material as per our fixed rates to ensure that the costing of the product will not fluctuate.

Liability and Warranty Issues

- Our products are used in construction projects for waterproofing in which we are offering warranties and ensuring our product meets industry standards can help mitigate this risk. Also we have our own set of Authorised applicators for the critical application of the products so that we can ensure that it serves the warranties offered. Also we have our own team of Technical experts in application who visit the ongoing sites at regular intervals to educate the site people and check on the correct use of our products.

This can lead to increased revenue generation and improved financial performance. R&D helps in finding cost-effective raw materials and manufacturing processes, which can lower production costs without compromising on quality. We have achieved an over all savings of 4.25% in the raw material consumption and the manufacturing process with help of our R&D changes.
