RAINFALL IN CENTRAL, SOUTH INDIA TO BOOST PULSES SOWING

Kharif sowing down 21%, paddy area declines 13%

SANDIP DAS
New Delhi, July 6

SOWING OF KEY KHARIF crops—rice, pulses, oilseeds and cotton—seems lagging with overall sown area being 35.08 million hectare (Mha) as on Monday, down 21% year-on-year. According to the agriculture ministry, total sowing was about 32% of the normal area of 110 mha in that window. By the same time a year ago, more than 40% of the normal area had come under fresh crops.

Rice, the major kharif crop, has been sown in 6 Mha, a 13% decline, indicating scanty rainfall in the eastern parts of India especially in Bihar and Jharkhand. Normal paddy sown area is 41.2 Mha.

Similarly, area under pulses has been 3.71 Mha, a sharp 22% year-on-year fall mostly attributed to the scanty rainfall received till end of June in central India. Tur (pigeon pea), a key kharif pulse has been sown in 1.23 Mha so far, over 40% less than the year-ago period because of deficient rainfall received in Maharashtra and Karnataka this monsoon season.

SCANTY RAINFALL

Kharif sowing lags	Sown area (million hectare)	% change y-o-y
Rice	6.02	↓ 13
Pulses	3.71	↓ 22
Oilseeds	6.63	↓ 39
Coarse cereals	6.01	↓ 16
Sugarcane	5.75	↓ 1.5
Cotton	6.31	↓ 23
Total**	35.08	↓ 21

Source: Agriculture Ministry, *till July 5, 2026, against normal sown area of 110.04 mha **including jute & mesta

Due to the 'active' phase of monsoon during the past week over the rain-fed core zone of central India, the deficit in the region has been reduced to just 5% from over 50% reported till the end of June. This is expected to give a boost to pulses and oilseeds sowing in coming weeks.

Cotton acreage is 23% lower at 6.31 Mha year-on-year. Oilseeds — soybean and groundnut — area is lagging sharply by 35% year-on-year due to scanty rainfall in the central India region especially in Gujarat and Madhya Pradesh last month. An official

said that kharif crop sowing will sharply increase during the next few weeks as the monsoon is expected to be in active mode for the next few days.

Sugarcane planting, which started much earlier but is considered part of the kharif season, is the only major crop showing a rise in area.

Surplus rainfall of over 41% in July has reduced overall southwest monsoon deficiency in the current season till Monday to 20% from close to 40% at the end of June, according to the India Meteorological Department (IMD).

Cumulative rainfall during

June 1-July 6 according to the met department is 170.7 millimeters, 20% below the benchmark longer period average (LPA), which is still in the 'deficient' range. In terms of regional distribution, all regions show a serious rainfall deficiency: northwest (-19%), east/north-east (-41%), central India (-5%), and south peninsular (-15%).

However, IMD last week forecast 'below-normal' rainfall of less than 94% of the benchmark long period average (LPA) for July, citing El Nino conditions evolving over the Pacific Ocean.

Defence, critical minerals on table at India-Indonesia meeting today

SHUBHAJIT ROY
New Delhi, July 6

PRIME MINISTER NARENDRA Modi on Monday began a three-nation tour of Indonesia, Australia and New Zealand. He said the visit, from July 6-11, "will further strengthen India's Act East Policy, MAHASAGAR Vision as well as our outlook towards a free and open Indo-Pacific".

Modi, who reached Jakarta on Monday afternoon, was received at the airport by Indonesian President Prabowo Subianto. The two leaders are expected to focus on bilateral cooperation in defence and maritime partnerships, critical minerals, food security and digital economy at their meeting on Tuesday.

"I'm touched by President Prabowo Subianto's gesture of welcoming me at the airport," Modi said in a post on X. "In 2018, we elevated our relations to a Comprehensive Strategic Partnership, which has benefited our people. Dur-

Prime Minister Narendra Modi being welcomed by Indonesian President Prabowo Subianto on his arrival in Jakarta, Indonesia

ing this visit, President Prabowo Subianto and I will hold discussions aimed at adding even more momentum to this partnership across diverse sectors," he said.

While this is his fourth visit to Indonesia, it is the first bilateral visit since the elevation of ties to a Comprehensive Strategic Partnership in May 2018. "President Prabowo and

expanding scope through high-level visits, regular bilateral and multilateral exercises, and deeper defence industry cooperation, including the sale of BrahMos missiles.

As maritime neighbours, both countries of India-Indonesia Maritime Cooperation in the Indo-Pacific in 2018. "The stationing of an Indonesian liaison officer at IFC-IOR (Information Fusion Centre - Indian Ocean Region) will give further impetus to our maritime domain awareness. India will also be earmarking slots for Indonesian cadets and officers at the National Defence Academy and Defence Services Staff College which will enhance defence capacity building," sources said.

On cooperation in critical minerals, officials said Indonesia dominates the sector, commanding roughly 21% of the world's nickel reserves and ranking among the top global producers of copper, bauxite and tin.

Cash transfer to women boosts savings: EAC-PM

UNCONDITIONAL CASH TRANSFER schemes for women have significantly strengthened household savings and spending, prompting the Economic Advisory Council to the Prime Minister (EAC-PM) to recommend that benefit amounts be revised periodically to keep pace with inflation and changing household expenses.

A working paper released on Monday found that the cash transfer programmes run by Maharashtra and Odisha have led to substantial improvements in beneficiaries' financial positions, particularly in their savings.

The study examined Maharashtra's Mukhyamantri Majhi Ladki Bahin Yojana, which provides eligible women with ₹1,500 a month, and Odisha's Subhadra Yojana, under which beneficiaries receive ₹10,000 annually in two instalments.

According to the report, average month-end bank balances of women enrolled in the schemes rose by around 84% in Maharashtra and 45% in Odisha. In absolute terms, beneficiaries accumulated nearly ₹6,900 more in savings under each programme.

The council said transfer amounts should be reviewed at regular intervals to preserve their real value as inflation rises. It suggested that any savings generated through better

Average month-end bank balances of women enrolled in the schemes rose by around 84% in Maharashtra

targeting of beneficiaries could be used to enhance payouts and expand complementary support services.

The paper also recorded a rise in household consumption, with monthly spending increasing by 46% among beneficiaries in Maharashtra and 28% in Odisha.

Beyond the direct recipients, the schemes appeared to improve the finances of other family members as well. In Odisha, a 10% increase in a beneficiary's account balance was linked to a 1.9% decline in relatives' spending.

In Maharashtra, relatives of beneficiaries registered a 23% rise in month-end balances alongside a 49% reduction in expenditure. —FE BUREAU

Legal scrubbing of India-EU FTA to be over in 15-20 days

INDIA AND THE European Union (EU) are working together to finish the legal scrubbing of their Free Trade Agreement (FTA) in the next 15-20 days, Commerce and Industry Piyush Goyal said Monday.

"I had a very good conversation with my counterpart (EU Trade Commissioner Maros Sef-

civic) on Sunday. I am meeting him on July 14 and 15 in Brussels along with a delegation of business persons," Goyal said at the Council of Leather Exports Export Excellence Awards.

India, EU completed negotiations on the FTA in January this year and now are working on the legal text of the deal.

Govt likely to defer 25% ethanol blending in petrol on backlash

ANIL SASI
New Delhi, July 6

AMID A RAGING backlash over a rapid increase in the use of ethanol in petrol from 10% to 20% in just three years, the government is likely to push back the proposed shift to a higher blend of ethanol fuel E25 comprising 75% petrol and 25% ethanol.

The government had originally planned to dispense petrol blended with 20% ethanol only by 2030. But the E20 fuel — 80% petrol and 20% ethanol — is now the standard petrol variant available nationwide.

While no formal date has been announced for dispensing E25 blended petrol, two government decisions over the last six weeks triggered fresh concerns: one, central excise duty exemption for blended fuel (22%-30% ethanol) and two, fuel standards notified by BIS for these blends.

These measures were inferred as heralding the gov-

Entrepreneur and television personality Tehseen Poonawalla and others protest over the mandatory implementation of the 20% ethanol blending (E20) policy in petrol, at Jantar Mantar in New Delhi on Sunday

ernment's intent to prepare the vehicular and fuel ecosystems for the next stage of ethanol adoption, with the specific proposal to go beyond E20 stoking concern among both car makers and motorists.

But even before this, the

rapid upshift or advancing of the transition to E20 by five years has left a section of consumers complaining about a perceptible drop in fuel economy. They have also expressed concerns over vehicular part damage in older cars, especially as ethanol content progres-

sively goes up.

In the backdrop of such sentiments, a meeting at the most senior levels of the government last week is learnt to have advised about the need to scientifically address some of the genuine concerns. This included an effort to ask OEMs (original equipment manufacturers) to address the consumer complaints. Officials also said some of which are inferred to be "overblown".

The sources said the government reckons the need to give sufficient time for ecosystem readiness and why they must avoid pushing through the transition to the E25 fuel, especially in the context of the rushed E20 transition earlier.

"There is a view (within the government) that the transition beyond E20 will need to be spaced out. That is the sense we have got from vehicle manufacturers too. The idea is to go to E25 in a calibrated, graded manner for existing vehicles," a senior government official said.

Panel: Adopt global norms for collecting energy data

PRESS TRUST OF INDIA
New Delhi, July 6

AN EXPERT PANEL has recommended adopting international standards for the collection and dissemination of energy statistics in tabulation categories aligned with the International Standard Industrial Classification.

The Ministry of Statistics and Programme Implementation has constituted an Expert Committee on Energy Statistics under the Chairmanship of Rangan Banerjee, Director, IIT-Delhi and comprising senior-level representatives from line energy ministries and domain experts from research institutions like The Energy Research Institute (TERI) and Alliance for Energy Efficient Economy (AEEE), among others, a ministry statement said.

The committee undertook a comprehensive review of the 'Energy Statistics India' publication and the energy statistics database of India, including its coverage, definitions, classification systems, data sources and estimation methodologies.

Focused attention was paid to issues like meeting International Standards on Energy Statistics, addressing major data gaps and addressing inconsistencies in the energy statistics database across energy ministries.

The committee recommended the adoption of inter-

lection and dissemination of energy statistics in tabulation categories aligned with International Standard Industrial Classification (ISIC), National Industrial Classification (NIC)-2025, and Standards International Energy-product Classification (SIEC), among others.

Uniform conversion factors should be adopted by all line energy ministries to ensure inter-ministerial consistency of their energy statistics, it added.

The panel recommended a methodology for the refinement of sectoral end-use consumption of imported coal (around 20 percent of the total coal consumption in India) and domestic coal routed via auction, clubbed under the miscellaneous category.

The methodology makes use of the Annual Survey of Industries (ASI) database, which captures limited indus-

try-wise coal consumption. The committee also recommended that the Bureau of Energy Efficiency (BEE) develop and maintain a comprehensive database under the Perform, Achieve and Trade (PAT) scheme.

It also pitched for a similar methodology to capture and disseminate the industry-wise end-use consumption of electricity in India by using the Annual Survey of Industry (ASI) database.

It stated that in the absence of consolidated national-level data, the United Nations Statistical Division (UNSD), in its annual publication of World Energy Balance, estimates biofuel consumption in India at around 31-34% of the total annual energy consumption.

The panel also suggested a comprehensive methodology for addressing these important data gaps to incorporate biofuel components in the energy balance table.

The consumption of electricity via captive/off-grid mode and consumption of electricity by EVs in India are among the significant data gaps in the energy domain which has been addressed under this report, it stated.

The recommendations are expected to support evidence-based policymaking, improve data quality and comparability, and facilitate better monitoring of India's evolving energy landscape.

NOTICE TO THE SHAREHOLDERS
TRANSFER OF EQUITY SHARES OF THE COMPANY AND UNPAID / UNCLAIMED FINAL DIVIDEND OF FY 2018-19 TO INVESTOR EDUCATION AND PROTECTION FUND (IEPF) AUTHORITY

Notice is hereby given to the shareholders of the Company, pursuant to Section 124(f) of the Companies Act, 2013 and the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, and amendments thereto ("the Rules"), for transfer of all shares in respect of which dividend has remained unpaid or unclaimed by the shareholders, for seven consecutive years or more from the date of its transfer to Unpaid Dividend Account, to Investor Education and Protection Fund Authority ("IEPF Authority").

In compliance with the Rules, notice has been sent to all the concerned shareholders whose equity shares and unpaid / unclaimed dividend are liable to be transferred to IEPF Authority, requesting them to claim such unpaid / unclaimed final dividend for the financial year 2018-19, on or before October 08, 2026 and details of such shareholders is made available on the Company's website at <https://www.mahanagar-gas.com/MGL-corporate/investors/dividend/unclaimed-dividend>

In the event a valid claim is not received by October 08, 2026, the Company will proceed to transfer such unpaid / unclaimed final dividend for FY 2018-19 and all equity shares in respect of which dividend has remained unpaid or unclaimed by the shareholders, for seven consecutive years or more from the date of its transfer to Unpaid Dividend Account to the IEPF Authority, without any further notice. Please note that no claim shall lie against the Company or the Company's Registrar and Transfer Agents (RTA) in respect of unpaid / unclaimed final dividend amount for FY 2018-19 and equity shares transferred to the IEPF Authority.

In this regard, please note the following:

- In case you hold shares in physical form: Duplicate share certificate(s) will be issued and transferred to IEPF Authority and the original share certificate(s) which is registered in your name will be deemed cancelled and non-negotiable.
- In case you hold shares in electronic form: The Company will execute corporate actions with the Depositories and your demat account will be debited for the shares liable for transfer to IEPF Authority.

It may be noted that the concerned shareholders can claim the shares and dividend from IEPF Authority by making an application in the prescribed Form IEPF-5 online, as available on the website of the MCA at www.mca.gov.in and sending the physical copy of the requisite documents enumerated in the Form IEPF-5, to the Nodal Officer at the registered office of the Company.

In case the shareholders have any query on the subject matter, they may contact the Company's Registrar and Share Transfer Agent (RTA), MUFG Intime India Private Limited (Unit: Mahanagar Gas Limited), C-101, Embassy 247, L.B.S. Marg, Vikhroli (West), Mumbai - 400 083, Tel No.: 022 - 49186000, e-mail - rnt.helpdesk@in.mpmg.mufg.com and/or the Company at its registered office address mentioned in the notice set herewith.
