In addition, the Scheme also provides for various other matters, consequential or otherwise, integrally connected therewith for the purpose of Amalgamation of the Transferor Company with the Transferee Company under the present Scheme.

B. DESCRIPTION OF THE COMPANIES

1. Unison Enviro Private Limited ('Transferor Company' or 'UEPL')

The Transferor Company was incorporated as a private limited company under the Companies Act, 2013 on 14th December 2015 in the state of Maharashtra under the name of 'Unison Enviro Private Limited'. The CIN of the Transferor Company as on date is: U40300MH2015PTC271006. The Permanent Account Number (PAN) of the Transferor Company is: AABCU8820A.

The Transferor Company is primarily engaged into the City Gas Distribution ('CGD') business and authorised to operate in 3 Geographical Areas ("GAs") i.e., 1. Ratnagiri in Maharashtra (authorised in year 2016), 2. Latur & Osmanabad in the state of Maharashtra (authorised in year 2018) and 3. Chitra Durga & Davanagere districts in the state of Karnataka (authorised in year 2018). A CGD company generally receives gas from the cross-country pipeline owners like GAIL or RIL at its City Gate Station (CGS). Post receiving gas in the city, PNG is supplied / distributed to retail customer (Household, Industry, Commercial establishments) mostly through pipeline infrastructure network laid up to the doorstep of customers and CNG is supplied to vehicles through CNG stations. Natural Gas is received at high pressure at CGS and is supplied through pipeline infrastructure to PNG consumers at required pressure at their consumption point and compression / manufacture of CNG is carried out at CNG Station to fill the vehicles.

The Transferor Company is a private limited company and is a wholly owned subsidiary of the Transferee Company.

2. Mahanagar Gas Limited ('Transferee Company' or 'MGL')

The Transferee Company was originally incorporated as a public limited company under the erstwhile Companies Act, 1956, on the 8th May 1995 under the name and style of 'Mahanagar Gas Limited' in the State of Maharashtra. The CIN of the Transferee Company as on date is L40200MH1995PLC088133. The Permanent Account Number (PAN) of the Transferee Company is AABCM4640G.

The Transferee Company is primarily engaged into the CGD business (similar to UEPL) to supply of piped Natural gas (PNG) and manufacturing and supply of Compressed Natural Gas (CNG). MGL supplies PNG to industrial, commercial and residential customers etc and supplies CNG as vehicular fuel. MGL has its geographical presence in 3 areas, namely, Mumbai and Greater Mumbai, Thane Urban and adjacent municipalities and Raigad Districts in Maharashtra. A CGD company generally receives gas from the cross-country pipeline owners like GAIL or RIL at its City Gate Station (CGS). Post receiving gas in the city, PNG is supplied / distributed to retail customer (Household, Industry, Commercial establishments) mostly through pipeline infrastructure network laid up to the doorstep of customers and CNG is supplied to vehicles through CNG stations. Natural Gas is received at high pressure at CGS and is supplied through pipeline infrastructure to PNG consumers at required pressure at their consumption point and compression / manufacture of CNG is carried out at CNG Station to fill the vehicles.

The Transferee Company is a company having its equity shares listed on the BSE Limited ("BSE") and the National Stock Exchange of India Limited ("NSE") on 1 July 2016.

C. RATIONALE OF THE SCHEME

Transferee Company has participated in several Geographical Area (GA) bidding rounds conducted by Petroleum and Natural Gas Regulatory Board (PNGRB) for expanding its city gas distribution businesses in multiple locations. The Company could get authorisation only for one geographical area i.e. Raigad District through PNGRB bidding round in 2014, post that despite participating in all subsequent bidding rounds the Company was not successful in securing new geographical areas. Further expansion into new geographies by the Transferee Company beyond the existing three geographical areas was constrained post completion bidding for all areas and award by

Page 3 of 39

the PNGRB. Thus, further growth was possible only by acquiring ongoing city gas distribution businesses. The Transferor Company's business was available for acquisition only via purchase of shares held by the erstwhile promoters who appointed a banker to search for interested entities in purchase of their business through competitive bidding. Accordingly, this acquisition was done by the Transferee Company to expand its presence in different geographical locations to strengthen its position in the city gas distribution business and the Scheme is proposed as a part of consolidation strategy within the Group. Thus, Transferee Company seeks to merge the Transferor Company for consolidation and expansion of city gas distribution business. The Transferor Company, as on the appointed date, is a direct wholly owned subsidiary of the Transferee Company and engaged in similar line of business viz., city gas distribution business in different geographies in the State of Maharashtra and Karnataka. The objects / rationale of the proposed Scheme is as under:

- The merger of Transferor Company into Transferee Company will result in operational synergies resulting in cost optimization;
- The Scheme will also achieve rationalization of costs by simplification of management structure leading to better administration and cost savings;
- Reduction in managerial overlaps which are necessarily involved in running multiple entities operating in similar line of business;
- More efficient utilization of capital for enhanced development and growth of the consolidated city gas distribution business in one entity;
- Rationalization of the holding structure by way of reduction in the number of entities and streamline the structure of Transferee Company;
- Providing an opportunity to leverage combined assets, capabilities, experience, expertise, infrastructure of both Companies enabling optimum utilization of existing resources and economies of scale;
- Economies of scale, greater integration, greater flexibility, most effective network and greater market reach as per the GAs allotted to both Companies for the amalgamated entity will improve the competitive position of the combined entity.
- Improved cash flows and more efficient utilization of capital, human resources and infrastructure to create a stronger base for future growth, enhance future business potential, and achieve greater efficiencies, productivity gains and advantages by

pooling of resources of the group Company thereby significantly contributing to the future growth and maximizing shareholder's value; and

- Significant reduction in the multiplicity of legal and regulatory compliances required at present to be carried out by Transferor Company, and greater financial strength and flexibility for the Transferee Company, which would result in maximizing overall shareholder value.

In view of the above, the Scheme will be beneficial and not prejudicial to the interests of the shareholders, employees, creditors, customers and other stakeholders of the Transferor Company and the Transferee Company, and there is no likelihood that the interests of any stakeholders would be prejudiced as a result of the Scheme.

Accordingly, this Scheme is being presented for amalgamation of the Transferor Company with the Transferee Company and their respective shareholders and for various other matters consequential, incidental, supplemental and / or otherwise integrally connected therewith pursuant to Sections 230 to 232 and other applicable provisions of the Act read with rules & regulations framed thereunder.
