MEDIA RELEASE

MICRO TECHNOLOGIES TO PROVIDE SECURITY UMBRELLA TO TOP RANKING EDUCATIONAL INSTITUTIONS

- **To Supply Surveillance & Access Control Systems**
- **To Give Fool-Proof Security In & Around Campus**
- **To Make Educational Institutions the Oases Of Learning**

Mumbai, March 6, 2013

In a landmark development on the educational security front, **Micro Technologies (India) Ltd (MTIL:BSE 532494 & NSE:MICROTECH),** a leading global developer and marketer of security devices and solutions today announces that it has received attractive orders from renowned educational institutions to provide security to their campuses in the commercial capital. These security solutions from Micro will enable to provide security cover to students and faculties of some of the top 50 educational institutions and business schools. Besides providing safety and security for the students and assets of the educational institutions, they also deter miscreants in the campus and thereby ensuring safer educational environment and eliminating problems for their administrators.

The orders are for the supply,installation and commissioning of various surveillance devices such as multi-zone video detectors, intelligent security systems, access control systems, attendance management, server hardware and software to give fool-proof security in and around the campus. Micro Technologies is already offering its security solutions to renowned universities and colleges in India for both governments aided and privately funded and the present contracts increase its educational institution portfolio. Micro Technologies got theese prestigious orders because it has already been providing security cover with its cutting-edge technology and solutions to big universities and colleges in India.

Educational institutions of different disciplines prefer Micro Technologies' security devices and solutions dure to their very good track records, superior quality, state-of-art technology and effectiveness which are also certified by renowned laboratories and testing centers across the globe. Micro's products have the ability to integrate the security systems into the educational institution's current SAP, ERP, Attendance and Payroll software and applications. The products operate in all weather conditions. Micro's security solutions also help in boosting the return on investment (RoI) by reducing operations costs in vital areas.

Announcing the award of the contracts from the prestigious educational institutions, **Mr. Ganapathy V, CEO-Micro Technologies (India) Limited said, "Providing adequate security cover to educational institutions is one of our primary aims and concerns. We are glad to associate ourselves with top-class educational institutions where we can leverage our experiences in other sectors and make them truly the oases of learning by ensuring a congenial and safe."**
