

MICRO TECHNOLOGIES NOMINATED TO RECEIVE TWO PRESTIGIOUS GLOBAL AWARDS

Mumbai, March 14, 2012

Micro Technologies (India) Ltd (BSE 532494 & NSE MICROTECH), a leading global developer and marketer of security solutions, has been bringing laurels to the nation by winning and being nominated for prestigious global awards in 2011-2012.

Asian Achievers' Awards

Micro Technologies has been nominated for the coveted **"ASIAN ACHIEVERS AWARDS" presented by the Indo- British Business Forum (IBBF)**. The award is in recognition of Micro technologies' success and achievements in the security solutions business. The glittering awards ceremony will be held at the hallowed British Parliament at Westminster, London on March 15, 2012. Lords, Mayors, Businessman, Industrialists, Hoteliers, MPs, are invited for these events.

IBBF is a platform for the business community both from India & UK/European Union to enhance business activity and support business aiming to reach out the community.

IBBF has been conceived to ensure that the British & European companies are well placed to do business in India, the most emerging market & with primary purpose of presenting information and trends about exciting business and investment opportunities in India to investors around the world.

International Arch of Europe Award

Micro Technologies has been nominated to receive the **'International Arch of Europe Award'** presented by the Business Initiative Directions (BID), Madrid, Spain. The Award puts the company in the elite group of quality conscious technology titans.

An official communication from BID's President Mr. Jose E. Prieto has been received by the company.

The presentation of the Award will be held during the ceremony at the BID International Convention for Quality, Innovation and Excellence on April 29 and 30, 2012 in the InterContinental Frankfurt Convention Hall of Frankfurt, Germany. Companies from 72 countries will gather to receive the International Arch of Europe Award. Business leaders will present their companies for an international audience and will participate in conferences regarding quality case studies in companies in search of quality and excellence.

Recently, **Micro Technologies** received the '**Inc. India 500 Award**' by **9.9 Media** for being one of India's fastest-growing mid-size enterprises.

These awards are standing testimonies to the efforts of Micro Technologies in the field of research and development that brought a lot of innovative solutions in the security sphere. Micro Technologies India Ltd is one of the few companies in India that offers end-to-end security solutions. Its products and services can be used across a wide spectrum of industries such as agriculture, automobile, banking, health, education, entertainment, governance, IT, infrastructure, personal mobility, telecom, utility etc.
