

Micro Technologies launches its Unique High end Mobile Security product Micro Mobi Security

MUMBAI, 21st January, 2012: Micro Technologies (India) Ltd, a leading global developer, manufacturer and marketer of security products has launched their new and a very high-end mobile security device product Micro Mobi Security on the occasion of their 20th Annual Function. Micro Technologies celebrates its annual day on 21st January every year. The celebration was filled by beautiful performances by their employees and professional artists.

The Micro Mobi Security will now be available to all the consumers ranging from corporate usage to individual. According to industry figures, 53% mobile users or every 1 out of 2 mobile users is the victim of mobile theft. With such concerns surrounding the mobile security, 'Mobi Security' is just the right answer to it. 'Mobi Security' is Mobile Security product which will offer services by which one can access all safety measures associated with both mobile devices and mobile applications. A person using this software will be able to use multiple of high-end functions in case of any theft. Some of the salient features of this device are blockages of mobile phone & remote siren activation in case mobile is lost/ stolen, data restoration and data extraction remotely, SIM change alert, deletion of personal data in case misuse of data, locate mobile and many more search features.

On the occasion of this launch by Karthik R, COO, Micro Technologies he said that, "Mobi Security is a revolutionary product that eyes consumers looking for security for their mobile device. We had many variants to the security products and 'Mobi Security' is the latest one to add to the list. This product would prove very vital with an ever increasing demand in the mobile security space".
