

Micro Technologies' latest endeavor – 'Micro Technologies Australia'

Mumbai, Friday, 14th January; 2011-Micro Technologies (India) Limited is a renowned Indian, IT-based R&D company with an edge in providing segment-based security solutions at global markets. Micro Technologies is intensifying its presence in the Asia-Pacific region with an investment and instigation of an enterprise; '**Micro Technologies Australia**' in Australia.

Micro Technologies' investiture in Australia has been facilitated by The Australian Trade Commission with an element of planning to craft partnerships & networks across Asia Pacific, listing in the Australian Stock Exchange [ASX], and other manifolds.

At any given time, a nation faces security challenges from a range of sources which can put institutions of state, people, economic assets and technology at risk. These challenges include espionage, foreign interference, terrorism, politically motivated violence, border violations, cyber attack, organized crime, natural disasters and events.

The Australian Government is working with the owners and operators of their critical infrastructure to ensure that the systems they rely on, such as power, water, banking, communications, food, transport, health and emergency services, are resilient to all hazards, including terrorism.

Focus of Micro Technologies is to confer "Complete Integrated Security and Software Solutions" to the clients with uninterrupted technological innovations and developments.

Micro Technologies Australia would augment in Australia bracket together with Urban Trans, pioneers in transport efficiency solutions; Customer Systems International [CSI] and many other conglomerates.

Delineating on the topic Dr. Richard Satur, propel of Micro Technologies Australia (MTAU); said, "Micro Technologies is a prospect for the Australian security industry for encompassing immense solutions with more than 300 products, appealing to the Asia Pacific region."
