PRESS RELEASE

Handing over of Bullet Proof Vehicles to Central Armed Police Force at MIDHANI

Hyderabad: On 30th Mar 2019

MIDHANI has over 30 years experience in providing armour solutions for Defence applications. Wide spectrum of armour solutions are being provided by MIDHANI to Defence Forces. Deployment of Central Armed Police Forces (CAPFs) in counter insurgencies environment necessitated design and development of Light Weight Personal/ Group protection BP products as well as armoured vehicles such as Light Bullet Proof Vehicles (LBPVs) and Medium Bullet Proof Vehicles (MBPVs) for troops movement.

Limited availability of Light Weight armoured material and indigenous BR Steel put a major constrain to provide reliable solutions to our Defence Forces. MIDHANI took this as a challenge and developed Light Weight solutions comprising of composites and varieties of BP Steel. Today MIDHANI can provide wide range of light weight BP products to CAPFs for encountering all operational contingencies.

To provide intimate and timely support to our Defence Forces, MIDHANI is also setting up its new "Armouring Unit" at IMT, Rohtak with CAPEX of 50 Crore. This unit is expected to be operational by December 2019.

Non-availability of suitable LBPVs and MBPVs was creating major operational challenges for CAPFs, which MIDHANI has now addressed by its state of the art up-armouring solutions. During an event held at MIDHANI Plant at Hyderabad on 30 Mar 2019, fifteen BP vehicles were handed over to CAPF after rugged terrain mobility and ballistic testing.

Speaking on the occasion, **CAPF officer Shri JK Sharam, Deputy Commandant** praised MIDHANI's contribution with pride, particularly in reliable and cost effective Armouring Solutions for CAPFs. Dwelling upon the changing security environment and technological needs, he expressed his full confidence in MIDHANI's potential to meet all challenges and provide best solutions as per CAPFs requirements.

Dignitaries attending the event complimented the contributions of all MIDHANians for their efforts towards developing new Bullet Proof Products for our Defence Forces.
