PRESS RELEASE

Hyderabad, India – 31st March 2026

MIDHANI achieves highest ever sales amid supply chain disruptions

MIDHANI achieved record-breaking performance in FY 2025-2026, reaching its highest-ever sales of ₹1,206 Cr. (provisional and unaudited), a 12% year-on-year growth over the previous ₹1,074 Cr., this includes successful execution of export orders worth ₹85 Cr. (provisional and unaudited). Despite significant geopolitical disruptions affecting the supply of raw materials, strategic planning and execution successfully mitigated production impacts.

Key contributors to this growth included the supply of Superalloys and Titanium alloys for indigenous aero-engine programs, as well as performance critical materials for the Indian Navy and Indian space sectors. Notable deliveries featured nickel-based single crystal cast sticks and wrought superalloy bars and rolled rings for aerospace, alongside high-strength low-alloy steels for naval applications.

The following are some of the major achievements in FY 2025-26:

- CEMILAC certification received for 10 types of superalloy castings & bars.
- NADCAP certification received for heat treating processes.
- Titanium production increased ~40% YoY.
- Supplied 31 numbers of Titanium alloy windows for Shri Ram Mandir, Ayodhya marking the first architectural use of Titanium in India.
- Supplied ~90 tons of armour steel for Republic Day Presidential Dais.
- Transition from raw material supplier to an integrated product company.
- New/expanded areas include aerospace fasteners, superalloy/titanium castings, welding consumables, titanium fabricated structures.

MIDHANI has successfully executed up-armouring of vehicles for different state police forces meeting the side mine blast proof requirements in light motor vehicles.

MIDHANI obtained technology transfer from IIT Delhi for the manufacture of ABHED bullet proof jackets, which is one of the world's lightest BIS level 6 for API protection.

An MoU was signed with different stake holders for the creation of a Metal Bank at MIDHANI to ensure uninterrupted availability of critical raw materials for Defence projects of national importance.
