Transition to Fuel-exporting Nation Underway: Gadkari

Bhubaneswar: Union minister Nitin Gadkari on Friday said India is transitioning from a fuel-importing nation to a fuel-exporting nation, driven by the growing production and use of ethanol, methanol and green hydrogen.

Gadkari, addressing the 94th annual session of the Indian Roads Congress (IRC), emphasised the government's commitment to road safety, focusing on advanced engineering standards, intelligent transport systems, and awareness initiatives.

"India is transitioning from a fuel-importing to a fuel-exporting nation, driven by the growing production and use of ethanol, methanol, bio-LNG, CNG, and green hydrogen," he said. "India is the fastest-growing economy in the world. The dream of our Prime Minister is to make India the third-largest economy. Our mission is to make the country a 'Vishwaguru'. For that, we need world-class infrastructure in the water, power, transport, and communication segments," the Union Road Transport and Highways Minister said.

Gadkari said the government's aim is to build a modern infrastructure rooted in innovation and sustainable mobility solutions.

"This transformative approach will generate extensive employment opportunities, strengthen the infra-skill ecosystem, and steer India towards a self-reliant and resilient future," he said.

Underlining the crucial role of road engineers, the Union minister said that precision and innovation are key to preparing accurate detailed project reports (DPRs) and developing safe highways. He also noted that the use of bio-bitumen and recycled plastic waste in highway construction is enhancing durability, sustainability, and cost efficiency while supporting the nation's eco-friendly infrastructure goals.

At the event, Gadkari also announced ₹1,000 crore for Odisha under the Central Road Fund (CRF).

Glitch in ATC System Hits Flight Ops at IGI Airport

Our Bureau

Mumbai: Flight operations at Indira Gandhi International Airport (IGIA), India's busiest aviation hub, were severely disrupted on Friday morning after a malfunction in the Air Traffic Control (ATC) messaging system and concurrent GPS spoofing incidents over Delhi airspace forced controllers to switch to manual flight planning. The slowdown led to delays in more than 350 flights, both arrivals and departures, through the day.

The Airports Authority of India (AAI) said flight operations at Delhi were affected by a technical issue in the Automatic Message Switching System (AMSS), which supports the Air Traffic Control data. It said controllers were processing flight plans manually and that technical teams were working to restore the system at the earliest.

"We appreciate the understanding and cooperation of all passengers and stakeholders," AAI said. Delhi International Airport Ltd (DIAL) said, "We regret the disruption being experienced at IGIA due to a technical issue at ATC that is affecting flight operations. This matter is being addressed on priority in close coordination with ATC, DIAL, and other stakeholders." It asked passengers to follow airline advisories for revised schedules.

"The slowdown led to delays in more than 350 flights, both arrivals and departures, through the day." The Airports Authority of India (AAI) said flight operations at Delhi were affected by a technical issue in the Automatic Message Switching System (AMSS), which supports the Air Traffic Control data. It said controllers were processing flight plans manually and that technical teams were working to restore the system at the earliest.

4TH ROUND OF DISCUSSIONS WRAPPED UP

India, NZ Agree to Conclude FTA talks Early, says Goyal

Talks centred on market access, services, investment and cooperation

Kirtika Suneja

Rotorua: India and New Zealand concluded the fourth round of negotiations for the proposed free trade agreement (FTA) and agreed to work towards its early conclusion, commerce and industry minister Piyush Goyal said Friday.

"Concluded my fruitful visit to New Zealand with a meeting with my friend and counterpart, Todd McClay. During my visit, I also held meetings with business leaders from both India & New Zealand and engaged in multiple events, reflecting the strong people-to-people & cultural ties between our nations," Goyal said in a post on X.

Goyal was on a three-day visit to New Zealand from November 5 to 7 to review the progress of the FTA negotiations.

"We look forward to working towards the early conclusion of a balanced, comprehensive and mutually beneficial agreement, in line with the growing strategic and economic convergence between India & New Zealand," he said.

The third round of negotiations for the agreement concluded on September 19 in Queenstown, New Zealand.

"The visit underscored New Zealand's emerging position as a strategic partner in India's growth journey and reaffirmed India's commitment to deepening bilateral economic linkages and fostering long-term cooperation with New Zealand," the commerce and industry minister said in a statement.

New Zealand trade minister Todd McClay is expected to visit India next week.

Goyal was accompanied by the largest-ever Indian business delegation for the India-New Zealand Business Forum. The forum brought together senior government officials, leading industry representatives, and key business stakeholders from both countries to showcase the depth of India-New Zealand economic relations and to explore new avenues for partnership and collaboration," the ministry said.

"Given India's significant advancements in the space sector, including its recent lunar missions, space collaboration was identified as a promising area for future engagement," it said.

"The interactions reflected the growing interest in expanding cooperation with India across diverse sectors such as agriculture, tourism, technology, education, sports, gaming, and drone technology it said.

"The reporter is in New Zealand at the invitation of Ficci"

New Zealand," he said. The two sides also discussed strengthening tourism partnerships, India's goods exports to New Zealand totalled \$28.48 million in April-September, while imports amounted to \$80.25 million. Dairy and agriculture are politically sensitive areas for India.

The two sides began negotiating a trade pact in April 2010 but the talks were stalled in 2015.

The third round of negotiations for the agreement concluded on September 19 in Queenstown, New Zealand.

"The visit underscored New Zealand's emerging position as a strategic partner in India's growth journey and reaffirmed India's commitment to deepening bilateral economic linkages and fostering long-term cooperation with New Zealand," the commerce and industry minister said in a statement.

DECARBONISATION PUSH

Green Steel Certificates Issued to 25 Companies

Suryash Kumar

New Delhi: The authorities have issued green steel certificates to 25 dozen low-emission manufacturers, according to officials monitoring the sector's decarbonisation.

The certificates, valid for 12 months, makes these companies eligible for incentives or purchase preferences to green steel that the Centre may approve. "Around 25 green steel certificates have been issued out of 60 applications till now," a senior official told ET.

Shree TMT, Kalyani Steels and Vardhaman Special Steel are among companies that have got the certificates according to industry representatives.

The steel ministry has proposed that over a third of the total government steel procurement will be of low-carbon variety.

The National Institute of Secondary Steel Technology (NISST), the steel ministry's nodal agency for measurement, reporting, and verification (MRV) of emissions in the industry, issues the green certificates.

It is expected to help metal exporters to align with the emission thresholds under the European Union's carbon border adjustment mechanism, allowing them to avoid a carbon tax on their products.

"Green steel" is defined as steel produced with emissions lower than 2.2 tonnes of carbon dioxide per tonne of finished steel.

A star-rated grading system measures the 'greenness' of steel, with a five-star rating for emission intensity lower than 1.1 tonnes of CO₂ equivalent per tonne of finished steel.

Shree TMT in September said it has received a five-star rating green steel certificate.

Industry representatives said Kalyani Steels and Vardhaman Special Steel have also received the certificates, but they did not specify the level of decarbonisation achieved.

Responding to a query in the Rajya Sabha, Union Steel Minister H D Kumaraswamy said the objective of this taxonomy is developing a framework for encouraging production of low carbon steel. This is being done by adopting energy-efficient technology and non-fossil fuels for steel making.

The minister said green steel certificates are issued to plants meeting defined emission intensity levels.

Semiconductor Plant to Make Assam Growth Engine Driver: FM

Jagroad: Tata Group's upcoming ₹27,000 crore semiconductor plant which she will unveil a range of projects various places in the state.

In the afternoon, she visited the upcoming facility of 'Data Electronics' Outsourced Semiconductor Assembly and Test (OSAT), situated at Jagroad in Morigan district of central Assam.

"During her visit to the upcoming semiconductor facility, Smt. (Ms) Sitharaman also interacted with officials overseeing the project," the Union Finance Minister's Office said in a post on X.

With an investment of ₹27,000 crore, the facility is expected to produce up to 48 million semiconductor chips per day, employing advanced packaging technologies, like flip chip and Integrated System in Package (ISIP), it added.

TOP DECK SHUFFLE
Panasonic India Head Manish Sharma Quits; Tadashi Chiba to Take over Role

Writankar Mukherjee

Kolkata: Panasonic's India head and chairman Manish Sharma has put in his papers. His role will be filled by Tadashi Chiba, the managing director of the Japanese consumer electronics manufacturer's flagship entity in India — Panasonic Life Solutions.

With this move, Panasonic has gone back to the Japanese top management in India. It was one of the first Far-Eastern electronics companies to appoint an Indian, Sharma, as leadership role — as managing director since 2012, executive officer of parent Panasonic Corp since 2016 and eventually as chairman of Indian operations in 2021.

The company made an internal announcement during a town hall on Friday in the presence of Panasonic Corp's global CEO Masahiro Shimada, who is currently visiting India.

A Panasonic India spokesperson said it was Sharma's personal decision to move on after a 17-year tenure to pursue new aspirations and that the matter was finalised with mutual agreement. He said Chiba has been spearheading India business as managing director and will assume additional responsibilities.

The spokesperson further said the development does not compromise local autonomy.

Panasonic has gradually pivoted from a consumer electronics company to a technology company in India and is building its newer business-to-business segments such as electric vehicle batteries and smart factory solutions.

The company earlier this year exited its loss-making refrigerators and washing machine business in India.

The Roadmap

VINCI Highways exited India in 2015, citing policy uncertainties. GIP divested its Indian road portfolio in 2021, selling its stake in Highway Concessions One to KKR & Co.

Sekura Roads, in 2022, acquired 8 operational road assets from L&T Infrastructure Development Projects in a ₹7000-crore deal.

months, the people said. The submitted bids are around ₹9,500 crore, according to the people.

A Macquarie spokesperson declined while emails sent to KKR and VINCI Highways did not elicit any responses till press time.

Macquarie officially launched the sale of its largest road portfolio in India in September, seeking an enterprise value of about ₹100 crore (₹1.2 billion). The process followed an initial exploration phase that began last December, when the firm started scouting for bankers, ET first reported.

India and NZ Also Agree to Conclude Talks Early: Goyal

ROUND 4 ENDS Talks centred on market access, services, investment and cooperation

Kirtika Suneja

Rotorua: India and New Zealand concluded the fourth round of negotiations for the proposed free trade agreement (FTA) and agreed to work towards its early conclusion, commerce and industry minister Piyush Goyal said Friday.

The round focused on goods market access, services, economic and technical cooperation, and investment opportunities.

"Concluded my fruitful visit to New Zealand with a meeting with my friend and counterpart, Todd McClay. During my visit, I also held meetings with business leaders from both India & New Zealand and engaged in multiple events, reflecting the strong people-to-people & cultural links between our nations," Goyal said in a post on X.

Goyal was on a three-day visit to New Zealand from November 5 to 7 to review the progress of the FTA negotiations.

"We look forward to working towards the early conclusion of a balanced, comprehensive & mutually beneficial agreement, in line with the growing strategic and economic convergence between India & New Zealand," he said. The two sides also discussed strengthening tourism partnerships.

India's goods exports to New Zealand totalled ₹29.48 million in April-September, while imports amounted to ₹302.5 million. Dairy and agriculture are politically sensitive areas for India. The two sides began negotiating a trade pact in April 2010 but the talks were stalled in 2015. The third round of negotiations for the agreement concluded on September 19 in Queenstown, New Zealand.

Macquarie Shortlists 3 Cos for ToTI Road Portfolio Sale

The Roadmap

VINCI Highways exited India in 2015, citing policy uncertainties. GIP divested its Indian road portfolio in 2021, selling its stake in Highway Concessions One to KKR & Co.

Sekura Roads, in 2022, acquired 8 operational road assets from L&T Infrastructure Development Projects in a ₹7000-crore deal.

Reghu Balakrishnan

Mumbai: Global infrastructure investor Macquarie Asset Management (MAM) has shortlisted three bidders — France's VINCI Highways, Edelweiss-backed Sekura Roads and KKR-backed Vertis Infrastructure Trust — for the proposed sale of its toll-operate-transfer (TOT) road assets in India, said people with knowledge of the development.

Other contenders that submitted non-binding offers include CPP Investments-owned Intersect Trust, IRB Infrastructure and Cube Highways.

J.P. Morgan is reportedly advising Macquarie on the transaction.

The shortlisted entities are expected to begin due diligence shortly with binding bids likely to be submitted in the coming

DMIC INTEGRATED INDUSTRIAL TOWNSHIP GREATER NOIDA LIMITED INTERNATIONAL COMPETITIVE BIDDING (ICB)

E-TENDER INVITING NOTICE

Request for Qualification (RFQ) cum Request for Proposal (RFP) for Development of Greenfield Multi Modal Logistics Hub (MMLH) on Design, Build, Finance, Operate and Transfer (DBFOT) basis at Greater Noida, Gautam Buddha Nagar, Uttar Pradesh

(Reference No: DMIC-ITGNL/2025-28/563, Dated: 07.11.2025)

DMIC Integrated Industrial Township Greater Noida Limited invites Bids from interested Bidders for "Development of Greenfield Multi Modal Logistics Hub (MMLH) on Design, Build, Finance, Operate and Transfer (DBFOT) basis at Greater Noida, Gautam Buddha Nagar, Uttar Pradesh". The salient features of the Project, pre-qualification criteria and prescribed forms for submission of online Bids can be accessed in the RFQ cum RFP document uploaded on the website of e-procurement portal i.e. <https://etender.up.nic.in>.

All other details including any date extensions, clarifications, amendments, corrigendum etc. will be updated on the website of e-procurement portal i.e. <https://etender.up.nic.in>. DMIC (ITGNL) Website i.e. www.itgnl.com and will not be published in newspapers. Bidders shall regularly visit the website to keep themselves updated from time to time.

Interested Bidders are requested to submit their responses to the RFQ cum RFP document, through e-procurement portal, as per mentioned below dates & address :

BIDS SUBMITTED FOR TOTI PORTFOLIO AT AROUND ₹9,500 CR

Macquarie Shortlists 3 Bidders for Road Asset Sale

VINCI Highways, Sekura, Vertis to start due diligence soon

Reghu Balakrishnan

Mumbai: Global infrastructure investor Macquarie Asset Management (MAM) has shortlisted three bidders — France's VINCI Highways, Edelweiss-backed Sekura Roads and KKR-backed Vertis Infrastructure Trust — for the proposed sale of its toll-operate-transfer (TOT) road assets in India, said people with knowledge of the development.

Other contenders that submitted non-binding offers include CPP Investments-owned InterTrust, IRB Infrastructure and Cube Highways. JP Morgan is advising Macquarie on the transaction.

The shortlisted entities are expected to begin due diligence shortly with binding bids likely to be submitted in the coming months, the people said. The submitted bids are around ₹9,500 crore, according to the people.

A Macquarie spokesperson declined while emails sent to KKR and VINCI Highways did not elicit any responses till press time.

Macquarie officially launched the sale of its largest road portfolio in India in September, seeking an enterprise value of about ₹10,000 crore (\$1.2 billion). The process followed an initial exploration phase that began last December, when the firm started scouting for bidders, ET first reported.

The portfolio comprises nine toll roads projects spanning 648 km across Andhra Pradesh and Gujarat, housed under Safety Concessions Pvt Ltd, a platform created by Macquarie. These assets are backed by its Asia Infrastructure Fund 2

The Road Map

VINCI Highways exited India in 2015, citing policy uncertainties. GIP divested its Indian road portfolio in 2021, selling its stake in Highway Concessions One to KKR & Co.

Sekura Roads, in 2022, acquired 8 operational roads, from L&T Infrastructure Development Projects in a ₹7,000-cr deal.

(MAIF 2) and MAIF 3. Together, they generated about ₹1,000 crore in toll revenue in 2024-25, according to people familiar with the matter. Macquarie had acquired these roads in 2018 under India's first TOT auction for ₹9,681 crore, about 1.5 times the base price set by the National Highways Authority of India.

A key attraction for investors is the 30-year concession period, which ensures long-term revenue visibility. The Andhra Pradesh stretches,

more than 80% of the toll-paying traffic, ensuring steady and predictable cash flows, according to an India Ratings report.

While Macquarie initially planned to divest the entire portfolio in a single transaction, it has now split the assets into three bundles — each comprising a mix of Andhra Pradesh and Gujarat projects — to expand the bidder universe, ET reported.

VINCI Highways, a subsidiary of VINCI Concessions, has been looking to re-enter the Indian market after nearly a decade.

Panasonic India Head Manish Sharma Quits; Japanese Exec to Assume Role

Writankar Mukherjee

Kolkata: Panasonic's India head and chairman Manish Sharma has put in his papers. His role will be filled by Tadaschi Chiba, the managing director of the Japanese consumer electronics manufacturer's flagship entity in India — Panasonic Life Solutions.

With this move, Panasonic has gone back to the Japanese top management in India. It was one of the first Far Eastern electronic companies to appoint an Indian, Sharma, for leadership role — first as managing director since 2012, executive officer of

parent Panasonic Corp since 2006 and eventually as chairman of India operations in 2021.

The company made an internal announcement during a town hall on Friday in the presence of Panasonic Corp's global CEO Masahiro Shinoda, who is currently visiting India.

A Panasonic India spokesperson said it was Sharma's personal decision to move on after a 17-year tenure to pursue new aspirations and that the matter was finalised with mutual agreement. He said Chiba has been spearheading India business as managing director and CEO and will assume additional responsibilities.

A Crash: No One Blames Your Son, SC Tells Pilot's Father

Bench seeks Centre, DGCA reply on plea for court-monitored probe

Our Bureau
New Delhi: The Supreme Court on Friday said that a preliminary report on the June 12 Air India crash, which killed over 250 people, does not cast any blame on the pilot of the Boeing 787 Dreamliner that went down shortly after take-off from Ahmedabad.
Clarifying that no official finding had held the pilot responsible, a Bench of Justices Surya Kant and Jayyappa Bagchi addressed concerns raised by Pushkar Sabharwal, father of deceased pilot Captain Sumet Sabharwal, that his son might be unfairly blamed. "First of all, it was an unfortunate

plane crash, and secondly, you should not carry a burden on yourself that your son is being blamed. The pilot is not to be blamed for the plane crash. It was an accident," the Bench told senior advocate Gopal Shankar Narayanan, appearing for Sabharwal.
"We have gone through the report. There is no insinuation against the pilot at all... Whatever could be the reason for the tragedy, it is not the pilot. No one in the country believes it was the pilot's fault," the Bench observed, while seeking responses from the Centre and the Director General of Civil Aviation (DGCA) on a petition filed by the 51-year-old father and the Federation of Indian Pilots. The plea seeks a court-monitored probe led by a former Supreme Court judge.
Emphasising that the preliminary report had not attributed any fault to the cockpit crew, Justice Kant said: "There is only a mention in the cockpit

File photo of wreckage of Air India Dreamliner near Ahmedabad airport

recorder where one pilot asks you son whether he turned off a switch, and your son replies in the negative. That is all there is in the report. The main purpose of the investigation is to ensure such incidents do not recur."

concerns arose after a Wall Street Journal report suggested pilot error based on unnamed government sources.
"It was a nasty reporting only to blame India. We are not bothered by foreign media reports. No one in the country believes that it was the pilot's fault," the Bench remarked.
Sankaranarayanan argued that the Aircraft Accident Investigation Bureau (AAIB) findings were "biased and incomplete," appearing to focus on pilot error while overlooking other possible causes.
In September, the apex court had issued notices to the Centre and DGCA "for the limited purpose of ensuring a fair, impartial and expeditious investigation by an expert body" into the London-bound flight's crash.
The Safety Matters Foundation, an aviation safety NGO led by former pilot Amit Singh, has also sought a court-monitored independent probe into the tragedy.

Technical Glitch, GPS Spoofing Disrupt 350 Flights at Delhi Airport

Civil aviation ministry says issue resolved, normal ops resuming

Our Bureau
Mumbai: Flight operations at Indira Gandhi International Airport (IGIA), India's busiest aviation hub, were severely disrupted on Friday morning after a malfunction in the Air Traffic Control (ATC) messaging system and concurrent GPS spoofing incidents over Delhi airspace forced controllers to switch to manual flight planning. The slowdown delayed more than 550 flights, both arrivals and departures, through the day. The technical fault has since been resolved, according to the civil aviation ministry.
The Airports Authority of India (AAI) said flight operations at Delhi were affected by a "technical issue in the Automatic Message Switching System (AMSS), which supports Air Traffic Control data." It said controllers were

Passengers at IGIA Airport on Friday

processing flight plans manually and that technical teams were working to restore the system at the earliest.
"We appreciate the understanding and cooperation of all passengers and stakeholders," AAI said.
Passengers at IGIA on Friday Delhi International Airport (DIAL), which runs the aerodrome, said, "We regret the disruption being experienced at IGIA due to a technical issue at ATC that is affecting flight operations. This matter is being addressed on priority in close coordination with ATC, DIAL and other stakeholders." It asked passengers to follow airline advisories for revised schedules.
Airlines including IndiGo, Air India, SpiceJet and Air India Express issued separate statements on long queues and congestion were reported across terminals. IndiGo said it understood the inconvenience caused by the AMSS issue and that its teams were "doing their utmost to ensure your journey remains as smooth as possible." Air India said a third-party network issue had earlier affected check-in systems at some airports, delaying departures of several airlines, though the system has since been restored.
Later in the day, the civil aviation ministry said AAI has resolved a technical fault in the AMSS, which had delayed the processing of flight plans. "The AMSS systems are up and functional now. Due to some backlog, there may be some delays in the normal functioning of automated operations, but the situation will be normal soon," the ministry said in a statement. It added that officials, along with the AMSS OEM, were immediately deployed to manually process flight plans and ensure uninterrupted and safe air traffic operations.

ReNew Secures \$331M from ADB for AP Unit

Our Bureau
New Delhi: ReNew Energy Global Pteon Friday said it has secured \$331 million (about ₹2,635 crore) in debt from the Asian Development Bank (ADB) to support a clean energy project in Andhra Pradesh.
The funding is part of a \$477 million financial package for the Andhra project, with the remaining \$146 million to be arranged by ADB through other lenders.
The project integrates 387 MWp of wind and solar capacity with a 415 megawatt-hour (MWh) battery energy storage system (BESS). ReNew said in a statement, "The project is designed to deliver 300 MW of peak power and is expected to generate 1,641 GWh of clean energy annually."
The \$331 million ADB debt package includes up to \$251 million in local-currency financing from ADB's ordinary capital resources and up to \$40 million from the ADB-administered Leading Asia's Private Infrastructure Fund 2 (LEAP2).
"This project demonstrates that renewable energy can now be delivered competitively at grid scale as per peak power demand requirements," said Sunset Sinha, founder, chairman and CEO of ReNew, which has a clean energy portfolio of about 82.2 GW.

ED Arrests Consultant in ADA Group Loan Fraud Case

Court remands accused to ED custody for four days

Raghav Dhri
New Delhi: The Enforcement Directorate (ED) on Thursday made the third arrest in its ongoing probe into alleged money laundering linked to a multi-million crore loan fraud case involving the Reliance ADA Group.
The federal agency arrested Amar Nath Dutta, who it said played an "active role" in the submission of forged bank guarantees (BGs) of over ₹66 crore to help a Reliance Power subsidiary participate in a Solar Energy Corporation of India tender.
The arrest comes even as the ED has summoned Reliance ADA Group chairman Anil Ambani to its New Delhi headquarters on November 14. The agency had questioned him earlier in August.
Dutta, a resident of Kolkata, claims to provide consultancy services in trade financing. The ED had made its first arrest in the case on August 1. Partha Sarathi Biswal, managing director of Odisha-based Biswal Tradelink, was arrested for allegedly arranging the fake bank guarantee and related documents. According to the ED, his company received ₹5.40 crore from Reliance Power for this service.
Last month, the ED arrested Ashok Pal, CFO of financial officer of Reliance Power Ltd and a close aide of industrialist Anil Ambani, in connection with the same case.
According to the ED, Dutta played an active role along with Pal and Biswal for arranging the alleged fake bank guarantee. He was produced before a Delhi court, which sent him to ED's custody for four days.
In a statement released on Friday, the agency

Reliance NU Energies Sees CEO, COO Exit Amid Turmoil

Kalpna Pathak

Mumbai: Less than a year after its launch, Reliance NU Energies — the renewables arm of Anil Ambani-owned Reliance Power — has lost its top leadership, with Chief Executive Officer Mayank Bansal and Chief Operating Officer Rakesh Swaroop exiting the company people aware of the development said.
Their departures come alongside the resignation of nearly a dozen other executives, the people added.
Reliance Power had set up NU Energies in December 2024 to drive its clean energy ambitions. Bansal and Swaroop had both joined from renewable major ReNew, where Bansal was Group President for India operations and Swaroop headed the utility business.
"Given the ongoing turmoil at the Anil Ambani Group, there have been significant exits from the NU Energies unit," an industry source said, adding that it may take time to find replacements.
Bansal and Swaroop did not re-

Fraud Probe
THIRD ARREST MADE
ED arrests Amar Nath Dutta, Kolkata-based consultant, for alleged role in arranging forged ₹66 cr BG for a RPOWER subsidiary's SECI tender

PREVIOUS ARRESTS
Aug 1: Partha Sarathi Biswal, MD, Biswal Tradelink, arrested for arranging fake BGs, firm allegedly got ₹5.4 cr from RPower
Oct: Ashok Pal, RPOWER CFO and aide of Anil Ambani, also arrested
