Mindteck Adds another Medical Device Client to its Roster

Bengaluru, India – August 28, 2020: Mindteck (India) Limited, (BSE: 517344 and NSE: MINDTECK), the global engineering and technology solutions company with niche knowledge and expertise in the storage, medical device, semiconductor and analytical instrument industries, recently announced a project win with a medical device and equipment company headquartered in the United States.

The new client, a subsidiary of an S&P 500 diversified technology company, designs medical solutions and systems that help prevent the transmission of infection. One of its areas of specialisations is high-level disinfection systems of ultrasound probes.

The hardware reengineering project encompasses electronic and firmware design, as well as the modernisation of a user interface. The scope extends to system enhancements for integrating electrical leakage detection and thermal printing.

Mr. Jacob Pillay, Senior Vice President – Global Sales, said: “It is an honour to work alongside an esteemed company in their fight to control and prevent infection.” He added, “We are excited about this strategic win, and we look forward to making a meaningful contribution and delivering a successful outcome.

Commenting on the win, Mr. Anand Balakrishnan, Chief Executive Officer and Managing Director, said: “During such a time of uncertainty, I think that it is absolutely wonderful to be rewarded for our valued niche knowledge and expertise by yet another medical device company.”
