Mindtree wins Gainesville Chamber Business of the Year award for its Innovative Practices

Mindtree is presented with "Best International Business" award

Bangalore (India) and Gainesville (FL), November 25, 2013 – Mindtree, a global IT solutions company, today announced that it has been named the winner of the "Best International Business Award" for its substantial achievements and contributions to the Gainesville COMMUNITY over the past year. The award was presented earlier this month at the Gainesville Area Chamber of Commerce's Business of the Year awards ceremony.

"We are pleased with Mindtree's continued growth and investment in the Gainesville region, and as these awards reflect, our community is excited to host Mindtree," said Tim Giuliani, President & CEO of the Gainesville Area Chamber of Commerce. "This was a competitive awards process, and Mindtree's win showcases the enduring pride that our community takes in hosting a world-class technology solutions provider. Congratulations to the Mindtree team on a well-deserved win."

The 2013 Business of the Year awards celebrated "Innovation that Inspires" and honored organizations that think differently about their contributions to their industries and the Gainesville community. Participating organizations were asked to showcase their cutting-edge solutions and how they are helping to build a strong innovation economy in their respective industries.

"Mindtree Gainesville is honored to accept the Chamber's International Business of the Year Award. We have been very impressed with the community and its open embrace of our presence here. We have a unique culture cultivated from the talent and technical diversity that existed here in Florida and around the U.S," said Joelle Smith, General Manager of Mindtree's Gainesville Delivery Center. "On behalf of all our Mindtree Minds worldwide we would like to thank the chamber and the community for honoring us, we are humbled and grateful."

Mindtree won the award for its focus and expertise in key practice areas, such as Agile and Digital. Mindtree's ability to design and deliver right-sourcing options has proven to be significant for its clients. This is possible because of the Mindtree Gainesville Delivery Center's deep domain expertise, superior technology capabilities focused on custom development and short delivery cycles.

"We are delighted to receive this recognition. This award showcases our philosophy of delivering meaningful innovation for our clients," said Scott Staples, President - Americas, for Mindtree. "Our right-sourcing approach combines top of the line expertise with the right delivery options for each of our clients and helps us to stay at the cutting edge of innovation that inspires."
