Mindtree named a leader in Zinnov's Global R&D Service Provider Ratings for the third year in a row

Warren (NJ) and Bangalore (India), September 29, 2014: Mindtree, a global technology services company, announced that it has been named in the overall leader zone by Zinnov, a leading globalization and market expansion advisory firm, in its global R&D service provider ratings 2014. The report is an exhaustive exercise that covers over 50 service companies that offer product engineering, manufacturing engineering and engineering IT services globally.

Mindtree is positioned as an established company with matured offerings and wide client acceptance. According to Zinnov, Mindtree is ***"fast closing the gap by diversifying into newer verticals by leveraging their embedded and software capabilities"*** *(link)* The global service provider rating helps end-users understand the service provider landscape and build more intelligent vendor relationships.

Sundararaman Viswanathan, Associate Director, Zinnov said, "Mindtree has shown significant growth and expansion of their engineering service offerings. We feel they are well positioned to build strong partnerships and bring significant contributions to their partners and the engineering ecosystem as a whole."

N. S. Parthasarathy, COO, Mindtree said, "We are pleased to be recognized by Zinnov for our expertise in engineering services. This shows that our strategic investments in building expertise and IP are paying off and bringing value to our customers."

In addition to the overall rankings, Mindtree has been positioned in the leadership zone for Consumer Software, Telecommunications and Enterprise Software segments. The company is also positioned in the execution zone for Automotive, Consumer Electronics and Semiconductor segments as a partner who is capable of delivering complete product development as a true engineering partner.

Additional Resources

- Mindtree expertise in enterprise software segment
- Redefine strategies for rapid response and customer centricity
