FINANCE MINISTRY ISSUES CLARIFICATION

'IDBI Bank Sale' Followed Due Process, Reserve Price Neither Raised Nor Cut'

Secys group on divestment reviewed valuation method and approved best-offer round after initial bids fell short of reserve price: Govt

Our Bureau

New Delhi: The finance ministry said the entire valuation methodology used in the sale of IDBI Bank was reviewed by the core group of secretaries on divestment (CGD). The IDBI bank was reviewed by the Cabinet Committee on Economic Affairs (CCEA) to remove all difficulties, including deviations from procedure, to ensure effective implementation of the strategic divestment transactions approved by the CCEA, it said.

In a clarification on the Process of Strategic Restructuring of IDBI issued on Thursday, the ministry said in due exercise of these powers, the CGD itself determined the procedure for the second or the best offer round.

The reserve price was neither decreased nor increased, and the first round itself became functus officio after the initial bids were not approved, it stated.

In this strategic sale, the initial bids invi-

ted in 2025-26 fell short of the reserve price arrived at that time and were not approved. Sealed bids reflecting their best offers were later invited from the qualified bidders in the financial year 2026-27. The ministry said the first or initial bid round was conducted in the financial year 2025-26 by the Department of Investment and Public Asset Management as per its internal practices developed over a period of time, which were in the nature of indicative guidelines and not hidebound rules or regulations.

Earlier this month, the government approved Fairfax Financial Holdings Ltd as the strategic buyer for a 60.72% stake in IDBI Bank, comprising 30.48% equity shareholding held by the central government and 30.24% held by Life Insurance

Corporation of India, valuing the deal at ₹32,878 crore.

Fairfax's bid of ₹81 per share was above the benchmark price, as well as the fair value estimates of two independent valuation agencies, the government said on October 14.

In its statement Thursday, the ministry said the process remained double-blind because the bidders did not know the valuation and the valuers did not see the bids. It is only the CGD which gets to see complete picture and compares the bids with valuations to take a final call on the reasonableness of the bids submitted, it said.

"The asset valuer also used robust and time-tested methodologies, including additional value for disputed tax demands, which were indemnified as a common demand of the qualified bidders to nudge the bid offer upwards," it said. This remains a low-probability event and revenue need for the government, as only the additional tax demands if paid at all, will be eligible for reimbursement, it said.

"The potential liability that could arise on this account was only ₹627 crore, while the bid-discovered price was enhanced by ₹3,97 crore, enhancing the value of the transaction for the GoI and LIC," it said.

The government and LIC retain residual shareholdings, to get further benefit from the upside that is expected from the value enhancement following strategic restructuring of the bank going forward, the ministry said.

Premium Bets & Wider Reach

From Page 1

New York-based PepsiCo highlighted its India unit's performance across convenient food and beverages in the quarter, even as it lagged in its home market of North America. Chairman Ramon Laguarta said the quarter marked "a strategic shift towards international markets and faster-growing parts of the company's portfolio."

While acknowledging that the maker of Pepsi cola and chips still has work to do in North America, as it lowered its earnings outlook, Laguarta said: "We are encouraged by the trajectory of our international business and its long runway for growth in India by Paris-headquartered spirits maker Pernod Ricard highlighted distinctly contrasting growth for India and some of its developed markets in its earnings call. "India was a particular highlight, with sales up plus 19%, the market continues to enjoy dynamic consumer fundamentals, and sales are driven by strong consumer demand as well as the continuation of the premiumisation trend," its executive vice president, finance and tech, Maive Croizat said. "We reported softer results in Europe and in Latin America," he added.

Pernod said in its management commentary that excluding the US and China, rest of world sales grew, with strong performance across a number of Asian markets.

Many multinationals are looking to expand their reach in the country even as the government said India's growth momentum has remained firm despite a challenging grim outlook for global growth amid elevated borrowings by countries.

India weathered the Middle East crisis better than expected, with the economy projected to grow by 7.5% in the second quarter of the financial year 2026-27, the finance ministry said in its monthly economic review for October on Thursday.

Nestle chief executive Philipp Navarre said the Swiss packaged food giant is directing focus towards its "billionaire brands" in the country such as Maggi and KitKat, while Coca-Cola chief executive Henrique Braun said it is expanding its consumer base in India by strengthening execution and distribution across emerging channels.

Unilever said its India business gained significant market share in beauty and laundry, underscoring the market's growing importance to global consumer companies.

The maker of Dove soap and Knorr soups said India, its largest emerging market, grew 15%, continuing the momentum of the first-half and lapping a GST-led lower prior-year comparator. The Dutch consumer goods major said growth in the September quarter was led by emerging markets, with double-digit volume growth in its largest home care markets of India and Brazil.

Lack of Communication Flagged

From Page 1

Noel Tata had opposed both moves. Chandrasekaran and Noel Tata did not respond to queries from ET.

Executives close to the matter said former group veterans such as S Ramadurai, Ishat Hussain and R Gopalakrishnan, as well as insiders like Aloo Tata, Noel Tata's wife, and Geetanjali Kirloskar, chairperson and MD of Kirloskar Systems, had encouraged the meeting between the two sides. This could not be independently verified. Aloo Tata is the sister of Shapoor Mistry, chairman of the SP Group. Noel Tata's son Neville is married to Manasi, Geetanjali's daughter.

The meeting was held at Noel Tata's residence in south Mumbai, said the people close to the matter. Chandrasekaran raised concerns about the lack of communication between the two sides and the need to sort out disagreements amicably, they said.

Noel Tata reiterated that Tata Sons should remain in private hand and that the SP Group should be offered Rs 25,000 crore through partial monetisation of its 18.4% stake. Chandrasekaran is said to have responded that Tata Sons would consider it and that a listing would complicate the matter. Chandrasekaran is understood to have said the listing decision was not within his control and was mandated by regulatory requirements imposed by the Reserve Bank of India (RBI).

The SP Group, led by Shapoor Mistry, has backed a listing as a way to improve transparency and monetise its investment. The Tata Trusts, which hold a majority stake in Tata Sons, oppose the listing and have said alternatives should be considered.

The RBI had rejected Tata Sons' proposal to surrender its registration as an upper-tier non-banking financial company. That meant it was subject to rules requiring such entities to list within three years of classification.

Noel Tata's understanding to have raised the matter of Chandrasekaran's resignation and that he should retire at 65, in line with the group's policy. Chandrasekaran indicated he would abide by the policy but said he needed to complete the major projects that are underway such as those at Tata Electronics, Air India and Tata Digital, the people said. Noel Tata is understood to have said he would take the resignation issue to court if it remained unresolved.

People aware of the discussions said that the chairman of Tata Sons was keen to pursue an amicable resolution of the rift.

and not prolonging the impasse.

"The big picture was that the Tata Group is bigger than individuals and must be protected," said one of the persons who spoke to ET.

Noel Tata, however, is keen that the key concerns raised by him should be addressed by Tata Sons. "I said that the issues raised are valid and cannot be sidelined," said the person cited.

The Tata Sons board had reappointed Chandrasekaran for a second five-year term beginning February 2027, with Noel Tata casting the sole dissenting vote. Chandrasekaran's current term ends on February 20, 2027.

Noel Tata has also raised with the Tata Sons board the issue of investments exceeding Rs 100 crore in group subsidiaries requiring his approval, the people said. This could raise questions about the respective powers of the Tata Sons board and those of the Tata Trusts, which collectively own about 66% of the holding company.

Legal experts said dialogue remained a way to resolve the dispute, while noting that legal action could be initiated if there were violations of the law.

"The best course of action is to let the matters through mutual discussion and conciliation," said Ashish K Singh, managing partner at Capstone Legal. "Even courts encourage out-of-court settlement of disputes in matters which involve multiple stakeholders and are in tune with principles of corporate governance."

Multiple notices need not be needed before a court can initiate a winding-up petition, said a legal expert. "If there is an infract on the part of the court, the approach should be direct without any delay," he said.
