Dear Sir/Madam,

Sub: Compliance under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

This is with respect to the order issued by the Government of Punjab dated October 23, 2018 that restricts the sale of Glyphosate in the state. In India, Glyphosate has been approved by the regulators for use in non-cropped areas, tea Plantations and for pre-planting of Paddy.

In this regard, we would like to inform you that Glyphosate has a long history of safe use and all labeled uses of glyphosate are safe for human health and environment. In evaluations spanning more than forty years by multiple regulatory agencies, the overwhelming conclusion of experts worldwide has been that glyphosate can be used safely according to label instructions. More than 500 reputed studies have reinforced the various safety aspects of glyphosate. Regulatory agencies including the JMPR, US EPA, the German Federal Institute for Risk Assessment (BfR), the Australian Pesticides and Veterinary Medicines Authority, etc. have reviewed all the key studies and have arrived at the overwhelming consensus that glyphosate poses no unreasonable risks to humans or the environment when used according to label instructions. We continue to engage with the various stakeholders to inform about the safety of Glyphosate and advocate for the best interests of farmers.

This disclosure is being made for your information and records in compliance with Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and circulars issued thereunder.

We request you to disseminate the above on your website for the information of the shareholders of the Company.

Thanking you,

Yours faithfully,

For **Monsanto India Limited**

Monika Gupta

Company Secretary & Compliance Officer
