# Cloudine to Acquire Apollo Units

Maternity and paediatric verticals valued at ₹1,550 cr; Apollo Health and Lifestyle to hold 9.9% in combined entity post deal

**Our Bureau**  
Mumbai: Cloudine Hospitals, one of India's leading maternity and paediatric care chains, will acquire Apollo Cradle and Apollo Fertis, a network of maternity and infant care centres across the country.  
Post the transaction, Apollo Health and Lifestyle Ltd (AHL) will hold 9.9% stake in the combined entity, making it the largest non-financial shareholder. It will also have board representation through a nominee director, AHLH announced Wednesday.  
The deal valued AHL's standalone mother-and-child and fertility verticals at around ₹1,550 crore, comprising a mix of cash and equity in the merged platform.

ET was the first to report last October that Cloudine had signed an exclusivity agreement to acquire Apollo Cradle and the proposed transaction is expected to value the business at around ₹1,500 crore. In June 2025, ET first reported that Apollo Hospitals Enterprises Ltd (AHEL) had appointed a banker to seek for buyers for Apollo Cradle. Under Apollo Cradle, AHL operates a chain of dozen maternity centres in Hyderabad, Bengaluru, Chennai, Delhi NCR, and Punjab. Apollo Fertis runs 20 fertility centres across India. The combined entity will operate more than 56 centres across key markets in the country, combining the strengths of Apollo Cradle, Apollo Fertis and Cloudine under a unified management structure, according to a statement.

The platform aims to enhance access to specialised maternity, fertility, neonatal, and women's healthcare services across diverse geographies and income segments, while leveraging Apollo Cradle's network of specialist gynaecologists and senior clinicians supported by global clinical governance standards. The company said.  
Founded in 2006 by neonatologist Dr R. Kishore Kumar along with co-founders Rishi Malhotra, M. Ramachandra, and Vidy Kumar, Bengaluru-based Cloudine Hospitals is a popular brand in maternity and paediatric healthcare.

**Deal Snapshot**

# Finmin Defends YES' AT-1 Bond Writeoff in SC

Tells court 20 ministers part of Cabinet meeting that OKed restructuring scheme, says move necessary to protect depositors and bank

**Indu Bhan**  
New Delhi: The Finance Ministry on Wednesday told the Supreme Court that 20 out of 21 ministers were part of the Cabinet meeting that approved the restructuring scheme related to YES Bank's write-off of additional tier-1 (AT-1) bonds worth ₹8,400 crore in March 2020.

Arguing that the write-off of Yes Bank's AT-1 bonds was aimed at safeguarding depositors and ensuring the recovery of banks during the rescue plan, Solicitor General Tushar Mehta told a Bench led by Justice Dipankar Datta that three resolutions were passed in the meeting, including the creation of YES Bank, and that it was approved and signed by Prime Minister Narendra Modi. The submission came after the Supreme Court questioned the ministry over the Cabinet's role in the decision and sought details, including the minutes of the Cabinet meeting, quorum, and names of ministers present during the 2020 write-off decision. The ministry said that after Yes Bank's financial troubles, the RBI initiated efforts to ensure its survival. "After many efforts were made, what was finally opted for was reconstruction of Yes Bank, under which SBI was required to infuse ₹7,800 crore... SBI agreed to infuse this capital only on the basis that the above-mentioned bonds were written down. In other words, the value of the infusion would not be diluted," the additional affidavit filed by Shalini Pandit, Joint Secretary, Department of Financial Services, Ministry of Finance, stated.

# 'No Bottom in Sight'

**Reddy added** that this zone may decide whether panic deepens further or the rupee begins to reclaim some lost ground. "While near-term pressures may persist, the pace of depreciation could gradually moderate from here."

market off guard. This downward pressure is fuelled by higher energy prices and a negative FX capitulation, said K N Dey, a former finance consultant. "With no bottom in sight, trying to forecast a stabilisation point is pure guesswork, and even a psychological slide to 100 may be on the table," Dey said.

**SPOT MARKET WEAKNESS**  
In the spot market, the rupee hit another new closing low of 96.83 against the dollar after having erased some of the losses from the all-time low of 96.80 seen earlier in the day. The weakness reflected unabated dollar outflows and a negative market sentiment amid elevated crude prices. The currency ended the day 30 paise weaker in the spot market than the previous close Tuesday. "The speed of the rupee's descent since May 11 has caught the

Foreign institutional investors (FII) have taken over ₹2,500 lakh crore from Indian markets in 2026 so far, close to last year's total of ₹2,040 lakh crore. A rebound in the rupee, or slowing down in the pace of depreciation against the dollar, hinges on lower crude oil prices or a solution to the US geopolitical issues in West Asia. "Any favourable shift in global developments, easing in crude prices or reduction in geopolitical tensions may lead to a technical appreciation in the rupee, which cannot be ruled out," said Karur Vysya Bank's Reddy.

# Dr Reddy's Rolls Out Oral Semaglutide in India

**Mumbai:** Hyderabad-based drug maker Dr Reddy's Laboratories has launched its oral semaglutide biopharmaceutical for type 2 diabetes mellitus in India, the company said in a statement on Wednesday. The drug will be sold under the brand name Obeida and will be available in 1 mg, 7 mg and 14 mg tablet strengths for once-daily oral use. The tablets are priced at ₹39, ₹35 and ₹25 per tablet for the 1 mg, 7 mg and 14 mg doses, respectively. "The launch of our oral semaglutide for patients with diabetes marks an important step in our journey to broaden access to advanced diabetes care," said M V Ramana, CEO of global generics at Dr Reddy's Laboratories. "We recognise that every patient's journey with diabetes is different, and treatment choices must reflect that diversity. With this launch, we are broadening our GLP-1 portfolio to offer patients more choice and flexibility," he said. —Our Bureau

# Fewer Top-Ups Mark FMCG Buying Shift

**Mumbai:** Indian consumers are making fewer trips to buy FMCG but spending significantly more every time they step into a store, signalling a sharp behavioural shift in how households are managing inflation and daily consumption. According to a report by Worldpanel by Nielsen, average FMCG purchase occasions softened to 158 trips annually from 168 in FY24, while spend per shopping occasion rose from ₹123 to ₹138 over the last two years and from ₹20 to ₹45 in the March quarter of 2026. Categories such as biscuits, snacks and noodles are increasingly shifting from spontaneous top-up purchases to planned-basket buys, pointing to a more cautious and deliberate consumer environment and marking a reversal from the post-pandemic consumption cycle that was driven by convenience, quick commerce and impulse-led spending. —Ananya Thakur

# Lower UDF OKed for Navi Mumbai Airport

**Mumbai:** India's airport tariff regulator has approved a lower-than-proposed user development fee (UDF) for the New Mumbai International Airport, cutting the operator's projected revenue recovery for the 2025-30 control period and moderating charges at the country's newest greenfield airport. The Airports Economic Regulatory Authority of India (AERA) Wednesday fixed the domestic UDF for departing passengers at ₹620 for FY27, lower than the ₹742 sought by Navi Mumbai International Airport Ltd (NMIAL). International departing passengers will pay ₹1225 against the ₹1,467 proposed by the airport operator, according to an AERA order, reviewed by ET. The regulator also reduced the airport's aggregate revenue requirement (ARR) to ₹1,087 crore from the ₹2,290 crore proposed under NMIAL's multi-year tariff proposal. —Forum Gandhi

# During Global Device Recalls

**It is currently at \$3 billion**, as per industry estimates. More than a million high-risk implants are currently used in India annually including cardiac stents, orthopaedic joints, pacemakers and spinal devices. The plan to mandate maintenance of data records for all cardiac and orthopaedic implants in the first phase at the manufacturer, supplier and hospital levels. This will be expanded in phases to cover all devices. "India implants clubs has devised every year but can't trace them. A National Implant Registry will help find patients for recall, track real world safety and build Indian evidence," said Rajiv Nath, forum coordinator of the Association of Indian Medical Devices Industry. The association is of the view that the registry will enable rapid identification of patients during global device recalls or adverse events, and ensure end-to-end accountability from the manufacturer to the patient. India's medical implant sector faces issues such as regulatory gaps, dependence on imports, high costs and lack of specialised oversight. Efforts are being made to regulate the sector, including through introduction of the National Medical Devices Policy in 2023. While cardiac stents top the list of medical devices associated with adverse events, there have been instances of faulty implants in the knee and spinal devices.

# Air India to Focus on AI to Save ₹100 crore

**New Delhi:** Air India plans to save around ₹100 crore annually by using AI extensively, said Satya Ramaswamy, chief digital and technology officer. The Tata Group-owned airline has developed more than 30 AI tools in-house, applying it to multiple instances, ranging from simple use cases like handling customer complaints to more complex applications like predicting maintenance, marking the maintenance of its 300-aircraft fleet. —Anindam Majumder

# Stellantis, JLR Explore Product Development Tie-up in US

**New Delhi:** Global automotive major Stellantis and Tata Motors-owned Jaguar Land Rover (JLR) said in a joint statement on Wednesday they have signed a Memorandum of Understanding (MoU) for the purpose, Stellantis and Jaguar Land Rover (JLR) said in a joint statement. —PTI
