Operations

The Company delivered strong double digit sales growth in the 2nd Quarter. We were able to capitalize on sustained demand for the Company's products from both OE and replacement segments.

The steep increase in prices of raw materials due to global uncertainties adversely affected profitability during the quarter. Price increase and cost saving measures by the Company helped to mitigate cost pressures.

The Company anticipates continued disruptions and volatility in commodity markets. Raw material and logistics costs are expected to remain elevated. We will continue to take measured steps to address these challenges.

Dividend

The Board of Directors have declared an interim dividend of Rs 3/- (30%) per share of Rs.10 each for the financial year ending 31st March, 2027.
