Dear Sir,

Sub: Commissioning of Single Point Mooring (SPM) facility

Pursuant to Clause 36 (7) of the Listing Agreement, Mangalore Refinery And Petrochemicals Limited wish to inform the commissioning of its SPM facility per details furnished in the enclosure.

We request you to take the same on your records.

Thanking you,

Yours faithfully,
 For MANGALORE REFINERY AND PETROCHEMICALS LIMITED

B. SUKUMAR
COMPANY SECRETARY

MRPL commissions Single Point Mooring (SPM) system

MRPL's SPM off Tannirbavi coast has been successfully commissioned.

'Ratna puja' carrying 87610.817 MT of Arab Extra Light crude completed discharge of her cargo through our Single Point Mooring system. The unloading operation commenced at 11:55 hrs on August 29th and completed at 15:00 hrs on August 30th, 2013.

It may be recalled that MRPL set up SPM project along with coastal booster pumping station in their Mangalore port limits at a location of 16 kilometers from the shore (Highseas) having draft availability of 30 meters for handling upto Very Large Crude Carrier (VLCC) at an estimated cost of ₹ 1044 Cr.

This facility will enable the company to receive crude in Suez Max/ VLCC vessels which in turn will give freight economics and allow access to West African and Latin American countries crudes. This facility will also decongest existing berth facility at NMPT port for enhanced capacity operation of the Refinery and reduce the incidence of demurrage. This facility is also intended for crude receipt by the Indian Strategic Petroleum Reserve Limited (ISPRL) underground cavern for storage of crude at Mangalore. Commissioning of the SPM is expected to improve the bottom line of the Company.
