#### Detailed Rationale

Crisil Ratings has upgraded its ratings on the long-term bank facilities and debt instruments of Muthoot Capital Services Limited (MCSL, a part of Muthoot Pappachan group [MPG]) to 'Crisil AA-/Crisil PPMLD AA-/Stable' from 'Crisil A+/Crisil PPMLD A+/Positive'. Crisil Ratings has reaffirmed its ratings of 'Crisil A1+', on the commercial paper instruments of MCSL.

Crisil Ratings has also **withdrawn** its rating on non-convertible debentures (NCDs) worth Rs 160 Crore and Principal Protected Market Linked Debentures (PPMLD) worth Rs 35 Crores, on receipt of independent confirmation that these instruments have been fully redeemed, in line with its withdrawal policy. (Refer to 'Annexure - Details of rating withdrawn' for details).

The rating action is driven by an upgrade in the long-term rating of Muthoot Fincorp Ltd (MFL; rated 'Crisil AA/Crisil AA-/Stable/Crisil A1+'), the flagship company of the MPG.

The ratings of MCSL continue to factor financial, operational and managerial support from the MPG whose flagship company is MFL, given the operational linkages with and criticality to the group. The rating also factors in the company's adequate capital position and extensive experience of management in vehicle finance business. These strengths are partially offset by modest, though improving, asset quality, moderation in earnings profile and the company's continued, but reducing, geographical concentration in the southern Indian states.

The company's overall assets under management (AUM) grew by 12.5% to Rs 3441 crore as on March 31, 2026 (from Rs 3058 crore as on March 31, 2025) as compared to 52% growth in fiscal 2025. The moderation in pace of growth is on account of company's strategic call to reduce the co-lending exposure. Further, in line with the company's plans to increase focus on other vehicle segments, the AUM composition also underwent revision with proportion of two-wheelers at 86%, cars at 5% and commercial vehicles at 7% as of March 2026 as compared to two wheelers contributing to 98.3% of the portfolio, as on fiscal 2024. The company proposes to enhance its focus on non-two-wheeler segment portfolio going ahead.

In terms of asset quality, the company tightened its underwriting and strengthened its collections mechanism significantly. This enabled improvement in gross non-performing assets (GNPAs) to less than 7% in the last two fiscals compared to GNPA of over 12% between fiscals 2021 and 2023. However, as compared to 4.9% as of March 31, 2025, GNPAs increased to 7.0% as on March 31, 2026, due to spillover of the microfinance stress and slippage in one corporate loan. Overall, asset quality continues to be modest. The average monthly collection efficiency (including overdues but excluding prepayments) has remained above 96% during the trailing 12 months. The company's ability to manage collections from the harder delinquency buckets and improve asset quality will be a key monitorable.

**Analytical Approach**

For arriving at the ratings, Crisil Ratings has taken a standalone view of MCSL and has factored in support from MPG, whose flagship company is MFL.

**Key Rating Drivers - Strengths****Strong support from MPG**

MCSL is an integral part of MPG, whose flagship company is MFL. MCSL derives significant benefits from its linkages with the group. The group diversified its operations into vehicle financing through MCSL. The company has common promoters and promoter directors with the other MPG companies. MCSL also has strong operational linkages with other group companies. It has the third largest portfolio in the group and has been leveraging the branch network of the group to grow its book. Besides its own sales force, MCSL has access to the wide branch network and large clientele of MFL for origination of new loans and collections. MCSL, being an integral part of the group, will continue to receive operational and managerial support from MPG on an ongoing basis and timely financial support in case of any exigencies.

**Adequate capitalisation**

MCSL's networth stood at Rs 670 crore and gearing was 5.1 times as on March 31, 2026, as compared to Rs 658 crore and 4.3 times, respectively, as on March 31, 2025. The capital position has remained adequate despite no major capital infusion in the past five years. Overall Capital Adequacy Ratio (CAR) of the company stood at 22.04%, as on March 31, 2026. The company's philosophy is to maintain gearing at around 5 times on steady-state basis.

**Extensive experience of the promoters and management in the vehicle finance sector**

The promoters have more than three decades of experience in the business of lending, beginning with gold loans, and have forayed into two-wheeler financing, microfinance and housing finance over the years. The group ventured into two-wheeler financing in 1998 and since then has expanded into financing used cars, consumer durables and small-ticket business loans. The company also has strengthened its management by onboarding Mr Mathews Markose, a banking professional with 26 years of experience, as Chief Executive Officer; Mr Ramandeep Singh Gill, Chartered Accountant with over 11 years of experience, as Chief Financial Officer; and Ms Umadevi as Chief Risk Officer, along with others. The team has reinforced the systems and processes of the company, which will support the planned scale-up while maintaining the asset quality. The group has established a strong reputation and brand in India, particularly in South India and has an appropriate assessment and underwriting methodology, which is being constantly refined.

**Key Rating Drivers - Weaknesses****Modest asset quality**

The company's asset quality remains modest. While GNPA has improved in the last three fiscals compared to over 12% between fiscals 2021 and 2023, it remains high at 7% as of March 31, 2026. Besides, GNPA in fiscal 2026 increased from 4.9% as of March 31, 2025, due to spillover of the microfinance stress and slippages in the corporate loan book. Overall, asset quality continues to be modest. The average monthly collection efficiency (including overdues but excluding prepayments) has remained above 96% during the trailing 12 months. The company maintained provisioning cover in the retail book of 50%, as on March 31, 2026. Being in vehicle finance segment (especially in two wheelers), the company is prone to volatility in asset quality performance and hence its ability to maintain collections across soft and hard buckets will remain key monitorable.

**Moderate earnings profile**

MCSL's profitability has moderated in fiscal year 2026 due to increase in credit costs. The company incurred credit costs of 2.0% in fiscal 2026, as compared to 0.7% in the previous fiscal. Besides, net interest margin also compressed due to lower yields from the co-lending portfolio. The operating expenses which was at 5.9% in the fiscal year 2025, stood similar at 5.9% for fiscal year 2026. Overall, for fiscal 2026, the company's reported profit after tax (PAT) and return in managed assets (RoMA) stood at Rs 11.2 Crore and 0.3%, as compared to at Rs 46 Crore and 1.5%. Profitability should improve over the medium term, as the company reduces the co-lending book and focusses on improving asset quality. Ability to control credit costs will be a key monitorable.

**Geographically concentrated portfolio**

Although MCSL has sequentially reduced the concentration in its portfolio over the years, its operations continue to be largely concentrated in the southern states of the country. Concentration in the southern states reduced from 83% in March 2018 to 70% in March 2020 and further to 50% as on March 31, 2026. MCSL's operations are concentrated in Kerala, which accounted for 15.5% of loans as on March 31, 2026, though it has declined from 42% as on March 31, 2019. However, over the past 4-5 years, MCSL has entered the northern and eastern parts of India. The company plans to further reduce its dependence on the southern states over the medium term. Crisil Ratings believes the portfolio will continue to remain concentrated in the southern region, primarily because of MPG's strong foothold in the south, and hence would be susceptible to geography-specific disruptions.

**Liquidity Strong**

MCSL's asset liability maturity profile is comfortable, with cumulative positive mismatches across all buckets up to 1 year as on March 31, 2026. As on March 31, 2026, MCSL had cash and equivalent of Rs 411.3 crore and unutilized CC/WCDL limits of Rs 32 Crore. Its total debt obligation (including operating expense) was around Rs 767 crore for the next three months through June 2026. CC/WCDL of Rs 230 crore was due for renewal over the same period. The company has been able to rollover its CC/WCDL limit in the past and expects to be able to rollover the limit falling due during this period. The company has a liquidity cover of 1.3 times for one month (assuming nil collection efficiency & timely rollover of CC/WCDL). The timely rollover of CC/WCDL limit will be a key monitorable. MCSL is also expected to receive support from MPG, if required.

**Outlook Stable**

MCSL is expected to maintain adequate capitalisation and remain an integral part of MPG, benefitting from its linkages with the group, over the medium term.

**Rating sensitivity factors****Upward factors:**

- Improvement in the overall credit risk profile of MPG leading to improvement in rating view on the group
- Substantial improvement in asset quality and earnings profile

**Downward factors**

- Any downward revision in the rating view of MPG
- Sharp deterioration in asset quality significantly impacting profitability and capital adequacy level
- Significant and sustained increase in gearing to more than 7 times

**About the Company**

Incorporated in 1994, MCSL is a deposit-taking, systemically important non-banking financial company (NBFC). Though the company started operations in 1995, it commenced lending activities in 1998 after acquiring an NBFC license. Initially, it provided gold loans, but subsequently, as the group scaled up its gold financing business in MFL, MCSL entered the two-wheeler financing segment in fiscal 1998 and gradually exited the gold loan business. MCSL is listed on the Bombay Stock Exchange and the National Stock Exchange and is one of the listed companies of MPG. As on March 31, 2026, its AUM was Rs 3441 crore. Around 86% of the total portfolio was two and three-wheeler loans.

**About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)**

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
