Subject: Investor Presentation on Unaudited Financial Results for the quarter and half year ended September 30, 2024

Dear Sir/Madam

Pursuant to Regulation 30(6) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we enclosed herewith the Investor/ Analysts presentation on the Unaudited Financial Results of the Company for the quarter and half year ended September 30, 2024.

The above investor Presentation is also available on the website of the Company: <u>www.mangalamworldwide.com</u>.

You are requested to kindly take the same on your record.

Thanking You,

Yours faithfully, For, Mangalam Worldwide Limited

Apexa Panchal Company Secretary & Compliance Officer Membership No.: A35725

H1 FY25 Investor Presentation

This presentation and the accompanying slides (the "Presentation"), which have been prepared by Mangalam Worldwide Limited (MWL, The Company) solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment what so ever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company's market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantee of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict.

These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company's ability to successfully implement its strategy, the Company's future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company's market preferences and its exposure to market risks, as well as other risks.

The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Participated in the exhibition as a 'Silver Sponsor' and received a phenomenal response during the exhibition.

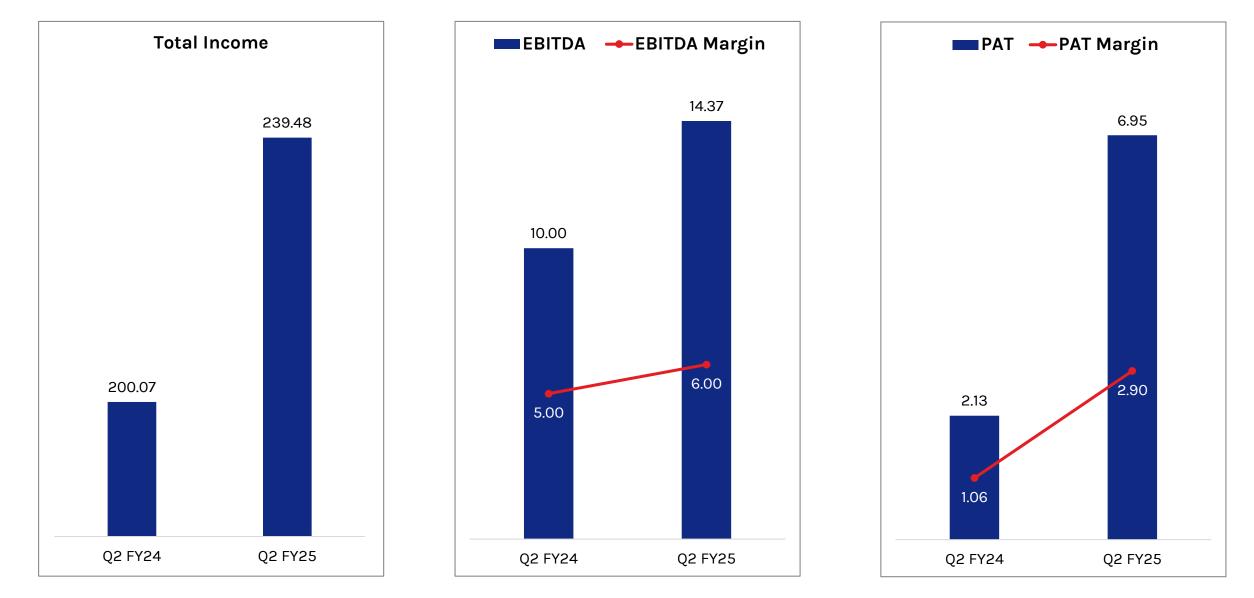

Hosted over 150 exhibitors and welcomed approximately 10,000 business visitors from diverse sectors such as chemicals, oil and gas, food, pharmaceuticals, machinery and more.

Mangalam Worldwide Limited (Mangalam the Company) established in 1995, is a fully integrated stainless steel manufacturing company with in-house Melting plant, Rolling Mill, Bright Bar manufacturing and seamless & welded pipes manufacturing facility. With its end to end manufacturing provess, Mangalam provides complete range of products to its customers ranging from Billets, Ingots, Bright bars to Pipes & Tubes.

The company markets its stainless steel products under the brand names 'Mangalam Saarloh' and 'Mangalam Tubicore.'

The Company's Manufacturing plants are located at Halol (Unit-I), Changodar (Unit-II), and Kapadvanj (Unit-III and Unit-IV).

Unit-I, located in Halol, has an installed manufacturing capacity of 66,000 metric tons per annum for Stainless Steel Billets and ingots, encompassing various series such as 200 series, 300 series and 400 series.

Changodar is equipped with an installed rolling capacity of 90,000 metric tons per annum for SS Flat / Round bars.

The Bright Bar Unit and Seamless Pipe Unit at Kapadvanj are equipped with state of the art machinery to manufacture high value added products such as Bright Bars, Seamless pipes & tubes.

The Company was listed on "NSE Emerge" in July, 2022 with an IPO size of ₹ 66 Cr.

Vision

To place strong emphasis on the consistent and reliable quality of our products and services. Company's core values include a commitment to safety, harmony, innovation, and an ongoing dedication to continuous improvement.

Mission

To achieve and maintain a leading position by ensuring customer satisfaction, fostering the growth and development of people, caring for society, and <u>earning the trust and confidence of our stakeholders</u>.

Values Customer Satisfaction People Development Society Care.

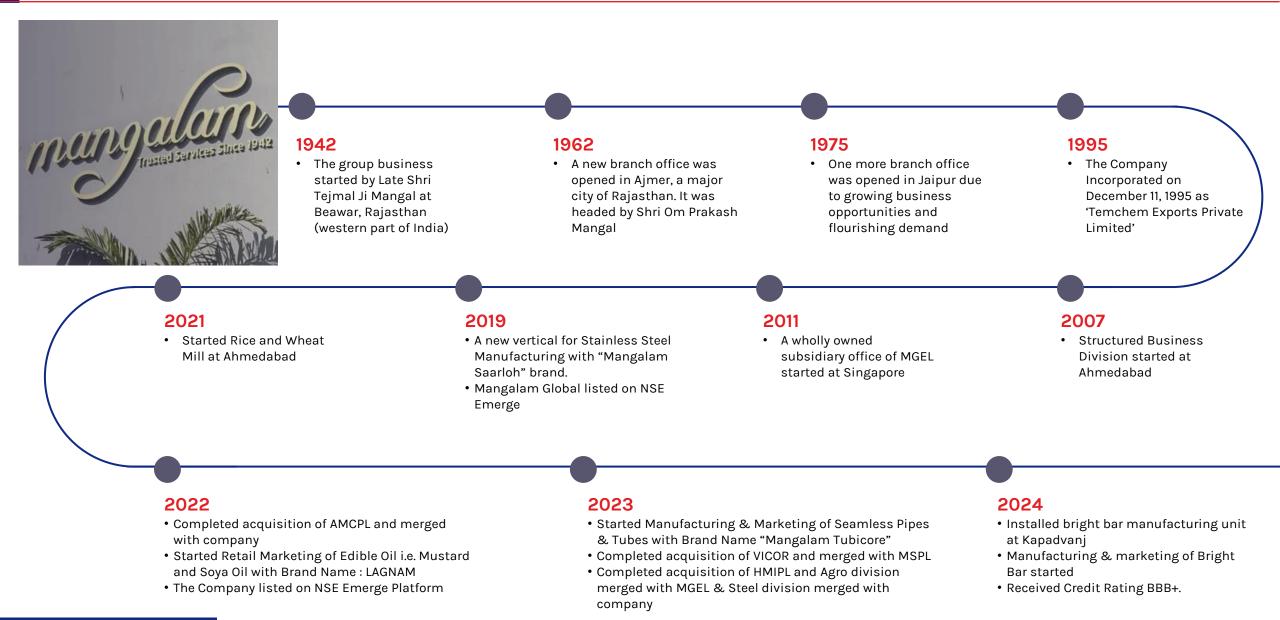

A Timeline Of Mangalam Group

At Mangalam Worldwide, we focus on building excellent products that are subject to stringent quality standards. Our sound infrastructure coupled with our zero tolerance quality policies help us manufacture products of high value, which have critical applications in industries such as food and dairy equipments, superior grade utensils, oil and gas, aerospace and medical devices sector.

State-of-the-Art Manufacturing Facilities

66,000 metric tonnes Manufacturing Capacity Per Annum

Halol, Gujarat (Unit I) For Steel **Melting Shop**

28,328 sq. mt.

along with construction, including factory sheds and building, measuring about 9,225.26 sq. mt.

Products

Stainless Steel (SS) Billets & Ingots:

- 200 Series
- 300 Series (including 304L and 316L)
- 400 Series
- Special steels like 17/4 PH, Duplex and Super duplex Steel

90,000 metric tonnes **Rolling Capacity Per Annum** Changodar, Gujarat(Unit II) For **Rolling Mill and Finishing Machines**

3,821 sq. mt.

along with construction, including factory sheds and building, measuring about 3,494 sq. mt.

Products

SS Flat Bars SS Round Bars SS RCS (Round Corner Square) Bars

State-of-the-Art Manufacturing Facilities

Products

Stainless Steel Bright Bars

- 200 Series
- 300 Series
- 400 Series
- Special Chemical Composition grades steel like 17/4 PH, Duplex & Super Duplex Steel
- 5 mm dia to 100 mm dia
- Equivalent to ASME, EN, DIN, JIS, NFA, NORSOK, GHOST

16,800 metric tonnes Per Annum

Kapadvanj For Pipes & Tubes

Products

Stainless Steel Seamless Pipes

- 300 Series (including 304L & 316L)
- 400 Series
- Special steels like Duplex and super duplex steel

Products

Stainless Steel Seamless Tubes, U Tubes

- Size : 6mm to 60.3mm 0D
- Thickness : 0.89mm to 4mm
- Equivalent to ASME, EN, DIN, JIS, NFA, NORSOK, GHOST

Overview Of Product Portfolio

Stainless Steel (SS) Billets & Ingots

Company's state-of-the-art manufacturing facilities at Halol in Gujarat, are engaged in manufacturing SS Billets and Ingots in various engineering grades of stainless steel.

200 Series

Referred to as chrome-manganese (CrMn) stainless steel, is a class of austenitic and highly corrosion-resistant stainless steel that is characterized as having low nickel content.

300 series

Harden-able only by cold working methods and classified as austenitic, are grades of stainless steel that have approximately 18% - 30% chromium and 6% - 20% nickel as their major alloying additions.

400 series

A ferritic and martensitic alloy, provides a good combination of strength and high wear resistance. Its corrosion-resistance properties are lower than 300 series.

Stainless Steel Flat Bars

These are produced by reheating billets and rolling them into required sizes. Our Stainless Steel Flat bars are supplied to customers in various thickness from 10.5 mm to 21 mm.

Stainless Steel Round Bars

These are produced by rolling billets into the required round sizes.

Stainless Steel Bright Bars

 \mathbf{O}

Bright Bars, produced via peeling/cold drawn processing, come in diverse grades and lengths up to 6.5 meters. They're finely polished with precise measurements to meet specific customer needs.

Stainless Steel Seamless Pipes & Tubes

Seamless Pipes are produced in all major stainless steel grades, sizes and specifications like ASTM, ASME, DIN, EN, JIS, NF etc, as required by the industry.

Mr. Vipin Prakash Mangal

Chairman | Experience – 36+ Years

Mr. Vipin Prakash Mangal, a Commerce graduate from the University of Ajmer, is a seasoned professional with a strong background in the manufacturing and trading of various commercial commodities and affiliated consultancy services.

He is also well-versed in business management, strategy development, planning, and implementation. As a third-generation industrialist, he has been a key contributor to the growth and development of our business.

Mr. Chanakya Prakash Mangal

Managing Director | Experience - 9+ Years

Mr. Chanakya Prakash Mangal, with a Bachelor's degree in Commerce from Gujarat University, specializes in operations, accounts, finance, and administration.

He holds a pivotal role in the company's administration, and under his guidance, our company has fostered strong public relations

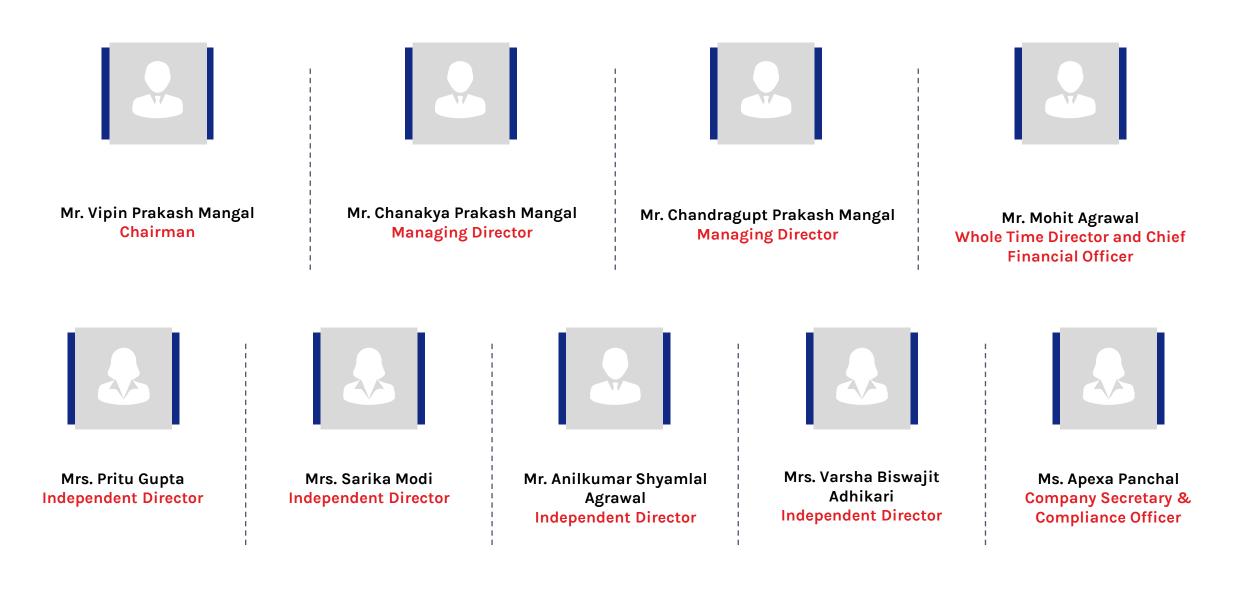

Mr. Chandragupt Prakash Mangal

Managing Director | Experience - 7+ Years

Mr. Chandragupt Prakash Mangal holds a degree in Supply Chain Management from the Kelley School of Business, Indiana University, and has achieved a level II badge from the CFA Institute.

He leads the procurement, manufacturing & marketing teams of the company. Additionally, he is also influential in building strong public relations for the company.

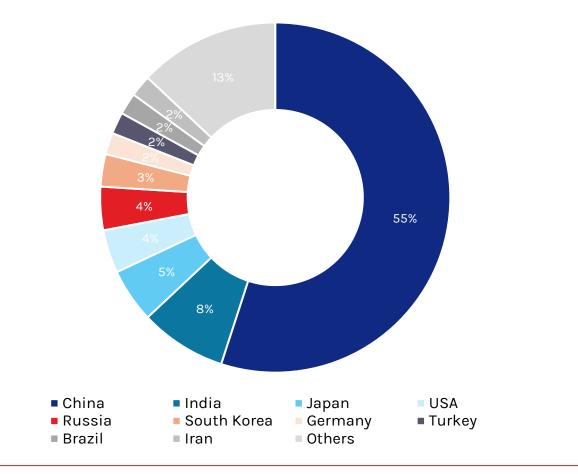

Global crude steel production increased from 1,735 MT in 2017 to 1,878 MT in 2022, growing at a CAGR of 1.60 %.

- The top 10 countries' cumulative production in January-March 2024 stood at 405.336 MT (up 0.4% y-o-y) and they accounted for 86.4% of world crude steel production during the period. For 2025, steel demand is projected to increase by another 1.2%, reaching 1,815.2 MT.
- India is the second-largest producer of crude steel, with China leading the world in 2023 with 1,019.1 MT of production, followed by India with 140.8 MT, Japan with 87.0 MT, and the USA with 80.7 MT
- Among the top 10 steel producing countries, China, Japan, the USA, Russia and South Korea reported y-o-y decline in production while the others registered yoy growth in production during January-March 2024 period.
- Asian crude steel production stood at 344.481 mt in January-March 2024, showing a decline of 0.4% y-o-y, led primarily by China and India, with their respective shares of 74.5% and 10.8% in total Asian crude steel production during the period.

Major Crude Steel Producing Countries during Jan-Apr 2024

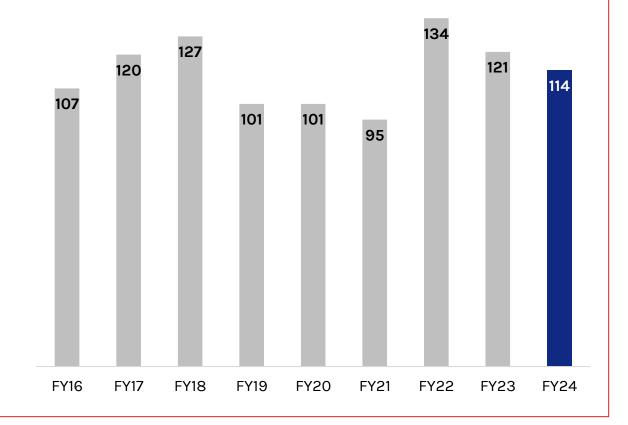

Source: World Steel Overview Ministry of Steel

India's Steel Pipes and Steel Tubes Market was valued at USD 32.88 billion in 2023 and is projected to grow at a 6.43% CAGR, reaching USD 37.69 billion by 2030.

- India's position as the world's second-largest crude steel producer.
- The market is also expected to grow by volume from 6.98 million tons in 2023 to 7.66 million tons by 2030.
- The industry, contributing approximately 8% to India's overall steel consumption, is divided into Electric Resistant Welded (ERW) and Submerged Arc Welded and Seamless (S&S) segments.
- Both segments hold equal value in a market worth ₹ 50,000 Cr, with a 70:30 volume distribution in favor of ERW.
- The country's steel consumption stands at around 100 MT, placing India among the top three steel consumers globally.
- Government initiatives for infrastructure development and the expanding oil and gas sector further fuel this demand.

Total Finished Steel Production (Mn Tonnes)

Take

Technology has made buying and selling of steel and steel products easier today. Buyers can buy steel online through reliable steel marketplaces and online websites, in a secure, transparent, and quick manner.

As stated previously, the government has introduced several initiatives to boost steel production in India and reach 300 MT in production by 2030. It has removed the 15% export taxes, and working towards removing technology, logistics and infrastructure bottlenecks.

> Steel as a metal has longevity. For instance, stainless steel used in making cutlery lasts longer than glass. Steel is also low on maintenance. TMT bars used in housing construction projects can stand for years unlike wood or other raw material used.

Though the cost of iron-ore has been on the rise in recent years, it is still one of the most widely available resources domestically. In addition to that, considering that the production of steel is a capital- and laborintensive process, labor is also available economically.

Steel and steel products have its uses across multiple industries – shipbuilding, automotive, pharmaceutical, aviation, real estate, energy, home appliances, electronics etc.

The steel sector has adopted the Best Available Technologies (BAT) available globally, in the modernization & expansions projects.

The Ministry of Steel constituted 13 Task Forces with the engagement of industry, academia, think tanks, S&T bodies, different Ministries and other stakeholders to discuss, deliberate and recommend upon different levers of decarbonization of the steel sector.

> The Government has formulated the National Steel Policy 2017, which lays down the broad roadmap for encouraging long term growth for the Indian steel industry, both on demand and supply sides, by 2030-31.

Source: IBEF

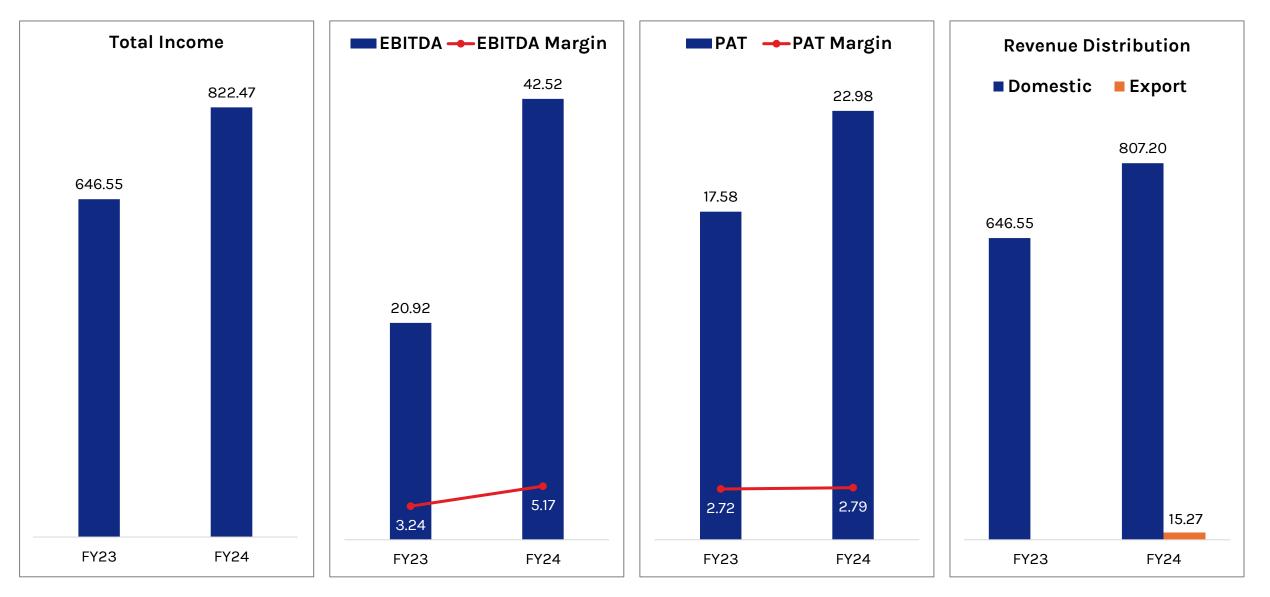

The Government of India raised import duty on most steel items twice, each time by 2.5% and imposed measures including anti-dumping and safeguard duties on iron and steel items. Under the Union Budget 2023-24, the government allocated ₹ 70.15 Cr (USD 8.6 million) to the Ministry of Steel.

Government has approved inclusion of 'Specialty Steel' under the Production Linked Incentive (PLI) Scheme, with a 5-year financial outlay of ₹ 6,322 Cr to promote the manufacturing of 'Specialty Steel' within the country by attracting capital investment and promote technology upgradation in the steel sector.

Government had signed Memorandum of Understanding (MoU) with 27 companies covering 57 applications for categories under the PLI Scheme. Key Financial Highlights

SWOT Analysis

Strengths

- The management of the Company has successfully scaled up the business over past few years.
- Long-term trust-based relationships with customers for expansion.
- Measures for cost-effective production and timely order fulfillment.
- Adaptable to diverse industry segments and efficient procurement capabilities.
- Ability to use in-house manufactured stainless steel products for reduced costs.
- Capital and labor-intensive nature of steel production benefits from economically accessible labour.
- Company is a fully integrated stainless steel manufacturer with in-house facilities for melting, rolling, bright bar production, and seamless and welded pipe manufacturing.
- Maintaining highest standard of governance helping us to boost the confidence of all the stakeholders.

Weaknesses

- Monitor raw material price fluctuations and adjust customer pricing accordingly.
 Offer competitive pricing and discounts initially to scale up volumes.
- Rely on external grid power due to the absence of a captive power plant.

Opportunities

- The automotive industry is forecasted to reach USD 260-300 billion by 2026.
- The industry accounts for around 10 per cent of the demand for steel in India.
- With increasing capacity addition in the automotive industry, demand for SS is expected to be robust.
- Steel as a metal has longevity. TMT bars used in housing construction projects can stand for years unlike wood or other raw material used.
- Steel and steel products have its uses across multiple industries – shipbuilding, automotive, pharmaceutical, aviation, real estate, energy, home appliances, electronics etc.
- Technology has made buying and selling of steel and steel products easier today.
 Buyers can buy steel online through reliable steel marketplaces and online websites, in a secure, transparent, and quick manner.
- Various Government initiatives like
 Production Linked Incentive, National Steel
 Policy (NSP) 2017, etc. targeting
 development in steel sector pose a unique
 opportunity for the Company.

Threats

- Any change in Government Polices that may affect the industry performance
- Economic recession/downturn in the country as well as globally may affect the industry as a whole.
- Capital intensive industry with fluctuating raw material and finished goods prices

Key Competitive Advantages

Enhanced Financial Stability:

Net worth grew from ₹45.46 Cr in FY22 to ₹186.08 Cr in FY24. Debt to equity ratio improved from ₹5.70 Cr in FY22

Debt to equity ratio improved from ₹5.70 Cr in FY22 to ₹2.87 Cr in FY24.

Improving Profitability:

EBITDA rose from ₹11.76 Cr in FY22 to ₹42.52 Cr in FY24. PAT increased from ₹12.32 Cr in FY22 to ₹22.98 Cr in FY24.

Growth Potential:

Company has in-house Manufacturing Unit to reduce costs. Various Government initiatives like Production Linked Incentive, National Steel Policy 2017 129

Established as a key player in Stainless Steel. Manufacturing units in Halol, Changodar and Kapadvanj with excellent infrastructure and connectivity.

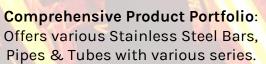

Quality and Certifications:

ISO 9001:2015, ISO 45001:2018 & ISO 14001:2015 High standards of quality and safety

Experienced Leadership:

Founded by veterans with over 36 years of industry experience.
