1. Summary of the primary business

a. Business Overview - Products and Services

We operate a pan-India network of multispecialty hospitals delivering comprehensive outpatient services, and complex tertiary and quaternary interventions. We are the largest pan-India multispecialty hospital network by bed capacity as of September 30, 2025 (Source: CRISIL Report). We focus on tertiary and quaternary care, particularly cardiac sciences, oncology, neurosciences, gastro sciences, orthopedics, and renal sciences (“CONGO-R”).

b. Industries Served and Typical Customers

We serve the healthcare services industry. We served 3.94 million patients and 7.19 million patients across our network (including our O&M hospitals) in the six months ended September 30, 2025 (on a *pro forma* basis) and in Fiscal 2025 (on a *pro forma* basis), respectively.

c. Segment Reporting and Revenue Contribution

We derive a significant portion of our gross inpatient revenues from CONGO-R specialties, as set out in the table below:

d. Key Geographies

Our three key regions are: (i) Karnataka (6,040 licensed beds on a *pro forma* basis) where we are the largest player; (ii) Maharashtra and Goa (2,188 licensed beds on a *pro forma* basis) where we are the largest player (on a *pro forma* basis); and (iii) select states of West Bengal, Odisha, Jharkhand, and Sikkim (in eastern India) (2,887 licensed beds) where we are the largest among private hospital chains in India, as of September 30, 2025 (*Source: CRISIL Report*).

e. Revenue Concentration Among Top 5 Customers

Not applicable.

f. Key Facilities

As of September 30, 2025 (on a *pro forma* basis), we operated 48 hospitals (including six O&M hospitals) with 12,367 licensed beds across 14 states and union territories. Key facilities include Manipal Hospital Old Airport Road (Bengaluru, Karnataka; 600 licensed beds), Kasturba Hospital Manipal (Manipal, Karnataka; 2,235 licensed beds), and Manipal Hospital EM Bypass (Kolkata, West Bengal; 500 licensed beds). Equipment includes 17 soft tissue robots, 40 MRI scanners, 55 catheterization labs, and 17 LINACs.

g. Business Strengths and Strategies

Strengths

1. India's largest multispecialty hospital group by bed capacity with pan-India presence and leadership in our three key regions;
2. The only private hospital chain network in India with leadership in three metros (Bengaluru, Kolkata and Pune) with a balanced and diversified presence across metros and non-metros;
3. Widely recognized brand and network of choice for patients, doctors and healthcare professionals;
4. Advanced infrastructure and medical equipment, with a strong focus on clinical excellence;

5. Track record of delivering industry leading growth with strong profitability and efficiency metrics;
6. Repeatable playbook for integrating and scaling transformative acquisitions to improve access to quality healthcare; and
7. Experienced leadership team with marquee institutional shareholder support.

Strategies

1. Continue capitalizing growth opportunities in existing facilities and organic network expansion;
2. Strategic acquisitions to enter and consolidate market positions and improve access and patient care;
3. Leverage digital, AI and technology to extend patient reach and access, transform patient, clinician experiences, and expand out-of-hospital care and continue to focus on operational excellence to drive efficiencies;
4. Continue to attract, develop, and retain medical talent; and
5. Invest in advanced medical infrastructure and clinical innovations.

For further and complete information, see “*Our Business*” beginning on page 222 of the Draft Red Herring Prospectus.

2. Summary of the Industry (Source: CRISIL Report)

The Indian healthcare delivery market was valued at approximately ₹7.0 trillion in Fiscal 2025 and is expected to grow at a CAGR of 10–12% through Fiscal 2030, reaching ₹11.2–12.2 trillion. In terms of value, in-patient services accounted for an estimated 71–72% of the healthcare delivery market in Fiscal 2025 and the out-patient services for the balance. Though out-patient services volume outweighs in-patient services volume, the latter contributes the bulk of revenue for healthcare facilities.

The provision of healthcare services in India is skewed towards private healthcare providers for both in-patient and out-patient services. Their share of treatments (in value terms) is expected to increase from 64% in Fiscal 2020 to approximately 69% in Fiscal 2030, primarily driven by the expansion plans undertaken as well as the high-quality services they provide in terms of infrastructure, equipment and treatments. Despite this trend, the Indian hospital market remains fragmented, with large private hospitals accounting for only approximately 20% of the overall market.

By specialty mix, cardiac sciences accounted for the largest share of the market in Fiscal 2025 at 17%, followed by oncology (12%), orthopedics (11%), neurosciences (9%), gastro sciences (9%) and renal sciences (8%).

Geographically, metro cities accounted for approximately 20-25% of the market in Fiscal 2025, while non-metro cities contributed the remaining 75-80%. Growth in non-metro regions has been driven by a rapidly expanding middle class, improving healthcare-related awareness, and increasing private investment in secondary and tertiary care.

For further information, see “*Industry Overview*” beginning on page 177 of the Draft Red Herring Prospectus.

* For details of reconciliation for various Non-GAAP financial measures included in the Draft Red Herring Prospectus, see “Management’s Discussion and Analysis of Financial Condition and Results of Financial Operations -Non-GAAP Measures” on page 580 of the Draft Red Herring Prospectus.

Notes:

- Total Income includes revenue from operations and other income as per restated consolidated statement of Profit and Loss.
- Profit for the period/ year does not include adjustments in other comprehensive income as per restated consolidated statement of Profit and Loss.
- EBITDA is calculated as Profit for the period/year plus (i) total tax expense, (ii) depreciation and amortization expense and (iii) finance costs.
- Total borrowings include non current borrowings and current borrowings as per restated consolidated statement of assets and liabilities.
- Net Asset Value per share is calculated as net worth at the end of the period/year divided by number of equity shares outstanding at the end of the period/year. Number of equity shares outstanding at the end of the period/year is an aggregate of outstanding number of equity shares considering dilutive number of shares.
- Net Worth has been defined as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of restated consolidated statement of profit and loss, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the restated consolidated statement of assets and liabilities, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation. Further, Net Worth is calculated as the sum of equity share capital, other equity, debit balance in treasury reserves, foreign currency translation reserve, and adjustments for re-measurement of the defined benefit plan.
- Return on Net Worth is calculated as Profit/(loss) for the period/year attributable to owners of the Company divided by Net Worth as of at the end of the respective period/year.

For further details, see “Restated Consolidated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 320 and 568 respectively of the Draft Red Herring Prospectus.

8. Risk Factors

The following are the top 10 internal risk factors as disclosed in the DRHP:

1. A substantial number of our hospitals are located in Karnataka. We derived 49.55%, 51.55%, 59.98%, and 66.61% of our revenue from operations in the six months ended September 30, 2025 and in Fiscals 2025, 2024 and 2023, respectively, from our hospitals in Karnataka. Any loss of business or disruption in the operations of these hospitals or geopolitical or policy changes in Karnataka could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.
2. We primarily generate revenue by providing inpatient care at our hospitals. Any inability to maintain or improve our admissions and hospital occupancy rates could adversely affect our business, financial condition, results of operations, cash flows and prospects.
3. We derived 64.08%, 62.56%, 61.55% and 60.25% of our gross inpatient revenue from cardiac sciences, oncology, neurosciences, gastro sciences, orthopaedics, and renal sciences (“CONGO-R”) specialties in the six months ended September 30, 2025 and in Fiscals 2025, 2024 and 2023, respectively, and any negative changes in the demand for these specialties could adversely impact our business, results of operations and financial condition.
4. We are exposed to legal claims and regulatory actions arising from the provision of healthcare services and may be subject to liabilities arising from operational and equipment-related risks, which could materially and adversely affect our reputation, financial position, and results of operations. Further, quarantines and sterilizations could limit the operations of hospitals and result in reputational damage.
5. We may be subject to claims arising from alleged medical negligence by our doctors and other healthcare professionals, which could materially and adversely affect our reputation and business.
6. Acquisitions, strategic investments, partnerships or alliances may be difficult to identify, acquire and integrate, and may adversely affect our business, financial condition, results of operations, cash flows and prospects.
7. Any failure to maintain and enhance our brand and reputation, and any negative publicity and allegations in the media against us, may adversely affect the level of trust in our services and market recognition, which could have an adverse impact on our business, financial condition, results of operations, cash flows and prospects.

8. We are required to obtain, renew and maintain statutory and regulatory permits, licenses and accreditations and comply with prescribed quality standards. Any regulatory changes or violations of such rules and regulations, or failure to obtain or renew approvals, licenses, registrations and permits to operate our business or comply with prescribed quality standards in a timely manner, or at all, may adversely affect our business, financial condition, results of operations, cash flows and prospects.
9. We may experience delays in construction or commencement of operations at new hospitals that we build, and we may be unsuccessful in developing other facilities in the future, in a timely manner or at all, which may have an adverse effect on our growth, business, financial condition, results of operations, cash flows and prospects.
10. There are outstanding proceedings against our Company, Promoters, Directors, Subsidiaries, Key Managerial Personnel and Senior Management. An adverse outcome in any of these proceedings may adversely affect our business, reputation, brand, financial condition, results of operations, cash flows and prospects.

For further details of the risks applicable to us, see “*Risk Factors*” beginning on page 31 of the Draft Red Herring Prospectus. Investors are advised to read the risk factors carefully before making an investment decision in the Offer.
