Media Release

New galvanising facility set up at Hindupur, AP commences commercial operations in Full Swing

Total installed capacity of 25,000 MTPA

Facility to manufacture higher margin value added products, targeting new markets and increasing product portfolio

20th June 2018, New Delhi: Hi - Tech Pipes Limited (NSE: HITECH), among leading steel processing companies in India has announced that the Company has started commercial production of galvanising facility of ERW steel pipes in full swing at Hindupur in Andhra Pradesh.

The Company has nearly three decades of rich experience in providing world class innovative products with presence in steel pipes, hollow section tubes, cold rolled coils & strips, road crash barriers, solar mounting structures and a variety of other galvanised products.

Details of the new facility set up:

- Total Installed galvanising capacity at 25,000 mtpa
- This facility will enable the Company to produce value added products with higher margins and target new markets
- Wider and new application of products – portable water supply, tube well and handpumps, plumbing works, structures, bridge railing, poles /posts, electrical conducts, cooling towers, etc.

Commenting on the recent developments, Mr. Anish Bansal, Director, Hitech Pipes Ltd. said:

"We are very pleased to inform that in line with our plan, we have successfully started commercial production of galvanising facility at Hindupur, Andhra Pradesh. This new set up will help us cater to the higher margin products and also increase our product offerings, increase our market penetration as well as target new markets.

This opportunity will help us to reach out to wider customer base for our products in southern India. This facility will also help us create better visibility for our Company. Our focus remains on project execution and increasing operational efficiencies which will be key to our success and further strengthen our position."

About HI-Tech Pipes Limited:
