^ Doesn't include receipt of Rs. 50.15 mn as NSEL annuity income

Management view : Vasistha Patel - Managing Director said that “Q1FY18 remained challenging for traffic volume due to reduction in business activity because of teething issues of GST implementation and also partial recovery in business activity from demonetization. We expect H2 to be much better due to increase in business activity because of good monsoon, ease of GST implementation, festival season and lower base. Also, company is in the process of completing refinance of debt in ARRIL, SUTPL, BRTPL before Q2 end and in MBCPNL before Q3 end. Both of these factors will lead to better cashflow generation than already achieved in Q1FY18 “.
