MEGHMANI INAUGURATES ITS NEW AGROCHEMICAL PRODUCTION FACILITY AT DAHEJ

Meghmani Organics Limited (MOL), incepted in 1986 and promoted by first generation technocrat entrepreneurs has grown manifolds in two decades and has emerged as one of the top 100 global generic manufacturing companies in agrochemicals. The company also produces pigments, additives and specialty chemicals.

Mr. Natu Patel, Managing Director of MOL said that on 9th September, 2010 MOL has inaugurated its new production facility to manufacture 2,4-D, a widely used and environmentally friendly herbicide. The production facility is situated at the port city of Dahej, in vicinity of its subsidiary Viz., Meghmani Finechem Limited (MFL), manufacturing Chlor Alkali. To manufacture 2,4-D, the two basic chemicals required are Caustic Soda and Chlorine, which would be supplied to MOL through pipe line by MFL. Mr. Natu Patel further stated that the two main intermediates required for producing 2,4-D, namely Monochloroacetic acid and 2,4-Dichlorophenol are also currently being produced at the same site, using the caustic soda and chlorine from MFL. This will give leverage to MOL to produce this high volume herbicide at competitive rates.

The planned annual installed capacity of 2,4-D Acid is 9600 MT. The Registrations to manufacture and sale the products in India and in other countries internationally have been received. MOL will commence exports of this molecule from October, 2010 against export orders already on hand.

About Meghmani Organics Limited

Established in Gujarat (India) in 1986, Meghmani is a manufacturer of pigments and pesticides. The Company specializes in the manufacture of green and blue pigment products that span multiple applications such as printing inks, plastics, paints, textiles, leather and rubber. Its pigment customers comprise mainly MNCs who are leading players in their respective industries.

Meghmani also produces a broad spectrum of commonly used pesticides for crop and non-crop applications such as public health, insect control in wood preservation and food grain storage. The Company counts amongst its customers leading pesticide manufacturers from North America, Europe, Latin America and Asia.
