

**Micro Technologies upgrades Quality Assurance with ISO
27001:2005 Certification**

Micro Technologies India Ltd, one of the World's most innovative security solutions provider, achieved the International Organization for Standardization (ISO) 27001 certification for its Security Product Development and Operations Centre Micro InfoTech Park. The ISO 27001:2005 certification establishes that Micro Technologies India Ltd' practices meet ISO's stringent standards for security product and managed capabilities.

ISO develops and publishes standards that establish best practices across a variety of industries. The ISO 27001 certification is an endorsement of "Micro Technologies India Ltd" to deliver managed and monitored security solutions built to the highest International standards.

ISO 27001 is the first in a family of international information security standards that will underpin and protect IT worldwide over the next decade. The objective of the standard itself is to "provide a model for establishing, implementing, operating, monitoring, reviewing, maintaining, and improving an Information Security Management System". Regarding its adoption, this should be a strategic decision. Further, "The design and implementation of an organization's ISMS is influenced by their needs and objectives, security requirements, the process employed and the size and structure of the

The Audit for the certification conducted by STQC, Ministry of communication and Information Technology, Government of India. They audited Micro Technologies facilities on all critical functions. Micro Technologies was evaluated for the effectiveness in Implementation of Information Security policies and procedure to protect customer and organization's confidentiality information and intellectual property.

Micro Technologies already has ISO 9001:2001 with the harmonize of ISO 27001:2005 it adheres to stringent standards and process that is followed to ensure information security information security throughout the organization. On this achievement the Chief Operating Officer (COO) Mr. Karthik R said "This certification will add our customers and partners confidence in our ability to implement and rigorously meet the meet the demands of information security and the trusted partner of choice".
