

MICRO TECHNOLOGIES BAGS ORDERS FOR SURVEILLANCE & ATTENDANCE MONITORING FROM TWO LEADING UNIVERSITIES IN INDIA

- **Micro ISS Ensures Campus Security**
- **Boosts Academic Excellence**
- **Increases Student - Teacher Interactions**
- **Micro SAMS Enhances Regular Attendance**

Mumbai, April 24, 2012: Micro Technologies India Limited, a leading global developer and marketer of security devices, today announced that it has bagged a couple of contracts to supply Micro ISS, a unique one-pack solution of premises security and Micro SAMS that enhances students attendance from two top ranking universities in India.

Micro ISS (Intelligent Surveillance System) comes bundled with all the customized solutions as per the client requirements whether they are for access control, real time monitoring during the night or intrusion detection. Micro ISS is one-stop solution for all security requirements. It has several innovative features such as live monitoring with CCTV cameras (internally and externally) and 24/7 recording at the server that can be viewed at any point in time with authorization from anywhere in the world. The external cameras are weatherproof for uninterrupted and clear recording with special night-vision features that can clearly record the videos in the absence of light. This seamless and simple -to- operate and maintain solution reduces manpower needs, and at the same time, increases the security capability, thereby reducing the cost of security.

Micro Technologies' Micro ISS will be installed at various strategic locations at the University's campuses. Of late, Indian Universities have been grappling with security issues. Installation of Micro ISS will surely help curb these issues.

Micro SAMS

The company also won a contract from a renowned distance learning university for the deployment of Micro SAMS (Students Attendance Management System) which has been exclusively developed for educational institutions to function as a complete solution to ease the complexity of maintaining student and staff attendances. RFID card based login and logout for lecturers, students and guest lecturers, which help to streamline the administration and improve campus discipline.

Elated about winning the contracts from the University, Mr. Ganapathy, Chief Executive Officer, Micro Technologies India Limited, said, "We are extremely proud to announce that we have bagged the contracts to supply CCTV cameras and Micro SAMS from one of the oldest and leading universities in India. This reiterates the fact that Micro Technologies is the leader in providing complete security solutions and further establishes our strong position in the market."
