

Micro Technologies (India) Limited launched the book on "Security Requirements of Navi Mumbai, A National Perspective"

27th January, 2011: After getting immense appreciation for its first book **"India's Security Requirements, a Global Perspective"**, Micro Technologies launched yet another piece of hard work and extensive study in the field of security- **'Security Requirements of Navi Mumbai, a National Perspective'**. This launch took place on 19th Annual day celebration of Micro Technologies (India) Ltd., on 21st January, 2011 at Vishnudas Bhawe Natyagruha, Vashi by the hands of renowned academician Dr. A.K. Sen Gupta in the presence of Hon. Chief Guest Dr. Sanjeev Naik, MP. The author Dr. P Sekhar, CMD, Micro Technologies (India) Ltd said this is part of the series of such books for various sectors and states.

Being based in Navi Mumbai, Micro Technologies take it as a duty and felt the urge to work upon the security plan of Navi Mumbai. Navi Mumbai has tremendous business opportunities because of its tactical and strategic location advantages of Mumbai - the financial capital of India. There are adequate Utility services, banks, restaurants, malls, multiplexes and other shops through Navi Mumbai. Navi Mumbai's well spread Railway System, fast electric local train, NMMT and BEST buses which carry thousands of commuters every day, an independent mainline rail terminal which connects the city directly to other parts of the country, state-of-the-art modern port, hover craft facilities connecting Navi Mumbai to the Gateway of India and Navi Mumbai's New International Airport and nearness to the Sahar International Airport - all add to make it an ideal Business Centre of India and thus assumes very high importance economically which also makes it more prone to terrorist activities and criminal attacks.

Navi Mumbai has witnessed several vehicle thefts and burglaries involving unoccupied houses. Navi Mumbai, which is now being touted as the new terror hub, has a 98% literate population of **21 lakh** with one Policeman for every **800** Citizens, crime needs to be taken care optimally in this satellite City. The entire society needs to work upon this challenge. After thorough research about the city the book estimates the total security expenditure for securing Navi Mumbai to approximately 2456 million INR pa. This book gives more knowledgeable and enlightened reading material for understanding the scope of security challenges faced by Navi Mumbai and the Maharashtra as a whole. Considering both physical and cyber threats facing the state, books such as this can make an important contribution by enhancing our understanding concerning the security threats we are facing and solutions we could contemplate.

Appreciating the success of Micro Technologies, Dr. Sanjeev Naik (MP) said, "I would congratulate Micro Technologies for its successful 19 years. It is a renowned name in the field of security. It's really appreciable for a young company like Micro Technologies that it has tied up with various major countries in the world to provide its innovative security products."
