Dear Sir,

Sub: Additional information about partial operations of 114 Captive Power Plant (CPP)
Ref: Clarification sought vide your e-mail dated 14.11.2022

--o0o--

With reference to the subject cited above we hereby submit the following additional information as sought by you regarding partial operation of 114 MW CPP of the Company situated at Paloncha-Telangana:

S.No	Clarification sought	Company's response
1	Expected quantum of loss/damage caused	<p>The partial operation of the CPP (114 MW) was occasioned due to severe coal shortage and reduced supplies from Singareni Coal Collieries. This CPP caters to the energy requirements of Manganese Alloy unit in Telangana. Consequent to the above said partial operation, a part of the energy requirement is being fulfilled by drawing power from the CPP (90 MW) of the Company situated at Dhenkanal, Odisha through Open Access.</p> <p>The Company expects loss of productivity in its Manganese Alloy Operations as well as in the CPP (114MW) in Telangana though considered to be marginal when viewed in the overall context of conservation of coal resources and optimisation of power operations in Odisha. It is however not quantifiable at this stage.</p>
2	Whether loss/ damage covered by insurance or not including amount	The loss of productivity as mentioned above falls outside the scope of insurance coverage.

Kindly take the same on record and acknowledge the receipt.

Thanking you,
 Yours faithfully,
 for NAVA LIMITED
 (Formerly Nava Bharat Ventures Ltd.)
