Unlocking The Next Level

The Company has built a diversified global gaming platform over the past two decades. Through disciplined acquisitions, strategic investments, and focused execution, the Company stands at the intersection of frontier content, technology and consumer engagement.

FY 2025-26 reinforced the Company's evolution into a gaming-first global platform. With gaming contributing nearly 90% of EBITDA, Nazara entered a new phase of growth supported by enduring intellectual property, operating excellence and scalable capabilities.

The establishment of Centres of Excellence across User Acquisition, Data Analytics, Artificial Intelligence, Growth and Product further strengthened the operating framework across the portfolio. These shared capabilities enable greater efficiency, stronger execution and improved collaboration across businesses. AI also became increasingly embedded across the game lifecycle, supporting innovation, accelerating development cycles and enhancing player engagement.

As these capabilities evolve, they are strengthening Nazara's ability to develop, operate and scale gaming experiences more effectively. The proposed strategic acquisition of Bluetile and BestPlay will bring global scale, AI-native development expertise and a powerful engagement ecosystem, further strengthening the Company's growth engine.

The impact of these strategic developments was reflected in record revenues, the highest EBITDA in Nazara's history and strong cash generation, demonstrating the Company's ability to translate scale into profitable growth. Backed by a deep leadership bench and disciplined capital allocation, the Company continues to strengthen its position across global gaming markets while maintaining financial resilience.

As Nazara enters its next era, it is nurturing a globally relevant gaming operating system rooted in India, powered by intellectual property, execution excellence and scalable platform capabilities.

REDEFINING NAZARA

A NEW CHAPTER IN NAZARA'S EVOLUTION

Nazara Technologies is entering a new chapter of growth. Backed by a refreshed brand identity and a new headquarters, the Company is channeling renewed energy into the same enduring objective of crafting magical and engaging experiences for its consumers and building for long-term impact.

The refreshed identity reflects that the Company has evolved far beyond its origins. At the centre of the change is the new 'N' insignia, designed as a wand with three rising stars, representing the pillars that now define Nazara's operating philosophy.

Imagination

lies at the heart of the first star, expressing Nazara's aspiration to create experiences that bring magic and joy to players in an increasingly demanding world

Creation

shines through the second star, marking Nazara's transformation into a creator and owner of enduring franchises. Supported by a 100% IP-focused portfolio comprising more than 25 franchises and backed by AI-led development capabilities, the Company is building scalable intellectual property designed for long-term relevance

Expansion

represented by the third star, reflects the scale and diversity of Nazara's global ambitions. Today, more than 90% of the Company's gaming revenue is generated from international markets, particularly the US and the UK

While gaming has become the principal growth engine, the Nazara identity is built to hold a broader platform. Alongside its core, high-margin gaming businesses, the Company also operates complementary assets in sports media and adtech. These assets give the platform breadth and flexibility, opening options for future value while letting management keep a sharp focus on pure-play gaming.

As part of this transformation, Nazara has relocated its registered office to Avighna House in Worli, Mumbai. More than a corporate address, the new headquarters serves as the cultural and operational centre for a business that is India-born yet global in reach and impact. It is the physical anchor for Nazara's central vision as well as a few of its Centres of Excellence (CoEs), which build shared competencies across user acquisition, AI, data analytics, growth and product. These functions form the operating backbone of the Company's studios and businesses across markets.

Under this new phase, Nazara's direction is clear: to build a platform-first organisation with global relevance and a deep commitment to intellectual property. By bringing every acquired and owned franchise onto a common operating framework powered by the CoEs and across-the-board, thoughtful integration of AI, Nazara is unlocking operating leverage and creating compounding value across its portfolio.

With a diverse presence spanning India, Rest of Asia, Africa, North America, and Europe. The Company today operates on a far larger stage than ever before. Its operating leverage is real, and it is compounding.

ABOUT NAZARA TECHNOLOGIES

BUILDING AN INTEGRATED GLOBAL GAMING PLATFORM

Nazara Technologies ('Nazara', or 'The Company') has cemented its position as an India-born diversified gaming and interactive entertainment platform for the world, combining owned and licensed IPs, operating businesses, and shared functions to serve audiences across formats, markets, and age groups.

As India's only publicly listed gaming company, Nazara operates across key international markets through a diverse mix of studios, platforms, and businesses. Its presence spans high-engagement categories such as mobile gaming, PC and console publishing, offline entertainment, esports, sports media and digital advertising technology.

At the core of the platform is a portfolio of more than 25 owned and licensed franchises supported by Centres of Excellence (CoEs) across user acquisition, data analytics, AI, growth, and product. This model enables Nazara to strengthen existing IPs, scale new opportunities, and build differentiated experiences for global audiences. The Company's strong platform strategy translated into record financial performance during FY 2025-26, reinforcing the scalability and strength of its business model.

GLOBAL PRESENCE

PLAYING IN STRUCTURALLY STRONG MARKETS

From cricket fans and outdoor entertainment enthusiasts in India to young learners, casual gaming lovers and narrative-gaming players in North America and Europe, Nazara is building a globally admired gaming platform from India. More than 90% of its gaming revenue now comes from international markets, particularly from the US and the UK.

India: High-Growth Opportunity

India continues to serve as the foundation of Nazara's platform and the home of several flagship assets. The Company has built category-leading franchises such as World Cricket Championship (WCC), the world's largest cricket simulation game, alongside operating experiential entertainment brands including SMAAASH and Funky Monkeys. With over 500 million mobile gamers, India remains the world's largest market by downloads and offers a large monetisation opportunity. Through initiatives such as Nazara ID, the Company is building a direct network targeting 50 million to 100 million gamers.

North America: The Highest-ARPU Market

North America anchors some of Nazara's most valuable franchises and subscription-led businesses. Kiddopia, Animal Jam, and its narrative-driven titles, including Love Island and Big Brother, have established a category-leading presence in the region. Sports media platforms Sportskeeda and Pro Football Network further strengthen the Company's presence in the US. In FY 2025-26, the US accounted for more than 50% of Nazara's gaming revenue, reflecting the Company's focus on premium, high-value markets.

United Kingdom and Europe: Home to Multiple Nazara Subsidiaries

The UK and Europe represent key mobile gaming, PC-Console gaming and adtech businesses within Nazara's global ecosystem. The UK serves as the headquarters for Curve Games, Fusebox Games and Space & Time, while the proposed addition of Spain-based Bluetile Games strengthens the Company's presence in casual social gaming. From a consumer lens too, several gaming businesses, including Kiddopia, Fusebox Games, Curve Games, C.A.T.S. and King of Thieves, count the UK and Europe among their most strategic markets.

INVESTMENT CASE

STRENGTHENING THE VALUE PROPOSITION

As Nazara enters its next phase of growth, its investment proposition is anchored in a diversified portfolio of enduring gaming IPs, a platform model that adds value to every new asset, and a disciplined approach to capital allocation. Gaming has become the principal growth engine, contributing 90% of total EBITDA.

STRUCTURAL MOAT BUILT OVER 26 YEARS

Nazara's differentiated position is supported by decades of platform building, strong industry relationships, and category leadership. These structural advantages continue to strengthen the Company's ability to create long-term value.

Built on Enduring Foundations
Backed by over 26 years of industry experience, Nazara has built strong intellectual property, industry relationships, and platform infrastructure

Entering the Next Era
The Company has sharpened its focus on gaming, centred on scalable, IP-led growth

Access to Next-generation Platforms
Through Curve Games and WildWorks, Nazara has secured access to Nintendo Switch 2 and Roblox respectively, strengthening its presence in the evolving new-age gaming market

AI-Native Development Capabilities
AI application is now embedded across the entire value chain and game lifecycle. Further, the proposed acquisition of Bluetile and BestPlay will bring AI-first game development, enabling faster content creation and improved operating efficiency

Diversified Monetisation Model
Revenue is spread across IAPs, subscriptions, advertising, premium PC-Console title sales and experiential gaming, supporting a balanced and resilient business model

PILLAR 1

A PORTFOLIO RESILIENT TO EXTERNAL SHOCKS

Nazara has built a business model where growth does not depend on any single title, geography, or monetisation stream. This diversified IP base provides resilience and supports steady compounding over the long term.

- Narrative Franchises
  A portfolio of narrative-led titles including Love Island, Big Brother, and Bigg Boss, drawing from globally recognised entertainment/TV reality show IPs and recurring content cycles
- Gamified and Content-led Early Learning
  Kiddopia and Animal Jam anchor Nazara's kids gaming portfolio, serving children and families through educational play
- Evergreen PC and Console Franchises
  Led by Human: Fall Flat, Wobbly Life and For The King II, the Company owns long-lived PC and console franchises with strong global appeal and lasting player engagement
- Leadership in Cricket Gaming
  Through World Cricket Championship, Nazara has established one of the world's largest cricket gaming ecosystems with a deeply engaged fan base

- Expansion into Casual Gaming
  In addition to C.A.T.S. and King of Thieves, from FY 2026-27, the proposed acquisition of Bluetile will add 17 casual gaming IPs, strengthening the Company's presence in the global puzzle and social gaming categories

- Strong Presence in Premium Markets
  The US and UK together contributed 67% of gaming revenue in FY 2025-26, reflecting the Company's growing exposure to high-value international markets

PILLAR 2

A PLATFORM TO MAKE EVERY NEW IP VALUE ACCRETIVE

Nazara's CoEs serve as the operating backbone of the platform, enabling every business and acquired IP to benefit from shared functions in user acquisition, data analytics, AI, growth, and product. This creates operating leverage and lifts returns across the portfolio.

- Institutionalised CoEs
  Shared functions across User Acquisition, Data Analytics, AI, Growth, and Product provide a common operating framework across the portfolio

- Proven Operating Playbook
  The CoE model has supported subscriber growth, improved unit economics, and driven margin expansion across key franchises

- Built-in Integration Framework
  New acquisitions are brought onto the platform from the outset, enabling faster value creation and operational synergies

- Increasing Gaming Profitability
  Gaming strengthened its contribution to Group profitability, with its share of EBITDA increasing from 56% in FY 2024-25 to 90% in FY 2025-26

- Scalable Platform Architecture
  The platform model is designed to improve monetisation and unlock cross-portfolio synergies across businesses and geographies

PILLAR 3

A BALANCE SHEET THAT FUNDS AMBITIONS

A disciplined approach to capital allocation and strong cash generation provides the flexibility to pursue growth without compromising financial strength. This balance sheet strength enables Nazara to scale with conviction.

- Record Financial Performance
  Nazara delivered consolidated revenue of ₹ 1,829 Crores and its highest-ever EBITDA of ₹ 255 Crores in FY 2025-26

- Strong Cash Generation
  Pre-tax operating cash flow increased 81% year-on-year to ₹ 213 Crores, reflecting the quality of earnings

- Healthy Cash Conversion
  The Company reported an EBITDA-to-operating cash flow conversion of 84%, reflecting strong operating discipline

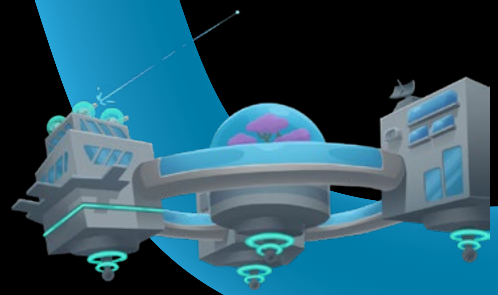

- Disciplined Capital Allocation
  Capital deployment remained focused on scalable platforms and proven IPs that can deliver long-term value

CHAIRMAN AND MANAGING DIRECTOR'S COMMUNIQUE

NAVIGATING THE NEXT FRONTIER

Twenty-six years ago,
Nazara was founded on a simple idea:

A GLOBALLY RELEVANT GAMING COMPANY COULD BE BUILT FROM INDIA.

INDIA IS EMERGING AS A GLOBAL CENTRE FOR DIGITAL CREATIVITY AND GAMING INNOVATION

DEAR STAKEHOLDERS,

Twenty-six years ago, Nazara was founded on a simple idea: a globally relevant gaming company could be built from India. Through sustained investment, disciplined acquisitions and a deepening commitment to owned intellectual property, that idea has grown into India's most diversified gaming and interactive entertainment platform. FY 2025-26 was an important step in that evolution, deepening both the scale of the business and the foundations of its future growth.

What encouraged us most this year was not the financial performance alone, but the quality and durability of the progress behind it. Gaming contributed nearly 90% of EBITDA, the clearest sign yet of a sharper strategic focus and Nazara settling into its identity as a gaming-first global platform.

The global gaming industry is now valued at approximately US$ 224.7 billion. Behind those figures is a simple fact: games have become part of the daily lives of billions of people. Gaming is today the world's largest entertainment category by both revenue and time spent, and it continues to expand across demographics, devices, and geographies.

Asia remains the largest regional market by revenue, supported by high engagement, mature platforms, and strong digital adoption. The forces reshaping the industry, though, are structural. AI is transforming game development, enabling AI-native studios to build, iterate, and scale content at a speed that was not possible before. Platform-agnostic distribution, built on cloud infrastructure and cross-device play, is dissolving the old boundaries between mobile, PC, and console gaming. Intellectual property has become one of the industry's most durable sources of value. Franchises with loyal communities, recurring engagement, and long shelf life now take an outsized share of the economics.

India's gaming market is changing at a scale and pace few others can match. The shift away from real-money gaming towards skill-based, casual and mid-core formats is creating a more stable, investment-friendly environment. Clearer regulation has given both domestic and international investors greater confidence. Telecom operators, hyperscalers, and state governments are investing across infrastructure, content, and talent, laying the groundwork for long-term growth.

Against this backdrop, Nazara continued to build the foundations of its next phase of growth. The proposed acquisition of Bluetile Games (including BestPlay Systems) adds not only scale but also AI-native development capabilities, advanced monetisation systems, and a large, active user base, strengthening the way the Company builds and operates its games.

We also continued to institutionalise our CoEs across User Acquisition, Data Analytics, AI, Growth, and Product. These shared functions give every business a common operating framework so that collective expertise, stronger execution, and better operating leverage flow across the portfolio. As more of our intellectual property comes into this framework, the benefits of scale and collaboration should become clearer still.

As the Board considers Nazara's longer-term direction, three priorities stand out. The first is to deepen integration across the portfolio, so that shared functions and cross-group synergies are fully realised. The second is to drive operating leverage by scaling common infrastructure and the CoEs across our businesses. The third is to keep capital allocation disciplined while retaining the flexibility to invest where it strengthens the platform and builds long-term shareholder value.

The strength of FY 2025-26 came from the balance between ambition and discipline. FY 2026-27 will be a year of integration, execution, and scale. The planned full integration of Bluetile Games, the continued maturation of our existing mobile gaming portfolio and the steady expansion of the offline gaming portfolio give us a sound base to build on. We will continue integrating AI-native development capabilities across the broader portfolio, pursue cross-portfolio synergies through Nazara ID and shared user acquisition infrastructure, and maintain a disciplined, performance-linked approach to capital deployment. The foundations established over the past several years are increasingly positioned to compound at scale, as the Company enters its next era.

I would like to thank our Board of Directors for their guidance and governance, our leadership teams for their commitment and execution, and our employees around the world for their creativity, passion, and dedication. I would also like to thank our partners and shareholders for their continued trust and support. We remain committed to building Nazara for generations to come.

Warm regards,

Vikash Mittersain

JT. MD & CEO'S COMMUNIQUE

DELIVERING STRONGER OUTCOMES

FY 2025-26 marked a defining year in Nazara's evolution.

WE DELIVERED A CONSOLIDATED REVENUE OF ₹ 1,829 CRORES AND OUR HIGHEST-EVER EBITDA OF ₹ 255 CRORES, REPRESENTING A 66% YEAR-ON-YEAR INCREASE.

Supported by Centres of Excellence across user acquisition, data analytics, AI, growth, and product, Nazara enters its next phase with stronger operating leverage and an increasingly resilient business model.

DEAR STAKEHOLDERS,

FY 2025-26 was an important milestone in Nazara Technologies' evolution into a gaming-first global platform. Over the years, the Company has built a diversified portfolio spanning mobile gaming, PC and console publishing, offline gaming, and a few adjacencies. The strength of this platform-first approach shone through clearly this year, in both financial performance and the operating links that now run between the businesses.

India offers a favourable environment for building digital-first businesses. With internet access widening fast, rising smartphone adoption, and a mobile-native young population, the country is emerging both as a large consumption market and as a growing centre for content creation and innovation. Consumer tastes are shifting steadily towards immersive, interactive entertainment. Gaming sits at the centre of this shift, and it increasingly overlaps with adjacent segments such as esports, live experiences, and streaming, widening engagement and opening new ways to monetise.

The Company delivered consolidated revenue of ₹ 1,829 Crores and its highest-ever EBITDA of ₹ 255 Crores, up 66% over FY 2024-25. EBITDA margins strengthened to 13.9%, and pre-tax operating cash flow rose to ₹ 213 Crores. These figures reflect the quality of the portfolio, disciplined execution, and the rising contribution of high-margin gaming businesses. Gaming contributed nearly 90% of EBITDA during the year, the clearest measure of how far that shift has gone. Today, more than 90% of gaming revenue comes from international markets, giving the Company both global scale and market diversity. This balanced footprint lets the Company pursue growth on several fronts while reducing its dependence on any single geography or platform.

FY 2025-26 also marked the maturing of the Company's CoEs into a genuine platform infrastructure. Their shared functions are now embedded across the portfolio, creating operating leverage and speeding up value creation. The impact of this model became increasingly visible during the year. Kiddopia returned to subscriber growth, Animal Jam delivered strong margin expansion, and Fusebox scaled multiple narrative franchises at once. Human: Fall Flat crossed 58 million lifetime units globally, and Funky Monkeys expanded its footprint to 20 operational centres. Across businesses, geographies, and formats, the portfolio proved resilient, scalable, and well-executed. Together, these functions are building a common operating system through which existing and newly acquired intellectual property can be scaled more effectively.

AI moved deeper across the game lifecycle. From development and content creation to user acquisition, analytics, and player engagement, AI is enhancing productivity, accelerating decision-making, and improving the Company's ability to scale experiences and content at an unprecedented pace across markets.

The year's defining move was the proposed acquisition of Bluetile Games (including BestPlay). Their integration takes Nazara closer to a platform where technology, data, AI and intellectual property work together to create a lasting, competitive edge. Today, Nazara has built a diversified presence across Asia, Africa, North America, and Europe. Its widening reach, shared functions, and growing portfolio of intellectual property place the Company to compete in some of the most attractive segments of the industry.

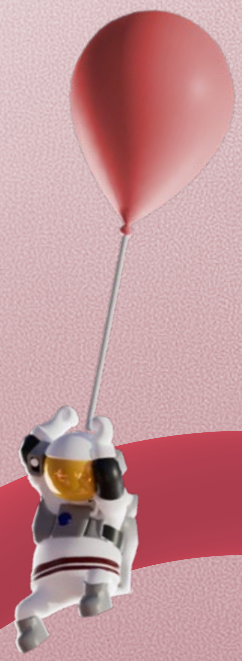

The global and the Indian gaming markets keep expanding, and Nazara's global platform provides more opportunities to compound value over time. With a diversified portfolio spanning geographies, platforms, and generations, the Company remains committed to building a globally relevant gaming platform from India. It continues to evaluate acquisitions actively. Capital deployment remains guided by discipline and supported by the CoE playbook. The focus is on backing businesses and intellectual property where shared functions can speed growth and create long-term value. As of March 31, 2026, we maintained a consolidated total cash position of ₹ 735 Crores, giving us the flexibility to invest in high-return opportunities without compromising shareholder value.

To our shareholders, partners, employees, and the wider gaming community, I extend my sincere gratitude for your trust and support. I remain confident in what lies ahead and excited about the possibilities FY 2026-27 opens up.

Warm regards,

Nitish Mittersain

STRATEGIC ROADMAP

PLAYING TO WIN THE NEXT LEVEL

Nazara's strategic roadmap is built on sharpening the functions that enable intellectual property to scale across markets, platforms, and player communities. The focus is on deepening platform advantages, expanding global reach, and creating operating leverage across the portfolio.

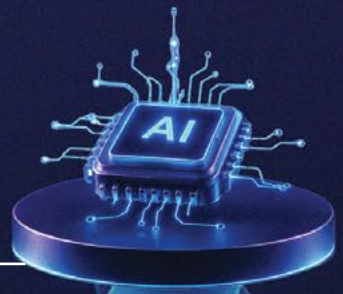

1 Building an Enduring IP Flywheel

Nazara continues to strengthen its portfolio by turning successful titles into long-lived franchises with recurring monetisation models. Through the institutionalisation of LiveOps and the CoEs, the Company is deepening engagement and extending the life of its key intellectual properties. Human: Fall Flat has crossed 58 million lifetime units globally, supported by regular content updates and expansion across platforms. Fusebox Games has transformed from being a single-IP studio into a multi-IP studio that launched two new IP-based narrative-style games on top of the existing game engine. New titles such as Go Slinky Go and the Monster High integration in Animal Jam show how the Company revives familiar IPs and builds new engagement around them. The Company is also expanding the WCC franchise through the WCC4 launch, deeper player engagement and selective licensing initiatives

2 Accelerating AI-Native Development

AI is now embedded across the game development lifecycle, helping improve productivity, user acquisition, and monetisation. Through a dedicated AI CoE, Nazara is building structural advantage across its portfolio. WCC 4 is being developed with AI-assisted coding tools, content creation and QA, and Animal Jam has added AI-driven moderation to improve community safety. AI-based optimisation is also improving retention. Bluetile's AI-native approach, with 95% of its data architecture built using AI, allows faster game development and quicker launches

3 Converging Platforms across Gaming Formats

Nazara continues to evolve into an integrated gaming platform spanning mobile, PC and console publishing, and offline experiential entertainment. A common CoE framework is being deployed across businesses to strengthen synergies and speed up growth. The Company is building Nazara ID to establish direct relationships with millions of Indian gamers. In experiential gaming, SMAAASH 2.0 is set to relaunch in full in FY 2026-27 with upgraded experiences and more IP integrations, and Funky Monkeys has grown to 20 operational centres from 9 at the time of investment. In PC and console publishing, Curve Games has secured an early foothold within the Nintendo Switch 2 platform and is already developing titles, including Wobbly Life, for it

4 Scaling through a Disciplined Global M&A Playbook

Nazara's inorganic growth strategy remains centred on acquiring high-quality businesses with proven monetisation models, distinctive intellectual property, and strong product-market fit. The Company continues to expand into new geographies, genres, and audience segments and to build its strengths in emerging technologies such as AI and advanced data analytics. Acquired businesses are integrated into the Company's CoE-led operating framework to unlock synergies and accelerate growth. By drawing on common distribution, user acquisition, and monetisation engines across the portfolio, Nazara aims to create compounding value and reinforce its position as a globally relevant gaming platform

ESG

CREATING LONG-TERM VALUE RESPONSIBLY

ENVIRONMENTAL SUSTAINABILITY

The Company continues to strengthen its environmental stewardship through initiatives aimed at reducing resource consumption, promoting responsible disposal, and encouraging sustainable practices across its offices.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL GAMING INDUSTRY

The global gaming industry sustained its structural growth through the year, moving further into the mainstream of global entertainment. Valued at an estimated US$ 224.7 billion in CY 2026, the market is projected to reach US$ 352.6 billion by CY 2031, reflecting a CAGR of 9.43%. This growth rests on three reinforcing shifts: wider smartphone ownership, steadily improving internet infrastructure, and a decisive move in consumer taste towards live-service and always-connected forms of play. Mobile gaming remains the dominant format, owing to its affordability, accessibility, and broad consumer reach. Advances in cloud gaming and streaming technologies are reducing dependence on high-end consoles and PCs and bringing the category within reach of a far wider audience. Asia-Pacific remains the largest regional market, anchored by its deep mobile user base and high rate of digital adoption, while rising investment in the Middle East and cloud-led expansion across Latin America are adding fresh sources of growth to the global market.

KEY DRIVERS AND TRENDS

Rising Momentum in Mobile Gaming Monetisation

In CY 2025, global in-app purchases (IAPs) showcased strong resilience despite macroeconomic uncertainties. This resilience reflected gaming publishers' adoption of recurring monetisation models such as battle passes and seasonal content updates. Regional pricing strategies contributed to a 6% increase in average revenue per paying user in CY 2025. The expansion of 5G infrastructure across emerging markets such as India, Indonesia, and Brazil is enabling low-latency real-time multiplayer experiences on affordable smartphones, widening access to premium mobile gaming. Developers are also deploying ad-supported engagement models that allow users to unlock virtual rewards and cosmetic items through short advertising interactions. Collectively, these trends reinforce mobile gaming as the largest contributor to the global gaming industry.

5G-Enabled Cloud Gaming Adoption

Cloud gaming revenue reached US$ 1.4 billion in CY 2025 and is projected to surpass US$ 18 billion by CY 2030. Telecom operators are deploying edge computing infrastructure to reduce latency and convert network upgrades into recurring entertainment-led revenue streams. Leading technology players continue to invest in proprietary data centre infrastructure to capture a greater share of the value chain. These facilities maintain the sub-30-millisecond

round-trip latency required for high-performance and competitive gaming genres. Current adoption remains concentrated in urban markets across North America, Europe, and East Asia, while the introduction of prepaid and bundled offerings in emerging markets is contributing to broader user acquisition. As bandwidth constraints ease, cloud-based game delivery is expected to reduce reliance on hardware and reshape the traditional console and PC platforms.

Growth in In-Game Advertising Revenues

In-game advertising has become a significant revenue contributor within the global gaming industry. Its share of total gaming revenues rose from 25% in CY 2020 to 32.3% in CY 2024 and is projected to reach 38.5% by CY 2029. This trend reflects the growing importance of advertising as a core monetisation stream for the industry. With rising user acquisition costs and tightening privacy restrictions affecting traditional targeting methods, advertising-based monetisation is becoming a key pillar for sustaining free-to-play business models and expanding the gaming user base.

Rising Engagement in Esports

The esports industry continues to grow rapidly, driven by rising internet penetration, expanding gaming audiences, and increasing investments from brands and advertisers. The global market was valued at US$ 2.40 billion in CY 2025 and is expected to reach US$ 10.30 billion by CY 2034. Growing Gen Z engagement, the rise of creator-led content platforms, and initiatives such as the Olympic Esports Games are further accelerating the mainstream adoption of esports worldwide.

Enhancement in Immersive Technologies

The immersive technology market in gaming is in a transformative phase, marked by rapid advances in virtual reality (VR), augmented reality (AR), and mixed reality (MR). These technologies are reshaping the gaming landscape and giving players deeper engagement and interactivity. As developers increasingly integrate immersive elements into their games, demand for high-quality hardware and software continues to rise.

AI Accelerating Innovation across Gaming

Artificial intelligence (AI) is transforming game development, player engagement, and monetisation models. Adoption is rising across generative AI-powered game creation tools, intelligent non-player characters (NPCs), and adaptive gameplay that personalises content based on player behaviour and interactions. This uptake extends to large AAA publishers and reflects the growing strategic importance of AI within the gaming industry. Players, particularly younger audiences, are increasingly receptive to AI-driven gameplay, immersive NPC interactions, and dynamically evolving storylines. As AI lowers development barriers and raises content output across the industry, the factors that set studios apart are changing. Differentiated intellectual property, strong player communities, and efficient customer acquisition are expected to become increasingly important competitive advantages.

INDIAN GAMING INDUSTRY

The continued expansion of India's digital infrastructure is providing a strong foundation for the growth of the gaming ecosystem. In CY 2025, the country recorded 1,022 million internet users and 877 million smartphone users, supporting a gaming community of approximately 555 million users. Payer conversion remained stable at 25%, translating into nearly 139 million paying gamers. While the market witnessed a marginal contraction following the enactment of the Promotion and Regulation of Online Gaming Act, 2025, which effectively eliminated real-money gaming, underlying consumer engagement remained robust. Notably, gaming represented only 8% of the top downloaded applications but contributed 36% of revenue generated by the top-grossing apps, with gamers spending nearly 4.5 times more than non-gamers.

India's Digital User Funnel (CY 2025)

Segment Dynamics and Monetisation

India's core video games market reached US$ 1.5 billion in FY 2024-25, reflecting a 17% year-on-year growth, driven by rising consumer spending on digital entertainment and interactive gaming.

- IAPs and advertising remained the primary monetisation models for the industry, growing 17% year-on-year. Consumer preferences continued to shift towards non-RMG midcore and casual gaming titles, supporting sustained growth in direct player spending

P: Projected

- The broader gaming and interactive media space, spanning digital gaming, esports, and creator-led platforms, expanded to US$ 2.4 billion in FY 2024-25. It is projected to reach US$ 7.8 billion by FY 2029-30, underlining the long-term growth potential of India's digital entertainment landscape
- Advertising-led monetisation remained resilient, supported by healthy engagement and strong ad economics. India's aggregate eCPM stood at US$ 1.10, while rewarded video advertisements delivered higher yields of US$ 2.43, enabling developers to monetise non-paying users
- Emerging interactive entertainment formats continued to gain traction. Micro-dramas, a new category of short-form mobile video content, emerged as a US$ 300 million market within its first year in India, drawing over 100 million monthly active users and widening the interactive media opportunity

Esports and Livestreaming

India's esports market continues to grow rapidly, from US$ 239.1 million in CY 2025 to a projected US$ 1,092.1 million by CY 2034. Growth is driven by rising internet penetration, affordable smartphones, increasing youth participation, and the professionalisation of competitive gaming. The market is further strengthened by expanding live-streaming platforms and creator-led content, which are deepening audience engagement and opening new monetisation avenues.

Creator Economy and IP-First Gaming

The Indian gaming sector is evolving from a service-led industry into a creator-driven market, supported by the rise of original IPs, culturally relevant storytelling, and disciplined game development. Indian studios are increasingly emerging as global innovators, while publishers continue to strengthen discoverability, distribution, and scalable market access across international gaming markets.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

MOBILE GAMING INDUSTRY

(Source: https://mixiglobalinv.com/report/upload/indias-state-of-play-260708.pdf)

Mobile gaming remains the dominant segment within India's gaming industry, supported by rising gamer engagement and growing digital content consumption. The industry's growth is driven by wider smartphone penetration, affordable mobile data plans, and rising disposable incomes across the country.

Localisation and Regional Content

Localisation is emerging as a key growth driver for the Indian mobile gaming market, with developers increasingly adapting content to regional languages, cultural preferences, and local narratives. The availability of games in vernacular languages such as Hindi, Tamil, and Telugu is helping expand the addressable user base and deepen engagement across diverse demographics. Reflecting this trend, industry surveys indicate that nearly 70% of businesses associated with the Indian mobile gaming ecosystem viewed local language and culture-led content as a critical factor supporting market growth in CY 2025.

Growing Adoption of Cloud Gaming

Cloud gaming is gradually gaining traction in India, supported by improving network infrastructure and increasing smartphone capabilities. The rapid rollout of 5G services, with coverage extending to more than 99% of districts through over 4,62,000 base transceiver stations, is enabling seamless access to high-quality gaming experiences without the need for advanced hardware. At the same time, the entry of cloud gaming platforms is making premium content more accessible at lower upfront costs. This trend is expected to broaden access to immersive gaming experiences and drive adoption across tier-II and tier-III cities, further expanding the reach of the Indian mobile gaming market.

ABOUT NAZARA TECHNOLOGIES

Nazara Technologies Limited ('Nazara' or 'the Company') is a diversified global gaming and interactive entertainment platform built on the ownership, development, and scaling of intellectual property. With a portfolio spanning mobile, PC, console, and location-based gaming formats, the Company creates long-term value by bringing together owned IPs, engaged communities, and data-driven publishing capabilities across geographies and demographics. With operations across India and key international markets, Nazara has emerged as a globally relevant platform for gaming and digital entertainment.

The Company's gaming portfolio comprises a diverse range of IPs serving multiple demographics and engagement categories. Its mobile gaming business includes established franchises such as Kiddopia, Animal Jam, Love Island: The Game, Big Brother: The Game, Bigg Boss: The Game, Bluetile Games' portfolio of casual games (aquisition completion pending necessary approvals), World Cricket Championship, and Crash Arena Turbo Stars, among others, that cater to audiences across gamified learning, storyline-driven role-playing games, casual action games, and sports games genres. Mobile gaming remains the largest contributor to the Company's gaming operations and continues to benefit from investments in content development, player engagement, and franchise expansion. The planned introduction of Animal Jam on Roblox further reflects Nazara's strategy of extending the reach of its IPs into emerging digital spaces.

In premium gaming, the Company has built a growing presence through Curve Games, its PC and console publishing arm. A portfolio of globally recognised titles such as Human: Fall Flat and Wobbly Life alongside an expanding release pipeline has widened Nazara's international footprint and carried its platform mix beyond mobile gaming.

Beyond digital gaming, Nazara owns and operates immersive offline entertainment businesses through Funky Monkeys and SMAAASH. These businesses extend the Company's reach to audiences across physical and experiential settings, complementing its broader gaming portfolio. The continued expansion of Funky Monkeys and the strategic repositioning of SMAAASH extend its interactive entertainment across multiple consumer touchpoints.

Outside its core gaming businesses, in esports and pop culture, NODWIN Gaming brings together players, creators, fans, and brands around competitive gaming events and community-led, youth lifestyle-focused experiences. Through marquee properties such as DreamHack, NH7 Weekender and Comic Con India, NODWIN has extended its reach across domestic and international markets, helping move esports and youth entertainment further into the mainstream. Alongside these businesses sit Nazara's adtech operations, led by Datawrkz and Space & Time. Together, they provide technology-led digital marketing solutions and products that sharpen performance marketing for external clients and the wider Nazara group alike.

As the portfolio has grown in scale and complexity, Nazara has strengthened its operating framework through specialised Centres of Excellence (CoEs) focused on User Acquisition, Data Analytics, Growth, and Product Management. These shared capabilities drive operational efficiency, support knowledge transfer across businesses, and improve customer acquisition, engagement, and monetisation. The growing use of AI-driven tools in development and operational workflows is lifting productivity and accelerating innovation across the Company. Reflecting this evolution, Nazara recently introduced a refreshed brand identity under the positioning line 'Enter. Magic.', signalling its focus on building an integrated gaming OS (operating system) to deliver cutting-edge immersive, engaging gaming experiences to its global audiences.

Nazara continues to pursue growth through both organic expansion and strategic acquisitions. The addition of Bluetile Games (acquisition pending a Spanish regulatory approval) strengthens the Company's casual and social gaming portfolio and elevates its AI-native gaming capabilities even further. Together with initiatives such as the development of the Nazara ID platform and a growing pipeline of franchise-led opportunities, these investments position the Company to deepen consumer engagement. They also support the creation of sustainable long-term value across the global gaming and interactive entertainment market, from India.

GAMING

PC-Console Gaming

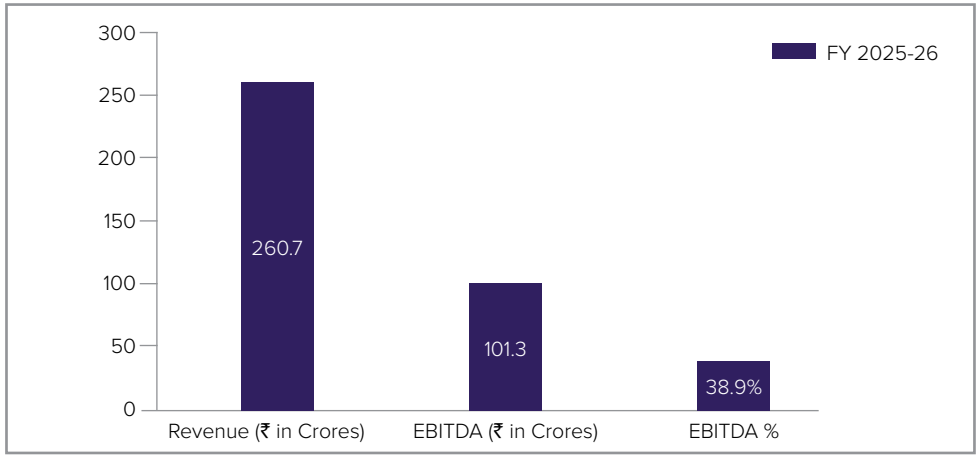

Curve Games

In FY 2025-26, Curve Games delivered revenues of ₹ 260.7 Crores and EBITDA of ₹ 101.3 Crores, translating into a robust EBITDA margin of 38.9%. The business maintained strong momentum through the year, supported by the enduring performance of its established franchises and a healthy pipeline of new releases. The strong cash generation enabled the platform to accelerate title signings and strengthen its publishing capabilities across premium PC and console gaming.

Curve's flagship title, Human: Fall Flat, continued to demonstrate its evergreen appeal, surpassing 58 million lifetime units sold globally, with more than 2 million units added during FY 2025-26. Wobbly Life also crossed 2 million lifetime units, aided by strong traction on Nintendo Switch 1 since the launch in FY 2025-26. Meanwhile, For The King II recorded its strongest sales performance since launch, supported by the Fallen Oaths expansion.

The studio continued to deepen its publishing pipeline with the release of Wax Heads and upcoming titles including Sovereign Tower, Dragon Shelter, and Badlands Crew, the latter hitting the Top 10 charts on Steam. Going forward, Curve is targeting a faster release cadence, with five to six new titles expected across FY 2026-27 and FY 2027-28.

Mobile Gaming

Bluetile Games (aquisition completion pending necessary approvals)

On March 18, 2026, Nazara announced its largest-ever acquisition, the purchase of Bluetile Games S.L. and BestPlay Systems S.L., marking a major expansion of its global casual gaming business.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

The transaction covers an initial 50% controlling stake for US$ 100.3 million (~₹ 918 Crores) through Nazara UK. Structured payments, earn-outs, and a call/put option enable full ownership by 2028, based on performance milestones. The deal also includes additional earn-outs of ~US$ 98.2 million (~₹ 898 Crores), making it a highly performance-linked investment.

For 2025, the combined entities generated ₹ 1,405 Crores in revenue and ₹ 254 Crores in EBITDA, driven by a portfolio of 17 live casual games and a user base of ~375 million downloads and 22 million MAUs.

Bluetile runs a casual gaming portfolio across puzzle and word-based titles, while BestPlay is a proprietary rewarded-engagement platform that strengthens user acquisition, retention, and cross-promotion across games.

A key differentiator of the acquisition is its deep integration of AI across development and operations, which enables faster production cycles and higher efficiency. Up to 80-95% of core systems are AI-driven, with markedly shorter development timelines.

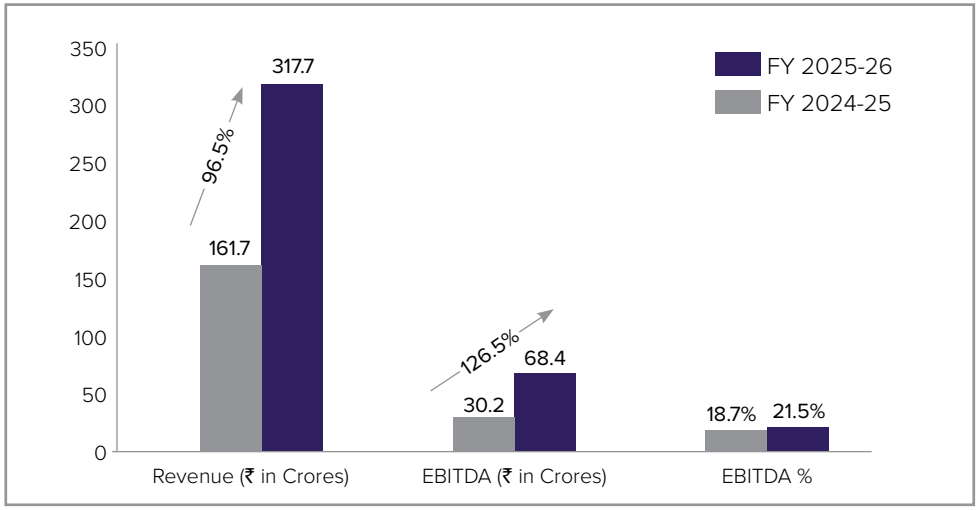

Love Island, Big Brother and Bigg Boss

For FY 2025-26, Fusebox Games' narrative-based IP gaming portfolio, led by Love Island, Big Brother and Bigg Boss delivered a strong performance, generating ₹ 317.7 Crores in revenue and ₹ 68.4 Crores in EBITDA. This was supported by sustained engagement across live-service content and seasonal events.

Love Island remained the main revenue driver, benefiting from recurring seasonal spikes, new content launches, and user acquisition investments guided by sound unit economics.

Big Brother, launched in May 2025, transformed Fusebox from being a single-IP studio prior to Nazara's acquisition into a multi-IP studio, leading to reduced annual volatility and improved revenue predictability. FY 2025-26 also saw the launch of the studio's first-ever India-focused game based on the Bigg Boss reality TV show IP. The project extends Nazara Technologies' strategy of adapting established media properties for interactive markets.

Performance Snapshot

Note: Revenue and EBITDA data for FY 2024-25 is only for the post-consolidation period (August 22, 2024 to March 31, 2025)

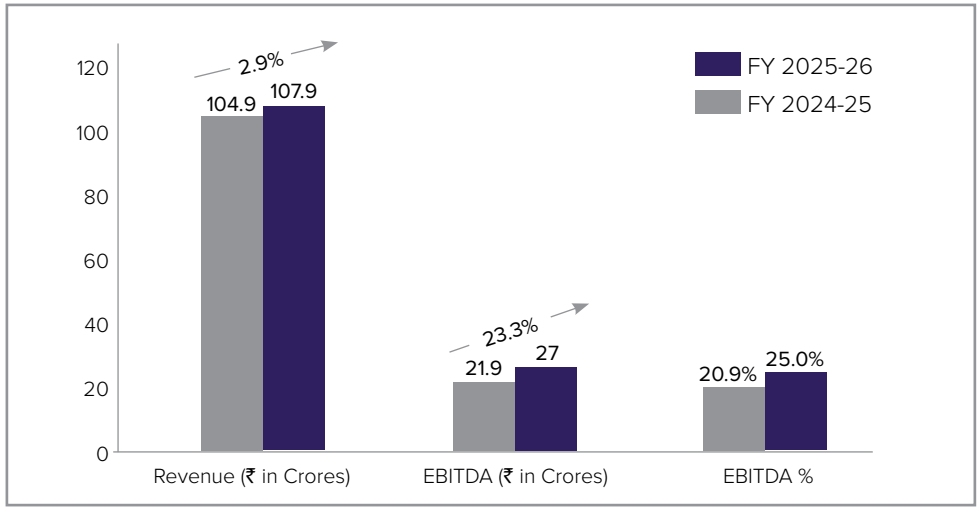

Animal Jam

For FY 2025-26, Animal Jam reported revenue of ₹ 107.9 Crores and EBITDA of ₹ 27 Crores, reflecting steady top-line growth and strong margin expansion (the FY 2025-26 EBITDA margin stood at 25.0%, up 410 bps year-on-year from 20.9%), supported by improved monetisation and operational efficiency. The business sustained growth despite its long lifecycle, with consistent engagement across its core user base.

The improvement was driven by deeper integration of Nazara's CoE-led frameworks, particularly in user acquisition and data analytics, which strengthened marketing spend allocation, sharpened cohort targeting and offered better data visibility.

Along with Animal Jam's strategic platform expansion to Roblox, performance gained momentum through continued deep LiveOps and content refresh cycles. All these initiatives lifted user engagement without significant cost escalation. Moreover, strategic technical upgrades such as cloud infrastructure migration and AI-driven moderation improved scalability and long-term platform resilience.

Performance Snapshot

Kiddopia

For FY 2025-26, Kiddopia delivered revenue of ₹ 189.6 Crores and EBITDA of ₹ 22.5 Crores, reflecting a stabilisation phase followed by a gradual recovery in subscribers and revenue.

The improvement was driven by Nazara's CoE-led operating framework, which strengthened data-driven UA, product optimisation, and capital allocation discipline across cohorts. This enhanced Kiddopia's unit economics, lifting ARPU to US$ 7.49, bringing Cost Per Trial (CPT) under US$ 35, and strengthening 24-month LTV/CAC ratio by year-end.

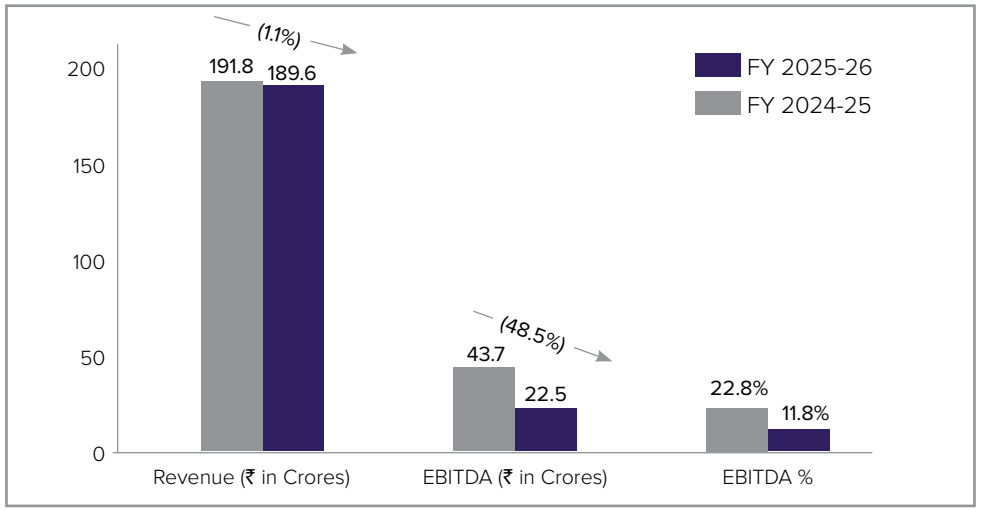

Growth was further supported by a strong IP-led content strategy, including integrations with marquee global kids' IPs such as Mattel's Barbie, Hasbro's PJ Masks, and Moonbug's Baby John, deepening engagement and enriching Kiddopia's signature gamified early learning content. While EBITDA was temporarily moderated by higher marketing costs, this is seen as a high-quality investment that will support long-term subscriber growth and platform scalability.

Telecom Operator-Driven VAS Business

Nazara delivers gaming content to telecom companies worldwide through white-labelled platforms built for their networks.

The vertical continues its expansion into multiplayer gaming with leaderboard features, integrated directly with telco partners. Our partnership with major entertainment brands such as Disney, Pixar, and Star Wars, allows us to distribute licensed titles to leading cellular operators under both paid and freemium models.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

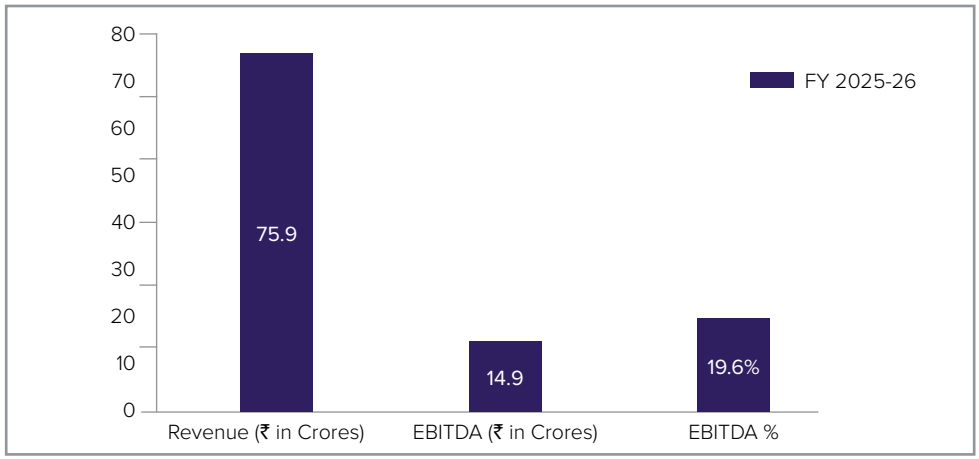

Building on this foundation, Nazara has secured new partnership agreements to grow its telecom business across both new markets and deeper service offerings.

Offline Gaming

SMAAASH

SMAAASH is a leading multi-format gaming and entertainment destination within Nazara Technologies' offline gaming portfolio, catering to families and young adults through immersive gaming, food and beverage, events, and tournaments. For FY 2025-26, SMAAASH reported revenue of ₹ 75.9 Crores and EBITDA of ₹ 14.9 Crores, reflecting a stabilisation phase following its acquisition through the NCLT process. The business showed strong signs of operational recovery, supported by cost optimisation and improved centre-level execution. SMAAASH is on track for a reimagined FY 2026-27 relaunch aimed at surpassing prior performance led by experience upgrades, IP expansion, and brand rejuvenation.

Performance Snapshot

Note:

1. EBITDA is reported under Ind AS and reflects Ind AS 116 (Leases) treatment
2. SMAAASH is consolidated in the books of Nazara from June 6, 2025

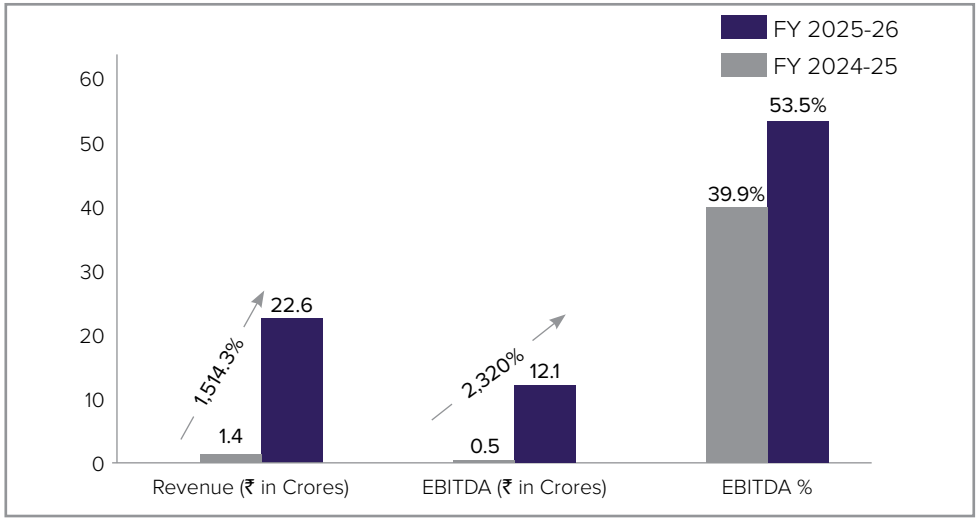

Funky Monkeys

Funky Monkeys is India's leading indoor soft-play and entertainment chain for children and families, and a core part of Nazara's offline gaming portfolio. For FY 2025-26, Funky Monkeys reported revenue of ₹ 22.6 Crores and EBITDA of ₹ 12.1 Crores. The business maintained healthy margins, driven by efficient centre-level economics and disciplined execution.

Performance during the year was underpinned by rapid network expansion, with the store count rising to 20 operational centres across key Indian cities. Funky Monkeys deepened its presence in Mumbai and Bengaluru while entering new markets such as Hyderabad and Surat.

Growth was further supported by strong operational discipline, including CRM-led engagement, standardised centre formats, and data-driven monitoring of footfall and conversion metrics. While expansion continued at a rapid pace, the business held a steady breakeven profile, reinforcing its position as a high-margin, cash-generative offline IP within the broader portfolio.

OTHER SEGMENTS

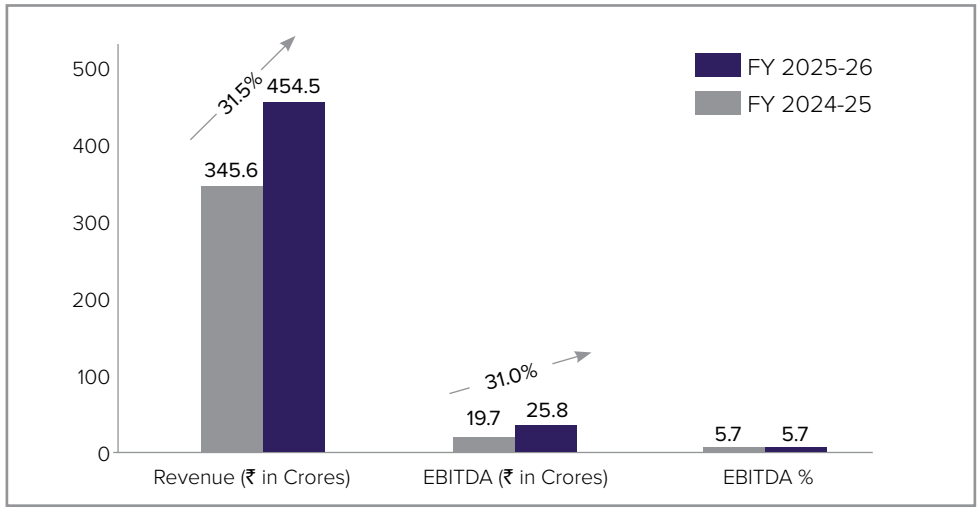

Datawrkz (including Space & Time)

For FY 2025-26, Datawrkz, along with its UK-based subsidiary Space & Time, reported revenue of ₹ 454.5 Crores and EBITDA of ₹ 25.8 Crores.

The business expanded, driven by a shift towards higher-margin, tech-led offerings, with reduced dependence on lower-margin managed services. Traction also grew in proprietary platforms such as Vizibl DSP. This pivot supported margin stability despite selective top-line moderation in legacy service areas.

Growth was further supported by the deeper integration between Datawrkz's and Space & Time's operations. This further enabled cross-market synergies, expanded client access in Western markets, and unlocked stronger AI-driven capabilities across campaign delivery and analytics.

Performance Snapshot

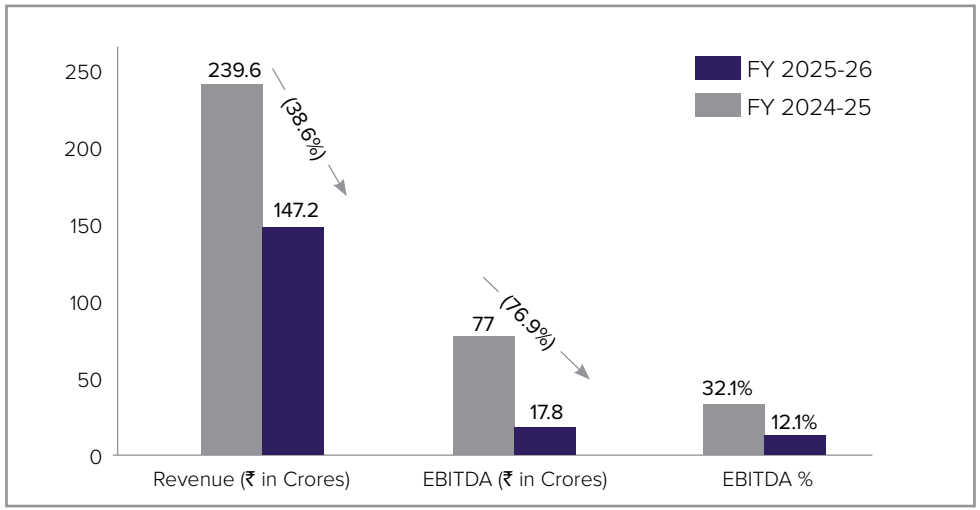

Sportskeeda

Sportskeeda, the flagship property of Absolute Sports, is a leading sports content platform with a strong presence across the US and India. For FY 2025-26, Absolute Sports reported revenue of ₹ 147.2 Crores and EBITDA of ₹ 17.8 Crores, reflecting a year marked by a decline in Sportskeeda's organic traffic following Google's March Core Update, even as the other properties showcased rapid and profitable growth through the fiscal year. Despite the top-line pressure, the platform remained profitable through strong cost discipline and focused execution.

This resilience was driven by cost optimisation, including team rightsizing and renegotiated content costs, enabling the business to prioritise EBITDA protection over revenue recovery during the year.

Newer assets such as Pro Football Network (PFN) and PrimeTimer added diversification and strong growth momentum. PFN recorded its best-ever annual performance since acquisition, with the Sportskeeda operating playbook driving a 28% EBITDA margin, the highest in the property's history. In FY 2025-26, PrimeTimer too showed strong early commercial momentum with average monthly revenue up 240% relative to the pre-acquisition baseline.

Performance Snapshot

NODWIN

NODWIN Gaming is a leading esports and youth entertainment platform with operations across India and international markets. For FY 2025-26, NODWIN Gaming reported revenue of ₹ 658 Crores and EBITDA of ₹ 21 Crores, reflecting a strong operational turnaround, supported by sustained growth in live events and content-driven IPs.

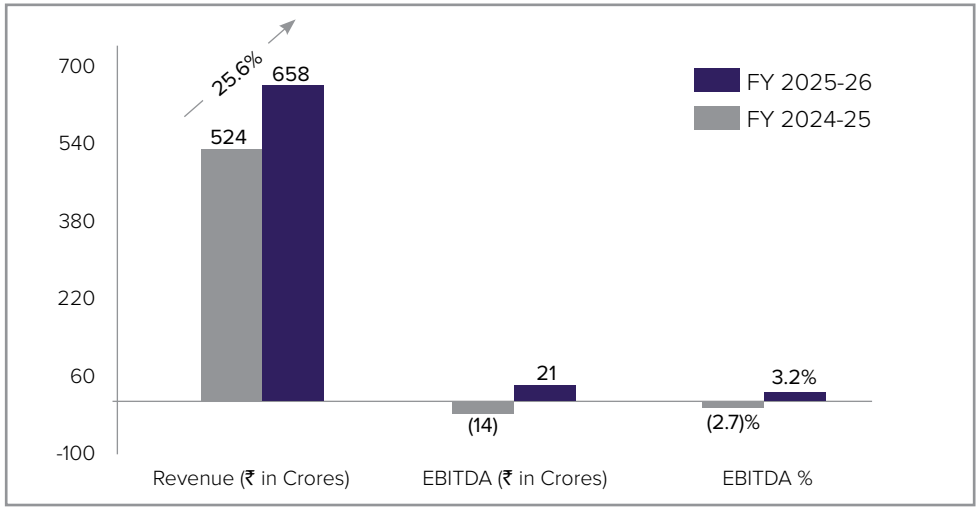

FY 2025-26 represented a turnaround year for the business, with revenue increasing to ₹ 658 Crores and EBITDA improving to a profit of ₹ 21 Crores from a loss of ₹ 14 Crores in the previous year. The performance was supported by a strong live and content slate, expansion of

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

flagship IPs such as Comic Con India and NH7 Weekender, and improved operational efficiency following the deconsolidation of Freaks4U.

FY 2025-26 also marked a major structural shift, as NODWIN moved to an associate company following its de-subsidiarisation from Nazara Technologies. The change gives NODWIN greater financial flexibility and allows Nazara to sharpen focus on core, high-margin gaming assets.

Performance Snapshot

Note:

1. Nazara's stake in NODWIN Gaming reduced below 50%, resulting in de-subsidiarisation of the business as of August 13, 2025

FINANCIAL PERFORMANCE AS A MEASURE OF OPERATIONAL PERFORMANCE

In FY 2025-26, Nazara Technologies delivered consolidated operational revenue of ₹ 18,290 million versus ₹ 16,239 million in FY 2024-25, reflecting a sharp expansion driven by portfolio scale-up and stronger monetisation across businesses.

The growth continued to be led by core gaming, with newly consolidated and scaled assets adding to overall revenue. Strategic acquisitions, better IP monetisation, and rising traction in developed markets further strengthened the Company's diversified growth model, with gaming continuing to anchor overall performance.

YEAR-ON-YEAR SEGMENT-WISE REVENUE PERFORMANCE ANALYSIS

Gaming

Kiddopia

Kiddopia reported FY 2025-26 revenue of ₹ 190 Crores, broadly stable versus ₹ 191.8 Crores in FY 2024-25, reflecting a year focused on rebuilding subscriber momentum rather than near-term monetisation. EBITDA declined to ₹ 22 Crores from ₹ 43.7 Crores in FY 2024-25, primarily due to a planned increase in user acquisition spends - pegged to healthy unit economics - and other long-term growth investments.

The performance reflects the much-awaited resumption in subscriber growth, supported by marquee kids' IP partnerships and improved unit economics driven by Nazara's Centres of Excellence.

Animal Jam

Animal Jam delivered a steady performance in FY 2025-26, with revenue rising to ₹ 108 Crores versus ₹ 104.9 Crores in FY 2024-25. EBITDA improved to ₹ 27 Crores from ₹ 21.9 Crores in FY 2024-25, marking a 23% year-on-year increase supported by deeper integration of Nazara's CoE-led frameworks, continued deep LiveOps and content refresh cycles.

Fusebox Games

Fusebox Games delivered a strong performance in FY 2025-26, with revenue increasing to ₹ 318 Crores from ₹ 161.7 Crores in 2024-25, supported by the sustained success of Love Island and expansion into multiple IP-led titles. EBITDA improved to ₹ 68 Crores from ₹ 30.2 Crores in FY 2024-25, reflecting healthy operating performance despite periodic margin impact from a planned increase in marketing investments and seasonality. The studio's transition into a multi-IP portfolio and its contribution of ~27% to the Company's gaming revenue underscore its growing strategic importance.

Curve Games

Curve Games delivered a strong breakout performance in FY 2025-26, its first full year of consolidation into Nazara. Revenue reached ₹ 261 Crores driven by steady monetisation of its PC and console back-catalogue. EBITDA stood at ₹ 101 Crores, reflecting a high-margin profile supported by efficient publishing operations and sustained IP performance. The studio has quickly emerged as a key profitability driver within Nazara's global gaming portfolio.

Funky Monkeys

Funky Monkeys delivered strong growth in FY 2025-26, with revenue rising to ₹ 23 Crores versus its prior reported base. Growth was supported by rapid expansion across key Indian cities under a scalable, playbook-led offline entertainment model. EBITDA stood at ₹ 12 Crores, reflecting a high-margin operating structure driven by efficient centre-level economics and improved utilisation. The business continues to strengthen its position within Nazara's offline entertainment portfolio, supported by disciplined expansion and consistent unit profitability.

SMAAASH

SMAAASH delivered a stable performance in FY 2025-26 following its consolidation into Nazara from June 6, 2025. Revenue of ₹ 76 Crores was supported by steady operational recovery and improved utilisation across centres. EBITDA stood at ₹ 15 Crores, reflecting cost optimisation and early stabilisation efforts ahead of the planned 'SMAAASH 2.0' relaunch.

Others

Datawrkz (including Space & Time)

Datawrkz, along with its UK subsidiary Space & Time, delivered steady growth in FY 2025-26, with revenue rising to ₹ 454 Crores from ₹ 346 Crores in FY 2024-25. EBITDA increased to ₹ 26 Crores from ₹ 20 Crores in FY 2024-25, up 32% year-on-year, supported by improving revenue mix and operational efficiencies. The year marked a shift towards higher-margin, tech-enabled offerings, strengthening the long-term profitability of Nazara's adtech segment.

Sportskeeda (Absolute Sports)

The Sportskeeda platform faced headwinds in FY 2025-26 following a Google March Core Update that impacted US organic traffic. Revenue came in at ₹ 147 Crores. EBITDA stood at ₹ 18 Crores, reflecting continued operational efficiency despite top-line pressure. Within the Absolute Sports portfolio, other properties such as Pro Football Network (PFN) and PrimeTimer showcased rapid and profitable growth through the fiscal year. PFN recorded its best-ever annual performance since acquisition, with the Sportskeeda operating playbook driving a 28% EBITDA margin, the highest in the property's history.

NODWIN Gaming

NODWIN Gaming staged a remarkable turnaround in FY 2025-26, with revenue rising to ₹ 658 Crores from ₹ 524 Crores in FY 2024-25, supported by a fuller events calendar and continued organic expansion. EBITDA improved sharply to a profit of ₹ 21 Crores from a loss of ₹ 14 Crores in FY 2024-25, marking a significant operational recovery and margin reset. FY 2025-26 also marked a major structural shift, as NODWIN moved to an associate company following its de-subsidiarisation from Nazara Technologies.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

Advertising and promotion expenses for FY 2025-26 stood at ₹ 4,612 million compared to ₹ 3,768 million in FY 2024-25, reflecting a 22% change. This fiscal year's growth is partly driven by Kiddopia's higher marketing intensity unlocked by CoE-led optimisation across the user acquisition funnel. Advertising and promotion costs constituted 29.3% of total operating expenses in FY 2025-26, compared to 25.6% in FY 2024-25 and 17.6% in FY 2023-24.

2. Commission Expenses

Commission expenses, primarily consisting of App Store and Google Play fees, totalled ₹ 1,642 million in FY 2025-26, compared to ₹ 1,110 million in FY 2024-25. These costs represented ~9% of total revenue in FY 2025-26, against 6.8% in FY 2024-25 and 6.7% in FY 2023-24, reflecting the Company's continued investment in IAP-led and subscription-led monetisation.

Commission	1,642	1,110	47.93

3. Other Expenses

The ₹ 1,769 million other expenses in FY 2025-26 increased from ₹ 1,467 million in FY 2024-25. These costs accounted for 11% of total operating expenses, as against the previous year's 10%, as the Company expanded operations across new geographies and business units.

Other Expenses	1,769	1,467	20.59

4. Purchases, Content, Event and Web Server Costs

The ₹ 4,612 million purchase, content, event, and web server costs in FY 2025-26 declined from ₹ 5,485 million in FY 2024-25. The decline was in part due to the deconsolidation of NODWIN Gaming (traditionally, a key driver of event and content licensing costs), along with lower content and server costs from optimisation initiatives across businesses like Sportskeeda. Further savings were supported by efficiency improvements in digital infrastructure and a shift towards variable, performance-linked cost models across the portfolio.

Particulars	For the Year Ended March 31, 2026 (in ₹ million)	For the Year Ended March 31, 2025 (in ₹ million)	Change (%)
Purchases, Content, Event, and Web Server Costs	4,612	5,485	(15.92)

5. Employee Benefits

Employee-related expenses amounted to ₹ 3,145 million in FY 2025-26, up from ₹ 2,874 million in FY 2024-25, marking a 9% increase. As Nazara built an efficient and effective global workforce framework and enhanced internal capabilities across its Group companies, employee benefits represented 17.2% of revenue, compared to 17.7% in FY 2024-25.

Non-Operating Costs

(a) Finance Cost

The ₹ 225 million finance costs in FY 2025-26 increased from ₹ 99 million in FY 2024-25, reflecting a 127% rise despite lower traditional borrowings. The increase was primarily driven by the expansion of the offline gaming portfolio, including lease-related interest under Ind AS 116 from assets such as Funky Monkeys and SMAAASH. Further impact came from acquisition-related liabilities and unwinding of contingent considerations linked to the group's M&A-led growth strategy.

Particulars	For the Year Ended March 31, 2026 (in ₹ million)	For the Year Ended March 31, 2025 (in ₹ million)	Change (%)
Finance Costs	225	99	127

(b) Depreciation and Amortisation

The ₹ 2,306 million depreciation and amortisation expense in FY 2025-26 increased from ₹ 1,177 million in FY 2024-25, reflecting a 95.92% rise driven by portfolio expansion and newly consolidated assets. The increase was largely due to full-year impact of Curve Games, multi-IP game development at Fusebox Games and offline gaming assets such as SMAAASH and Funky Monkeys, where lease-related depreciation under Ind AS 116 was a major contributor. Partially offsetting this was the deconsolidation of NODWIN Gaming, which reduced depreciation in the latter part of FY 2025-26.

Depreciation and Amortisation	2,306	1,177	95.92

Consolidated EBITDA Performance: Snapshot

EBITDA grew to ₹ 2,548 million in FY 2025-26, reflecting strong profitability expansion for Nazara, driven by a decisive shift towards a high-margin, IP-led gaming portfolio. The FY 2025-26 margin profile benefitted from operating leverage and CoE-led efficiency gains in user acquisition and by portfolio restructuring, including the deconsolidation of lower-margin businesses such as NODWIN Gaming.

Cash Flow and Net Worth

The Company generated a pre-tax operating cash flow of ₹ 2,129 million in FY 2025-26, up from ₹ 1,183 million in FY 2024-25, reflecting stronger cash conversion and improved operating efficiency. Net cash from operations stood at ₹ 1,703 million in FY 2025-26 compared to ₹ 655 million in FY 2024-25, supported by disciplined working capital management. The EBITDA-to-OCF conversion improved to 84%, indicating higher-quality earnings and stronger cash generation capability. The total cash (including investments and bank deposits) position increased to ₹ 7,352 million in FY 2025-26. Overall net worth rose to ₹ 34,735 million from ₹ 28,630 million in FY 2024-25, driven by equity infusion and a stronger retained earnings base.

Cash and Cash Equivalents

The cash and cash equivalents (including investments and bank deposits) position stood at ₹ 7,352 million as of March 31, 2026, compared to ₹ 6,654 million as of March 31, 2025, reflecting a strong liquidity profile under Nazara Technologies despite deployment towards acquisitions. During the year, cash peaked at ₹ 7,548 million as of September 30, 2025, before moderating by year-end due to investments and acquisition-related outflows. The movement reflects strong operating cash generation, with pre-tax OCF of ₹ 2,129 million and high cash conversion efficiency of 84%, supporting sustained internal funding capability. Overall liquidity remained strong, enabling continued inorganic expansion while maintaining a net cash position of approximately ₹ 7,000 million.

Statement of Key Ratios

Types of Ratios	FY 2025-26	FY 2024-25	% Change	Reasons for Change
Interest Coverage Ratios (Times)	3.01	8.83	(65.94%)	Reduction in ratio is attributed to significant increase in finance cost (interest more than doubled) coupled with decrease in earning before interest.
Current Ratio (Times)	2.05	1.61	26.84%	Improvement in ratio is attributed to greater reduction in current liabilities as compared to the decrease in current assets.
Debt Equity Ratio (Times)	0.03	0.04	(28.05%)	Reduction in ratio is due to decrease in borrowings coupled with increase in equity during the year.
Debtors' Turnover	3.84	3.82	0.65%	Ratio is broadly in line with the previous year, as the increase in revenue from operations is proportionate to the increase in average debtors.
Operating Profit Margin	13.93	9.45	47.38%	Improvement in ratio is attributed to higher increase in operating profit (EBITDA) as compared to the increase in revenue from operations.

Types of Ratios	FY 2025-26	FY 2024-25	% Change	Reasons for Change
Net Profit Margin	3.66	3.85	(4.84%)	Marginal reduction in ratio as the increase in net profit is lower than the increase in revenue; higher finance cost offset the improvement in operating margin.
Return on Net Worth	1.93	2.18	(11.66%)	Reduction in ratio is attributed to greater increase in net worth (shareholders' funds) as compared to the increase in profit for the year.

OUTLOOK

The global gaming industry is moving into a new growth phase, shaped by wider smartphone and internet access, evolving models of player engagement, and the spread of AI through development and monetisation. In India, favourable demographics, expanding digital infrastructure, widespread 5G adoption, and a growing preference for skill-based and non-RMG formats continue to underpin the industry's long-term outlook.

Nazara is well placed to benefit from these structural tailwinds. In FY 2025-26, the Company delivered its highest-ever EBITDA, reflecting the increasing contribution of its high-margin gaming businesses and the strength of a diversified IP portfolio. The year marked a pivotal shift, with gaming now contributing 59% of revenue and 90% of EBITDA. Continued investment in CoE across user acquisition, AI, data analytics, and product management has further sharpened execution and improved operating leverage across the portfolio.

The proposed acquisition of Bluetile and BestPlay is a defining step in Nazara's global growth. With the full-year integration of Curve Games, the expansion of Animal Jam, and the scaling of offline brands such as Funky Monkeys and SMAAASH, the Company is steadily building a multi-format gaming business of global reach. Integrating AI-driven capabilities and shared technology platforms is expected to unlock further efficiencies and accelerate innovation across the Company's businesses.

Looking ahead, Nazara will continue to deepen monetisation across its owned IPs, strengthen cross-portfolio synergies, and pursue disciplined inorganic growth. Backed by a strong liquidity position, healthy cash generation, and a proven acquisition and integration framework, the Company is well placed to scale sustainably. Nazara's long-term ambition is to build one of the world's most valuable integrated gaming platforms to originate from India, with a portfolio spanning geographies, platforms, and generations.

RISK FACTORS

Type of Risk	Description
Platform Dependence	Significant reliance on large third-party platforms like Apple and Google for distribution and billing. Changes in their policies, terms, or web flows can directly impact business operations.
Algorithm & Traffic Risk	Vulnerability to changes in platform search algorithms, which can reduce traffic, revenue, and EBITDA, as seen in Sportskeeda's US traffic decline following Google's March Core Update.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

Type of Risk	Description
Regulatory & Policy Risk	Uncertainty around government policies and actions, which can affect operations and asset values, as seen in the RMG ban and the resulting impairment on Nazara's investment in Moonshine Technologies (PokerBaazi).
Geopolitical & Economic Risk	Exposure to global economic slowdowns and geopolitical instability, including the German and broader European slowdown, Taiwan risk, and US sanctions affecting international operations such as Freaks 4U Gaming.
Market Stagnation	The decline or stagnation of established sectors in certain regions, such as esports in Western markets (Europe and the US), which can drive layoffs and the need for business write-offs.
Integration & M&A Risk	Risks in executing integrations following acquisitions, including the ability to achieve projected synergies and the high failure rate (estimated at 70-80% for early-stage experiments) when incubating new IPs or micro-IPs.
Performance Variability	The hit-driven nature of the gaming industry, where businesses can become one-hit-wonders or face high performance variability if a title fails to gain traction.
Seasonality & Volatility	Significant quarterly and seasonal fluctuations in revenue and EBITDA, particularly in businesses such as Fusebox Games, which are tied to the launch calendars of popular TV IPs.
Operational Risks	General business risks, including the ability to manage rapid growth, attract and retain skilled professionals, and prevent time and cost overruns on contracts.
Financial & Fiscal Risk	Fluctuations in earnings, interest costs, currency gains and losses on international loans, and other fiscal costs in the economy.
Demographic Challenges	Regional issues such as an ageing crisis in Europe, which can raise the cost of managing the workforce and sizing the business to market needs.

INTERNAL CONTROL SYSTEMS

The Company has implemented internal financial controls commensurate to the scale and complexity of its operations. These controls, guided by defined policies and procedures, ensure operational discipline, asset security, and timely detection of anomalies. The Audit Committee conducts regular reviews to assess their effectiveness. During the year, M/s. MAKK & Co., Chartered Accountants, conducted an internal audit, followed by reviews to ensure implementation of key findings. The Board of Directors ensures adequate controls are in place for accurate and compliant financial reporting.

HUMAN RESOURCES

Nazara continues to build its human capital through stronger leadership, enhancement, centralised capability building, and structured workforce governance, supporting its global IP-led growth.

The Company has reinforced its leadership team with experienced professionals, including Rohit Sharma as Executive Director and Rod Cousens as Strategic Advisor. It has also strengthened leadership across key subsidiaries such as Kiddopia, Sportskeeda, and Datawrkz.

Nazara has established CoEs across user acquisition, data, product and content, and offline gaming to improve efficiency, standardisation, and scalability across its gaming portfolio.

Overall, the Company's HR strategy focuses on attracting, retaining, and developing specialised talent through structured policies, learning initiatives, and strong governance frameworks aligned with its long-term growth objectives. Nazara aims to maintain an employee attrition rate below 15% and Director-level attrition at 0%.

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES FOR THE FINANCIAL YEAR 2025-26

[Pursuant to Rule 8(1) of Companies (Corporate Social Responsibility Policy) Rules, 2014]

1. Brief outline on CSR Policy of the Company:

Recognising that business enterprises are economic organs of society and draw on societal resources, it is Nazara's belief that a company's performance must be measured by its Triple Bottom Line contribution to building economic, social and environmental capital towards enhancing societal sustainability. Nazara believes that in the strategic context of business, enterprises possess beyond mere financial resources, the transformational capacity to create game-changing development models by unleashing their power of entrepreneurial vitality, innovation and creativity. It is important for businesses not only to provide products and services to satisfy the customer, but also to ensure that the business is not harmful to the environment in which it operates. In order for an organisation to be successful, the business must be built on ethical practices.

Further, we at Nazara believe that an effective CSR strategy shall be well formulated articulated and aligned with business. It must also have the unstinting support of the key stakeholders to become a long-term sustainability agenda.

NAZARA'S VISION:

"To actively contribute to the social and economic development of the communities in which we operate and in doing so to build a better and sustainable way of life for the weaker sections of society."

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2026

[Pursuant to Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Absolute Sports Private Limited
Bangalore, Karnataka

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Absolute Sports Private Limited (CIN: U92412KA2010PTC093814) and having its registered office at 2906 and 2907, First floor, HAL 2nd Stage, 80 Feet Road, Kodihalli, H.A.L II Stage, Bangalore, Karnataka- 560008 (hereinafter called 'the Company'). The Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/ statutory compliances and expressing our opinion thereon.

Based on my verification of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2026, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minutes book, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2026 according to the provisions of:

(i) The Companies Act, 2013 (the 'Act') and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder **(Not applicable to the Company during the audit period)**;

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

(iv) The Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

(v) The following Regulations prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): -

(a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 **(Not applicable to the Company during the audit period)**;

(b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 **(Not applicable to the Company during the audit period)**;

(c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 **(Not applicable to the Company during the audit period)**;

(d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 **(Not applicable to the Company during the audit period)**;

(e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 **(Not applicable to the Company during the audit period)**;

(f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

(g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 **(Not applicable to the Company during the audit period)**;

(h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 **(Not applicable to the Company during the audit period)**; and

(i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 **(the Company being unlisted and a material subsidiary of a listed company, only limited provisions are applicable)**.

(vi) There are no laws that are specifically applicable to the Company based on their sector/ industry.

I have also examined compliance with the applicable clauses of the Secretarial Standards issued by the Institute of Company Secretaries of India with respect to Meetings of Board of Directors ('SS-1') and General Meetings ('SS-2');

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Standards, Guidelines etc. mentioned above.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice was given to all the Directors to schedule the Board/ Committee meetings held during the audit period. Agenda and detailed notes on agenda were sent in compliance with the provisions of the Act and SS-1. A system exists in the Company for obtaining further information and clarifications on the agenda items before the meeting for meaningful participation at the meeting.

All resolutions/ decisions, passed by the Board of Directors/ its Committees are approved with requisite majority and the dissenting members' views, if any are duly recorded in the respective minutes.

However, in the minutes of board meetings for the period under review, no dissents were noted and hence I have no reason to believe that decisions by the Board were not approved by all the directors present.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that the requirement of Secretarial Audit has become applicable to the Company pursuant to the provisions of Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as the Company is a **material unlisted subsidiary** of its listed parent company viz., Nazara Technologies Limited.

I further report that during the audit period, the following specific events/ actions took place:

1. Appointment of Mr. Anirudh Kumar (DIN: 08047365) as an Additional Director of the Company with effect from April 01, 2025;
2. Re-designation of Mr. Anirudh Kumar (DIN: 08047365) as a Whole-time Director of the Company with effect from April 01, 2025;
3. Resignation of Mr. Sudhir Kamath (DIN: 01861226) as a Director of the Company with effect from April 01, 2025;
4. Adoption of a new set of Articles of Association (AOA) of the Company, vide Special Resolution passed at the Extra-Ordinary General Meeting of the Members of the Company, held on April 14, 2025;
5. The Company has complied with the provisions of Corporate Social Responsibilities as per the Companies Act, 2013 and rules and regulations made thereunder;
6. Alteration of the main Object clause of the Memorandum of Association of the Company, vide Special Resolution passed at the Extra-Ordinary General Meeting of the Members of the Company held on September 04, 2025;
7. Re-appointment of Mr. Ajay Pratap Singh (DIN: 10077780), Director, liable to retire by rotation, at the Annual General Meeting held on September 29, 2025;
8. M/s. M S K C & Associates LLP, Chartered Accountants (Firm Registration No. 001595S) were appointed as Statutory Auditors of the Company vide ordinary resolution passed at the 15th Annual General Meeting ('AGM') for a period of five consecutive years till the conclusion of 20th AGM to be held in the year 2030, in the place of M/s. CORPORATE GOVERNANCE REPORT

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Effective Corporate Governance practice is about commitment to values, ethical business conduct and constitutes strong fundamentals on which a successful commercial enterprise is built to last. The process ensures that these practices are utilised in a manner that meets stakeholders' aspirations and societal expectations. It is this conviction that has led the Company to make strong corporate governance values integral to its operations. The Company has established systems and procedures based on the overview and strategic counsel of the Board and it is fully equipped to discharge its responsibilities and to provide the management the strategic direction it needs.

We believe that good Corporate Governance is much more than just complying with legal and regulatory requirements in letter. Keeping in view the above, your Company pledges to uphold the legacy of adhering to the law not only in letter but in spirit also and hereby acknowledges the responsibility and faith reposed by all the stakeholders.

Reporting of Compliance with Corporate Governance Requirements

Your Company confirms compliance with the Corporate Governance provisions as prescribed under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time ("Listing Regulations") during the financial year ended March 31, 2026 ("year under review") the details of which are as set out hereunder:

II. BOARD OF DIRECTORS

The main role and responsibility of the Board is that of trusteeship, protecting and enhancing the value of all the stakeholders. The Company believes that good Corporate Governance is a basic and fundamental requirement and condition precedent for strong over-all performance. The Board Members, Executive Management and the employees of the Company are brand ambassadors of its image and vision, who collectively act to maintain the highest standard of Corporate Governance with a responsibility to meet the expectations of the stakeholders. We firmly believe that the Board of the Company should have an appropriate mix of Executive, Non-Executive and Independent Directors to maintain its Independence, and to separate its functions of governance with that of management. Your Board represents a confluence of varied skills, experience and expertise from diverse backgrounds. The Directors possess requisite qualifications, experience and expertise in their respective functional areas, which enables them to discharge their responsibilities and provide effective leadership and act as a mentor to the management of the Company. The Board also provides direction and exercises appropriate control to ensure that the Company is managed in a manner that fulfils and boosts the morale of the stakeholders, strategic investors and the public at large.

G. Induction and Familiarisation Programme for Independent Directors

Your Company has established a comprehensive induction and familiarisation programme for newly appointed Independent Directors. This programme is meticulously designed to familiarise the Independent Directors with their roles by providing them with a deep understanding of the Company's operations, strategy, procedures and regulatory environment.

They are taken through an induction and familiarisation programme which, inter-alia, includes presentations and interactive sessions with the Managing Director, CEO, Executive Director, other functional heads. The Company Secretary briefs the Independent Directors about their legal & regulatory responsibilities as Directors.

Pursuant to Regulation 25(7) of the Listing Regulations, the Company imparted various familiarisation programmes for its Directors including periodic reviews of the Company's investments, Regulatory updates and amendments to applicable laws and SEBI Regulations at Board & Audit Committee meetings, Operational & Financial Performance of the Group, Industry outlook and business strategy discussions at Board meetings.

The details of Familiarisation Programme imparted to Independent Directors is uploaded on the Company's website at https://investors.nazara.com/content/pdfs/governance/1782799417-famiiiarisation-programe-for-independent-directors-2026.pdf.

H. Code of Conduct

The Company has adopted a Code of Conduct for the members of the Board and Senior Management, in conformity with the requirements of the Listing Regulations. All the Directors and members of Senior Management as defined in the said Code have affirmed their adherence to the provisions of the Code during the financial year ended March 31, 2026. A declaration to this effect duly signed by Mr. Nitish Mittersain, Joint Managing Director & CEO of the Company, is herewith and marked as **Annexure – I** to this Report. A copy of the Code is placed on the website of the Company at https://investors.nazara.com/content/pdfs/governance/649ab310248ee237b3fdafb1_code-of-conduct-for-board-of-directors.pdf

I. Board Procedure:

The Board meetings are generally held at the registered office of the Company in Mumbai. The Company Secretary, in consultation with the Chairman of the Board and Joint Managing Director & CEO, prepares and finalises the agenda of the Board meetings. For all major agenda items, relevant and comprehensive background information is provided along with the agenda well in advance of the date of the Board Meeting(s) to enable the Board members to take informed decisions. Any Board member may, in consultation with the Chairman and with the consent of all the Independent Directors present at the meeting, propose any matter for discussion and consideration at the Board meeting. The Senior Management Personnel are invited to the Board meetings to make presentations on relevant issues or provide necessary insights into the operations/working of the Company and corporate strategies, from time to time.

The Board/Committee meetings are pre-scheduled and a tentative annual calendar of the Board and Committee meetings is circulated to all the Directors in advance in order to facilitate them to plan their schedule and ensure participation in the meetings. However, in case of special and urgent business needs, the Board's approval is taken by passing resolution by circulation, as permitted by law, which is noted and confirmed in the subsequent Board Meeting. During the financial year 2025-26, most of the meetings of the Board were held through video conference in accordance with the provisions of law.

The Company has followed the mandatory requirements of Secretarial Standard - 1 and 2 issued by the Institute of Company Secretaries of India ("ICSI") and guidelines/circulars issued by Ministry of Corporate Affairs ("MCA"), from time to time in relation to conduct of meetings of the Board, its committees and general meetings through Video Conferencing and/or Other Audio-Visual Means.

All relevant information required to be placed before the Board as per the Listing Regulations is considered and taken on record/approved by the Board. The Board reviews and guides the Company in strategic matters, risk management and oversees the process of disclosure and communications to maintain the highest standards of ethical conduct and integrity. Additionally, the Board periodically reviews Compliance Reports in respect of various laws and regulations applicable to the Company.

J. Independent Directors' Meeting & Board Evaluation Process

Regulation 25 of the Listing Regulations, Schedule IV of the Act and the Rules made thereunder mandate the Independent Directors of the Company to hold at least one meeting in a year, without the attendance of non-independent directors and members of the management. The main objective of such meetings is to evaluate the performance of the chairman, the non-independent directors and the overall performance of the board and its committees by the independent directors.

At the said meeting, apart from conducting performance evaluation, the Independent Directors assessed the quality, quantity and timeliness of flow of information between the Company's management and the Board, that is necessary for the Board to perform their duties effectively and reasonably.

The parameters for evaluation of performance of the Board and Board Committees includes the structure and composition, contents of agenda for the meeting, quality and timeliness of information provided, decision-making process and review thereof,

attention to the Company's long-term strategic issues, evaluation of strategic risks, overseeing and guiding major plans of action, corporate restructuring, acquisitions, divestment, etc. The outcome of the evaluation exercise was discussed at a subsequent board meeting. The Board has also expressed satisfaction with the evaluation process.

III. COMMITTEES OF THE BOARD

The Board Committees are pivotal in fortifying the governance framework of the Company, addressing specific areas/ activities as mandated by applicable regulations including the areas that concern the Company and need a closer review, with precision and expertise. Majority of the members constituting these Committees are Independent Directors or the Committee(s) are chaired by an Independent Director, thereby ensuring objectivity, integrity and transparency in deliberations. Each Committee operates under Terms of Reference which provide for its scope, powers, duties and responsibilities.

30. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, and approach to adapt or mitigate the risk along with its financial implications, as per the following format

S. no.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
1.	Governance	Risk	Governance is critical to Nazara as it strengthens the Company's ability to create long-term value for shareholders, protect its reputation, and comply with legal and regulatory requirements.	• **Transparency Governance:** Ensures clarity and accountability in decision-making processes through open and responsible governance practices • **Ethical Standards:** Upholds high ethical standards across the Company's operations, reinforcing integrity and responsible conduct • **Stakeholder Interests:** Balances the interests of shareholders, customers, employees, and the community • **Proactive Risk Management:** Identifies potential risks early and implements appropriate measures to minimise their impact • **Building Stakeholder Trust:** Strengthens stakeholder confidence through responsible governance practices • **Sustainable Growth:** Promotes long-term, sustainable growth by integrating effective governance practices into business operations	**Negative:** Failure to adhere to governance regulations can result in financial fines, penalties, and a damaged reputation. Additionally, ethical concerns, even when not regulatory in nature, can adversely affect the Company's reputation.
2.	Data Privacy	Risk	Data privacy is vital for the Company as it helps uphold customer trust, meet legal and regulatory obligations, and safeguard against financial and reputational risks associated with data breaches or unauthorised access to personal information.	• **Robust Security Measures:** Implement comprehensive security protocols to safeguard data • **Regular Audits:** Conduct frequent security audits to identify and address vulnerabilities • **Risk Assessments:** Perform ongoing risk assessments to consistently identify emerging threats • **Employee Awareness and Training:** Educates employees on data privacy practices and promotes responsible handling of information	**Negative:** A data privacy breach can lead to legal fines, customer attrition, and significant remediation costs. It can also damage the Company's reputation and compromise its security standing.

BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (CONTD.)

S. no.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
3.	Regulatory Approvals	Risk	Operating in a highly regulated industry implies that the failure to secure required regulatory approvals can delay product launches, increase compliance costs, damage reputation, and expose the Company to potential legal and financial penalties.	• **Regulatory Adherence:** Ensures compliance with applicable laws, regulations, and industry requirements. • **Regulatory Collaboration:** Engages with regulatory authorities to facilitate timely approvals • **Approval Management:** Ensure that all necessary regulatory approvals are secured within stipulated timelines	**Negative:** Non-compliance with regulatory requirements can lead to substantial legal and financial penalties, including fines, sanctions, and potential suspension of operations.
4.	Talent attraction and retention	Risk and Opportunity	The Company fosters a positive work environment emphasising employee development, competitive salaries, benefits, and a culture of innovation. This strengthens talent attraction and retention, supporting long-term success and growth. However, challenges in retaining key employees could lead to loss of crucial knowledge and expertise, limiting innovation and reducing productivity and efficiency.	• **Supportive Workplace Culture:** Creates an inclusive and encouraging work environment that enables employees to perform effectively • **Employee Development:** Promotes professional development through opportunities to enhance skills and capabilities • **Recognition:** Acknowledges employee achievements and contributions • **Employee Engagement:** Encourages active involvement and commitment among employees	**Negative:** Elevated employee turnover, particularly in specialised roles, can increase recruitment and training costs, impacting the Company's financial performance
5.	Employee Health, Safety, and Well-being	Risk	Employee safety and well-being remain a priority, as employees are the Company's most valuable asset. Accordingly, the Company actively evaluates and manages health and safety risks across its operations.	• **Safety-First Approach:** Embeds safety as a core priority across all operations • **Employee Well-being Initiatives:** Implements various initiatives to support employee health and overall well-being • **Health Awareness Initiatives:** Conduct programmes to promote awareness about health and wellness	**Positive:** Prioritising employee health, safety, and well-being can reduce accident and illness-related costs, enhance productivity and profitability, and strengthen talent attraction and retention.
6.	Product and Service Stewardship	Opportunity	Product and service stewardship creates significant opportunities by aligning with sustainability principles, strengthening brand value, driving innovation, engaging stakeholders, attracting investors, and managing risks. By embracing stewardship, the Company can lead responsibly in the gaming and entertainment industry while contributing to a more sustainable future.	NA	**Positive:** Strengthening product and service stewardship can help the Company create long-term value for stakeholders, including customers, investors, and the environment, supporting profitability and financial sustainability over time.

S. no.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
7.	Climate Change	Risk	The IT, gaming, and technology sectors are key energy consumers and carbon emitters. In addition, climate change, especially extreme weather events, can disrupt Company operations and affect employee safety and well-being. Transition-related economic disruptions can also affect the Company's growth and profitability.	• **Energy Consumption Assessment:** Evaluate current energy usage to identify areas for improvement • **Adoption of Efficient Energy Sources:** Transition towards more energy-efficient sources • **Stakeholder Awareness:** Promote awareness of energy efficiency among stakeholders	**Negative:** Climate change can increase operational costs by impacting infrastructure, data centres, and gaming servers through rising temperatures and extreme weather events. Additionally, climate-related risks such as natural disasters can result in increased insurance costs for businesses.
8	Customer Centricity/ Customer Satisfaction	Risk & Opportunity	Failure to meet customer needs and preferences could reduce customer satisfaction, drive customers to competitors and reduce market share. Conversely, clear, precise, and transparent marketing communications and service explanations strengthen customer relationships, enhance trust, and improve loyalty, and create opportunities for growth.	• **Customer-Centric Strategies:** Develops initiatives aligned with customer expectations and evolving requirements • **Listen to Feedback:** Actively gathers and incorporates customer feedback to enhance offerings and services • **Personalised Customer Experiences:** Creates tailored experiences to better address individual customer preferences • **Improve Customer Support:** Enhances support mechanisms to better assist customers • **Innovation-Led Growth:** Regularly innovate to adapt to evolving customer needs	**Positive:** Enhancing customer satisfaction and loyalty can improve profitability, create business opportunities, and support long-term financial growth. **Negative:** Customer attrition can reduce market share and revenue, while customer dissatisfaction can negatively impact the Company's reputation.
9	Waste Management	Risk	The rapid growth of the gaming industry has also increased its environmental impacts through reliance on mined metals and plastic in electronics, substantial energy consumption for game consoles, and growing concerns relating to e-waste	• **Plastic Waste Reduction:** Implements measures to minimise plastic waste • **Sustainable Paper Usage:** Encourages the use of recyclable paper products across operations • **Visual Aids:** Uses visual aids to promote responsible waste management practices • **Replace PET Bottles:** Moves towards alternatives to PET plastic bottles to support waste reduction efforts • **Paper Shredders:** Utilises paper shredders to enable efficient recycling of paper waste • **Waste Separation:** Categorises waste into biodegradable and non-biodegradable categories for effective disposal and management	**Negative:** Non-compliance with recycling and circular economy regulations can result in financial penalties and reputational damage

INDEPENDENT AUDITOR'S REPORT

To the Members of Nazara Technologies Limited

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying standalone financial statements of Nazara Technologies Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive loss), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including material accounting policy information and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its loss (including other comprehensive loss), changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTER

We draw attention to Note 5 of the accompanying standalone financial Statement, which describes the recognition of impairment loss of ₹ 98,894 Lakhs on investment in one of the associate company due to prohibition in offering of online money games pursuant to the enactment of the Promotion and Regulation of Online Gaming Act, 2025

Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

IMPAIRMENT ASSESSMENT OF INVESTMENTS IN AND LOANS TO SUBSIDIARIES AND ASSOCIATES

As described in Note 5 to the standalone financial statements, carrying value (net of impairment) of investment in subsidiaries and associates as at March 31, 2026 is ₹ 1,34,038 Lakhs respectively. Further, the Company has given loans amounting to ₹ 25,143 Lakhs as at March 31, 2026 to such entities as given in note 6 to standalone financial statements.

The management has noted impairment indicators in few of these entities as Company's share in net asset is lower than carrying value of investment as at March 31, 2026. In view of the above, the Management of the Company has carried out an impairment testing for these identified investments using discounted cash flow model. Key assumptions used in management's assessment include estimates of future financial performance, terminal value and discount rates, amongst others, as attributable to such subsidiaries and associate. Based on the management's assessment, impairment loss of ₹ 1,07,896 Lakhs has been recognized on investment in subsidiaries and associates as at March 31, 2026. Further, the management has recorded an impairment of ₹ 33 Lakhs towards loans given to an entity as at March 31, 2026.

INDEPENDENT AUDITOR'S REPORT (CONTD.)

Considering the materiality of the amounts involved and significant degree of judgement involved in the estimates and key assumptions used in determining recoverable amount of aforesaid investments and loans given, we have considered this matter as key audit matter.

HOW THE KEY AUDIT MATTERS WAS ADDRESSED IN OUR AUDIT

Our audit procedures in respect of assessing the carrying value of investments & loans in Subsidiaries and Associates are included below:

- Obtained an understanding of management's impairment process and evaluated the design and tested operating effectiveness of controls over the impairment assessment.
- Obtained the impairment analysis carried out by the management including report of external independent valuation expert, where used and internal valuation workings.
- Assessed the professional competence, objectivity, and capabilities of the external independent valuation expert, wherever, engaged by the management.
- Assessed the methodology used by the management to estimate the recoverable value of investment and loans to subsidiaries and associates. Reconciled the cash flow projections used in the impairment assessment to business plans of the management.
- In few cases, engaged auditor's expert to validate the reasonableness of assumptions such as discount rates, terminal growth rate and methodology used by the management.
- Tested the arithmetical accuracy and sensitivity analysis performed by management of key assumptions such as discount and growth rates; and
- Assessed the appropriateness of disclosures made in the standalone financial statements in accordance with the requirements of applicable Indian Accounting Standards.

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors are responsible for the other information. The other information comprises the Director's report, Management discussion and analysis, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it become available and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Director's report, Management discussion and Analysis, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors of the Company are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Standalone Financial Statements.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid standalone financial statements.

   (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid standalone financial statements have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income/loss), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the standalone financial statements.

   (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

   (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.

   (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 2(h)(vi) below on reporting under Rule 11(g).

   (g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure C".

   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 25 to the standalone financial statements.

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

      iii. There were no amounts which are required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

      (iv) a. The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 37 (e) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

INDEPENDENT AUDITOR'S REPORT (CONTD.)

b. The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 37 (f) to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

c. Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (a) and (b) above, contain any material mis-statement.

(v) The Company has neither declared nor paid any dividend during the year.

(vi) As stated in note 37(q) to the standalone financial statement and based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year other than exception given below for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail of prior year has been preserved by the Company as per the statutory requirements for record retention.

The accounting software used for maintenance of payroll records of the Company is operated by a third-party software service provider. In the absence of "Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' (Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organisation), we are unable to comment on whether audit trail feature at application and database level of the said software was enabled and operated throughout the year for all relevant transactions recorded in the software or whether there is any instance of audit trail feature being tampered with.

3. In our opinion, according to information, explanations given to us, the remuneration paid or provided by the Company to its directors is within the limits laid prescribed under Section 197 read with Schedule V of the Act.

ANNEXURE A

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF NAZARA TECHNOLOGIES LIMITED

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of current period and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE C

ANNEXURE C TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF NAZARA TECHNOLOGIES LIMITED

[Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the Members of Nazara Technologies Limited on the Standalone Financial Statements for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

OPINION

We have audited the internal financial controls with reference to standalone financial statements of Nazara Technologies Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2026 based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI').

MANAGEMENT'S AND BOARD OF DIRECTOR'S RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions

are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

1 CORPORATE INFORMATION

Nazara Technologies Limited (the “”Company””) was incorporated in India on December 08, 1999 and is primarily engaged in providing subscription / download of games / other contents through consumer base in India and worldwide and support services to group companies. The shares of the Company were listed on the National Stock Exchange of India Limited (NSE) and the Bombay Stock Exchange Limited (BSE) from March 30, 2021. The registered office of the Company is situated at 11th Floor, Avighna house, Worli, Mumbai-400018.The CIN of the Company is L72900MH1999PLC122970. The standalone financial statement (Nazara Technologies Limited) were authorised for issue in accordance with a resolution of Board of Directors on May 12, 2026.

2 MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS

(i) Basis of preparation

The standalone financial statement comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the ‘Act’) and Companies (Indian Accounting Standards) Rules, 2015 (as amended), and other relevant provisions of the Act and presentation requirement of Division II of Schedule III to the Companies Act, 2013, Ind AS compliant schedule III. The standalone financial statements have been prepared on a historical cost convention and accrual basis, except for certain financial assets and liabilities that are measured at fair value. The Company has uniformly applied the accounting policies during the periods presented.

Monetary amounts are expressed in Indian Rupee (₹) and are rounded off to Lakhs, except for earning per share.

The Company has prepared the standalone financials statements on the basis that it will continue to operate as going concern.

The standalone financial statements correspond to the classification provisions contained in Ind AS 1, “”Presentation of Financial Statements””. For clarity, various items are aggregated in the statement of profit and loss and balance sheet. These items are disaggregated separately in the notes to the standalone financial statements, where applicable.

(ii) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised in normal operating cycle or within twelve months after the reporting period or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle or due to be settled within twelve months after the reporting period
- It is held primarily for the purpose of trading
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified period of twelve months as its operating cycle.

(iii) Use of estimates and judgements

The preparation of financial statement in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities at the date of the financial statement.

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Although these estimates are based on management's best knowledge of current events and actions, actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

The areas involving significant judgement and estimates are as follows:

a) Estimated useful life of property and equipment and intangible assets

The charge in respect of periodic depreciation/ amortisation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Management at the time the asset is acquired/ capitalised periodically, including at each financial year end, determines the useful lives and residual values of Company's assets. The lives are based on historical experience with similar assets as well as anticipation of future events, which may affect their life, such as changes in technology.

Estimation of fair value of unlisted securities

The Company follows Ind AS 109 - Financial Instruments: to determine the fair value of its investment in equity instruments using market and income approaches. The market approach includes the use of financial metrics and ratios of comparable companies, such as revenue, earnings, comparable performance multiples, recent financial rounds and the level of marketability of the investments. The selection of comparable companies requires management judgment and is based on number of factors, including comparable company sises, growth rates and development stages. The income approach includes the use of discounted cash flow model, which requires significant estimates regarding the investees' revenue, costs, and discount rates based on the risk profile of comparable companies. Estimates of revenue and costs are developed using available historical and forecasted data. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

b) Impairment in carrying value of investments in subsidiaries and associates

The Company follows Ind AS 109 - Financial Instruments: to determine the fair value of its investment in equity instruments using market and income approaches. The market approach includes the use of financial metrics and ratios of comparable companies, such as revenue, earnings, comparable performance multiples, recent financial rounds and the level of marketability of the investments. The selection of comparable companies requires management judgment and is based on number of factors, including comparable company sizes, growth rates and development stages. The income approach includes the use of discounted cash flow model, which requires significant estimates regarding the investees' revenue, costs, and discount rates based on the risk profile of comparable companies. Estimates of revenue and costs are developed using available historical and forecasted data. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

c) Recognition of deferred tax assets

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the losses can be utilised. In assessing the probability, the Company considers whether the entity has sufficient taxable temporary differences, which will result in taxable amounts against which the unused tax losses or unused tax credits can be utilised before they expire. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(iv) Revenue recognition

The Company is recording revenue from subscription of games, advertisement and sale of content on the gross amount of consideration received from customer as per Ind AS 115 "Revenue from contract with customers".

To determine whether the Company should recognise revenues, the Company follows 5-step process:

a. identifying the contract, or contracts, with a customer

b. identifying the performance obligations in each contract

c. determining the transaction price

d. allocating the transaction price to the performance obligations in each contract

e. recognising revenue when, or as, we satisfy performance obligations by transferring the promised goods or services

Revenue from operations

Revenue from subscription/ download of games/ other contents is recognised when a promise in a customer contract (performance obligation) has been satisfied, usually over the period of subscription. The amount of revenue to be recognised (transaction price) is based on the consideration expected to be received in exchange for services, net of credit notes, discounts etc. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative standalone selling price. Revenue from advertising services, including performance-based advertising, is recognised after the underlying performance obligations have been satisfied, usually in the period in which advertisements are displayed. Revenue from In-App Purchases - Company generates revenue from the sale of virtual goods within its applications through third-party platform providers that facilitate transactions with end users and charge platform fees. Revenue from In-App Purchases- Company generates revenue from the sale of virtual goods within its applications through third-party platform providers that facilitate transactions with end users and charge platform fees. Revenue is recognized at the point in time when control is transferred to the user, or over the estimated period of benefit where the performance obligation is satisfied over time.Revenue is recognized at the point in time when control is transferred to the user, or over the estimated period of benefit where the performance obligation is satisfied over time. Revenue is reported on a gross or net basis based on management's assessment of whether the Company is acting as a principal or agent in the transaction. The determination of whether the Company act as a principal or an agent in a transaction is based on an evaluation of whether the good or service are controlled prior to transfer to the customer.

Revenue is measured at the fair value of the consideration received or receivable, considering contractually defined terms of payment, and excluding taxes or duties collected on behalf of the government.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer and presented as 'Deferred revenue'. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customer's'.

Unbilled revenues are classified as a financial asset where the right to consideration is unconditional upon passage of time.

The Company determines whether the platform service provider are acting as principal or agent for the services that are sold through them. The Company ascertain the same based on the criteria such as who is the primary obligor under the contract, who has the discretion in pricing, who bears the inventory and credit risk."

Other operating revenue

Other operating revenue mainly consists of Technology platform fees, digital marketing fees, administrative & other support services provided to subsidiaries and is recognised in the period in which services are rendered. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Other income

Interest income is recorded using the effective interest rate ('EIR') method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or over a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. Interest income is included under the head "finance income" in the statement of profit and loss account.

(v) Financial instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three broad categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income (FVOCI)
- Financial assets at fair value through profit and loss (FVTPL)

Financial assets at amortised cost

A Financial assets is measured at amortised cost (net of any write down for impairment) the asset is held to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes) and The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the profit and loss. The losses arising from impairment are recognised statement of profit and loss. This category generally applies to trade and other receivables.

Financial asset at fair value through other comprehensive income (FVOCI)

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit and loss under fair value option.

The financial asset is held both to collect contractual cash flows and to sell, and The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in other comprehensive income. However, the Company recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in other comprehensive income is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVOCI debt instrument is reported as interest income using the EIR method.

Financial asset at fair value through profit and loss (FVTPL)

FVTPL is a residual category and any financial asset which does not meet the criteria for categorisation as at amortised cost or at FVOCI, is classified as at FVTPL.

All equity investments (except investment in subsidiary, associate and joint venture) included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

In addition, the Company may elect to designate an instrument, which otherwise meets amortised cost or FVOCI criteria, as FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Derecognition

When the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; It evaluates if and to what extent it has retained the risks and rewards of ownership.

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- Based on above evaluation, either

(a) the Company has transferred substantially all the risks and rewards of the asset, or

(b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset."

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise

the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a bases that reflect the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets which are not fair value through profit and loss and equity instruments recognised in OCI.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting dale.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss."

b) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit and loss or at amortised cost, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, borrowings and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is

treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

c) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(vi) Income tax

Income tax expense comprises current and deferred tax. It is recognised in the Statement of profit and loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i) Current tax

Provision for current tax is made under the tax payable method, based on the liability computed, after taking credit for allowances and exemptions as per the provisions of Income Tax Act, 1961. Company has opted for lower tax regime as per 115BAA, accordingly the income tax is computed.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences and the carry forward of any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(vii) Property and equipment

All items of property and equipment are initially recorded at cost. Cost of property and equipment comprises purchase price, non-refundable taxes, levies, and any directly attributable cost of bringing the asset to its working condition for the intended use. After initial recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property and equipment. The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property and equipment are eliminated from standalone financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of property and equipment and gains or losses arising from disposal of property and equipment are recognised in statement of profit and loss in the year of occurrence.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets. Useful lives (except computer equipment's) used by the Company are different from rates prescribed under Schedule II of the Companies Act 2013. These rates are based on evaluation of useful life estimated by the management supported by internal technical evaluation. The useful lives of the property and equipment are as follows:

Nature of assets	Useful life
Furniture and fixtures	5 years
Office equipment	3 years
Computer equipment	3 years
Vehicles	3 years
Leasehold improvement	Over the period of contract

(viii) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding the amount at which research are not capitalised and the related expenditure is charged to Statement of profit or loss in the period in which the expenditure is incurred.

Intangible assets are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Company amortised intangible assets (Zeptolab-IP Rights) over the period of 6 years, as the Company expects to generate future benefits from the given assets for a period of 6 years

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

The amortisation expense on intangible assets is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Nature of assets	Useful life
Computer software	3 years
Zeptolab-IP Rights	6 years
Fau G game	6 years

(ix) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The impairment calculations are based on detailed budgets and forecast calculations for each of the Company's CGUs covering a period of five years and applying a long-term growth rate to project future cash flows after the fifth year. Impairment losses of operations are recognised in the statement of profit and loss.

At each reporting date if there is an indication that previously recognised impairment losses no longer exist or have decreased, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed in the statement of profit and loss only to the extent of lower of its recoverable amount or carrying amount net of depreciation considering no impairment loss recognised in prior periods only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

(x) Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

Company as lessee

The Company's leased assets consist of leases for building. The Company assesses whether a contract is, or contains lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether the Company has right to:

a. Obtain substantially all the economic benefits from use of the identified asset through the period of the lease and

b. Direct the use of the identified asset

The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Company is reasonably certain to exercise that option.

The Company at the commencement of the lease contract recognises a Right-of-Use (ROU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term leases) and low-value assets. For these short term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term. Company has opted for short term exemption in case of current lease.

The cost of the ROU assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the ROU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. ROU asset are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

life of ROU assets. The estimated useful lives of ROU assets are determined on the same basis as those of property and equipment.

The Company applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets above.

For lease liabilities at the commencement of the lease, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate that the Company would have to pay to borrow funds, including the consideration of factors such as the nature of the asset and location, collateral, market terms and conditions, as applicable in a similar economic environment.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

(xi) Cash and cash equivalents

"Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

(xii) Other bank balances

Other bank balances in the balance sheet comprise of deposits with an original maturity of more than three months but less than twelve months, margin money against bank guarantee and restricted cash and cash equivalent.

(xiii) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing ·activities of the Company are segregated.

(xiv) Provisions, contingent liabilities, and contingent assets

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the current market assessments of time value of money and the risks specific to the liability. The increase in the provision due to passage of time is recognised as interest expense. The provisions are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets are not recognised in the financial statements. However disclosed only when an inflow of economic benefits is probable

(xv) Employee benefits

Post-employment benefits

The Company contributes to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 that is a defined contribution plan and contribution paid or payable is recognised as an expense in the year in which the employees render services.

The Company's obligation because of gratuity is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate future salary increases and mortality rates. Due to the complexities involved in the

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss - service costs comprising current service costs and net interest expense.

Re-measurement, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re measurements are not reclassified to profit and loss in subsequent periods. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

Short - term employee benefits

All employee benefits which are due within twelve months of rendering the services are classified as short-term employee benefits. Benefits such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service. All short-term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. The Company presents the leave as a current liability in the Balance Sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments in form of employee stock options, whereby employees render services as consideration for equity instruments (equity settled transactions).

The cost is recognised in employee benefits expense or debited to investment in subsidiary (in respect of employee stock options granted to an employee rendering services to a subsidiary), together with a corresponding increase in stock option outstanding reserves in equity over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised or an increase in investment in subsidiary for equity settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

On exercise of options by employees, the Company allots equity shares directly to the employees against the exercise price received. The amount recognised in the Share based payment reserve for the options exercised is transferred to Securities premium along with the exercise price received, net of any transaction costs.

(xvi) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss (excluding other comprehensive income) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reserve share splits (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders after taking into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

In case of a bonus issue, equity shares are issued to existing shareholders for no additional consideration. The number of equity shares outstanding before the event is adjusted for the proportionate change in the number of equity shares outstanding as if the event had occurred at the beginning of the earliest period reported. Due to increase in number of shares, earnings per share declines.

(xvii) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability - or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statement are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of financial assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(xviii) Segment reporting

In accordance with Ind AS 108, segment reporting, the Company has disclosed the segment information in the consolidated financial statements.

(xix) Investment in subsidiaries, associates, and joint venture

The Company has accounted for its investment in subsidiaries or associates or joint venture at cost less impairment. The Company assesses investments in subsidiaries, associates and joint venture for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary, associate or joint venture. The recoverable amount of such investment is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss Investment in a subsidiary or an associate or a joint venture acquired in stages are accounted after re-measuring the equity interest held up to the date on which control or significant influence was first achieved, at its fair value on date of obtaining control or significant influence.

(xx) Non-current assets held for sale

Non-current assets classified as held for sale when:

(i) They are available for immediate sale

(ii) Management is committed to a plan to sell

(iii) It is unlikely that significant changes to the plan will be made or that the plan will be withdrawn

(iv) An active programme to locate a buyer has been initiated

(v) The asset is being marketed at a reasonable price in relation to its fair value, and

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

(vi) A sale is expected to complete within 12 months from the date of classification

Non-current assets classified as held for sale are measured at the lower of:

(i) Their carrying amount immediately prior to being classified as held for sale in accordance with the Companies accounting policy; and

(ii) Fair value less costs of disposal.

(xxi) Foreign currency transactions and balances

i. Functional currency

The financial statements are presented in Indian Rupees (₹), which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

ii. Transactions and translations

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following: Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the financial statement of the reporting entity. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in OCI or profit or loss, respectively)."

(xxii) Standards issued but not yet effective

The Ministry of corporate Affairs (""MCA"") notified amendments on May 07, 2025 and August 13, 2025 under the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which is effective from annual reporting periods beginning on or after April 01, 2025.

(a) Amendment to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangement:

The amendments to Ind AS 7 'Statement of Cash Flows' and Ind AS 107 'Financial Instruments: Disclosures' clarify the characteristics of supplier finance arrangements and require additional disclosures for such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The Company does not have any supplier finance arrangements during the reporting period.

(b) Amendment to Ind AS 1 - Classification of liabilities as current or non-current and non-current liabilities with covenants:

The amendment specifies the requirements for classifying liabilities as current or non-current in the balance sheet, and clarifies the following:

i) An entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period. The classification of a liability as current or non-current is unaffected by the likelihood that the entity will exercise its right to defer settlement.

ii) If an entity's right to defer settlement of a liability is subject to covenants, such covenants affect whether that right exists at the end of the reporting period only if the entity is required to comply with the covenant on or before the end of the reporting period.

iii) In case of a liability that can be settled, at the option of the counterparty, by the transfer of the entity's own equity instruments, such settlement terms do not affect the classification of the liability as current or non-current only if the option is classified as an equity instrument.

These amendments have no effect on the measurement of any items in the financial statements of the Company. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

c) Amendment to Ind AS 12 – Pillar-Two Tax Reforms

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdiction in which the Company operates.

d) Amendment to Ind AS 21-Lack of exchangeability

The Amendments introduces requirement to assess when a currency is exchangeable into another currency and when it is not. The amendment requires an entity to estimate the spot exchange rate when it concludes that a currency is not exchangeable into another currency. These amendments had no effect on the financial statements of the Company.

Amendment to Ind AS 1 'Presentation of Financial Statements'- Classification of Liabilities as current or non-current and non-current liabilities with covenants:

The amendment includes specific provisions that will take effect for reporting periods beginning on or after April 01, 2026, retrospectively, as outlined below:

a) Breach of material covenant for long-term loan arrangement on or before end of reporting period with effect that liability becomes payable on demand as on reporting date, then it shall be classified as current liability, if lender agreed after reporting period and before approval of financial statements to not demand payment as a consequence of breach.

b) Classify as non-current liability, if lender agreed by end of reporting period to provide grace period ending at least 12 months after reporting period within which entity can rectify the breach provided lender does not demand immediate repayment.

c) Disclose information about the timing of settlement to understand the impact of the liability on the financial statements.

The Company does not expect this amendment to have an impact on its operations or financial statements.

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Notes:

A One share each are held by Nominee shareholder.

B Paper Boat Apps Private Limited, allotted 9,90,450 bonus equity shares to company on March 25, 2026.

C The Company on May 07, 2025 has completed the sale of 94.86% equity stake held in Openplay Technologies Private Limited ("Openplay") to Moonshine Technology Private Limited ("Moonshine") and the consideration of ₹ 10,434 Lakhs has been discharged by Moonshine by way of issuance and allotment of its 1,99,890 Compulsory Convertible Preference Shares ("CCPS") of face value of ₹ 10 each to the Company. Upon completion of the aforesaid transaction, Openplay has ceased to be a subsidiary of the Company and has become a subsidiary of Moonshine, in which the Company currently holds a 46.07% equity stake. Additionally, the Company will hold a total of 4,87,266 Compulsorily Convertible Preference Shares (CCPS) in Moonshine, including the CCPS allotted pursuant to the said transaction.

D The Company on June 06, 2025 has allotted 1,00,00,000 equity shares of ₹ 10 each against subscription money of ₹ 1,000 Lakhs paid by the Company and consequently, the Company holds 100% of share capital of SMAAASH Entertainment Private Limited, and SMAAASH Entertainment Private Limited has become a wholly owned subsidiary of the Company; and the Company has extended an inter-corporate loan for an amount of ₹ 11,600 Lakhs to SMAAASH towards settlement of dues of its creditors.

E The Company on June 26, 2025 has infused funds aggregating to US$ 300,000/- (equivalent to approx. ₹ 260 Lakhs) in Play Venture Fund III and US$ 250,000/- (equivalent to approx. ₹ 214 Lakhs) in Fund I, a series of F4 Ventures, LP, as a Limited Partner, by way of capital commitment.

Further, Company on November 25, 2025 and February 10, 2026 has infused additional funds aggregating to US$ 100000/- ((equivalent to approx. ₹ 89 Lakhs) and US$ 1,50,428 (equivalent to approx. ₹ 136 Lakhs) respectively in Play Venture Fund III."

F On August 13, 2025, following shareholder approval at the Extraordinary General Meeting (EGM), the Company ceased to control NODWIN Gaming Private Limited (NODWIN). Accordingly, Investment in NODWIN is reclassified as an associate with effective from August 13, 2025.

G On August 21, 2025, the Parliament passed Promotion and Regulation of Online Gaming Act, 2025 ("the Gaming Act"), which inter alia prohibited the offering of online money games. The Company has investment in one of its associate, Moonshine Technology Private Limited('the associate company') and subsidiary, Halaplay Technologies Private Limited ('the subsidiary company) aggregating to ₹ 1,05,855 Lakhs and ₹ 41 Lakhs before the enactment of the Gaming Act. The sole business of the associate company and subsidiary company was to offer online money games. The notification of the Gaming Act had lead to complete cessation of it's entire operations including revenue-generating activities through online real money games. Consequently, the management of the Company has assessed the recoverable amount of these investments in accordance with the provisions of Ind AS 28 – Investments in associates and joint ventures read with Ind AS 36 – Impairment of Assets. Accordingly, the Company has recognised an impairment loss amounting to ₹ 98,894 Lakhs w.r.t. an associate and ₹ 41 Lakhs w.r.t. one of the subsidiary during the year ended March 31, 2026, which is disclosed as an exceptional item.

The corresponding deferred tax asset has not been recognised on such impairment loss as it is not probable that the sufficient taxable profits will be available against which such asset can be realised.

H On November 13, 2025, the Company acquired 2,791 equity shares of ₹ 100 each, representing 8.37% of the equity share capital of Next Wave Multimedia Private Limited (""NextWave""), for a total consideration of ₹ 500 Lakhs. Pursuant to this acquisition, the Company's shareholding in NextWave increased from 74.88% to 83.25%.

Subsequently, on December 30, 2025, the Company acquired an additional 1,396 equity shares of ₹ 100 each, representing 4.19% of the equity share capital of NextWave, from the Sellers for a consideration of ₹ 250 Lakhs. Following this acquisition, the Company's shareholding in NextWave increased from 83.25% to 87.44%.

Further, on March 31, 2026, the Company acquired 4,188 equity shares of ₹ 100 each, representing 12.56% of the equity share capital of NextWave, from the Sellers for an aggregate consideration of ₹ 750 Lakhs. Consequent to this acquisition, the Company's shareholding in NextWave increased from 87.44% to 100%, thereby making NextWave a wholly owned subsidiary of the Company."

Notes:

(a) On June 16, 2025, the Company has allotted 50,00,000 fully paid-up equity shares of face value ₹ 4 each, at a price of ₹ 990 (including premium of ₹ 986 per Share, on preferential basis by way of private placement to Axana Estates LLP ("the Allottee") for an aggregate consideration of ₹ 49,500 Lakhs.

(b) On September 15, 2025, the shareholders of the Company approved an increase of authorised share capital from ₹ 5,000 Lakhs divided into 12,50,00,000 equity shares of face value ₹ 4 each to ₹ 8,000 Lakhs divided into 20,00,00,000 equity shares of face value of ₹ 4 each by creation of additional 7,50,00,000 equity shares of face value of ₹ 4.

On September 15, 2025, the shareholders of the Company approved a) sub-division of 1 equity share of face value of ₹ 4 each, fully paid-up, into 2 equity shares of face value of ₹ 2 each, fully paid-up; and b) issue of bonus equity shares in the ratio of 1:1 i.e., 1 bonus equity share of face value ₹ 2 each for every 1 equity share of face value ₹ 2 each, fully paid up. Accordingly authorised share capital will be ₹ 8,000 Lakhs divided into 40,00,00,000 equity shares of face value of ₹ 2 each.

Pursuant to this, the Company on September 29, 2025, has allotted 18,52,32,512 bonus equity shares of ₹ 2 each, fully paid-up, in the ratio of 1:1, i.e., 1 new fully paid-up bonus equity share of face value of ₹ 2 for every 1 existing fully paid-up equity share of face value of ₹ 2, held by the eligible equity shareholders of the Company whose names appeared in the Register of Members/ Register of Beneficial Owners as on September 26, 2025.

(C) Terms / rights attached to equity shares

(i) Voting rights

The Company has only one class of equity shares having a face value of ₹ 2 per share (March 31, 2025: ₹ 4 per share). Each holder of the equity share is entitled to one vote per share, including bonus shares.

(ii) Right as to dividend

If the dividend is proposed by the Board of directors, the same is subject to approval of the shareholders in the ensuing annual general meeting, except in case of interim dividend.

(iii) Liquidation preference

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

In the event of "Liquidation Event" as defined in shareholders agreement, equity shareholders will be entitled to receive consideration or proceed on a pro rata basis in the proportions of their ownership in the total paid up capital of the Company on a fully diluted basis as defined in the AOA of the Company, after distribution of all preferential amounts.

(D) Shares reserved for issue under options

For details of shares reserved for issue under the employee stock option (ESOP) plan of the Company refer note 30.

Note:1

During the year, the Company has sub-divided its equity shares from face value of ₹ 4/- per share to ₹ 2/- per share. Consequently, the number of shares has been doubled. The comparative figures for March 31, 2025 have been restated to reflect the stock split for like-for-like comparability, in accordance with the requirements of Ind AS 33 “Earnings per Share”.

* On June 16, 2025, the Company allotted 50,00,000 equity shares of ₹ 4/- each at ₹ 990/- per share on preferential basis to Axana Estates LLP (“”Acquirer 1””) for an aggregate consideration of ₹ 49,500 Lakhs. This allotment triggered an open offer obligation under Regulations 3(1) and 4 of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011. The open offer, made jointly by Axana Estates LLP and Plutus Wealth Management LLP along with Junomoneta Finsol Private Limited (Person Acting in Concert (“”PAC””)), concluded on July 07, 2025.

Upon completion of the open offer, Axana Estates LLP and Plutus Wealth Management LLP were classified as Promoters of the Holding Company alongside the existing promoters. Further, Junomoneta Finsol Private Limited (being PAC) and Mr. Arpit Khandelwal, Mr. Mithun Padam Sacheti and Mr. Siddhartha Sacheti (being deemed PAC) were classified under the Promoter Group.

	Total contribution	**98**	**92**

During the year ended March 31, 2026, the Central Government of India has notified the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as the 'New Labour Codes'), effective from November 21, 2025, primarily impacting the wage definition to be considered for the purpose of defined benefit obligation relating to gratuity.

The new Labour Codes introduced by the Government of India, inter alia, require gratuity to be calculated based on wages constituting at least 50% of total remuneration. This has resulted in an increase in gratuity benefits in respect of services rendered in prior periods and, accordingly, the Company has recognised past service cost amounting to ₹ 44 Lakhs during the year. In accordance with Ind AS 19, the past service cost has been recognised in the statement of profit and loss in the current year in which the plan amendment became effective.

II) Defined benefit plan

(a) Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. This benefit is unfunded.

The following tables summarise the components of net gratuity benefit expense recognised in the statement of profit and loss and other comprehensive income.

(#) Zero represents amount less than ₹ one Lakh.

SUMMARY OF MATERIAL ACCOUNTING POLICIES/ ESTIMATES AND JUDGEMENTS TO THE STANDALONE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)
(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Under the ESOP 2023, stock options of the Company were granted to chief operating officer and head of corporate development of the Company. The share options vests as per the vesting conditions specified in the grant letter, if employees are in service until the end of the vesting period.

The fair value of the share options was estimated at the grant date using Black Scholes pricing model and taking into account the terms and conditions upon which the share options were granted.

The contractual term of each option granted (comprising the vesting year and the exercise year) is 8 year. There are no cash settlement alternatives. The Company does not have a past practice of cash settlement for these share options.

ESOP 2025

Under the ESOP 2025, stock options of the Company were granted to whole time executive director of the Company. The scheme was established with effect from January 16, 2026. The aggregate number of equity shares which may be issued under ESOP 2025 shall not exceed 18,52,325 equity shares (i.e., 0.50% of paid-up equity capital as on the establishment date). Each equity share has a face value of ₹ 2. The share options vest over a period of 1 to 4 years from the date of grant, subject to continued employment with the Company. The exercise period is 5 years from the date of vesting while in employment.

The fair value of the share options was estimated at the grant date using the Black-Scholes pricing model, taking into account the terms and conditions upon which the share options were granted. There are no cash settlement alternatives. The Company does not have a past practice of cash settlement for these share options.

Notes:

Financial assets and liabilities include cash and cash equivalents, tax free deposits, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, eligible current and non-current assets, trade payables and eligible current liabilities and non-current liabilities. The fair value of cash and cash equivalents, trade receivables, unbilled receivables, trade payables, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. Investment in mutual funds measured using net asset values at the reporting date multiplied by the quantity held, which represents the fair value of these instruments.

32 B Fair value hierarchy for assets and liabilities

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The Company categorises assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

i) Level 1

Quoted (unadjusted) prices in active markets for identical assets or liabilities.

ii) Level 2

Other techniques for which all inputs which have a significant effect on the recorded fair values are observable, either directly or indirectly.

iii) Level 3

Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The carrying amount and fair value measurement hierarchy for assets as at March 31, 2026 is as follows:

	Carrying value	Fair value	Fair value measurement using			Total
			Quoted prices	Significant observable inputs	Significant unobservable inputs	
			Level 1	Level 2	Level 3

33 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities include trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that derive directly from its operations. The Company also holds investments in mutual funds and debt instrument.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management ensures that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, mutual funds and debt investments.

(a) Equity/ investment price risk

The Company has made several strategic investments (including unlisted subsidiaries, associates and other investee companies). Some of these are start-ups (early stage) companies and others in their growth phase.

These unlisted investments are susceptible to market price risks (impairment) arising from uncertainties about the performance of the gaming and other industry in India and globally, which could impact their recoverable values. The Company manages the equity price risk through diversification and invests across several companies. The Company's Board of Directors review and pre-approve all such decision to invest. In addition, at the reporting date, the exposure to unlisted equity securities in non-current and current investments are reviewed and evaluated by the Board. In specific, the Board review and evaluates the unobservable inputs (i.e. long-term growth rates and weighted average cost of capital), cash flow projections for future periods, actual performance when compared to cash flow projections approved by respective entities Board of Directors.

(b) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and the Company's net investments in foreign subsidiaries.

The Company did not enter into any derivative instruments for hedge or speculation. The year end foreign currency exposures are given below:

Amounts receivable in foreign currency on account of the following:

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure.

Trade receivables

Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customer. Credit risk is being managed by each business segment through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

On account of adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account factors such as default risk of industry, historical experience for customers etc. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

At March 31, 2026 and March 31, 2025 receivables (including unbilled) from Company's top 5 customers accounted for approximately 34.37% and 63.30%, respectively of all the receivables (including unbilled) outstanding. As at March 31, 2026 receivable (including unbilled) from one customer accounted for 8.89% of all receivable (including unbilled) outstanding (March 31, 2025: 24.26%).

The Company evaluates that there exists concentration of risk with respect to trade receivables due to its dependency on limited numbers of customers for a significant portion of receivables outstanding.

Ageing of trade receivable (net of provision for expected credit loss) is as follows:

Number of days outstanding	As at March 31, 2026	As at March 31, 2025
Not due	1,579	1,065
Less than 6 months	85	276
6 months to 1 year	162	208
1 to 2 years	130	225
2 to 3 years	218	34
More than 3 years	220	186
Total	**2,395**	**1,994**

Movement of expected credit loss is as follows:

	As at March 31, 2026	As at March 31, 2025
Opening	293	293
Provision made during the year	120	-
Provision reversed / utilised during the year	-	-
Closing	**413**	**293**
Net	**1,981**	**1,701**

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Management. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the balance sheet at March 31, 2026 and March 31, 2025 is the carrying amounts.

3) Liquidity risk

Liquidity risk is the risk that the Company will not be able to settle or meet its obligations as they fall due. The Company's policy on liquidity risk is to maintain sufficient liquidity in the form of cash and investment in liquid mutual funds to meet the Company's operating requirements with an appropriate level of headroom. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

INDEPENDENT AUDITOR'S REPORT

To the Members of Nazara Technologies Limited

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying consolidated financial statements of Nazara Technologies Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), and its associates, which comprise the Consolidated Balance Sheet as at 31 March 2026, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of reports of other auditors on separate financial statements and on the other financial information of subsidiaries, and associates, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of their consolidated state of affairs of the Group and its associates as at 31 March 2026, of consolidated profit (including other comprehensive income),consolidated changes in equity and its consolidated cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by Institute of Chartered Accountant of India, and the relevant provisions of the Act and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained and the audit evidence obtained by other auditors in terms of their reports referred to in the "Other Matter" section below, is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTER

a. We draw attention to Note 5.1(b) to the consolidated financial statement which describes the recognition of impairment loss of Rs 91,470 Lakhs on investment in one of the associate company due to prohibition in offering of online money games pursuant to the enactment of the Promotion and Regulation of Online Gaming Act, 2026.

   Our opinion is not modified in respect of this matter.

b. We draw attention to Note 31(B)(c) and 41(B)(d)(i) to the consolidated financial statements which describes the details and uncertainties regarding the matters related to Goods and Service Tax with respect to one subsidiary of Holding Company and four subsidiaries of the associate of the Holding Company, where in the show cause notice (SCN) amounting to Rs. 27,421 Lakhs for the subsidiary and, Rs. 84,572 Lakhs, Rs. 12,364 Lakhs, Rs.33,318 Lakhs, and Rs 9,06,652 Lakhs respectively for the subsidiaries of an associate have been received by them, in respect of which no adjustments have been made in accompanying consolidated financial statements.

   Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended 31 March 2026. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

IMPAIRMENT ASSESSMENT OF GOODWILL AND ACQUIRED INTANGIBLE ASSETS

As described in Note 4A & 4B to the consolidated financial statements, carrying value of goodwill and acquired intangible assets as at 31 March 2026 is Rs 79,466 Lakhs, Rs 49,232 Lakhs respectively.

The management has noted impairment indicators in respect of few cash generating units (CGUs) on account of Company's share in net asset value of these CGUs being lower than the carrying value goodwill and acquired intangible assets in these CGUs as at 31 March 2026.

In view of the above, management's assessment of impairment of goodwill and acquired intangible assets requires estimation and judgement with respect to certain inputs used and

assumptions made to prepare the forecasted financial information of these CGUs, which is used to calculate the recoverable value of the goodwill and acquired intangible assets, using discounted cash flow model.

Key assumptions used in management's assessment include estimates of future financial performance, terminal value, and discount rates, among others, as attributable to such CGUs. Based on the management's assessment and change in regulatory environment, impairment loss of Rs. 91,470 Lakhs has been recognized during the current year

Considering the materiality of the amounts involved and significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, we have determined evaluation of need for impairment of goodwill and acquired intangible assets as a key audit matter.

HOW THE KEY AUDIT MATTERS WAS ADDRESSED IN OUR AUDIT

Our audit procedures in respect of assessing the carrying value of goodwill and other in tangible assets are included below:

- Obtained an understanding of management's impairment process and evaluated the design and tested operating effectiveness of controls over the impairment assessment.
- Obtained the impairment analysis carried out by the management including report of external independent valuation expert, where used, and internal valuation workings.
- Assessed the professional competence, objectivity and capabilities of the external independent valuation expert, wherever, engaged by the management.
- Assessed the methodology used by the management to estimate the recoverable value of each CGU. Reconciled the cash flow projections used in the impairment assessment to business plans of the management.
- In few cases, engaged auditor's expert to validate the reasonableness of assumptions such as discount rates, terminal growth rate and methodology used by the management.
- Tested the arithmetical accuracy and sensitivity analysis performed by management of key assumptions such as discount and growth rates.
- Assessed the appropriateness of disclosures made in the consolidated financial statements in accordance with the requirements of applicable Indian Accounting Standards.

ASSESSMENT OF LOSS OF CONTROL OVER SUBSIDIARY AND RELEVANT ACCOUNTING IMPLICATION

As described in Note 45 to the consolidated financial statements, the loss of control over Subsidiary (Nodwin Gaming Private Limited) was identified as a Key Audit Matter as the assessment of whether the Company continues to exercise control or has reduced its interest to significant influence required significant judgement in accordance with Ind AS 110 Consolidated Financial Statements and Ind AS 28 Investments in Associates and Joint Ventures.

This involved evaluating factors such as changes in voting rights, governance and board representation, contractual arrangements, and the nature of rights retained/relinquished. Further, the accounting consequences of de-subsidiarisation required the determination of the fair value of the retained investment on the date of loss of control, derecognition of assets and liabilities of the subsidiary, and recognition of any resultant gain or loss in the consolidated statement of profit and loss.

These involved significant estimation uncertainty and reliance on valuation models and key assumptions. Given the level of judgement involved in the assessment of control, the determination of fair value, and the material impact of the transaction on the consolidated financial statements, this matter was considered to be significant to our audit and has therefore been identified as a Key Audit Matter.

HOW THE KEY AUDIT MATTERS WAS ADDRESSED IN OUR AUDIT

Our audit procedures include the following:

- Obtained and evaluated relevant shareholder agreements, board resolutions, and other contractual arrangements to understand changes in rights, governance, and decision-making powers relating to Nodwin.
- Assessed management's determination of whether control was lost in accordance with Ind AS 110 Consolidated Financial Statements, including evaluation of voting rights, board representation, and substantive versus protective rights.
- Evaluated whether, upon loss of control, the Company's continuing involvement represents significant influence under Ind AS 28 Investments in Associates and Joint Ventures.
- Tested the accounting treatment for deconsolidation, including derecognition of assets and liabilities, non-controlling interests, and goodwill, and reclassification in the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTD.)

- Evaluated the fair value of the retained investment using management's valuation model, including assessment of key assumptions such as discount rates, growth projections, and market multiples.
- Recomputed the gain or loss arising on loss of control and verified the accuracy of journal entries recorded in the consolidated financial statements.
- Assessed the adequacy and appropriateness of disclosures relating to the transaction, including significant judgements and estimates.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report and Management Discussion and Analysis but does not include the consolidated financial statements and our auditor's report thereon.

The Director's report and Management Discussion and Analysis is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Director's report and Management Discussion and Analysis, and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for overseeing the financial reporting process of each company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Consolidated Financial Statements.

OTHER MATTERS:

a. We did not audit the financial statement of 20 subsidiaries, whose financial statements reflect total assets of Rs.1,57,390 Lakhs as at 31 March 2026, total revenues of Rs. 1,13,393 Lakhs, net profit after tax of Rs. 9,594 Lakhs, total comprehensive income of Rs. 8,561 Lakhs and net cash outflows amounting to Rs. 395 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

   We did not audit the financial statements of 1 associate, whose financial statements reflect Group's share of net loss after tax of Rs. 23,308 Lakhs, and Group's share of total comprehensive loss of Rs. 21,905 Lakhs for the year ended 31 March 2026, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these associates and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid associates is based solely on the reports of the other auditors.

   Certain of these subsidiaries (including 1 associate of step-down subsidiary) are located outside India whose financial statements have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India.

   We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries, located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

b. We did not audit the financial statements of 7 subsidiaries whose financial statements reflect total assets of Rs 7,541 Lakhs as at 31 March 2026, total revenues of Rs. 27 Lakhs, net profit after tax of Rs. 211 Lakhs, total comprehensive income of Rs. 211 Lakhs and net cash outflows amounting to Rs. 213 Lakhs for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit after tax of Rs. 1 Lakh and total comprehensive income of Rs. 1 Lakh for the year ended 31 March 2026 as considered in the consolidated financial statements, in respect of 1 associate whose financial statements have not been audited by us. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries and associate, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

   Our opinion on the consolidated financial statements is not modified in respect of the above matters.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries and associates referred to in the Other Matters section above, we report, to the extent applicable, that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor, except that back-up of the books of account and other books and papers maintained in electronic mode by 2 subsidiaries has not been kept in servers physically located in

INDEPENDENT AUDITOR'S REPORT (CONTD.)

India on a daily basis. Further, in the absence of sufficient appropriate audit evidence in respect of 3 subsidiaries, we are unable to comment whether back-up of the books of account and other books and papers maintained in electronic mode have been kept in servers physically located in India on a daily basis.

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

(d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2026 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and associate companies incorporated in India, none of the directors of the Group companies, its associate companies incorporated in India are disqualified as on 31 March 2026 from being appointed as a director in terms of Section 164(2) of the Act.

(f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 1(b) above on reporting under Section 143(3)(b) and paragraph 1(h)(vi) below on reporting under Rule 11(g).

(g) With respect to the adequacy of internal financial controls with reference to consolidated financial statements of the Group and its associate companies incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure B".

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements and the other financial information of the subsidiaries and associates referred to in the Other Matters section above:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its associates – Refer Note 31 and 41(B)(d) to the consolidated financial statements.

ii. The Group and its associates did not have any material foreseeable losses on long-term contracts including derivative contracts.

iii. There are no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies and associate incorporated in India.

iv. a. The respective Managements of the Holding Company and its subsidiaries and associates which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries and associates respectively that, to the best of their knowledge and belief, as disclosed in the Note 42(viii) to the consolidated financial statements, no funds have been advanced or loaned (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries or associates to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries or associates ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

b. The respective Managements of the Holding Company and its subsidiaries and associates which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries and associates respectively that, to the best of their knowledge and belief, as disclosed in the Note 42(ix) to consolidated financial statements, no funds have been received by the Holding Company or any of such subsidiaries or associates from any person(s) or entity(ies), including foreign entities, with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries or associates shall, directly or indirectly, lend or

invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

c. Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries and associates which are companies incorporated in India whose financial statements have been audited under the Act, and according to the information and explanations provided to us by the Management of the Holding company in this regard nothing has come to our or other auditors' notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material mis-statement.

(v) The Holding Company, its subsidiaries and associates have not declared or paid any dividend during the year ended 31 March 2026.

(vi) As stated in Note 42(xii) to the consolidated financial statements and based on our examination which included test checks, and based on the other auditor's reports of its subsidiary companies and associate company incorporated in India whose financial statements have been audited under the Act, except for the instances mentioned below, the Holding Company, its subsidiary companies and associate company incorporated in India have used accounting software for maintaining their respective books of account for the year ended 31 March 2026, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, and further, during the course of audit we and the other auditor of the above referred subsidiaries and associate did not come across any instance of audit trail feature being tampered with. Further, except for the instance mentioned below, the audit trail of the prior year has been preserved by the Holding Company, its subsidiary companies and associate company as per the statutory requirements for record retention.

The accounting softwares used for maintenance of payroll records of the Holding Company and 4 subsidiaries are operated by third-party software service providers. In the absence of the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organisation), we are unable to comment on whether audit trail feature at application and database level of the said softwares was enabled and operated throughout the year for all relevant transactions recorded in the softwares or whether there is any instance of audit trail feature being tampered with.

In case of 1 subsidiary, the accounting software having the feature of recording audit trail (edit log) facility was implemented with effect from 1 April 2025. Consequently, the audit trail in respect of the prior year was not recorded and accordingly has not been preserved by the said subsidiary as per the statutory requirements for record retention.

2. In our opinion, according to information, explanations given to us the remuneration paid or provided by the group and its associate companies to its Directors is within the limits laid prescribed under section 197 read with Schedule V of to the Act and the rules thereunder.

ANNEXURE A

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NAZARA TECHNOLOGIES LIMITED.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the year ended 31 March 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NAZARA TECHNOLOGIES LIMITED

[Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the Members of Nazara Technologies Limited on the Consolidated Financial Statements for the year ended 31 March 2026]

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

OPINION

In conjunction with our audit of the consolidated financial statements of the of the Company as of and for the year ended 31 March 2026, we have audited the internal financial controls reference to consolidated financial statements of the Nazara Technologies Limited (hereinafter referred to as "the Holding Company") which includes the internal financial controls over financial reporting of the Holding Company's and its subsidiary companies (Holding Company and its subsidiaries together referred to as "the Group"), and its associate companies, which are companies incorporated in India, as of that date.

In our opinion, and to the best of our information and according to the explanations given to us ,the Holding Company, its subsidiary companies, and its associate companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI").

MANAGEMENT'S AND BOARD OF DIRECTOR'S RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The respective Management and the Board of Directors of the Group , its Subsidiary companies, and its associate companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note issued by the ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company and its Subsidiary Companies, and its associate companies, incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary companies and its associate companies , which are companies incorporated in India.

ANNEXURE B (CONTD.)

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OTHER MATTERS

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to 1 subsidiary company, which is company incorporated in India, is based on the corresponding reports of the auditor of such company incorporated in India.

Our opinion is not modified in respect of this matter.

(*) Issued equity shares for acquisition of Investments totalling ₹ Nil (March 31, 2025 ₹ 19,591 Lakhs)

Nature and purpose of reserves:

1) Capital redemption reserve

Capital redemption reserve was created on buyback of equity shares of the Group in accordance with Provisions of Companies Act, 2013.

2) Securities premium

Securities premium reserve is used to record premium on issue of shares. The reserve is utilised in accordance with provisions of Companies Act, 2013.

3) General reserve

General reserve is referred to as the reserve fund that is created by keeping aside a part of profit earned by the business during the course of an accounting period.

4) Retained earnings

Retained earnings comprise of the Group's accumulated undistributed earnings.

5) Share options outstanding account

The Group has share option schemes under which options to subscribe for the Group's shares have been granted to certain executives and senior employees of the Group. The share-based payment reserve is used to recognise the value of equity-settled share-based payments provided to employees, including key management personnel, as part of their remuneration.

CONSOLIDATED STATEMENT OF CHANGES IN EQUITY (CONTD.)
FOR THE YEAR ENDED MARCH 31, 2026
(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

6) Capital contribution from shareholder

Share based payment made by a shareholder.

7) Statutory reserve

Reserves created as per provision of United Arab Emirates law, 10% of the profit for the year should be transferred to statutory reserves restricted to accumulated amount of AED 25,000 reserve. The reserve is not available for distribution except in the circumstances stipulated by the law.

8) Foreign currency translation reserve

The exchange differences arising from the translation of financial statements of foreign operations with functional currency other than Indian rupees is recognised in other comprehensive income and is presented within equity in the foreign currency translation reserve.

9) Debt instruments through other comprehensive income

This reserve represents cumulative gains and losses arising on the fair valuation of debt instruments at mark to market on the balance sheet date measured at FVOCI. The reserves accumulated will be reclassified to retained earnings and consolidated statement of profit and loss respectively, when such instruments are disposed.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

2.1. Basis of preparation and measurement

The consolidated financial statements of the Holding Company and its subsidiaries (hereinafter referred together as "the Group"), associates and joint venture, have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016, notified under Section 133 of the Companies Act, 2013, the relevant provisions of the Companies Act, 2013 ("the Act"), as applicable.

The consolidated financial statements have been prepared on a historical cost convention and accrual basis, except for the certain financial assets and liabilities that are measured at fair value. The Group has uniformly applied the accounting policies during the year presented.

Monetary amounts are expressed in Indian Rupee (₹), functional currency of the Holding Company, and are rounded off to Lakhs, except for earning per share. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III of Companies Act, 2013.

The Group presents assets and liabilities in the consolidated balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised in normal operating cycle or within twelve months after the reporting period or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

The Group classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle or due to be settled within twelve months after the reporting period
- It is held primarily for the purpose of trading
- Expected to be settled in normal operating cycle or within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified period of twelve months as its operating cycle.

The consolidated financial statements correspond to the classification provisions contained in Ind AS 1, "Presentation of Financial Statements". For clarity, various items are aggregated in the consolidated statement of profit and loss and consolidated balance sheet. These items are disaggregated separately in the notes to the financial statements, where applicable.

The Group has prepared the consolidated financial statements on the basis that it will continue to operate on going concern.

The accounting policies adopted are the same as those which were applied for the previous financial year.

2.2. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Group and its associates and joint venture. The consolidated financial statements have been prepared in accordance with the Indian Accounting Standard on "Consolidated Financial Statements" (Ind AS 110) and "Disclosure of Interest in Other Entities" (Ind AS 112), notified under Section 133 of the Companies Act, 2013.

2.2.1 Subsidiaries

Subsidiaries are all entities over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and could affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidation procedure

a) Combine like items of assets, liabilities, equity, income, expenses, and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the Ind AS consolidated financial statements at the acquisition date.

b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

c) Eliminate in full intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between entities of the group. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31.

2.2.2 Investments accounted for using the equity method

Investments accounted for using the equity method are entities in respect of which, the Group has:

a) Significant influence, but not control, over the financial and operating policies. Generally, a Group has a significant influence if it holds between 20 and 50 % of the voting power of another entity or / and representation on the board of directors or / and power to participate in the financial and operating policy decisions of the investee but does not have control or joint control of those policies, in accordance with Ind AS 28 Investments in Associates and Joint Ventures ('Ind AS 28').

b) Joint control, when it shares control over rights to net assets of the arrangement with one or more parties contractually and decisions about the relevant activities require the unanimous consent of the parties irrespective of shareholding percentage, in accordance with Ind AS 28.

Investments in such entities are accounted for using the equity method and are initially recognised at cost. The carrying amount of investment is increased/ decreased to recognise investors share of profit or loss of the investee after the acquisition date, except for losses in excess of Group's investment in the associate unless there is an obligation to make good those losses.

2.2.3 Non-controlling interest

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Group's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interest's proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-to-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interest is the amount of those interests at initial recognition plus the non-controlling interest's share of subsequent changes in equity. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

2.3. Significant judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities at the date of the consolidated financial statements and the results of operations during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

The areas involving significant judgement and estimates are as follows:

2.3.1 Estimated useful life of property, equipment and intangible assets

The charge in respect of periodic depreciation/ amortisation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Management at the time the asset is acquired/ capitalised periodically, including at each financial year end, determines the useful lives and residual values of Group's assets. The lives are based on historical experience with similar assets as well as anticipation of future events, which may affect their life, such as changes in technology. The estimated useful life is reviewed at least annually.

2.3.2 Impairment of non-financial assets including Right-of-Use Assets ("ROU" asset) and Intangible assets / Goodwill

Non-financial assets are reviewed for impairment, whenever events or changes in circumstances (including modification of the lease term) indicate that the carrying amount of such assets may not be recoverable. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). The calculation of value in use and fair value involves use of significant estimates and assumptions, which includes turnover, growth rates and net margins used to calculate projected future cash flows, risk adjusted discount rate, future economic and market conditions. Estimates of revenue and costs are developed using available historical and forecast data. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

2.3.3 Revenue recognition

a) Timing of revenue recognition

The Group exercise its judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. Significant judgment has been used in determining how the performance obligations are satisfied, how the customer consumes benefits as services are rendered, who controls the asset as it is being created, existence of enforceable right to payment for performance to date, alternate use of such product or service, dynamic verses static content, transfer of significant risk and rewards to the customer, acceptance of delivery by the customer, etc.

b) Principal v agent relationship

The Group exercises judgement in determining whether the service providers (distribution and payment channels, advertising network/ exchanges, publishers etc.) is acting in the capacity of principal or agent for the services that are rendered through them. The Group ascertains the same based on the criteria such as who is the primary obligor under the contract, and who controls good or service prior to transfer to the customer, who has discretion in pricing, who bears the credit risk, etc. The Group has concluded that the Group is acting as principal in the revenue arrangement, where the Group is the primary obligator in the arrangement/s, has pricing latitude and is also exposed to credit risks. The Group has determined that fee paid to distribution channel, i.e., platform service providers like Play store or App Store, or payment channels or publishers should be recorded as expenses in the statement of profit or loss.

2.3.4 Estimation of fair value of unlisted investments for impairment analysis

The Group follows the guidance of Ind AS 109 – Financial Instruments: to determine the fair value of its investment in equity instruments, using market and income approaches. The market approach includes the use of financial metrics and ratios of comparable companies, such as revenue, earnings, comparable performance multiples, recent financial rounds, and the level of marketability of the investments. The selection of comparable companies requires management judgment and is based on several factors, including comparable company sizes, growth rates and development stages. The income approach includes the use of discounted cash flow model, which requires significant estimates regarding the investees' revenue, costs, and discount rates based on the risk profile of comparable companies. Estimates of revenue and costs are developed using available historical and forecast data. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

2.3.5 Recognition of deferred tax assets

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the losses can be utilised. In assessing the probability, the Group considers whether the entity has sufficient taxable temporary differences, which will result in taxable amounts against which the unused tax losses or unused tax credits can be utilised before they expire. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Changes in these judgments, estimates, and assumptions can materially affect the results of operations.

2.3.6 Expected credit loss

The Group determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the Group deals with and the countries where it operates. In calculating expected credit loss, the Group has also considered credit reports and other related credit information for its customers to estimate the probability of default in future.

2.4. Summary of material accounting policies

2.4.1 Foreign currency translation and transactions

Functional and presentation currency

The consolidated financial statements are presented in ₹, which is also the parent company's functional currency. For each entity the Group determines

the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions and translations

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss except for the following:

- Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the consolidated financial statements that include the foreign operation and the reporting entity (e.g., consolidated financial statements when the foreign operation is a subsidiary), such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.
- Exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.
- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Translation of foreign operations

On consolidation, the assets and liabilities of foreign operations are translated into ₹ at the rate of exchange prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions or at average rates where such average approximates the actual rate at the date of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income and accumulated in the foreign currency translation reserve within equity. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is reclassified to the consolidated statement of profit and loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

The group has foreign subsidiaries that report in the currencies of hyperinflationary economies. The financial statements of any such subsidiary need to be restated by applying a general price index of the country in whose currency it reports before they are included in the consolidated financial statements issued by its parent. Where such a subsidiary is a foreign subsidiary, its restated financial statements are translated at closing rates. The resulting translation differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

2.4.2 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity-shares outstanding during the period adjusted for bonus elements and share split in equity shares, if any, issued during the year. The weighted average number of equity-shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reserve share splits (consolidation of shares) that have changed the number of equity-shares outstanding, without a corresponding change in resources.

For calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders after considering the after income-tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.4.3 Revenue recognition

To determine whether the Group should recognise revenues, the Group follows 5-step process:

a. identifying the contract, or contracts, with a customer

b. identifying the performance obligations in each contract

c. determining the transaction price

d. allocating the transaction price to the performance obligations in each contract

e. recognising revenue when, or as, we satisfy performance obligations by transferring the promised goods or services.

Revenue is recognised when the Group transfers promised goods or services to customers in an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods and services.

In this regard, revenue is recognised when: (i) the parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations; (ii) the entity can identify each party's rights regarding the goods or services to be transferred; (iii) the entity can identify the payment terms for the goods or services to be transferred; (iv) the contract has commercial substance (that is, the risk, timing, or amount of the entity's future cash flows is expected to change as a result of the contract);and (v) it is probable that the entity will collect substantially all of the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

Revenue is measured at the fair value of the consideration received or receivable, considering contractually defined terms of payment, and excluding variable considerations such as volume or cash discounts and taxes or duties collected on behalf of the government.

Accrual for sales returns is provided at the point of sale, based upon past experience. Adjustments to such returns is made as new information becomes available.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer and presented as 'Deferred revenue'. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customer's'. Unbilled revenues are classified as a financial asset where the right to consideration is unconditional upon passage of time.

i) Subscription gaming revenue

a) Telco subscription

Revenue from Telco subscription is recognised when a promise in a customer contract has been satisfied. usually over the period (timing) of subscription. The amount of revenue to be recognised (transaction price) is based on the consideration expected to be received in exchange for services, net of credit notes, discounts etc. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative standalone selling price.

The performance obligation of the Company is to provide customers (performance obligation) with content developed for applications during

the subscription period which is either monthly or annually using their own WAP portal or WAP portal of other service provider and provide support & maintenance throughout the subscription period.

b) Gamified Early learning application from App Stores like Google Play and Apple Appstore

The Group generate revenue under gamified early learning segment from subscription of application, In-app sale of virtual items, and merchandise sales as described below:

- **Subscription of and royalty from applications**

  The Group generated subscription and royalty revenue from its gamified early learning offering Kiddopia. Revenue from subscription and royalty, is recognised when a promise in a customer contract has been satisfied, usually over the period (timing) of subscription. The amount of revenue to be recognised (transaction price) is based on the consideration expected to be received in exchange for services, net of credit notes, discounts etc. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative standalone selling price.

  The performance obligation of the Group is to provide customers with content developed for applications which are subscribed through hosting portals (agents) for the subscribed period, which is either monthly or yearly, and provide support/maintenance throughout the subscription period.

- **Merchandise sales**

  Revenue associated with merchandise sales is recorded at the point of time (timing) as the performance obligation is satisfied. Revenue (transaction price) includes only the gross inflows of economic benefits received and receivable by the Group, on its own account. Amounts collected on behalf of third parties such as VAT, goods and service tax are excluded from revenue.

  In case of merchandise sales, the group's performance obligation is to deliver the product as per the orders received through e-commerce websites.

- **In-app sale of virtual items**

  Revenues attributable to the sale of one-time (timing) in-game/app virtual items, including consumables, features or functionality, to the users, are recognised after the underlying performance obligation have been satisfied. The amount of revenue to be recognised (transaction price) is based on the consideration expected to be received in exchange for services, net of credit notes, discounts etc. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative standalone selling price.

  The performance obligation is to deliver the items purchased with the app to the user at the time of payment.

c) Freemium

The Group generated revenues under freemium segment from In-app sales of virtual items and advertising as described below.

- **In-app sale of virtual items**

  Revenues attributable to the sale of one-time (timing) in-game/ app virtual items, including skills, privileges, or other consumables, features or functionality, to the players/ users, are recognised after the underlying performance obligations have been satisfied. The performance obligation of the Company is satisfied when the said virtual items are delivered to the user.

- **Advertising**

  The Group derives its advertising revenue from advertisement contracts with online advertising networks, exchanges, and direct sales of advertisers. Revenue from advertising services, including performance-based advertising, is recognised after the underlying

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

performance obligations have been satisfied, usually in the period in which advertisements are displayed.

The performance obligation of the Company is satisfied when the campaigns are completed by hosting advertisements on gaming portals.

ii) eSports and Event income

The esports business of the Group generates revenues primarily from Advertisement and brand and media sponsorship.

- **Brand and Media Sponsorship**

  Brand and media sponsorship revenue from sale of various forms of sponsorship and promotional campaign on customers' online platforms or social media and from sponsorship at its in-person esports experiences. Brand and media sponsorship revenues include exclusive or non-exclusive title sponsorships, media rights, additional infrastructural placement, social media rights (including rights to create and post social content and clips). Brand and media arrangements typically include contract terms for a time periods ranging from weeks to few months. All revenues are stated net of the amount of goods and service tax (GST). For licenses of exhibition rights for internally produced programming, each individual episode or film delivered represents a separate performance obligation and revenues are recognised when the episode or film is made available to the licensee for exhibition and the license period has begun. For license agreements that include delivery of content on one or more dates for a fixed fee, consideration is allocated based on the relative standalone selling price of each episode or film. Estimation of standalone selling prices requires judgment, which can impact the timing of recognising revenues. Agreements to license programming are often long term, with collection terms ranging from one to five years.

  Brand and media arrangements typically include contract terms for a time periods ranging from weeks to few months. For licenses of exhibition rights for internally-produced programming, each individual episode or film delivered represents a separate performance obligation and revenues are recognised when the episode or film is made available to the licensee for exhibition and the license period has begun.

- **Advertising**

  The Group assesses that platform service providers are Company's customers in such contracts. Hence revenue is recorded at the consideration received from the customer. Revenue from advertising services is recognised in the period in which advertisements are displayed.

  The performance obligation is satisfied based on the display of advertisement in terms of impression promised by the Group.

- **Event income**

  The Group recognises revenue from Entry Ticket Sales, Food Court Sales, Exhibitor Booth Rentals and Related Services, and Sponsorship Services upon consummation of the event, i.e., when the event is held and the related performance obligations are satisfied.

iii) Ad tech:

The Group determines whether the platform service providers are acting as principal or agent for the services that are sold through them. They ascertain the same based on the criteria such as who is the primary obligator under the contract, who has the discretion in pricing and who bears the credit risk. Ad tech business of the group generates revenue from advertisement and Business support services on the gross amount of consideration received from customer as per Ind As 115 "Revenue from customers"., Revenue from providing services to group companies is measured at cost plus commission basis.

Group's performance obligation is to carry out digital advertisement campaigns for its customers and achieve the target mentioned in contract. If any.

iv) Indoor Gaming and Entertainment

The Indoor Gaming and Entertainment business of the Group generates revenues primarily from café operations, membership fees, merchandise sales and revenue from play center area.

- **Revenue from café operations**

  The Group recognises revenue at the point of sales when control of the goods is transferred to the customers.

- **Membership fees**

  Revenue from membership fees is recognised over the period membership as the Company satisfies performance obligations over the time.

- **Merchandise sales**

  Revenue is recognised when control over the goods is transferred to the customers, which is typically at the time of delivery or customer pickup.

- **Revenue from play center area**

  Revenue is recognised as and when the service are rendered and on the basis of contractual terms with the parties.

v) Gross v/s Net revenue

Revenue is reported on a gross or net basis based on management's assessment of whether the Group is acting as a principal or agent in the transaction. The determination of whether the Group act as a principal or an agent in a transaction is based on an evaluation of whether the good or service are controlled prior to transfer to the customer.

In case of Telco subscription and gamified early learning category, the Group reports revenue on gross basis, including both self-developed and licensed games/ content, since the Group has pricing discretion, such games/ applications are hosted on Group's platform, and the Group is responsible for sales and marketing as well as customer service. Revenue share / fees paid to game/ content developers, distribution channel (i.e., telco aggregators and platform service providers, like Play store or App Store) and payment channel are recorded as expenses in the consolidated statement of profit and loss.

The Group reports Telco subscription segment revenue from subscription arrangement with telco service providers as well as advertising revenues from advertising network and exchanges on net basis since the Group do not have pricing discretion and establishes or maintains a direct relationship with the end user/ advertiser.

Certain advertising arrangements that are directly between the Group and advertisers are recognised on a gross basis equal to the price paid by the customer since we are the primary obligor and determine the price.

Any third-party costs related to such direct relationships are recognised as direct cost of revenues

vi) Accounts receivables and expected credit loss

Accounts receivables are recorded at the original invoice amount, less an estimate made for doubtful accounts, if any. The Group provides an allowance for doubtful accounts for potential credit losses based on its evaluation of the collectability and the customers' creditworthiness. Accounts receivables are written off when they are determined to be uncollectible.

2.4.4 Income taxes

Income tax expense comprises current tax expenses and net change in the deferred tax assets or liabilities during the year. Current and deferred taxes are recognised in the Consolidated statement of profit and loss, except when they relate to item that are recognised in Other comprehensive income or directly in Equity, in which case, the current and deferred tax are also recognised in Other comprehensive income or directly in Equity respectively.

2.4.4.1 Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in respective tax jurisdictions where the Group operates.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Current income tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

2.4.4.2 Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences and the carry forward of any unused tax losses.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle applicable for bargain purchase gains. All other acquired tax benefits realised are recognised in profit and loss.

2.4.5 Share-based payments

Employees (including senior executives) of the Group receive remuneration in the form of share- based payments in form of employee stock options, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost is recognised in employee benefits expense, together with a corresponding increase in Stock Option Outstanding reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

In respect of equity settled share-based payment resulting from shareholders of the group to employees, the amount equivalent to the cost recorded by the group is recorded at fair value of the shares as part of equity under Contribution from Shareholders.

Service and non-market performance conditions are not considered when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met.

2.4.6 Employee benefits

2.4.6.1 Post employment benefits

Retirement benefit in the form of provident fund is defined contribution scheme. The Group has no obligation, other than the contribution payable to such scheme. The Group recognises contribution payable to such schemes as an expense, when an employee renders the related service.

The Group's obligation on account of gratuity is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The Group recognises the service costs comprising current service costs and net interest expense or income in the net defined benefit obligation as an expense in the consolidated statement of profit and loss.

Remeasurement, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the consolidated balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit and loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

2.4.6.2 Short – term employee benefits

All employee benefits which are due within twelve months of rendering the services are classified as short-term employee benefits. Benefits such as salaries, bonus etc. are recognised in the period in which the employee renders the related service. All short-term employee benefits are accounted on undiscounted basis during the accounting year based on services rendered by employees.

2.4.6.3 Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid / availed because of the unused entitlement that has accumulated

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur. The Group presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

2.4.6.4 End of service benefit

In respect of one overseas subsidiary in the United Arab Emirates, end of service benefits are provided in accordance with the applicable UAE labour law, based on the prescribed formula with reference to employees' last drawn salary and completed years of service. As the amounts involved are immaterial, no actuarial valuation is carried out and the liability so determined is recognised in the consolidated balance sheet.

2.4.7 Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree if any. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed if any are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances, and pertinent conditions as at the acquisition date.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

If the fair value of the net assets acquired is more than the aggregate consideration transferred (bargain purchase), the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in Other Comprehensive Income (OCI) and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

2.4.8 Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.4.8.1 Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in the following broad categories:

- financial asset assets at amortised cost
- financial asset at fair value through OCI (FVOCI)
- financial asset at fair value through profit and loss (FVTPL)

Financial asset at amortised cost

A financial asset is measured at amortised cost (net of any write down for impairment) the asset is held to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes) and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit and loss. The losses arising from impairment are recognised consolidated statement of profit and loss. This category generally applies to trade and other receivables.

Financial asset at fair value through OCI (FVTOCI)

A financial asset that meets the following two conditions is measured at fair value through OCI unless the asset is designated at fair value through profit and loss under fair value option.

- The financial asset is held both to collect contractual cash flows and to sell.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in OCI. However, the Group recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the Profit and Loss. On derecognition of the asset, cumulative gain, or loss previously recognised in OCI is reclassified from the equity to Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Financial asset at fair value through profit and loss (FVTPL)

FVTPL is a residual category and any financial asset which does not meet the criteria for categorisation as at amortised cost or as FVOCI, is classified as at FVTPL.

All investments (except investment in associate and joint venture) included within the FVTPL category are measured at fair value with all changes recognised in the Profit and Loss

In addition, the Group may elect to designate an instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Derecognition

When, the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; it evaluates if and to what extent it has retained the risks and rewards of ownership.

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- Based on above evaluation, either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognised the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflect the rights and obligations that the Group has retained.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets which are not fair valued through profit and loss and equity instruments recognised in OCI.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognised during the year is recognised as income/ expense in the consolidated statement of profit and loss. This amount is reflected under the head 'other expenses' in the consolidated statement of profit and loss. The consolidated balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the consolidated balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

Financial asset measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

2.4.8.2 Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit and loss or at amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, lease obligations, and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the consolidated statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

2.4.8.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.4.8.4 Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model because of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

2.4.8.5 Fair value measurement

The Group measures certain financial instruments at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole: Level 1 - quoted (unadjusted) prices in active markets for identical assets or liabilities; Level 2 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

2.4.9 Investment in associate and joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement,

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are like those necessary to determine control over the subsidiaries.

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment separately. In case of step-up acquisition of associate or joint venture, the fair value of the previously held investment at that date when significant influence or joint control is obtained is deemed to be cost for initial application of equity accounting.

The consolidated statement of profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss within share of profit and loss of an associate and joint ventures in the consolidated statements of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in consolidated statement of profit or loss.

2.4.10 Property plant and equipment

Property plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

After initial recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The cost of an item of property plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property plant and equipment.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property plant and equipment are eliminated from consolidated financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of Property plant and equipment and gains or losses arising from disposal of property plant and equipment are recognised in consolidated statement of profit and loss in the year of occurrence.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets. Useful lives used by the Group are different from rates prescribed under Schedule II of the Companies Act 2013. These rates are based on evaluation of useful life estimated by the management supported by internal technical evaluation. The range of useful lives of the property plant and equipment are as follows:

Property plant and equipment	Useful lives estimated by the management (years)
Furniture and fixtures, Electrical Installations	3 to 10 years
Land and Buildings	30 years
Plant & equipments	8 - 15 years
Computer equipments	3 - 4 years
Office equipments	3 - 10 years
Vehicles	3 - 8 years
Leasehold improvement	Over the period of lease

2.4.11 Capital work-in-progress

Capital work-in-progress includes cost of property and equipment under installation / under development as at the balancesheet date.

2.4.12 Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Group and the cost of the asset can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding the amount at which development cost is capitalised, are not capitalised and the related expenditure is charged to Statement of profit or loss in the period in which the expenditure is incurred.

Developed technology, software, license, copyright, brand, customer relationship and non–compete, acquired in a business combination are recognised at fair value at the acquisition date.

Intangible assets are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

The Group amortises intangible assets over the period of 2.5 to 10 years, as the Group expects to generate future benefits from the given assets for a period of 2.5 to 10 years. The range of useful lives of the intangible assets are as follows:

Intangible Assets	Useful lives estimated by the management (years)
Computer Software	3 - 6 years
License	3 - 6 years
Copy right and trademark	6 years
Brand	10 years
Customer relationship	6 years
Non-compete	6 years
Developed Technology	6 years
Intellectual property rights	2.5 - 6 years
Other Intangibles	6 years

The amortisation expense on intangible assets is recognised in the consolidated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit and loss when the asset is derecognised.

2.4.13 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used.

The impairment calculations are based on detailed budgets and forecast calculations for each of the Group's CGUs covering a period of five years and applying a long-term growth rate to project future cash flows after the fifth year.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses of operations are recognised in the consolidated statement of profit and loss.

At each reporting date if there is an indication that previously recognised impairment losses no longer exist or have decreased, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed in the consolidated statement of profit and loss only to the extent of lower of its recoverable amount or carrying amount net of depreciation considering no impairment loss recognised in prior years only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

2.4.14 Leases

The Group evaluates at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

The Group as lessee

The Group's leased assets consist of leases for Buildings. The Group assesses whether a contract contains lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

a. the contract involves the use of an identified asset.

b. the Group has substantially all the economic benefits from use of the asset through the period of the lease and

c. the Group has the right to direct the use of the asset.

The Group determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Group is reasonably certain to exercise that option.

The Group at the commencement of the lease contract recognises a Right-of-Use (ROU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term leases) and low-value assets. For these short term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the lease term.

The cost of the ROU assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the ROU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. ROU assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of ROU assets. The estimated useful lives of ROU assets are determined on the same basis as those of property and equipment.

The Group applies Ind AS 36 to determine whether a ROU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets above.

For lease liabilities at the commencement of the lease, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate that the Group would have to pay to borrow funds, including the consideration of factors such as the nature of the asset and location, collateral, market terms and conditions, as applicable in a similar economic environment.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

The Group recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the remeasurement in consolidated statement of income. Lease liability payments are classified as cash used in financing activities in the consolidated statement of cash flows.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of lease hold land (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment's that are low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense in consolidated sstatement of profit and loss.

2.4.15 Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset are capitalised during the period of time. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. All other borrowing costs are recognised in the statement of profit or loss in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with borrowing funds. Borrowing cost also includes exchange difference to the extent regarded as an adjustment to the borrowing costs.

2.4.16 Inventories

Inventories consist of inventory of items purchased for resale and inventory of consumables. As regards valuation of inventory for resale, the same is valued at lower of cost or net realisable value and inventory of consumable is valued at cost. Consumables once issued out of stores are considered as fully used and not counted for the purpose of valuation at the year end.

Cost is determined on First in First out (FIFO) basis. Cost includes, all costs of purchase, freight inwards and other expenditure directly attributable to acquisition.

Classification	Valuation policy
Finished goods	At lower of cost or net realisable value
Consumables, stores and spares	At cost
Waste and scrap	At net realisable value

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

2.4.17 Provisions, Contingent liabilities, and contingent assets

Provisions are recognised when the Group has a present obligation (legal or constructive) because of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the consolidated statement of profit and loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is disclosed, where an inflow of economic benefits is probable.

2.4.18 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, cheques and drafts on hand, balances with banks in current accounts and deposits with an original maturity of three months or less that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts that are repayable on demand and considered an integral part of the Group's cash management. The consolidated statement of cash flows is prepared using the indirect method, whereby profit before tax is adjusted for the effects of non-cash transactions and items of income or expense associated with investing or financing cash flows.

2.4.19 Exceptional items

Certain items of income or expense whose size, nature or incidence is such that their separate disclosure is relevant to a better understanding of the Group's financial performance are classified as exceptional items and disclosed separately on the face of the consolidated statement of profit and loss.

2.4.20 Non-current assets held for sale and discontinued operations

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use, the assets are available for immediate sale in their present condition, and the sale is highly probable and expected to be completed within one year from the date of classification. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Property, plant and equipment, right-of-use assets and intangible assets are not depreciated or amortised once classified as held for sale. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

A discontinued operation is a component of the Group that either has been disposed of, or is classified as held for sale, and represents a separate major line of business or geographical area of operations, or is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the consolidated statement of profit and loss.

2.4.21 Segment reporting

Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments and geographical segments.

Accordingly, information has been presented both along business segments and geographical segments. The accounting principles used in preparation of the consolidated financial statements are consistently applied to record

revenue and expenditure in individual segments and are as set out in the material accounting policies.

Revenue and identifiable operating expenses in relation to segments are categorised based on items that are individually identifiable to that segment. Allocated expenses of segments include expenses incurred for rendering services which are categorised in relation to the associated turnover of the segment. Certain expenses which form part of significant component of total expenses, are not specifically allocable to specific segments as the underlying asset are used interchangeably. The Management believes that it is not practical to provide disclosures relating to those costs and expenses and accordingly, these expenses are separately disclosed as 'unallocated' and adjusted against total income of the Group.

Assets and liabilities used in the Group's business that are not identified to any of the reportable segments, are those being used interchangeably between segments.

Geographical information on revenue and business segment revenue information are collated based on individual customers invoiced or in relation to which the revenue is otherwise recognised.

2.4.22 New Standards, Interpretations and Amendments Adopted by the Group

Ministry of corporate Affairs ("MCA") notified amendments on May 07, 2025 and August 2025 under the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which is effective from annual reporting periods beginning on or after April 01 2025.

Amendment to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangement:

The amendments to Ind AS 7 'Statement of Cash Flows' and Ind AS 107 'Financial Instruments: Disclosures' clarify the characteristics of supplier finance arrangements and require additional disclosures for such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The Group does not have any supplier finance arrangements during the reporting period.

Amendment to Ind AS 1 - Classification of liabilities as current or non-current and non-current liabilities with covenants:

The amendment specifies the requirements for classifying liabilities as current or non-current in the balance sheet, and clarifies the following:

a) An entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period. The classification of a liability as current or non-current is unaffected by the likelihood that the entity will exercise its right to defer settlement.

b) If an entity's right to defer settlement of a liability is subject to covenants, such covenants affect whether that right exists at the end of the reporting period only if the entity is required to comply with the covenant on or before the end of the reporting period.

c) In case of a liability that can be settled, at the option of the counterparty, by the transfer of the entity's own equity instruments, such settlement terms do not affect the classification of the liability as current or non-current only if the option is classified as an equity instrument.

These amendments have no effect on the measurement of any items in the financial statements of the Group. The Group did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

Amendment to Ind AS 12 – Pillar-Two Tax Reforms

The Group is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdiction in which the Group operates

Amendment to Ind AS 21-Lack of exchangeability

The Amendments introduces requirement to assess when a currency is exchangeable into another currency and when it is not. The amendment requires an entity to estimate the spot exchange rate when it concludes that a currency is not exchangeable into another currency. These amendments had no effect on the financial statements of the Group.

The below amendments are notified but not yet effective

Amendment to Ind AS 1 'Presentation of Financial Statements'- Classification of Liabilities as current or non-current and non-current liabilities with covenants:

The amendment includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, retrospectively, as outlined below:

a) Breach of material covenant for long-term loan arrangement on or before end of reporting period with effect that liability becomes payable on demand as on reporting date, then it shall be classified as current liability, if lender agreed after reporting period and before approval of financial statements to not demand payment as a consequence of breach.

b) Classify as non-current liability, if lender agreed by end of reporting period to provide grace period ending at least 12 months after reporting period within which entity can rectify the breach provided lender does not demand immediate repayment.

c) Disclose information about the timing of settlement to understand the impact of the liability on the financial statements.

The Group does not expect this amendment to have an impact on its operations or financial statements.

Notes:

(a) During the current year, the Group acquired Curve Digital Entertainment Ltd, Smaaash Entertainment Private Limited ("Smaaash") and AFK Gaming Private Limited ("AFK") from unrelated third parties (the acquisition and subsequent deconsolidation of AFK is described in notes (b) below and 45). For the goodwill recognised and carried in the consolidated balance sheet at the reporting date, management has assessed whether any indication of impairment exists in accordance with Ind AS 36. The acquired businesses have performed broadly in line with the cash-flow projections in the senior-management-approved financial budgets used at acquisition, and there has been no significant change in the key assumptions underlying those projections up to the reporting date. On this basis, the recoverable amount of each cash-generating unit continues to support the carrying amount of the related goodwill and no impairment loss has been recognised. The assessment in respect of Smaaash is based on provisionally determined goodwill and will be revisited on completion of the purchase price allocation (refer note (b) below).

(b) (i) Goodwill of ₹ 10,856 Lakhs recognised on the acquisition of Smaaash has been determined on a provisional basis, being the excess of the purchase consideration over the net liabilities assumed at their book values. The fair value assessment of the identifiable assets acquired and liabilities assumed, including the identification of intangible assets, is currently in progress and is expected to be completed within the measurement period of twelve months from the date of acquisition, as permitted under Ind AS 103 Business Combinations. Any adjustment to the provisional amounts, arising from new information obtained about facts and circumstances that existed as at the acquisition date, will be recognised retrospectively with a corresponding adjustment to goodwill.

(ii) The purchase price allocation in respect of the acquisition of AFK is provisional. AFK was consolidated with effect from July 01, 2025 up to August 13, 2025, following which it was deconsolidated, together with Nodwin Gaming Private Limited, a Holding Company of AFK, pursuant to a loss of control (refer note 45). The purchase price allocation has not been finalised, considering the deconsolidation and the immateriality of the amounts involved. Accordingly, no goodwill in respect of AFK is carried in the consolidated balance sheet as at March 31, 2026.

(c) During the current year, the management has carried out an annual impairment review of goodwill in accordance with Ind AS 36 Impairment of Assets. Based on such review, no impairment loss has been identified during the current financial year.

(d) During the previous year, the Group acquired Space & Time Group Limited and the purchase price allocation was determined on a provisional basis. During the current year, based on the final valuation report, the Group has recognised measurement period adjustments resulting in an increase in goodwill of ₹ 1,176 Lakhs with a corresponding

increase in consideration payable of ₹ 1,176 Lakhs (₹ 1,318 Lakhs as on March 31, 2026 after foreign currency translation adjustment). The adjustment has been recognised in the current year as the impact is not considered material to warrant restatement of comparative figures. There is no impact on the statement of profit and loss for the current or comparative period.

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Notes:

(a) On August 13, 2025, following shareholder approval at the Extraordinary General Meeting (EGM), the Holding Company ceased to control Nodwin Gaming Private Limited ("Nodwin"). Accordingly, Investment in Nodwin is reclassified as an associate with effect from that date. In accordance with the requirements of Ind AS 110 – Consolidated Financial Statements, the Holding Company remeasured its investment in Nodwin at fair value on the date of loss of control and resulted gain of ₹ 1,09,846 Lakhs has been recognised in the statement of profit and loss under other income. Following the de-subsidiarisation, the interest in Nodwinis accounted for using the equity method in accordance with Ind AS 28 – Investments in Associates and Joint Ventures.

(b) During the current year, the Government of India enacted the Promotion and Regulation of Online Gaming Act, 2025. In view of the expected impact of the said Act on the business operations and future cash flow projections of Moonshine Technology Private Limited, an associate of the Holding Company, an impairment assessment was carried out in accordance with Ind AS 28 read with Ind AS 36. Based on the assessment, the recoverable amount (determined using value-in-use method) was found to be lower than the carrying value, and accordingly an impairment loss of ₹ 91,470 Lakhs has been recognised. Given its sise and non-recurring nature, the same has been presented as an Exceptional Item in the statement of profit and loss.

(c) On January 30, 2026, the Holding Company has made the payment of full consideration of ₹ 2,715 Lakhs in cash to Nodwin, for acquisition of 4,276 Series A Compulsorily Convertible Preference Shares ("Series A CCPS") of ₹ 10 each, representing 5.23% of the share capital, on fully diluted basis, of Rusk Media Private Limited.

(d) During the current year, Nodwin, subsidiary of the Holding Company has acquired 100% control over the AFK Gaming Private Limited.

(e) Brandscale Innovations Private Limited ("Brandscale") was disclosed as an associate of the subsidiary, Nodwin in the previous year. Consequent to Nodwin ceasing to be a subsidiary and becoming an associate of the Holding Company with effective from August 14, 2025 (refer note 45), Brandscale is now an associate of an associate and falls outside the scope of Ind AS 112. Accordingly, Brandscale has not been separately disclosed in consolidated financial statements for the current year.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

Note 1 : During the year, the Holding Company has sub-divided its equity shares from face value of ₹ 4 per share to ₹ 2 per share. Consequently, the number of shares has been doubled. The comparative figures for March 31, 2025 have been restated to reflect the stock split for like-for-like comparability, in accordance with the requirements of Ind AS 33 "Earnings per Share".

* On 16 June 2025 the Holding Company allotted 50,00,000 equity shares of ₹ 4 each at ₹ 990 per share on preferential basis to Axana Estates LLP for an aggregate consideration of ₹ 49,500 Lakhs. This allotment triggered an open offer obligation under Regulations 3(1) and 4 of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011. The open offer, made jointly by Axana Estates LLP and Plutus Wealth Management LLP along with Junomoneta Finsol Private Limited (Person Acting in Concert ("PAC")), concluded on July 07, 2025.

Upon completion of the open offer, Axana Estates LLP and Plutus Wealth Management LLP were classified as Promoters of the Holding Company alongside the existing promoters. Further, Junomoneta Finsol Private Limited (being PAC) and Mr. Arpit Khandelwal, Mr. Mithun Padam Sacheti and Mr. Siddhartha Sacheti (being deemed PAC) were classified under the Promoter Group.

Note 1

During the year ended March 31, 2026, the Holding Company subdivided its equity shares from a face value of ₹ 4 each to ₹ 2 each and subsequently issued bonus shares in the ratio of 1:1. In accordance with Ind AS 33 "Earnings Per Share", the weighted average number of equity shares outstanding for all periods presented has been adjusted retrospectively to reflect the subdivision and bonus issue, as if these events had occurred at the beginning of the earliest period presented. Accordingly, the basic and diluted earnings per share for the year ended March 31, 2025 have been restated for comparability.

(*) Only includes transactions in capacity as associate company w.e.f February 03, 2024 and during the previous year, the said loan had been assigned to Nodwin Gaming Private Limited ("Nodwin"), subsidiary from Holding Company (upto August 13, 2025).

(**) During the current year, the Holding Company has sold its subsidiary Openplay Technologies Private Limited ("Openplay") to its associate Moonshine Technology Private Limited ("Moonshine"). Consequently, transactions between Moonshine and Openplay which were disclosed as related party transactions in the previous year (being transactions between a Group entity and an associate) are no longer disclosed in the current year, as Openplay is no longer part of the group.

($) During the current year, the Holding Company lost control over Nodwin Gaming Private Limited ("Nodwin") which has been deconsolidated and reclassified as an associate with effect from August 14, 2025. Consequently, Brandscale Innovations Private Limited ("Brandscale"), being an associate of Nodwin, ceased to be a related party of the Group. Transactions between Nodwin and Brandscale disclosed in the comparative period are therefore not required to be disclosed in the current year.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

31.1 Wildworks Inc. ("Wildworks"), a step-down subsidiary of the Holding Company has entered into a License Agreement with Just Play LLC for the use of the SLINKY trademark in a digital gaming application. Pursuant to the agreement, the Wildworks is committed to pay a Minimum Guaranteed Royalty of ₹ 141 Lakhs (US$ 150,000), of which ₹ 47 Lakhs (US$ 50,000) was payable.

Fusebox Games Limited ("Fusebox"), a step-down subsidiary of the Holding Company has entered into a Licensing arrangement for development of various games. Under these arrangements, the Fusebox is contractually obligated to pay minimum guarantee ("MG") of ₹ 9,345 Lakhs (US$ 9,956,250) to the respective licensors, irrespective of the royalties actually earned from commercial exploitation of the licensed properties. The minimum guarantees are recoupable against future royalties payable under the respective agreements and are payable in accordance with the agreed milestone / payment schedules over the term of each licence.

31.2 The Holding Company had furnished a performance bank guarantee in favour of the Resolution Professional of Smaaash Entertainment Private Limited towards the earnest money deposit. As at March 31, 2026, no performance bank guarantee is outstanding (March 31, 2025: ₹ 2,000 Lakhs). The guarantee was issued under the overall bank guarantee facility of ₹ 2,500 Lakhs sanctioned by Standard Chartered Bank.

31.3 During the previous year, Nodwin Gaming Private Limited ("Nodwin"), which was then a subsidiary of the Holding Company, had extended a corporate guarantee for an amount not exceeding ₹ 1,473 Lakhs (EUR 1,560,000) in favour of Co-Investor FRE GmbH & Co. KG ("the Lender"), on behalf of Freaks 4U Gaming GmbH ("the Borrower"), a step-down subsidiary of Nodwin, for securing a loan for business purposes including working capital requirements and expansion plans. During the current year, Nodwin has been reclassified as an associate of the Holding Company with effect from August 14, 2025 and consequently Nodwin and its subsidiaries, including Freaks 4U Gaming GmbH, are no longer part of the consolidated group. Accordingly, the said guarantee is no longer forming part of the Group's commitments as at March 31, 2026.

31.4 The Holding Company has committed support service fee of ₹ Nil Lakhs (March 31, 2025 : ₹ 171 Lakhs) towards Zeptolab UK Limited for the purpose of providing support service and user acquisition service during the transition period as per asset purchase agreement.

31.5 The Holding company alongwith its wholly owned subsidiaries (Nazara Technologies FZ LLC and Nazara Pte Ltd) has made a commitment to invest in Lumikai Fund II, Play Fund III, F4 Fund, Bitkraft Venture Fund and Griffin Gaming Partners Fund for an amount of ₹ 819 Lakhs, ₹ 1,886 Lakhs, ₹ 214 Lakhs, ₹ 2,346 Lakhs and ₹ 3,754 Lakhs respectively out of which ₹ 471 Lakhs (March 31, 2025 :₹ 471 Lakhs) ₹ 686 Lakhs (March 31, 2025 : 996 Lakhs), ₹ Nil Lakhs (March 31, 2025 : 214 Lakhs), ₹ 287 Lakhs (March 31, 2025 : 238 Lakhs) and ₹ 921 Lakhs (March 31, 2025 : 836 Lakhs) respectively is yet to be invested.

Nazara Technologies FZ LLC, a wholly owned subsidiary of the Holding Company has committed to invest ₹ 469 Lakhs (US$ 500,000) in nCore Games, Inc.a Delaware corporation, by way of Convertible Promissory Note.

31.6 The Board of Directors of the Holding Company, at its meeting held on March 18, 2026, granted in-principle approval for Nazara Technologies UK Limited (wholly-owned subsidiary) to acquire 50.00049% of Bluetile Games, S.L. for US$ 88.4 million (₹ 80,900 Lakhs) and 50.00033% of Bestplay Systems, S.L. for US$ 11.9 million (₹ 10,900 Lakhs). The commitment is subject to necessary regulatory approvals, satisfactory due diligence, and other conditions precedent.

B. Contingent liabilities

	As at March 31, 2026	As at March 31, 2025
Claims against the group not acknowledged as debt (*)	28,671	113,509

(a) During the previous year, the Holding Company received an Order-in-Original dated January 31, 2025 from the Additional Commissioner, CGST & C. Ex, Mumbai South Commissionerate, levying a tax demand of ₹ 284 Lakhs and a penalty of ₹ 284 Lakhs under Section 122(2)(M) of the CGST Act, read with Section 20 of the IGST Act, due to non-receipt of export proceeds within the stipulated time period. During the current year, the Holding Company filed an appeal against this order with Commissioner (Appeals-I), CGST & CX, Mumbai, which was rejected vide Order-in-Appeal dated December 30, 2025. The Holding Company has thereupon filed an appeal before the Hon'ble GSTAT under Section 112(1) of the CGST Act, 2017 within the prescribed time limit and has paid the requisite pre-deposit. The management believes the demand is not sustainable and accordingly no provision has been made in the financial statements.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

(b) During the current year, the Holding Company lost control over Nodwin Gaming Private Limited ("Nodwin"), which has been reclassified as an associate with effect from August 14, 2025. Consequently, Nodwin's financials are no longer consolidated and the following contingent liabilities are no longer forming part of the Group's contingent liabilities.

i) During the previous year, Nodwin, which was then a subsidiary of the Holding Company, had been served with income tax demands of ₹ 108 Lakhs for Assessment Year 2023-24 and ₹ 183 Lakhs for Assessment Year 2021-22 (the latter having been adjusted by the Income Tax Department against the refund due for Assessment Year 2022-23), and appeals had been filed with the Commissioner of Income Tax – Appeals (CIT-A).

ii) During the prior years, in Superhero, on completion of scrutiny of period July 2017 to March 2018 and period April 2019 to March 2020 by GST Department, the Superhero had been served with a demand of ₹ 67 Lakhs for excess claim of input tax credit and an appeal had been filed before the Appellate Authority.

iii) During the previous year, Comic Con India Private Limited ("Comic Con"), a subsidiary of Nodwin, had received a demand order of ₹ 12 Lakhs from the GST Department for excess claim of ITC and an appeal had been filed before the Appellate Authority.

iv) During the previous year, Comic Con had received a demand order of ₹ 102 Lakhs from the GST Department for excess claim of ITC on account of non-reversal of ITC on exempt supplies and non-payment of GST on foreign income, against which an appeal had been filed before the Appellate Authority under CGST Delhi West Commissionerate.

v) During the previous year, Comic Con had received a show cause notice dated August 02, 2024 under Section 74 of the CGST Act, alleging non-payment of GST under Reverse Charge Mechanism on OIDAR services received from Facebook Ireland amounting to ₹ 4 Lakhs along with interest and penalty, against which the Comic Con had contested before the Assistant Commissioner, CGST.

(c) During the previous year, Halaplay Technologies Private Limited (Halaplay), a direct subsidiary of the Holding Company, had received a show cause notice from the Director General of GST Intelligence amounting to ₹ 27,421 Lakhs in relation to ongoing GST matters related to the gaming industry under Section 74 of the CGST Act, 2017 read with respective SGST Act, 2017 and IGST Act, 2017. Halaplay has filed a writ petition before the Hon'ble Calcutta High Court, which has passed a limited interim order restraining enforcement of any GST order without the Court's consent. The Union of India has also sought transfer of all similar writ petitions of gaming industry participants pending at various High Courts to the Hon'ble Supreme Court and the same has been admitted. Without prejudice, management is of the view that these notices are arbitrary and contrary to the provisions of law, and no present or future liability is anticipated on Halaplay as at March 31, 2026. Accordingly, no adjustments have been made to the consolidated financial statements. Further, pursuant to the Scheme of Arrangement between Halaplay and Openplay Technologies Private Limited, as approved by the Hon'ble National Company Law Tribunal, Kolkata Bench, vide order dated 22 August 2023, the real money gaming business of Halaplay, namely the "Fantasy Game" business, was transferred to Openplay with an appointed date of 1 October 2022. Accordingly, all assets, liabilities including contingent liabilities pertaining to the transferred business stand vested with Openplay with effect from the appointed date.

(d) During the current year, the Holding Company sold Openplay Technologies Private Limited ("Openplay") to Moonshine Technology Private Limited ("Moonshine") with effect from May 07, 2025, consequent to which Openplay is no longer a subsidiary of the Holding Company and accordingly, the contingent liability referred to in note (c) above, alongwith the following contingent liabilities are no longer forming part of the Group's contingent liabilities.

i) During the previous year, Openplay, which was then a direct subsidiary of the Holding Company, had received a show cause notice from the Director General of GST Intelligence amounting to ₹ 84,572 Lakhs in relation to GST matters related to the gaming industry.

ii) During the previous year, Openplay, which was then a direct subsidiary of the Holding Company, received demand notices from the GST Department amounting to ₹ 40 Lakhs, ₹ 6 Lakhs, and ₹ 2 Lakhs for the financial years 2018-19, 2019-20, and 2020-21, respectively, on account of excess claim of input tax credit, against which the Openplay filed appeals before the Appellate Authority.

(e) During the previous year, Nazara Pte Ltd ("Nazara Pte"), a wholly owned subsidiary, had received an interim discharge order dated December 20, 2024 from the Comptroller of Income Tax, Singapore, raising a protective assessment for Years of Assessment 2017 to 2023 by disallowing the foreign tax credit claim, resulting in additional tax payable of ₹ 420 Lakhs (excluding penalties). During the current year, the Comptroller of Income Tax, Singapore, completed its review and withdrew the tax assessments for Years of

Assessment 2017 to 2023 vide letter dated June 20, 2025. Accordingly, the demand stands fully extinguished and the Nazara Pte has received the applicable refund. No contingent liability exists as at March 31, 2026 in respect of this matter.

(f) In case of Smaaash Entertainment Private Limited ("Smaaash") a wholly owned subsidiary of the Holding Company, the following contingent liabilities have arisen during the post-CIRP period. These matters are being contested and no provision has been recognised, as management considers the possibility of an adverse outflow as possible but not probable:

I) Disputed Operational Litigation — Barnala premises: Smaaash is engaged in legal proceedings with the lessor arising from a dispute under the lease deed dated March 01, 2022. Smaaash has filed a petition under Section 9 of the Arbitration and Conciliation Act, 1996 for preservation of assets valued at ₹ 544 Lakhs. The lessor has filed a counter-claim of ₹ 632 Lakhs, pending before the arbitral tribunal. Based on legal advice, management considers the possibility of adverse outflow as possible but not probable.

II) TDS Defaults : Smaaash has identified certain TDS short-deduction and short-payment defaults of ₹ 2 Lakhs for financial year 2025-26 as reflected on the TRACES portal. As at the reporting date, no formal demand notices have been received from the Income Tax Department. Management is in the process of filing rectification returns and believes the final liability, if any, will be deleted upon processing.

Additional information

Pre-CIRP Claims (prior to May 06, 2022) — Legally Extinguished Pursuant to NCLT Order

Smaaash was under CIRP since May 06, 2022. Pursuant to the resolution plan approved by the Hon'ble National Company Law Tribunal (NCLT) vide its order dated 7 May 2025 under Section 31 of the Insolvency and Bankruptcy Code, 2016 (IBC), all claims, dues, demands, and contingent liabilities — including tax demands, litigation claims, and statutory defaults — that originated prior to the commencement of the CIRP on May 06, 2022 stand permanently extinguished and are null and void. In accordance with the settled legal position under the IBC and the principle of a "clean slate" available to a successful resolution applicant, Smaaash is not required to make any payment towards such pre-CIRP claims, and no outflow of resources is expected in respect thereof.

CIRP Period Claims (May 06, 2022 to June 06, 2025) — Obligations of the Resolution Professional

In addition to the pre-CIRP claims described above, certain claims and statutory defaults arising during the CIRP period (May 06, 2022 to implementation of the resolution plan on June 06, 2025) are required to be addressed and settled by the Resolution Professional as part of the CIRP process and do not devolve upon the Company or the resolution applicant. Accordingly, no liability has been recognised in the consolidated financial statements of the Group in respect of such claims.

(*) The contingent liabilities of ₹ 1,188,615 Lakhs reported as at March 31, 2025 included contingent liabilities of ₹ 168,454 Lakhs relating to SBN Gaming Network Private Limited and ₹ 906,652 Lakhs relating to Bazi Games Private Limited, both of which are subsidiaries of Moonshine Technology Private Limited, a material associate of the Holding Company. During the current year, the Group's share in these contingent liabilities is disclosed under Note 41B – Investments Accounted for Using the Equity Method.

32 LEASES

A Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases. The Group recognises lease obligation to make lease payments and right-of-use assets representing the right to use the underlying assets. The Group has office premises as its lease which has a tenure ranging between 1 year to 11 years. The weighted average of discount rate applied to lease liabilities ranges from 4.00% to 15.56%.

B Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are amortised on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Total	**1,445**	**1,003**

II) Defined benefit plan - Gratuity

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972 as amended. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service This benefit is unfunded except in case of two subsidiary of the Holding Company, Datawrkz business solutions Private Limited ("Datawrkz") and Smaaash Entertainment Private Limited ("Smaaash").

In case of Datawrkz, the plan assets for the funded gratuity plan is administered by Life Insurance Corporation of India as per the investment pattern stipulated for pension and Group Schemes fund by Insurance Regulatory and Development Authority (IRDA) Regulations.

In case of Smaaash, the plan assets for the funded gratuity plan are partly administered through an insurance policy with Life Insurance Corporation of India amounting to ₹ 11 Lakhs, which is administered as per the investment pattern stipulated for pension and Group Schemes fund by the Insurance Regulatory and Development Authority (IRDA) Regulations. The balance of ₹ 11 Lakhs is held in the form of cash and cash equivalents.

The new Labour Codes introduced by the Government of India, inter alia, require gratuity to be calculated based on wages constituting at least 50% of total remuneration. This has resulted in an increase in gratuity benefits in respect of services rendered in prior periods and, accordingly, the Group has recognised past service cost amounting to ₹ 109 Lakhs during the year. In accordance with Ind AS 19, the past service cost has been recognised in the statement of profit and loss in the current year in which the plan amendment became effective.

The following tables summarise the components of net gratuity benefit expense recognised in the statement of profit and loss and other comprehensive income.

35 SHARE BASED PAYMENTS

(a) During the year ended March 31, 2026, Holding Company ESOP scheme 2023 and ESOP scheme 2025 are currently in operation. Absolute Sports ESOP scheme 2021 and 2023, PaperBoat ESOP scheme were fully exercised/settled during the previous year and are no longer in operation.

Nodwin Gaming Private Limited ("Nodwin") became an associate of the Holding Company on August 14, 2025 (refer note 45). Consequently, the Nodwin ESOP scheme is no longer consolidated on line by line basis from the date Nodwin ceased to be subsidiary. Any ESOP expense pertaining to Nodwin for the period it was subsidiary has been included in the consolidated results for that period.

(i) ESOP 2023

Under the ESOP scheme 2023, stock options of the Holding Company were granted to chief operating officer and head of corporate development of the Holding Company. The share options vests as per the vesting conditions specified in the grant letter, if employees are in service until the end of the vesting period. The fair value of the share options was estimated at the grant date using Black Scholes pricing model and, taking into account the terms and conditions upon which the share options were granted. The contractual term of each option granted (comprising the vesting year and the exercise year) is 8 years. There are no cash settlement alternatives. The Company does not have a past practice of cash settlement for these share options.

(ii) ESOP 2025

Under the ESOP 2025, stock options of the Company were granted to whole time executive director of the Company. The scheme was established with effect from January 16, 2026. The aggregate number of equity shares which may be issued under ESOP 2025 shall not exceed 18,52,325 equity shares (i.e., 0.50% of paid-up equity capital as on the establishment date). Each equity share has a face value of ₹ 2. The share options vest over a period of 1 to 4 years from the date of grant, subject to continued employment with the Company. The exercise period is 5 years from the date of vesting while in employment.

The fair value of the share options was estimated at the grant date using the Black-Scholes pricing model, taking into account the terms and conditions upon which the share options were granted. There are no cash settlement alternatives. The Company does not have a past practice of cash settlement for these share options.

(iii) Nodwin ESOP

The Board of Directors of the subsidiary has approved an ESOP scheme to grant share option to eligible employee and eligible employee of its subsidiaries, Superhero Brands Private Limited and Comic Con India Private Limited. The option granted vest over a period of one year to four years. The options have to be exercised by the employees within the stipulated exercise period. In the event of resignation, all unvested option shall lapse and option vested can be exercised within six months of resignation. There are no cash settlement alternatives. The Company does not have a past practice of cash settlement for these share options. The fair value of the share options was estimated at the grant date using Black Scholes pricing model and taking into account the terms and conditions upon which the share options were granted.

Consequent to Nodwin becoming an associate during the current year, this scheme is no longer consolidated from the date of loss of control. (refer note 45)

36 SEGMENT INFORMATION

a) Description of segments and principal activities :

Identification of segments

The Chief Operational Decision Maker ('CODM') monitors the operating results of its business segment separately for the purpose of making decision about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the Group's consolidated financial statements. Operating segment have been identified on the basis of nature of products and other quantitative criteria specified in the Ind AS 108.

Operating segments are reported in a manner consistent with the internal reporting provided to the CODM of the Group. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director and CEO of the Group. The Group has identified the following segments as reporting segments based on the information reviewed by CODM:

1. Gaming
2. eSports
3. Ad tech

Segment revenue and results:

The expenses and income which are not directly attributable to any business segment are shown as unallocable expenditure (net of allocable income).

Segment assets and liabilities:

Segment assets include all operating assets used by the operating segment and mainly consist of property and equipment, trade receivables, inventories and other operating assets. Segment liabilities primarily includes trade payable and other liabilities. Common assets and liabilities which can not be allocated to any of the business segment are shown as unallocable assets /liabilities.

Notes

1 Financial assets and liabilities include cash and cash equivalents, debentures, tax free bonds, trade receivables, unbilled receivables, finance lease liabilities, employee and other advances, eligible current and non-current assets, trade payables, and eligible current liabilities and non-current liabilities. The fair value of cash and cash equivalents, trade receivables, unbilled receivables, trade payables, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. Investment in mutual funds measured using net asset values at the reporting date multiplied by the quantity held, which represents the fair value of these instruments.

2 The fair values of lease liabilities, security deposits, loans and other financial assets and liabilities are considered to be the same as their carrying values, as there is an immaterial change in the lending rates.

3 Trade receivable and Trade payable classified as held for sale are not included in the table above. Their carrying amount is a reasonable approximation of fair value.

(II) Fair value hierarchy for assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The Group categorises assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair values are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data. The following table provides the fair value measurements hierarchy of the Group's assets and liabilities:

38 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities include trade and other payables, borrowing and lease liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations. The Group also holds investments in mutual funds and debt instruments.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management ensures that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board of Directors of Holding Company and other group companies reviews and agrees policies for managing each of these risks, which are summarised below:

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, mutual funds and debt investments. The management believes that group is not exposed to significant market risk due to quality of assets held by the Group.

(I) Equity / investment price risk

The Group has made several strategic investments (including unlisted associates, and other investee companies). Some of these are startups (early stage) companies and others in their growth phase. These unlisted investments are susceptible to market price risks (impairment) arising from uncertainties about the success of the gaming industry in India and globally, which could impact their recoverable values. The Group manages the equity price risk through diversification and invests across several gaming companies, mutual funds and fixed deposits with banks. The Group's Board of Directors review and pre-approve all such decision to invest. In addition, at the reporting date, the exposure to unlisted equity securities in non-current and current investments are yearly reviewed and evaluated by the Board. In specific, the Board review and evaluates the unobservable inputs (i.e. long-term growth rates and weighted average cost of capital), cash flow projections for 5 years, actual performance when compared to cash flow projections approved by respective entities Board of Directors, and sensitivity performed by an independent external valuation expert. The group also invests in mutual funds and fixed deposits where the risk is low to moderate.

Exposure to investment price fluctuation for readily tradeable investments and mutual funds:

Particulars	As at March 31, 2026	As at March 31, 2025
1% increase in market price - increase in profits	479	194
1% decrease in market price - decrease in profits	(479)	(194)

(II) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency) and the Group's net investments in foreign subsidiaries. The Group did not enter into any derivative instruments for hedge or speculation. The year end foreign currency exposures are given below:

(i) Amounts receivable in foreign currency on account of the following:

Other Currencies	51	(51)	66	(66)
Total	**407**	**(407)**	**516**	**(516)**

(III) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimise the Group's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

(#) Zero represents amount less than ₹ one Lakhs.

Exposure to interest rate risk related to borrowings with floating rate of interest over next one year:

Particulars	As at March 31, 2026	As at March 31, 2025
1% increase in interest rate - decrease in profits	112	138
1% decrease in interest rate - increase in profits	(112)	(138)

B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure.

The Group assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

(i) Low credit risk

(ii) Moderate credit risk

(iii) High credit risk

Trade receivables

Trade receivables and unbilled revenue are typically unsecured and are derived from revenue from customers. Credit risk is managed by each business segment through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal course of business. The credit period of the group usually ranges from 0 to 60 days and in case of certain contracts, the credit period may extend beyond 60 days.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (CONTD.)

(All amounts in ₹ Lakhs, except share and per share data, unless otherwise stated)

On account of adoption of Ind AS 109, the Group uses expected credit loss model to assess the impairment loss. The Group uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account factors such as default risk of industry, historical experience for customers etc. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

At March 31, 2026 and March 31, 2025 receivables (including unbilled) from group's top 5 customers accounted for approximately 31.13% and 30.02%, respectively of all the receivables (including unbilled) outstanding. As at March 31, 2026 receivable (including unbilled) from one top customer accounted for 13.91% of all receivable (including unbilled) outstanding (March 31, 2025: 11.91%). An impairment analysis is performed at each reporting date on an individual basis based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in note 10. All receivables of group are unsecured.

The Group evaluates that there exists concentration of risk with respect to trade receivables due to its dependency on limited numbers of customers for a significant portion of receivables outstanding.

The inability to recover the amount payable by such top customers may have an adverse impact on their recoverability.

Movement of expected credit loss is as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Opening balance	**2,380**	**1,910**
Add: Provision for expected credit loss made during the year	522	465
Less: Utilisation of provision	-	-
On account of loss of control (refer note 45)	(370)	-
Foreign currency translation adjustments	166	5
Closing balance	**2,698**	**2,380**

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Management. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Group's maximum exposure to credit risk for the components of the balance sheet at March 31, 2026 and March 31, 2025 is the carrying amounts.

C) Liquidity risk

Liquidity risk is the risk that the Group will not be able to settle or meet its obligations as they fall due. The Group's policy on liquidity risk is to maintain sufficient liquidity in the form of cash and investment in liquid mutual funds to meet the Group's operating requirements with an appropriate level of headroom. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows.

39 CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity shareholders. The primary purpose is to maximise the shareholders' value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The capital structure is governed by policies approved by Board of Directors and is monitored by various matrices, funding requirements are reviewed periodically.

41 MATERIAL PARTLY OWNED SUBSIDIARIES AND INVESTMENT ACCOUNTED FOR USING THE EQUITY METHOD

A) Investment in partly owned subsidiaries

Financial information of subsidiaries that have material non-controlling interests is provided below:

Subsidiary	As at March 31, 2026	As at March 31, 2025	Principal place of business
Nodwin Gaming Private Limited ('Nodwin') (*)	-	48.17%	India
Pro Football Networks Inc ('PFN') (**)	26.73%	26.73%	USA
Paper Boat Apps Private Limited ('Paper Boat') (***)	0.00%	0.00%	India
Datawrkz Business Solutions Private Limited ('Datawrkz') (****)	42.00%	45.00%	India
Funky Monkeys Play Centers Private Limited ("Funky Monkeys")	40.00%	40.00%	India

(*) The numbers presented below are consolidated for its subsidiary, Nodwin Gaming International Limited, Nodwin Gaming International PTE Limited, Rusk Distribution Private Limited, Unpause Entertainment Private Limited, Superhero Brands Private Limited, Brandscale Innovations Private Limited, Comic Con India Private Limited, Branded Pte Limited, Ninja Global FZCO and its subsidiary Ninja Esport Produksiyon Anonim Şirketi (since June 07, 2024), Freaks4U Gaming GmbH (since July 01, 2024), Trinity Gaming India Private Limited (since December 01, 2024), Starladder Limited (since February 01, 2025) and AFK Gaming Private Limited (since July 01, 2025). Since the Holding Company ceased to control Nodwin and Investment in Nodwin is reclassified as an associate with effect from August 14, 2025, the number presented below for the current year are upto date of August 13, 2025.

(**) During the year ended March 31, 2025, the Holding Company acquired an additional 13.46% stake in Absolute Sports Private Limited ('Absolute'), which thereby became a wholly-owned subsidiary. Absolute holds 73.27% of the equity share capital of Pro Football Networks Inc ('PFN'); accordingly, the Group has a non-controlling interest of 26.73% in PFN. The non-controlling interest in PFN is not considered material to the Group; accordingly, although it is included in the movement in non-controlling interest set out above, separate summarised financial information for PFN has not been presented. The comparative figures for the year ended March 31, 2025 represent the consolidated figures of Absolute (comprising Sportskeeda Inc and PFN), reflecting the ownership structure that existed during that year.

(***) The Holding Company has acquired additional stake of 48.42% of the equity share capital of PaperBoat during the previous year. Accordingly, PaperBoat became a wholly-owned subsidiary of the Holding Company. The numbers below are consolidated for its wholly owned subsidiary Kiddopia Inc for the previous year.

(****) The numbers below are consolidated for Mediawrkz Inc, Mediawrkz Pte Ltd, Datawrkz Uk Ltd (since July 01, 2024), Datawrkz Operations UK Ltd (since August 07, 2024) and Space and time Group Limited (since October 01, 2024).

During the year, the employee stock option pool reserved for the employees of Datawrkz, which was hitherto reckoned in determining ownership interest on a fully diluted basis, has been cancelled. Consequently, the proportion of ownership interest held by non-controlling interests (on a fully diluted basis) has decreased from 45.00% to 42.00%, with a corresponding increase in the Group's effective ownership interest. There is no change in the Group's control over Datawrkz, and the said cancellation does not have any material impact on the consolidated financial statements.

(i) During the prior year, four subsidiaries of Moonshine Technology Private Limited i.e.Openplay Technologies Private Limited ("Openplay" w.e.f. May 07, 2025), SBN Gaming network Private Limited ("SBN"), Baazi Networks Private Limited ("BNPL"), Bazi Games Private Limited ("BGPL") (Openplay, SBN, BNPL and BGPL) are collectively referred to as 'Components' hereinafter) received show cause notices (SCN) from Director General of GST Intelligence, amounting to ₹ 84,572 Lakhs, ₹ 12,364 Lakhs, ₹ 33,318 Lakhs and ₹ 906,652 Lakhs respectively in relation to the ongoing GST matters related to the gaming industry, under Section 74 of the CGST Act, 2017 read with respective SGST Act, 2017 and IGST Act, 2017.

These amounts are excluding any penalty and interest and the said amounts are further updated based on the latest information received from the respective entities. These claims are in relation to calculation of GST based on the gross bet value / sums pooled by players as opposed to gross gaming revenues/ gross rake amount and the GST rate of 28% to be applied against 18%. The period under consideration is from January 2018 to September 2023 covered for Openplay, SBN, BGPL and BNPL The demands made by the authorities have been an industry issue and multiple representations have been made by the industry participants to the Government in this regard.

Openplay have subsequently filed separate writ petitions in the Hon'ble Calcutta High Court and,the Hon'ble Calcutta High Court has passed a limited interim orders to not enforce any order by GST authorities without seeking the consent of the Court. Further in case of SBN, BGPL and BNPL, They have contested these SCN by filing a writ petition with the Hon'ble Supreme Court of India and received stay. The Union of India has also sought to transfer all similar writ petitions of the gaming industry participants pending at various High Courts to the Hon'ble Supreme Court and the same has been admitted by the Hon'ble Supreme Court.

Without prejudice, management of the Company is of the view that these notices are arbitrary in nature and contrary to the provisions of law. Without prejudice, based on the legal assessment, the Company is of the view that no present or future liability is anticipated on these Components, as at March 31, 2026 and hence, no adjustments have been made to the consolidated financial statements of the Holding Company for the year ended March 31, 2026.

(ii) During the previous year, Comic Con India Private Limited ("Comic Con"), a subsidiary of Nodwin, had received a demand order of ₹ 12 Lakhs from the GST Department for excess claim of ITC and an appeal had been filed before the Appellate Authority.

During the previous year, Comic Con had received a show cause notice dated August 02, 2024 under Section 74 of the CGST Act, alleging non-payment of GST under Reverse Charge Mechanism on OIDAR services received from Facebook Ireland amounting to ₹ 4 Lakhs along with interest and penalty, against which the Company had contested before the Assistant Commissioner, CGST.

During the previous year, Nodwin, which was then a subsidiary of the Holding Company, had been served with income tax demands of ₹ 108 Lakhs for Assessment Year 2023-24 and ₹ 183 Lakhs for Assessment Year 2021-22 (the latter having been adjusted by the Income Tax Department against the refund due for Assessment Year 2022-23), and appeals had been filed with the Commissioner of Income Tax – Appeals (CIT-A).

During the year, Superhero Brands Private Limited ("Superhero"), a subsidiary of Nodwin, received a notice from the GST Department regarding non-filing. However, the management believes that the said demand is not tenable and, based on its assessment, no material liability is expected to arise in this regard.

During the year, on completion of scrutiny of period April 2019 to March 2020 by GST Department, Superhero has been served with a demand of ₹ 42 Lakhs for the period under scruntiy. The management believes that the said demand is not tenable and has filed an appeal before the Appellate Authority.

(iii) During the previous year, Nodwin, which was then a subsidiary of the Holding Company, had extended a corporate guarantee for an amount not exceeding ₹ 1,473 Lakhs (EUR 1,560,000) in favour of Co-Investor FRE GmbH & Co. KG ("the Lender"), on behalf of Freaks 4U Gaming GmbH ("the Borrower"), a step-down subsidiary of Nodwin, for securing a loan for business purposes including working capital requirements and expansion plans

The 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organisation), was not available for the year ended March 31, 2026.

(xiii) One of the subsidiaries of the Group, Smaaash Entertainment Private Limited ("Smaaash"), has accumulated losses of ₹ 11,400 Lakhs and a negative net worth of ₹ 10,436 Lakhs as at March 31, 2026, and has incurred a net loss of ₹ 3,316 Lakhs during the year ended March 31, 2026. These conditions indicate a material uncertainty that may cast significant doubt on the subsidiary's ability to continue as a going concern. However, the management of the subsidiary is of the view that the going concern basis of preparation remains appropriate, having regard to the successful implementation of the CIRP resolution plan, induction of the Holding Company as the promoter and parent company, infusion of equity share capital of ₹ 1,000 Lakhs and extension of an unsecured Inter-Corporate Deposit of ₹ 11,600 Lakhs by the Holding Company, and its commitment to provide further financial support as required. Accordingly, no adjustment has been made to the carrying value of assets and liabilities in the financial statements of the Smaaash.

Note:

(i) The Holding Company has provisionally determined goodwill of ₹ 10,856 Lakhs on acquisition of Smaaash, being the excess of purchase consideration over the net liabilities assumed at their book values. The fair value assessment of identifiable assets acquired and liabilities assumed, including identification of intangible assets, is currently in progress and is expected to be completed within the measurement period of 12 months from the date of acquisition, as permitted under Ind AS 103.

(ii) The purchase price allocation for AFK is provisional. AFK was consolidated from July 01, 2025 to August 13, 2025, post which it was deconsolidated along with Nodwin pursuant to loss of control. The purchase price allocation has not been finalised considering the deconsolidation and the immateriality of the amounts involved.

14. For the purpose of receiving the Annual Report including the Notice of the AGM through electronic mode in case the e-mail address is not registered with the respective Depository Participants / Company / RTA, the Company shall be providing a letter providing the web-link highlighting the exact path, where complete details of the annual report would be available to the members and further the members may register their e-mail addresses by sending an e-mail to the Company at cs@nazara.com with the following details mentioned in the email: DP ID & Client ID (BO ID), name of the shareholder and PAN.

15. As per the provisions of Section 72 of the Act and the SEBI Circulars, the facility for making nominations is available for the Members in respect of the Equity Shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. If a member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/she may submit the same in Form No. ISR-3 or SH-14, as the case may be. The said forms can be downloaded from the Company's website https://investors.nazara.com/investor-information. The Members are requested to submit the said details to their DPs in case the Equity Shares are held by them in dematerialised form and to the RTA of the Company quoting their folio number in case the Equity Shares are held by them in physical form.

16. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Member as soon as possible. Members are also advised not to leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified from time to time.

17. The Members may please note that SEBI vide its Master Circular No. SEBI/HO/OIAE/OIAE_IAD-3/P/CIR/2023/195 dated July 31, 2023, has established a common Online Dispute Resolution Portal ("ODR Portal" - https://smartodr.in/login) to raise disputes arising in the Indian Securities Market. Post exhausting the option to resolve their grievances with the RTA/ Company directly and through SCORES platform, the investors can initiate dispute resolution through the ODR Portal. Link to access ODR portal is available on Company's website https://investors.nazara.com/investor-information.

18. SEBI has issued a circular dated March 19, 2025, titled "Harnessing DigiLocker as a Digital Public Infrastructure for Reducing Unclaimed Assets in the Indian Securities Market" to address the issue of unclaimed financial assets. This initiative enables investors to store and access information of their demat and mutual fund holdings through DigiLocker, a key Digital Public Infrastructure, benefiting investors and their families.

    Shareholders can also appoint Data Access Nominees within the DigiLocker application. In case of an unfortunate event of demise of shareholder, the nominees will be provided read only access to the DigiLocker account, ensuring that essential financial information is accessible to legal heirs. For details, you may refer the above-mentioned circular at https://www.sebi.gov.in/legal/circulars/mar-2025/harnessing-digilocker-as-a-digital-public-infrastructure-for-reducing-unclaimed-assets-in-the-indian-securities-market_92769.html.

19. The Company has sent individual letters to all the Members holding shares of the Company in physical form for furnishing their PAN, KYC details and Nomination pursuant to SEBI Circular No. SEBI/HO/MIRSD/MIRSD_ RTAMB/P/CIR/2021/655 dated November 03, 2021 in Form ISR-1. The Form ISR-1 is also available on the website of the Company at https://investors.nazara.com/investor-information. The members holding shares of the Company in physical form are invited to go through and submit the said Form ISR–1.

NOTICE (CONTD.)

Members are therefore requested to kindly submit their e-mail ID and other details to their respective Depository Participant/ Depository.

24. **Green Initiative:** To support the Green Initiative, members who have not registered their e-mail address are requested to register their e-mail address for receiving all communications including Annual Report, Notices, Circulars etc. from the Company electronically. The Company has also issued a Notice in this regard in the Newspapers.

Instruction for e-voting and joining the AGM are as follows.

A. VOTING THROUGH ELECTRONICS MEANS

i. As you are aware, as permitted by the Ministry of Corporate Affairs **("MCA")** and the Securities and Exchange Board of India (**"SEBI"**), the general meetings of the companies shall be conducted as per the guidelines issued by the MCA. Accordingly, the ensuing AGM of the Company will thus be held through VC or OAVM. Hence, Members can attend and participate in the ensuing AGM of the Company through VC/OAVM.

ii. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of the SEBI Listing Regulations, and the MCA Circulars, the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (**"CDSL"**) for facilitating voting through electronic means, as the authorised e-voting agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

iii. The Members can join the AGM in the VC/OAVM mode 15 (Fifteen) minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to 1000 (One Thousand) members on first come first served basis. This will not include large shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination Remuneration and Compensation Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.

iv. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.

v. The voting rights of members shall be in proportion to their shares in the paid-up equity share capital of the Company as on the cut-off date i.e., Friday, September 18, 2026. (Cut-off date).

vi. Any person, who acquires shares of the Company and becomes member of the Company after dispatch of the Notice and holding shares as on the Cut-off-date i.e. Friday, September 18, 2026 may follow the same instructions as mentioned above for e-voting. A person who is not a member as on the Cut-off date, should treat the Notice for information purpose only.

vii. Only those Members/ Shareholders, who will be present in the AGM through VC/ OAVM facility and have not cast their vote on the Resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through e-voting system in the AGM. Members who have already cast their votes by remote e-voting are eligible to attend the Meeting through VC/OAVM; however, these Members are not entitled to cast their vote again during the Meeting. A Member can opt for only single mode of voting i.e. through Remote e-voting or voting through VC/OAVM mode during the AGM.

viii. The Company has appointed CS Sandhya Malhotra, Partner of M/s. Manish Ghia & Associates, Practicing Company Secretaries (Membership No. FCS: 6715 and CP No. 9928), as the Scrutiniser to scrutinise the process of remote e-voting and voting on the date of the AGM in a fair and transparent manner. The Voting results will be declared within 2 (Two) working days from the conclusion of the AGM. The results declared along with the Scrutiniser's Report shall be uploaded on the website of the Company i.e. www.nazara.com and on the website of CDSL e-voting i.e. www.evotingindia.com and the same shall also be communicated to BSE and NSE, the Stock Exchanges where the Equity Shares of the Company are listed.

ix. The Notice of the 27th AGM and instructions for e-voting along with instructions for participating in the Meeting through VC/ OAVM are being sent by electronic mode to all Members whose e-mail address are registered with the Company/RTA of the Company/DP.

INSTRUCTIONS FOR SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETING ARE AS UNDER:

a. The voting period begins on Tuesday, September 22, 2026 at 09.00 a.m. (IST) and ends on Thursday, September 24, 2026 at 05.00 p.m. (IST). During this period, the shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date i.e., Friday, September 18, 2026 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

b. Shareholders who have already voted prior to the virtual meeting date would not be entitled to vote at the virtual meeting during the AGM.

c. Pursuant to SEBI Master Circular No. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated January 30, 2026, Regulation 44 of the SEBI Listing Regulations, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

d. In terms of SEBI Master Circular No. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated January 30, 2026 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in dematerialised form are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-voting facility.
