## Nazara to publish Hit PC Game *Bodycam* in Fortnite

**Mumbai, India – September 08, 2025.** Nazara Technologies Limited, India's leading diversified gaming company, today announced the upcoming launch of globally acclaimed PC title *Bodycam* in Fortnite. This marks the first-ever adaptation of *Bodycam* into the Fortnite ecosystem as an island, introducing its hyper-realistic tactical gameplay to a massive new audience.

Originally celebrated for its photorealistic graphics and immersive combat mechanics on PC, *Bodycam* has built a passionate fanbase among FPS enthusiasts. With this launch, Nazara is bringing *Bodycam* to Fortnite using the Unreal Editor for Fortnite (UEFN) - reimagined with high-fidelity visuals, optimized performance, and the limitless sandbox possibilities.

"This is a landmark moment not just for *Bodycam*, but for the future of creator-led gaming and also a first launch for Nazara in Fortnite" said **Nitish Mittersain, CEO, Nazara Technologies**. "Thanks to UEFN, Fortnite is rapidly becoming the go to hub where creators, brands, and gamers converge. We are proud to bring a premium PC franchise like *Bodycam* to the Fortnite ecosystem."

Developed in collaboration with leading UEFN creator **Virstate** and supported by **Reissad Studio** - the original creators of *Bodycam* - the island in Fortnite blends high-stakes tactical action with community-driven modes, optimized for Fortnite's global player base across console, PC, and mobile.

"We believe bringing *Bodycam* to Fortnite as an island will inspire other leading gaming IPs to embrace UEFN. Our goal is to showcase the platform's limitless potential by delivering one of the most ambitious experiences ever built," said **Zakaria and Mahdi, founders of Virstate**.

"*Bodycam* was created to push the boundaries of realism in games."

"With UEFN, we are thrilled to bring that vision to millions of Fortnite players around the world completely free," said **Luca and Leo, founders of Reissad Studio**.

**The game will be optimized for UEFN** using Unreal Engine 5.3 with enhanced lighting, sound, and multiplayer balancing tailored for Fortnite. It will feature two multiplayer modes, Gun Game and Team Deathmatch with creator submitted maps coming soon.

This launch underscores Nazara's broader strategy to pioneer next-generation global game IP publishing and platform convergence by leveraging Fortnite and other emerging platforms to scale original and third-party games worldwide.

*This is an independently created Fortnite island and is not sponsored, endorsed, or administered by Epic Games, Inc.*

### **About Nazara Technologies:**

Nazara Technologies is India's only publicly listed gaming company. Its key businesses include Curve Games, Kiddopia, Animal Jam, Fusebox Games (Love Island, Big Brother), World Cricket Championship and Sportskeeda, along with offline gaming businesses such as Funky Monkeys and Smaash Entertainment. Nazara also operates Datawrkz, a digital ad tech business. With presence in India, North America, and other global markets, Nazara is building a global gaming platform with strong IP, publishing, and operating capabilities.
