Thus, the amalgamation would result in providing better liquidity to the shareholders of Transferor Company while not being prejudicial to the interest of Transferee Company and its shareholders, creditors, employees or any stakeholders.
- b) The amalgamation would result in improving the potential for further expansion of the businesses by way of consolidation of capital base and increased borrowing strengths of the combined entity.
- c) The amalgamation will result not only in consolidating and improving the internal systems, procedures and controls but will also bring greater management and operational efficiency due to integration of various similar functions being carried out by both the Companies.
- d) Greater size, scale, financial strength and flexibility for the merged Transferee Company will result in maximizing and unlocking overall shareholders value.
- e) The amalgamation will result in significant reduction in multiplicity of legal and regulatory compliances which at present is required to be made separately by the Companies with saving in administrative cost and deriving economies of scale.
