Dear Sir/ Madam,

Sub: Intimation of Temporary Shutdown of 60 MW Power Plant at Odisha to carry out routine maintenance / overhauling

Ref: Reg. 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations

We wish to inform you that the Company's energy operations in the State of Odisha comprise three generating units with an aggregate capacity of 150 MW, consisting of Two 60 MW IPP Units and One 30 MW CPP Unit.

In accordance with the recommendations of the Original Equipment Manufacturer (OEM) and prevailing industry best practices, the Company has planned a temporary shutdown of "One of its 60 MW IPP Units" commencing from September 06, 2026, to undertake routine inspection, maintenance and overhauling activities in compliance with applicable safety and regulatory requirements.

The shutdown is expected to continue for about 55 to 60 days and is scheduled during a period of relatively lower thermal power production requirements due to greater availability of hydel power and consequent lower tariffs. Accordingly, the Company does not expect any material adverse impact on its business operations or overall performance on account of this shutdown.

The Company will keep the Stock Exchanges informed of any material developments and will promptly intimate the Stock Exchanges upon resumption of operations.

This is for your information and records.

Thanking you.
For **Nava Limited**
