CREDIT GROWTH EXPECTED TO BE STRONG FOR REST OF FY27

Banking profitability to moderate: Ind-Ra

FE BUREAU
Mumbai, August 27

INDIA RATINGS AND Research (Ind-Ra) has maintained a neutral outlook on the banking sector for the rest of FY27, with elevated loan-deposit ratios (LDRs), muted net interest margins (NIMs) and rising credit costs likely to weigh on profitability despite strong credit growth.

"We have revised our year-on-year FY27 credit and deposit growth to 15% and 13.6%, respectively, for the rest of FY27 to account for the traction in advances growth to corporates and non-banking financial companies, as well as FCNR(B) inflows on the deposit side. High LDR in the banking system, at about 85%, along with moderated profitability, resulting muted net interest margins, and an expected on-year increase in credit costs, are near-term concerns," said Karan Gupta, head and director, financial institutions at India Ratings.

Deposit growth has lagged credit growth by an average 380

CREDIT COSTS ON THE RISE

basis points since FY22, pushing the LDR to 84.8% in Q1FY27 from 71.7% in FY22. Foreign currency non-resident (banks), or FCNR(B), deposits will help moderate LDRs, although the impact is likely to be temporary.

The agency has raised its FY27 deposit growth estimate to 13.6% from 11.4%, compared with 11.2% in FY26. Credit growth stood at 19.3% year-on-year as of July 31, against deposit growth of 15.4%. The agency now expects advances to grow 15% in FY27, up from its earlier estimate of

13% and 14.4% in FY26.

The growth is being driven by lending to large corporates for working capital requirements following the reduction in the cash reserve ratio, as well as increased bank borrowing by NBFCs as tighter bond yields make bank funding more attractive. However, the growth mix is increasingly return-on-assets dilutive due to a sharp increase in lower-yielding large corporate loans. Higher-margin unsecured retail credit growth has also slowed to 12.3% in June 2026 from 25% in January

2024 amid concerns over over-leveraging and rising delinquencies. For NBFCs, Ind-Ra expects asset quality and profitability to remain key focus areas amid global and domestic headwinds. Lenders are likely to prioritise collections and asset quality over aggressive portfolio growth, particularly smaller and lower-rated NBFCs. Unsecured personal and business loans and microfinance remain key asset-quality monitorables, while the rapidly growing gold-loan portfolio also warrants close monitoring, the rating agency said.

STREET SIGNALS

Temasek-backed Sembcorp Green files papers for ₹3,750-cr IPO

SEMBCORP GREEN INFRA (SGLI), a renewable energy platform backed by Sembcorp Industries and Singapore-based fund Temasek, has filed its draft red herring prospectus (DRHP) with the Securities and Exchange Board of India (Sebi) for a ₹3,750-crore initial public offering (IPO). The IPO will entirely be a fresh issue of shares, sources said.

The platform has a renewable energy portfolio of around 7.64 GW — 3.60 GW operational and 4.04 GW under construction — and 1.43 GWh BESS capacity under construction. It has 105 projects across 13 states and Union territories, diversified across wind, solar, hybrid and storage. Its revenue from operations grew from ₹2,249 crore in FY24 to ₹2,653 crore in FY26 and Ebitda grew from ₹1,823 crore to ₹2,099 crore over the same period. Axis Capital, Citigroup Global, CLSA India, HSBC Securities, ICICI Securities, IIFL Capital and Kotak Mahindra Capital are bankers to manage the issue. According to sources, some other firms in the renewable energy space are planning to file IPO papers. —RAGHAVENDRA KAMATH

Hy-Tech Engineers IPO gets 244x subscription

THE ₹135.73-CRORE IPO of hydraulic fitting manufacturer Hy-Tech Engineers was subscribed a whopping 244.41 times on the final day of the share sale on Thursday, helped by an impressive response from investors. The category for non-institutional investors got a massive 402.29x subscription. —PTI

Aragen Life Sciences files IPO papers

CONTRACT RESEARCH, DEVELOPMENT and manufacturing organisation Aragen Life Sciences has filed draft papers with capital markets regulator Sebi to raise ₹800 crore through IPO, which will be a mix of fresh issue and offer for sale. —PTI

From inclusion to empowerment

■ ASHOK CHANDRA

WHEN THE PRADHAN Mantri Jan-Dhan Yojana (PMJDY) was launched on August 28, 2014, its objective was straightforward: i.e. to bring those outside the formal banking system into it.

What followed was much more than an expansion in bank accounts. Over the past 12 years, PMJDY has become an important part of India's welfare and payments architecture. For millions of people, particularly in rural and semi-urban India, a Jan Dhan account has been their first meaningful relationship with a bank and a step towards participation in the wider economy. The scheme also earned a Guinness World Record for opening more than 18 million accounts in just one week.

The scale reached by the programme is remarkable. As on August 12, 2026, PMJDY had around 590.4 million accounts, with deposits exceeding ₹3.15 lakh crore and more than 412.4 million RuPay debit cards in circulation. More than half of the accounts are held by women and nearly four-fifths are in rural and semi-urban areas. Behind these numbers are millions of households that now have a formal place to save, receive payments and access financial services. Its significance is therefore not only scale, but reach.

For a family that has traditionally depended on cash or informal arrangements, having a bank account can transform everyday financial life in quiet but meaningful ways. Savings can be kept more securely, government assistance can be received directly and payments can move beyond cash. For women, an account in their own name can strengthen financial identity, independence and decision-making within the household. These changes shape how families save, spend, plan and build confidence in the formal financial system.

PMJDY has also shown how financial inclusion can become more effective when supported by a wider institutional and digital ecosystem. The Jan Dhan, Aadhaar and Mobile (JAM) architecture has enabled bank accounts to become a direct channel for government transfers. Direct Benefit Transfer has reduced the role of

intermediaries and helped public support reach beneficiaries more directly.

The role of technology has further changed what a bank account means in everyday life. RuPay cards, micro-ATMs, mobile banking and Aadhaar-enabled payment services have taken basic banking services closer to customers.

For the banking sector, particularly public sector banks, this journey has required a combination of scale, outreach and patience. The first objective was to ensure access, the larger opportunity now is to make the account useful throughout a customer's financial journey. A Jan Dhan relationship can become a gateway to savings, insurance, pension, remittances and appropriate credit.

The next phase will be about deepening inclusion rather than simply expanding it. An account that is opened but rarely used cannot deliver the full benefits

of formal finance. Financial literacy, easy-to-use digital services, and responsive grievance redressal will remain important.

There is also a larger economic significance to this transition. As more households conduct transactions through formal channels, their participation in the organised financial system becomes stronger. Regular savings can support asset building; insurance and pension products can improve resilience; and formal transaction histories can, over time, support access to suitable credit.

As India looks towards Viksit Bharat @ 2047, this distinction between access and participation will become increasingly important. A developed India is not only one with higher growth and stronger infrastructure, it is also one where citizens have the financial capability to participate in that growth.

PMJDY has already established a strong foundation for this journey. What began as a mission to open bank accounts has become part of India's broader architecture of financial and social inclusion. The next chapter is about making every account active, useful and connected to opportunities in the formal economy. If the first decade was about bringing people into the banking fold, the years ahead can be about giving every citizen the confidence and capability to move forward within it. That is where financial inclusion can truly become an instrument of financial empowerment and an important building block for a more inclusive Viksit Bharat.

(The author is MD & CEO, Punjab National Bank)

Unlocking economic empowerment

■ BINOD KUMAR

FOR A LARGE country like ours, providing basic financial access to every household is a formidable task. India had been expanding its banking network and pursuing financial inclusion for several years before 2014. However, a significant gap existed between having a bank in the vicinity and having a bank account of one's own.

The numbers explain that gap. In 2011, only 14.48 million of India's 24.67 million households had banking facilities. The earlier approach to financial inclusion had largely focused on providing banking services to villages with a population of 2,000 and above. By 2014, the country had made progress, with 53.1% of adults holding an account, compared with 35.2% in 2011.

But a large section of the population remained outside formal banking. Among women, account ownership was 43.1%. To address this gap and bring the unbanked into formal banking stream, on 28th August 2014, Pradhan Mantri Jan Dhan Yojana was launched by the Prime Min-

ister Narendra Modi. The change was in the scale and focus of the effort. The programme was founded on four guiding principles: Banking the Unbanked, Securing the Unsecured, Funding the Unfunded, and Serving the Underserved. By expanding access to formal banking and financial services, PMJDY brought crores of previously excluded individuals into the mainstream financial system.

Since its inception, PMJDY has emerged as the flagship programme of financial inclusion in India. It has connected crores of citizens to a wide range of financial services, including banking, insurance, pension schemes, DBT, and digital payments. In the process, it has reduced dependence on informal and often exploitative sources of finance, enhancing financial security and improving the quality of life of vulnerable households.

Over the past twelve years, PMJDY has grown into one of the world's largest financial inclusion initiatives. With 58.63 million accounts opened across the country and deposits of ₹3.08 lakh crore as on July 1, 2026, the scheme has demonstrated both its scale and transformative impact. The progress in account ownership is also visible in independent studies as well. According to the World Bank's Global Findex 2025, 89% of

adults in India had an account in 2024, as against 35.2% in 2011.

Among all participating banks, Indian Bank has made a significant contribution to the success of the programme, accounting for a 4.24% market share in PMJDY accounts. Deposits in PMJDY accounts with the Bank have registered 18% YoY growth, reaching ₹13,901 crore as of July 2026.

While PMJDY was conceived primarily as a vehicle for financial inclusion, it has also generated significant benefits for the banking system. The steady growth in PMJDY deposits has enabled banks to mobilise a large and stable pool of low-cost funds, strengthening their deposit base and supporting credit growth. The significance of this contribution is reflected in the average balance of ₹5,224 per PMJDY account across the banking industry.

The growth in account balances reflects rising financial awareness, improved savings behaviour, and growing trust in the formal banking system among previously excluded sections of society. PMJDY has thus emerged as a win-win proposition, advancing financial empowerment while contributing to the stability and sustainability of the banking sector.

The significance of PMJDY extends beyond savings and deposits. By bringing crores of

citizens into the formal banking system, it created the base that helped the country's digital payments ecosystem scale rapidly.

PMJDY's real achievement, however, lies in the financial ecosystem it enabled beyond the bank account. It provided a foundation for extending insurance and pension coverage through schemes such as the Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY), Pradhan Mantri Suraksha Bima Yojana (PMSBY) and Atal Pension Yojana (APY), bringing these instruments of financial protection within the reach of crores of citizens.

The impact of PMJDY has also extended to formal credit through schemes such as PM SVANidhi and the Pradhan Mantri Mudra Yojana (PMMY). By connecting individuals to affordable credit, insurance, pension, and other financial services, the programme has created a more inclusive, resilient, and accessible financial ecosystem.

If the first twelve years of Jan Dhan were about bringing people into the formal financial system, the years ahead must be about enabling them to use that system to improve their socio-economic well-being. This will be essential, as a financially empowered citizenry will form the foundation of an inclusive and prosperous India and the larger national aspiration of building a Viksit Bharat.
