Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

* During the year, an Indian subsidiary of the Company has revised its policy of providing depreciation on fixed assets with effect from April 1, 2015. Depreciation is now provided on a straight line basis for all assets as against the policy of providing on written down value basis for certain assets. The adoption of new policy resulted in depreciation for the year 2015-16 being lower by Rs 3 Crores and the write back of depreciation amounting to Rs. 17 Crores relating to earlier years.

**Represents non-cash impairment loss mainly on goodwill relating to the branded businesses in Eastern Europe and branded tea business in the US. While the Company is actively pursuing various growth opportunities, the accounting impairment has been recognised due to factors like macro-economic instability, decline in category growth rate and higher competitive intensity. In addition the group also provided for partial diminution in the value of certain inventory items.

4. Actuarial loss (net of tax and minority interest) of Rs 24.77 Crores for the quarter, relating to defined benefit pension scheme of overseas subsidiaries have been accounted in Reserves in the Consolidated Financial Statement applying the principles of Accounting Standard 21 and in line with the policy followed by the overseas subsidiaries and other companies in compliance with the relevant overseas accounting framework. Further, the current policy is consistent with IND-AS 19 – Employee Benefits (mandatorily applicable from April 1, 2016) wherein, the actuarial gains and losses on defined benefit plans are not required to be recognised in the Statement of Profit and Loss. Had the accounting policy of recognising the actuarial gains and losses of pension scheme of the overseas subsidiaries in the Statement of Profit and Loss been followed, the Consolidated Net Profit for the Group would have been lower by Rs 24.77 Crores and Rs 37.77 Crores for the quarter and the year ended March 31, 2016 respectively.

The Statutory Auditors have invited attention to this in their Audit Report.

5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.
6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 9 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, read with the proviso and the effect of the matter referred in the paragraph 8, below the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group, its associates and jointly controlled entities as at March 31, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Emphasis of Matter

8. As mentioned in Note 48 (c) to the consolidated financial statements, the overseas subsidiaries of the group have defined benefit schemes relating to which the actuarial losses or gains are allowed to be recognized in the Reserves as per the local generally accepted accounting practices followed in those respective jurisdictions. For the purpose of consolidated financial statements the holding company has adopted the accounting policy in respect of actuarial gains or losses for its overseas defined benefit schemes to reflect the applicable accounting framework of the respective jurisdictions and consequently accounted it in the Reserves instead of in the Statement of Profit and Loss. Had the Company followed the practice of recognition of actuarial gains/losses on the aforesaid defined benefit plans in the Statement of Profit and Loss as per Accounting Standard (AS 15) on Employee Benefits, the charge to employee benefits expense would have been higher by Rs. 53.15 Crores, the deferred tax charge would have been lower by Rs. 10.54 Crores, the consolidated profit before taxes and minority interest would have been lower by Rs. 53.15 Crores and the consolidated profit after taxes and minority interest would have been lower by Rs. 37.77 Crores.
