## GENERAL BUSINESS UPDATE

### **NECC: A Legacy of Excellence in Logistics**

For the past 56 years, NECC has been a renowned leader in the logistics industry. Our journey has been one of constant growth, with each decade introducing new business verticals and expanding our reach. Today, we are proud to partner with some of the most trusted names across various industries. These partnerships have allowed us to build a diverse and loyal client base, ensuring a consistent, long-term stream of business.

### **Key Clients That Trust NECC**

Some of the industry giants that rely on NECC as a vital part of their supply chain ecosystem include:

- **ITC Ltd.**
- **Hindalco Industries**
- **Gas Authority of India Ltd.**
- **Mankind Pharma**
- **Intas Pharma**
- **Cipla Ltd.**
- **Valvoline Cummins**
- **Avantor**
- **Duraline Industries**
- **HFCL Ltd.**
- **Tata Steel**
- **Tata Consumer Products**
- **APL Apollo Tubes Ltd.**
- **Patel Engineering**
- **HCC**
- **NCC**
- **TVS**
- **Otis Elevators**

This diverse and impressive client list is a testament to the trust placed in NECC and the long-lasting relationships we have cultivated over the years.

## Our Strong Business Verticals

Over the years, our business verticals have evolved, contributing significantly to NECC's overall growth and success. Today, our key divisions include:

1. **Express PTL / Parcel Load**
2. **Full Truck Business / Door-to-Door Services**
3. **Bulk Transportation**
4. **ODC Movements / Specialized Heavy-Duty Cargo Lifting**
5. **Warehousing and Distribution**

Each of these divisions plays a vital role in supporting our mission to provide comprehensive and innovative logistics solutions.

## New Warehouse Facility in Tauru

NECC is in the process of developing a state-of-the-art, 183,000 sq. ft. warehouse facility at our site in Tauru, near Gurugram. This integrated facility will be built on a 5-acre land parcel and will feature:

- Housing facilities for staff
- Multi-level racking systems for efficient storage
- Modern electric material handling equipment
- 2 MW of solar power installed on the roof

This new facility will have a substantial impact on NECC's profitability, as we already have secured business for the upcoming warehouse. The project is being fully funded from the company's reserves.

This facility also exemplifies our futuristic approach to building sustainable, integrated logistics hubs across India. With in-house solar capacity, NECC will benefit from reduced input costs and improved efficiency. Additionally, the facility will significantly lower the cost of first-mile and last-mile deliveries, particularly when using electric (EV) trucks.

## Commitment to Green Logistics

We are also excited to share NECC's recent strategic investment in SG Green Logistics, a company dedicated to sustainable trucking solutions, particularly in heavy-duty electric vehicles (EVs). SG Green has already secured 50 electric trucks, cranes, material handling equipment, and installed charging stations at multiple locations across India.

---

This investment is aligned with our vision to electrify short-route trucking across major cities, significantly contributing to the decarbonization of the logistics sector. By adopting electric trucks, NECC will be better positioned to tackle the challenges of the future while also gaining a competitive advantage in the crowded logistics market. Our early adoption of EV technology places us at the forefront of innovation and provides us with a cost advantage, enabling us to take on larger contracts and work with even more leading names in various industries.

## Conclusion

NECC's long-standing legacy, combined with our commitment to sustainability and innovation, positions us as a leader in the logistics industry. Our focus on providing reliable, cost-effective, and eco-friendly solutions ensures that we are well-equipped to meet the evolving demands of the global supply chain.
