ASKS IF SC OPINION IS MUST WHEN BILL IS RESERVED FOR PRESIDENT'S NOD

Prez asks SC on assent to Bills: Can timelines be imposed?

ANANTHAKRISHNAN G
New Delhi, May 15

IN A REFERENCE to the Supreme Court, President Droupadi Murmu has posed 14 crucial questions over the top court's April 8 verdict that fixed timelines for governors and the President to act on Bills passed by state Assemblies.

Seeking the Supreme Court's opinion under Article 143(1), Murmu sought to know whether the actions of the governors and President are justiciable and whether such timelines can be imposed on them in the absence of any such provision in the Constitution.

The reference pointed out that "there are conflicting judgments of the Supreme Court as to whether the assent of the President of India under Article 201 of the Constitution of India is justiciable or not".

Under Article 145(3), when the President makes a reference for the court's opinion, it is placed before a five-judge bench. In the Ayodhya dispute, the apex court, citing pendency of the case, had declined to

In her reference to the SC, President Murmu sought to know: "Is the exercise of constitutional discretion by the President under Article 201 of the Constitution of India justiciable?"

answer the question referred to it on whether a temple existed below the disputed structure.

Article 143(1), which was invoked by the President to seek the court's opinion, says that "if at any time it appears to the President that a question of law or fact has arisen, or is likely to arise, which is of such a nature and of such public importance that it is expedient to obtain the opinion of the Supreme Court upon it, he may refer the question to that

Court for consideration and the Court may, after such hearing as it thinks fit, report to the President its opinion thereon".

On April 8, the Supreme Court had set a timeline for Governors to act on pending Bills, and for the first time, prescribed that the President should take a decision on the Bills reserved for consideration by the Governor within three months from the date on which such reference is received. Under Article 201 of

the Constitution, no time-frame has been set for a Presidential decision.

The top court had said that "in case of any delay beyond this period, appropriate reasons would have to be recorded and conveyed" to the state concerned.

The court, in its ruling, declared the action of Tamil Nadu Governor RN Ravi as illegal and erroneous in reserving 10 Bills for consideration of the President in November 2023 after they had already been reconsidered by the Assembly.

In her reference to the Supreme Court, President Murmu sought to know: "Is the exercise of constitutional discretion by the President under Article 201 of the Constitution of India justiciable? In the absence of a constitutionally prescribed timeline and the manner of exercise of powers by the President, can timelines be imposed and the manner of exercise be prescribed through judicial orders for the exercise of discretion by the President under Article 201 of the Constitution of India?"

Exports swell 9.1%

HOWEVER, SOME ANALYSTS remained sceptical about the sustainability of the rebound, given the stagnant global trade volumes predicted for 2025. Barthwal said that the record exports of \$825 billion — goods and services combined — in the last financial year despite the headwinds showed the resilience of India's exporters and the government's strategy and support. Of course, goods exports contracted 3% in FY24 and saw flat growth in FY25. The overall export momentum was, however, helped by buoyant services exports.

"The government's strategy is to focus on 20 countries which account for 65% of the exports, focussing on six sectors where we have 60% of our exports. In the services sector focussing on six sub-services was a good strategy in the last financial year. This is going to continue," Barthwal added.

The services exports in April grew 17% to \$35.31 billion while imports were up 4.65% to \$17.54 billion.

"Sustaining this momentum will require continued support through stable policy, enhanced trade facilitation, improved logistics, and timely conclusion of FTAs, especially

JUMP IN SHIPMENTS TO THE US

with the UK, US, EU, Oman, and GCC countries," president of Federation of Indian Export Organisations (FIEO) S C Ralhan said.

"Access to affordable credit, particularly for MSMEs, along with timely disbursement of incentives like Interest Equalisation, RoDTEP, and other export benefits, will be vital to maintaining export competitiveness and achieving ambitious growth targets," he added.

Engineering goods exports continued their good form expanding 11.28% on year to \$9.5 billion. The biggest growth came in electronics

goods with shipments growing 39.51% to \$3.7 billion. After many months of decline, gems and jewellery exports were back in the growth zone with exports growing at 10.74% to \$2.50 billion. Even petroleum product exports came back on the positive territory expanding 4.68% to \$7.37 billion. Readymade garment exports grew 14.43% to \$1.37 billion.

Electronic goods imports saw growth of 31.19% to \$9.25 billion. Despite lower international prices, imports of crude were up 25% to \$20.71 billion. Machinery imports grew 23.20% to \$4.67 billion.

Digital banking units fail to touch a chord

THE FINANCIAL VIABILITY of DBUs is also a concern. Infrastructure, technology and personnel costs have marred the initiative. However, bankers believe cost isn't the primary concern. "It's not about the cost, it's about customer acceptance and relevance," said a banker.

However, not all hope is lost. With insurance and mutual fund penetration below 5%, banks may need to reassess their DBU strategy. Integrating digital services with existing branch networks and BCs could provide a seamless customer experience and drive financial inclusion. "DBUs need to be more than just a physical presence," said the banker.

"They need to offer something unique and valuable to customers." As the banking landscape evolves, DBUs need to adapt and find their place. Whether it's through innovative services or strategic partnerships, DBUs need to prove their worth.

FROM THE FRONT PAGE

Nifty reclaims 25,000 peak...

HE ADDED THAT with India-Pakistan tensions easing and hopes of a favourable tariff policy between the US and the two Asian giants (India & China) in the near term, equity markets could see further traction. However, he also cautioned that intra-day volatility risks remain high.

Vinod Nair, head of research at Geojit Financial Services, said: "The market staged a robust rebound, closing with substantial gains, driven by a decline in domestic inflation and positive signals from the US on a potential trade deal with India. The benchmark index outperformed the broader market, buoyed by growing optimism around reduced operational costs and the prospect of a more accommodative monetary policy stance."

Rate-sensitive sectors such as automobiles and real estate led the rally, supported by upbeat industry forecasts. Investor focus is now turning to the upcoming speech by the Federal Reserve chair, which is expected to provide clarity on the future policy trajectory, especially in light of the recent easing in US inflation data, Nair added.

Foreign portfolio investors were net buyers on Thursday and bought shares worth ₹5,392.94

crore, while domestic institutional investors were net sellers and sold shares worth ₹1,668.47 crore, as per provisional data by the BSE.

The broader indices, BSE Midcap and BSE Smallcap, gained 0.67% and 0.94%, respectively. Market breadth was firmly positive, with 2,615 gainers against 1,350 losers. Investors' wealth rose by ₹5.22 lakh crore, as BSE's total market capitalisation increased to ₹440.2 lakh crore.

All sectoral indices on both the BSE and the NSE ended in the green. Realty, auto, services, industrials, and metals were the top performers, rising up to 1.87% on the BSE.

Except for IndusInd Bank (down 0.16%), all Sensex and Nifty stocks ended in the green. Tata Motors, HCL Tech, Adani Ports, Eicher Motors, and Maruti Suzuki were the top gainers on the Sensex, advancing up to 4.16%.
