NTPC pitches green fuel trade to overseas buyers

● Power producer in talks with Japan, Germany and South Korea

SAURAV ANAND
New Delhi, October 13

STATE-RUN NTPC IS in talks with potential buyers in Japan, South Korea and Germany for green ammonia and other green fuels, stepping up efforts to secure overseas demand as it moves its green-hydrogen business from pilot projects toward commercial scale.

The country's largest power producer is developing a proposed green hydrogen hub in Andhra Pradesh, which is expected to produce green ammonia and green methanol. The overseas outreach comes as developers globally have struggled to secure the long-term buyers needed to support investment in large green-hydrogen projects.

"We are already talking to many of the off-takers like from Japan, Korea, Germany. I think these are the main countries which we are looking at," NTPC Chairman and Managing Director Gurdeep Singh said at an event organised by business group the Indian Chamber of Commerce.

GLOBAL AMBITIONS

■ India has set a target of producing 5 mn metric tonne of green hydrogen annually by 2030

■ NTPC has already been testing hydrogen use in mobility, with the first batch of hydrogen buses deployed in Leh-Ladakh

GURDEEP SINGH,
CMD, NTPC

We have to make hydrogen a business with the focus shifting from pilot projects to commercially viable ventures

The talks put overseas demand at the centre of NTPC's next phase of green-hydrogen development. Singh said the company has already started work on the hydrogen hub, which would enable the production of green ammonia or green methanol. A 20-km pipeline is currently under construction as part of the project.

"Green ammonia and methanol are seen as more practical than hydrogen for transportation and international trade. NTPC's discussions have therefore opened a potential overseas market for the fuels even as the company develops the production infrastructure in India," said an analyst, tracking the development.

For NTPC, however, the key challenge is moving beyond demonstration projects and establishing assured demand.

"The green hydrogen must move from the pilot to the dependable demand," Singh said, adding that developing the business could also support further renewable-energy capacity addition.

"We have to make hydrogen a business with the focus shifting from pilot projects to commercially viable ventures," he added. The push comes as Indian companies seek customers for green fuels while the government attempts to build the country into a major producer of green hydrogen and its derivatives.

India has set a target of pro-

ducing 5 million metric tonne of green hydrogen annually by 2030, backed by government support of about \$2.1 billion.

NTPC has already been testing hydrogen use in mobility. Singh said 10 hydrogen buses are in operation, with the first batch of five deployed in Leh-Ladakh around two-and-a-half years ago. Solar electricity is used to produce the hydrogen that powers the buses.

The green-fuel push forms part of NTPC's wider expansion across energy technologies. Singh said the company plans around ₹17 lakh crore of investment over the next 10 years, including about ₹7 lakh crore over the next five years, spanning different energy sources.

MSME secy calls for focus on quality with new FTAs

SHUBHAM RANA
New Delhi, October 13

BHARAT KHERA,
MSME SECRETARY

There's a lot of thrust of quality that we would now need to focus on. There's a need for MSMEs to also become globally cost-competitive

INDIAN MICRO, SMALL and medium enterprises (MSMEs) need to focus on quality and becoming competitive with the new and upcoming free trade agreements (FTAs) opening new opportunities, MSME Secretary Bharat Khera said at an event on Tuesday.

Strengthening the competitiveness of Indian MSMEs is also important if the country wants to achieve the goal of becoming a developed economy by 2047, Khera said at the CII's Global MSME Business Summit here.

"There's a lot of thrust of quality that we would now need to focus on. There's a need for MSMEs to also become globally cost-competitive. So these are the two

things which would be the focus going forward," Khera said.

"This would require improvement in technology, access to skills, access to

finance, and this has to be supported by strong partnerships among the government, industry, academia, and international institutions," he said.

Other priorities for the sector include formalisation of enterprises and access to finance, Khera said.

The secretary said that government runs a Zero Defect, Zero Effect (ZED) scheme, to nudge the industry to adopt quality standards.

"I would say bronze certifications have gone up, but silver and gold are still very low. So that is something which we need to now focus on," Khera said. The ministry would work with the Quality Council of India and the National Productivity Council to nudge the industry to adopt higher quality standards, he added.

Go in mission mode against stubble fires: Govt to states

PRESS TRUST OF INDIA
New Delhi, October 13

AHEAD OF THE peak crop residue burning season, the Centre on Tuesday asked Madhya Pradesh, Rajasthan, Punjab, Haryana and Delhi-NCR governments to work in 'mission mode' to prevent stubble burning.

High-level inter-ministerial meeting, chaired by Agriculture Minister Shriyash Chouhan and Environment Minister Bhupinder Yadav, reviewed stubble management with state agriculture ministers and officials.

"Very little time remains between the harvesting of the current crop and the sowing of the rabi crop. Therefore, the administrative machinery must step away from paperwork and work directly on the ground on a war footing," the two ministers said.

States have been asked to hold immediate meetings with district magistrates to ensure strict monitoring and practical solutions, an agriculture ministry statement said.

Reviewing data for September 15 to October 12, Chouhan noted a significant fall in burning incidents over the previous year: 53.3% in Haryana and about 32% in Uttar Pradesh. Punjab also recorded a decline.

However, he termed the rise in Madhya Pradesh (55 to 277 cases, up 452%) and Rajasthan (20 to 60, up 200%) "extremely concerning".

198 Gati Shakti projects under implementation

FE BUREAU
New Delhi, October 13

THE NETWORK PLANNING Group (NPG) under the PM GatiShakti National Master Plan has evaluated 421 infrastructure projects worth ₹20.23 lakh crore in the five years since its launch in October 2021. Of these, 256 projects have been sanctioned and 198 are under implementation, according to the commerce and industry ministry.

The master plan, launched to improve coordination among ministries and integrate infrastructure planning across the country, has brought 58 Central ministries and departments and all 36 states and Union Territories onto a common geospatial digital platform. It now integrates more than 1,800 data layers to facilitate coordinated planning of roads, railways, ports and other infrastructure, with an emphasis on multimodal connectivity and last-mile links to economic centres.

The government has also decided to establish an Integrated Transport and Logistics Authority (ITLA) to build on the

STATUS REPORT

■ The PM GatiShakti National Master Plan evaluated 421 infra projects worth ₹20.23 lakh cr since Oct 2021

■ Of these, 256 projects have been sanctioned

■ Over the years, the initiative has evolved from a national planning platform into a wider geospatial ecosystem

platform's capabilities and strengthen long-term transport planning. The ITLA has received Cabinet approval. The authority will undertake research, planning, project appraisal, monitoring and impact assessment across the transport and logistics sectors, with the objective of improving connectivity, reducing logistics costs and enhancing India's competitiveness.

The NPG, the institutional mechanism for evaluating

projects under the GatiShakti framework, assesses proposals for multimodal integration, last-mile connectivity, inter-modal links, logistics efficiency and synchronisation of implementation. Its appraisal is intended to identify infrastructure gaps and prevent fragmented planning across ministries.

Over the five years, the initiative has evolved from a national infrastructure planning platform into a wider geospatial ecosystem, the ministry said.

The government has also expanded GatiShakti beyond conventional infrastructure to district-level and social-sector planning. District Master Plans are being used to support the coordinated development of roads, schools, healthcare facilities, water pipelines and other essential services, linking infrastructure decisions with local economic and social needs.

The PM GatiShakti Public Platform, using the Unified Geospatial Interface, was launched in September 2025 to extend selected data and analytical capabilities to private entities and the general public.

Tourism set for industry status in Kerala soon

FE BUREAU
New Delhi, October 13

THE KERALA GOVERNMENT is likely to grant industry status to tourism to attract greater investment and strengthen the state's tourism and hospitality sector, P C Vishnunad, minister for tourism, cinema and cultural affairs, said on Tuesday. "Getting industry status has been a long-pending demand of stakeholders in the sector. We expect this decision will yield significant investment," Vishnunad said.

The state is preparing to unveil its policy framework ahead of the peak domestic travel season coinciding with the Dussehra and Diwali holidays. Kerala Tourism on Tuesday announced a wide range of packages along with its destinations and experiences.

Kerala registered 10.98% growth in domestic tourist arrivals during the first quarter of 2026 compared to the same period last year, according to a statement.

Credit risk insurance plans for shipping biz launched

THE SHIPPING MINISTRY on Tuesday announced two specialised credit risk insurance products to support India's shipbuilding industry under the National Shipbuilding Mission.

The Shipbuilding Project Credit Risk Insurance Policy (SbPCP), developed by ECGC, will cover export projects, while the Business Credit Shield Policy (BCSP), developed by The New India Assurance, will protect domestic

projects, Union Minister for Ports, Shipping and Waterways Sarbananda Sonowal announced at the concluding day of the 21st Maritime State Development Council (MSDC).

The central government will subsidise insurance premiums and provide direct support to insurers in case shipyards file claims, the minister said.
