PRESS RELEASE

NewJaisa Technologies Limited Enters into Distribution Partnership with Redington Limited to Expand Availability of Refurbished Computing Products Across India

Partnership combines NewJaisa's refurbished computing product portfolio with Redington's distribution network and channel ecosystem

Bengaluru, August 12, 2026: NewJaisa Technologies Limited ("NewJaisa" or the "Company"), an Indian technology refurbishment company, today announced that it has entered into a Distribution Agreement for Refurbished Products with Redington Limited ("Redington"), a technology distribution company, to distribute NewJaisa's refurbished products across India.

Under the agreement, Redington has been appointed as a non-exclusive distributor for NewJaisa's products across the territory of India. Redington will have the right to resell the products to dealers, resellers and end customers subject to the terms of the agreement.

The partnership provides NewJaisa with an additional channel for reaching customers through an established technology distribution ecosystem and is expected to support wider availability of the Company's refurbished computing products across Indian markets.

Expanding Access to Refurbished Computing Products

NewJaisa is engaged in the refurbishment of electronic devices, including computing products. Under the agreement, the products covered include products refurbished by NewJaisa and sold under its applicable trademark.

The Company's refurbishment process includes activities such as inspection, testing, repair, restoration, reconditioning and data sanitisation, with products being approved for resale in accordance with applicable laws.

Through the partnership with Redington, NewJaisa aims to make its refurbished products accessible through a broader network of dealers, resellers and end customers across India.

The arrangement provides an additional route for the Company to distribute its products through both online and offline channels, complementing its existing sales and distribution channels.

Strengthening the Company's Distribution Reach

The appointment of Redington as a non-exclusive distributor adds a channel-led distribution route to NewJaisa's existing business model.

The partnership is expected to support the Company in:

- expanding the availability of its refurbished products across markets in India;
- reaching a broader network of dealers and resellers;
- enabling distribution through both offline and online channels;
- increasing access to end customers through the distributor's channel ecosystem; and
- providing an additional route for the Company's refurbished computing products to reach businesses, institutions and other customers.

The Company will continue to operate its existing sales and distribution channels alongside the new distribution arrangement.

Management Commentary

Mr. Vishesh Handa, Managing Director, NewJaisa Technologies Limited, said:

"We are pleased to enter into this distribution arrangement with Redington Limited. The partnership provides NewJaisa with an additional channel to distribute its refurbished computing products through dealers, resellers and end customers across India.

NewJaisa has been focused on developing its refurbishment capabilities and building a product proposition centred on quality, reliability and value. Through Redington's distribution ecosystem, we aim to make our refurbished computing products more accessible across a wider range of markets and customers.

We believe this partnership represents an important step in strengthening our distribution capabilities and supporting the continued development of the organised refurbished computing segment."
