Sub: Status of Parbati-III power station of NHPC Ltd.
Scrip code: NHPC EQ

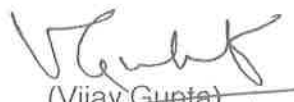

Sirs,

Reference is invited to our earlier letter No. NH/CS/199-NSE/2733 dated 9th January, 2015(copy enclosed). This is to inform that Unit # IV (130 MW) of Parbati-III Power Station has been synchronized to Grid at 19.33 Hrs. on 02.02.2015. Further, Repair works related to water conducting system and pressure shaft have been completed (Power station was under complete shutdown since 19-11-2014), restoration of other Units are in progress as per schedule.

You are requested to kindly take the information on records.

Thanking you.

Yours faithfully,

(Vijay Gupta)
Company Secretary

Final reply duly vetted by O&M division.

"The three power stations namely Uri-II, Parbati-III and Teesta Low Dam III are under shutdown as on date. The Uri II Power Station is shut down due to fire in GSU transformer of Unit # 2 leading to damage of all 400 KV XLPE cable resulted into stoppage of generation of the power station and the same was communicated to the exchange on November 20, 2014. Two units & one transmission line of Uri II is expected to be restored by March 31, 2015, third unit by 2nd week of April 2015 and fourth unit & second transmission line by 3rd week of June'2015. It is to further inform that Uri II power station is covered under comprehensive insurance policy taken by the company and the loss of profit due to such incident is covered therein. Parbati III Power station is under planned shut down for the annual maintenance of all the four units simultaneously and likely to be restored by 2nd week of Feb'2015. Teesta Low Dam III is also under annual maintenance of all the four units along with HV testing of line breaker refurbished recently and expected to be restored by January 15, 2015. "
