

NIIT Technologies implements State-of-the-art Content Management System for Singapore Government

New Delhi, 28th March, 2012, Wednesday: NIIT Technologies Ltd. (NSE: NIITTECH), a leading global IT solutions organization, today announced the successful implementation of an automated Content Management and Delivery system at Singapore Parliament. The recording system enables the recording and archiving of parliament proceedings. Singapore Parliament is first ever in Asia to implement Content Management and Delivery system.

The recording system brings sophisticated publishing capabilities in-house for Singapore Parliament. It provides useful features at a touch of a button like, fast batch pagination with manual control and produce high quality content under tight timelines.

Speaking on the successful implementation, Mr. Gunalan Kamalanathan, Project Manager of the Singapore Parliament reporting system said, "The users of this system are the staff from the Official Reports or Hansard department of Singapore Parliament. The staff used to spend long hours, sometimes stretching late into the night, to transcribe and record every word spoken in the parliament chamber. With the new system, the transcription and reporting process is speedier and more accurate, altogether less painful."

Mr. Arvind Mehrotra, President, Asia- Pacific, NIIT Technologies said, "It is an honor to be chosen by Singapore Parliament to implement a solution that enhances their efficiency. NIIT Technologies has successfully brought this solution tailored specially for them and has taken a step ahead in its journey to bring value to its customer. This implementation strengthens our position as one stop IT solution provider".

About NIIT Technologies

NIIT Technologies is a global IT solutions organization, servicing customers in North America, Europe, Asia and Australia.
