

NIIT Technologies implements Cargo Operations Intelligent System at Vietnam's Largest Airport

System increases operational efficiency and enhances customer satisfaction

New Delhi, India, 6th February , 2012 – NIIT Technologies Ltd. (NSE: NIITTECH), the global IT solutions provider, today announced the successful deployment of its Cargo Operations Intelligent System (COSYS), a complete cargo management platform, to manage cargo handling operations by Tan Son Nhat Cargo Services, at the Tan Son Nhat International Airport, Ho Chi Minh City, Vietnam.

Tan Son Nhat Cargo Services will use COSYS to provide tailor-made e-freight compliant solutions for cargo handling agents and carriers from single front-end. The deployment continues to greatly enhance the company's ability to improve customer loyalty by delivering automated service capabilities that can be fully integrated with various airlines' cargo reservations system to simplify cargo handling process.

Commenting on the successful deployment, Arvind Mehrotra, President, Asia-Pacific, NIIT Technologies said, "Tan Son Nhat Cargo Services can now cut down time spent on cargo processing and bolster operational efficiency as the system's intuitive user-interface enables the company to handle all agents and airlines from a centralized platform".

Developed by NIIT Technologies for SATS (Singapore Airport Terminal Services), COSYS is a complete cargo handling platform built on latest technology and open architecture that automates and simplifies cargo handling process by reducing paperwork and duplication of data. A key component of COSYS is its rich functionality, which enables customers to easily customize for flawless integration into local processes and regulations as well as guaranteeing high performance.

NIIT Technologies has a strategic technology partnership with the SATS. Through this relationship NIIT not only implements and supports the COSYS solution, but also takes it to potential customers globally. The SATS-NIIT Technologies relationship brings the best practices in cargo handling processes. NIIT Technologies and SATS collectively have vast experience in implementing and maintaining COSYS at several airports in Asia including Singapore, Taiwan, Beijing, Hong Kong, Indonesia and Bangalore.
