III. Other information:**Reasons of loss or inadequate profits:**

A slowdown in the real estate and construction sectors reduced demand for tiles, marble, and related products. During the earlier years, the restructuring efforts yielded limited outcomes, which in turn impacted revenue growth, compressed

margins, and placed pressure on the working capital cycle. Concurrently, rising input costs and increased competition from low-cost manufacturers added further operational complexity.

Steps taken or proposed to be taken for improvement

The Company has entered into a restructuring agreement on October 22, 2024 with Authum Investment & Infrastructure Limited which marked a pivotal point in its journey. Armed with renewed financial strength, the Company has implemented a structured roadmap stabilizing supply through long-term sourcing partnerships, reenergizing its sales and marketing functions, and expanding its presence across both urban and Tier 2/3 markets. The Company has seen promising traction, with successful project tie-ups with marquee real estate players. Following the restructuring, the company's sales revenue has witnessed substantial quarter-on-quarter growth. The company has also entered into a Joint Development Agreement for plotted development for one of its land parcel.

The Company plans to further strengthen its domestic footprint by adding new franchisees, dealers, and sub-dealers to improve last-mile visibility, enhancing customer access, and deepening engagement across base towns and emerging regions.

Expected increase in productivity and profits in measurable terms:

Given the strong brand equity of the Company and its performance during the current year despite a challenging business environment, coupled with the various strategic measures undertaken to enhance operational efficiency, the management remains optimistic about achieving a turnaround in the near future. This is expected to result in improved productivity and enhanced profitability. Sales revenue for the first nine months in the current financial year has already exceeded last year's performance, and management expects it to surpass Rs 450 crore by the end of the year.

The Company is also rationalizing and optimizing its product portfolio with a view to driving higher sales volumes. Supported by a robust distribution network that serves customers across India, the Company continues to strengthen its market presence.
