Dear Sir,

Subject : Achieved Major Break through/ get the product approval for UL (Underwriters' Laboratory).

We are pleased inform you that the company has received the Approval for UL (Underwriters' Laboratory) one of the most prominent approving authority for fire protection based out of USA for its clean agent suppression system for use into fire protection application for occupied enclosed areas.

This UL is one of the most stringent approving authorities based out of USA who certifies the design and configuration of the system for various applications. The standards followed by them are one of the highest in the world and accepted worldwide. The company expects to have much higher business growth with this approval which has opened up some area where there were specific requirements of UL Listed systems. UL is a global independent safety science company with more than a century of expertise innovating safety solutions from the public adoption of electricity to new breakthroughs in sustainability, renewable energy and nanotechnology. Dedicated to promoting safe living and working environments, UL helps safeguard people, products and places in important ways, facilitating trade and providing peace of mind.

There is a major break through into this approval shall open a market opportunity which is currently over 500 Mln USD. This approval has been awarded to us after rigorous testing and stringent approval mechanism which the company has undergone. The company has been constantly investing into R&D of the product which has made the company upgrade to receive such international awards and recognition. Our Company claims to be the only Indian company with such large number of international approval on its range of products for fire fighting applications and its products are currently accepted into various global markets. We could rightly say that we are moving towards becoming Indian multinational into the fire protection industry.
