Press Release

NLC India Limited Secures 200 MW Wind Power Project from SJVN at ₹3.74/kWh

NLC India Limited (NLCIL), a Navratna company under the Ministry of Coal, Government of India, has received a **Letter of Award (LoA) for 200 MW Wind Power Project from SJVN Limited at a tariff of ₹3.74 per kWh on 28th February 2025**. NLC India Limited turned successful in the e-reverse auction conducted by SJVN Limited on 17th January 2025. The project is set to generate 526 MU of clean green power each year offsetting equivalent amount of greenhouse gas emissions.

This milestone reinforces NLCIL's growing presence in India's renewable energy sector and aligns with the company's vision of achieving **10 GW renewable energy capacity by 2030**. It is also to be noted that NLCIL's Renewable energy journey started with its 51 MW Wind project during the year 2013.

This winning marks a significant expansion of NLCIL's wind energy portfolio, **increasing its total wind power capacity to more than 300 MW including projects**. The newly secured project will contribute to India's commitment to increasing non-fossil fuel-based power generation, in line with the National Green Energy Policy and the government's target of achieving **500 GW of non-fossil fuel capacity by 2030**.

Project Highlights:

- **Capacity:** 200 MW Wind Power Project
- **Awarding Authority:** SJVN Limited
- **Discovered Tariff:** ₹3.74/kWh
- **NLCIL Wind Power Capacity:** 301 MW (after this award)
- **Targeted Renewable Energy Capacity by 2030:** 10 GW

Speaking on this achievement, **Shri Prasanna Kumar Motupalli, Chairman & Managing Director, NLC India Limited**, stated:

"This is a proud moment for NLCIL as we continue to expand our renewable energy footprint in the country. Winning this 200 MW wind project further strengthens our commitment to sustainable and clean energy solutions. Our strategy aligns with India's energy transition goals, and we are determined to contribute significantly to a greener future. NLCIL is making remarkable progress in expanding its renewable energy portfolio, ensuring a more sustainable future for generations to come. Our investments in renewable energy will play a crucial role in strengthening India's green economy and meeting global climate commitments."

As NLC India Limited accelerates its **green energy transition**, the company is making strategic investments in **solar, wind, hybrid power projects, battery energy storage systems (BESS), and green hydrogen initiatives**.

The execution of this project will be carried out in compliance with the stipulated timelines as per the tender, and NLCIL remains committed to delivering clean energy solutions with efficiency and excellence.

About NLC India Limited

NLC India Limited (NLCIL) is a **Navratna public sector enterprise** under the **Ministry of Coal, Government of India**. It has a rich legacy of over **six decades in lignite mining and power generation**, with a strong focus on **sustainability and renewable energy expansion**. The company is playing a crucial role in India's energy transition and is committed to developing **solar, wind, and hybrid power projects** to achieve its goal of **10 GW renewable energy capacity by 2030**.
