NIIT Learning Systems Limited Ranked Among Training Industry's Top 20 AI Coaching & Learner Support Tools Companies, 2026

Atlanta, GA, July 1, 2026: NIIT Learning Systems Limited (Ticker Symbol: NIITMTS), a global leader in managed learning services, announced that it has been named to the 2026 Top 20 Companies in AI Coaching & Learner Support Tools by Training Industry, Inc. for the second consecutive year.

Training Industry, the leading research and information resource for corporate learning leaders, prepares the Training Industry Top 20 report on critical sectors of the corporate training marketplace to better inform professionals about the best and most innovative providers of training services and technologies.

Selection to the 2026 Training Industry Top AI Coaching & Learner Support Tools Companies List was based on the following criteria:

- Scope, quality, and extent of AI coaching and support capabilities.
- Market presence, brand visibility, innovation and impact.
- Strength of client portfolio and customer relationships.
- Business performance and growth trajectory.

[View the 2026 Top AI Coaching & Learner Support Tools companies list.](#)

"The organizations recognized in this year's Top 20 AI Coaching and Learner Support Tools list demonstrated strong differentiation in the scope, quality and innovation of their standalone, agentic products, delivering personalized, adaptive coaching experiences that operate autonomously without continuous human facilitation. Leveraging advanced technologies such as machine learning, natural language processing and predictive analytics, these solutions deliver real-time feedback, performance insights and contextual support at scale, distinguishing themselves through measurable impact, growing market presence and their ability to enable continuous, self-directed learning within the flow of work," said **Jalen Banks, market research analyst at Training Industry, Inc.**

"Being recognized by Training Industry for the second consecutive year in AI Coaching and Learner Support reflects where we have chosen to invest. AI coaching is not a feature we added; it is the architecture we built the entire learning experience around, because we believe the gap between AI investment and AI performance is fundamentally a learning problem. Our newly launched AI-Ready L&D Enterprise Series is an expression of that commitment - a complete system that gives organizations a structured answer to every AI-in-L&D challenge a CLO faces today, from rebuilding the learning operating model to developing leaders who can manage human and AI teams. We believe the organizations that build this capability now will compound that advantage for years," said **Sailesh Lalla, Chief Business Officer, NIIT**

"Earning a place on this list for two consecutive years demonstrates that our clients are experiencing true transformation with meaningful capability change. We have developed AI coaching infrastructure that integrates seamlessly into daily work, adapts to everyone, and measures real behavior change rather than just module completion. Our newly launched AI-Ready L&D Enterprise Series combines this depth with our consulting expertise and advanced learning architecture into one unified system. For CLOs facing board-level scrutiny to prove the impact of their AI investments, this recognition and launch arrive at the perfect time," said **Devenderjit Chadha, Chief Customer Officer, NIIT**

(Disclaimer: NIIT Learning Systems Limited has no affiliation with the awarding agency and was not involved in the evaluation or selection process.)

About NIIT Learning

NIIT Learning is the trusted, award-winning L&D and talent partner for the world's leading companies, and a recognized leader in AI maturity for learning and development. Established in 1981, NIIT Learning helps enterprises build the AI operating model, infrastructure, and fluency that a human+AI workforce demands, pairing AI-powered managed learning with strategic consulting to solve the most complex challenges in learning, talent, skills, and workforce transformation. Across 33+ countries, our experienced learning teams help clients thrive in an AI-first world with AI-first L&D transformation solutions, reskilling employees at scale through intelligent coaching and dynamic simulations embedded directly into the workflow. With a Net Promoter Score of 9.65/10 and an industry-leading renewal rate, we help leading companies reimagine their learning ecosystems and increase the business value and impact of learning.
