**FOR IMMEDIATE RELEASE**

## **NIIT MTS and Abodoo Announce Partnership to Deliver Next-generation Skills Intelligence and Workforce Development Solutions to Global Enterprises**

**Atlanta, GA, February 4, 2026** – NIIT Learning Systems Limited [NIIT Managed Training Services (NIIT MTS)] (Ticker Symbol: NIITMTS), a global leader in managed learning services, has announced a strategic partnership with Abodoo, a skills intelligence and orchestration company. Abodoo provides a live, interoperable skills layer across learning, workforce, and talent systems, powered by its proprietary SkillsAI engine and ontology of more than 55,000 skills. The platform enables organizations to establish a common skills language, identify current and future capability gaps, and make data-driven workforce decisions in real time.

This partnership will deliver next-generation skills intelligence and workforce development solutions to enterprises globally. By combining NIIT MTS' expertise in managed learning, consulting services, and deep HCM technology experience with Abodoo's powerful skills intelligence technology—comprising SkillsSuite, Skills Agent, and SkillsAI—the partnership will enable organizations to map, measure, and develop skills in real time.

The collaboration will support organizations in closing critical skills gaps, improving workforce agility, and building future-ready talent strategies in an AI-driven economy. As part of the partnership, NIIT and Abodoo will help organizations evaluate their AI and skills readiness, including providing a Skills AI Readiness Report to inform broader workforce and transformation strategies. Together, the companies will collaborate on joint webinars, thought leadership, and client-facing initiatives focused on skills-first transformation.

"Skills are the currency of the future, and this partnership marks a significant milestone in our commitment to workforce development," said **DJ Chadha**, Chief Customer Officer at NIIT MTS. "By combining our award-winning managed learning, consulting, and HCM technology services with Abodoo's unique skills intelligence technology, we can transform skills development and close capability gaps across the enterprise at scale."

Rather than replacing existing platforms, Abodoo sits above LMS, HRIS, ATS, and qualification frameworks, connecting and activating skills data across fragmented systems. This infrastructure-led approach allows enterprises, governments, and education providers to embed skills intelligence directly into their existing ecosystems at scale. Combined with NIIT MTS' powerful HCM technology services, the partnership enables organizations to transform enterprise skills and capabilities comprehensively.

"We're delighted to partner with NIIT MTS to bring live skills intelligence into the heart of enterprise workforce transformation," said **Vanessa Wainwright**, Founder & Chief Executive Officer of Abodoo. "By combining Abodoo's skills orchestration infrastructure with NIIT MTS' deep consulting expertise, we can help organizations move beyond static job and qualification models to build agile, skills-first workforces at scale."

**About NIIT Learning Systems Limited (NIIT MTS)**

NIIT MTS is the trusted and award-winning L&D and talent partner for the world's leading companies in over 33 countries. Established in 1981, NIIT MTS offers managed learning and strategic consulting services to solve the most complex challenges in learning, talent, skills, and workforce transformation. With a Net Promoter Score of 9.65/10 and an industry-leading renewal rate, NIIT MTS helps leading companies transform and reimagine their learning ecosystems while increasing the business value and impact of learning. **For more information, visit: [www.niitmts.com](http://www.niitmts.com).**

**About Abodoo**

Abodoo is a skills intelligence and orchestration company providing a live, interoperable skills layer across learning, workforce, and talent systems. Powered by its proprietary SkillsAI engine and ontology of more than 55,000 skills, Abodoo enables organisations to establish a common skills language, identify current and future capability gaps, and make data-driven workforce decisions in real time.

Rather than replacing existing platforms, Abodoo sits above LMS, HRIS, ATS, and qualification frameworks, connecting and activating skills data across fragmented systems. This infrastructure-led approach allows enterprises, governments, and education providers to embed skills intelligence directly into their existing ecosystems at scale.

Abodoo also powers SkillsAI and SkillSuite, its modular skills orchestration layer, alongside Skills Passport and SkillsAI, a live global skills exchange connecting talent, employers, educators, and communities worldwide.
