7-yr wait for MRI services nears end

3-Tesla machines have been installed at KEM, Sion, Nair and Cooper hospitals

Amit Srivastava
MUMBAI

After nearly seven years of delay and 11 rounds of re-tendering, four civic hospitals are set to resume or introduce MRI services. Advanced 3-Tesla machines have been installed at KEM, Sion, Nair and Cooper hospitals. Testing and demonstration began on Wednesday, with the BMC aiming to make the facilities operational within 15 days.

At KEM Hospital, the existing MRI machine frequently developed technical faults and patients had to wait two to four hours for an investigation. At Nair Hospital, services had remained suspended for four years after the old MRI machine became non-functional. Patients were consequently referred to Sion Hospital for scans.

Confirming the development, KEM Hospital Dean Dr Harish Pathak said the installation had been completed and testing would begin on Nov 5.

The availability of MRI facilities within BMC hospitals is also expected to reduce the dependence of economically weaker patients on private diagnostic centres, where scans can be expensive.

VN Desai hospital to shut for 90 days

Meanwhile, the BMC-run VN Desai Hospital in Santacruz East will suspend full-fledged operations for 90 days after Diwali. During this period, only outpatient department (OPD) services will continue through temporary container facilities on the hospital premises.

Patients from Santacruz, Khar, Vakola, Kalina and neighbouring areas will have to travel to Bandra, Kurla or Vile Parle for emergency and specialised treatment. Those requiring emergency attention will be transported by ambulances to Bhabha Hospital in Bandra or Cooper Hospital in Vile Parle, Deputy Municipal Commissioner (Health) Sharad Ughade said. Hospital staff of the 276-bed VN Desai Hospital will be temporarily shifted to Bhabha Hospital in Bandra and Trauma Care Hospital in Jogeshwari.

Ughade said the hospital building falls under the C2 category and needs to be vacated to undertake the renovation. He said the civil work has been carried out, but major electrical work has to be undertaken.

MIAL proposes 14-route shift to NMIA, faces turbulence

FPJ News Service
MUMBAI

Mumbai International Airport Ltd (MIAL) has proposed shifting flights to 14 international destinations from Chhatrapati Shivaji Maharaj International Airport (CSMIA) to Navi Mumbai International Airport (NMIA) from the summer schedule. The proposal has triggered a backlash from foreign airlines.

Under the plan submitted to the Ministry of Civil Aviation (MoCA), flights operated by Indian and foreign carriers to Bahrain, Dammam, Dhaka, Doha, Fujairah, Jakarta, Jeddah, Kathmandu, Kuwait, Madinah, Muscat, Ras Al Khaimah, Riyadh and Sharjah would move to NMIA.

However, foreign airlines have called the move unilateral and operationally disruptive. Through industry bodies, carriers have petitioned the Civil Aviation Secretary, alleging inadequate consultation and no joint assessment of available slots at CSMIA. They have sought protection of their existing slots. The airlines warned that forced relocation could significantly undermine established commercial schedules.

Major carriers, including Emirates and Air France-KLM, warned that splitting operations between the two airports would complicate passenger transfers, crew scheduling and ground handling. They also flagged NMIA's reportedly 3.5-times higher user charges, which could increase airfares.

MIAL says the shift would ease congestion at CSMIA's Terminal 2 and create capacity ahead of Terminal 1 redevelopment. It aims to move around 5 million passengers to NMIA.

Domestic carriers IndiGo, Akasa Air and the Air India Group, accounting for roughly 3 million passengers have outlined phased relocation plans covering some services.

Pvt bus fare surge faces online anger

FPJ News Service
MUMBAI

In response to the massive surge in private bus fares during the festival holiday season, social media users lashed out at the operators.

"Are there no regulations whatsoever on private bus ticket prices?," an X user wrote. Fares have reached ₹6,000-7,000, almost the same as flight tickets. What are people who book at the last minute supposed to do?

"People work hard throughout the year in cities like Mumbai and Pune and hope to spend a few happy moments with their families during Diwali. How can ticket prices jump from ₹700 to ₹4,000?" another X user posted, sharing screenshots of some booking apps.

RTO officers said private buses cannot charge more than 1.5 times the fare charged by the Maharashtra State Road Transport Corporation (MSRTC) for the corresponding category of buses. Operators are also required to display fare charts inside their vehicles.

Officials said action would be taken against operators found charging excessive fares.

NMMC refuses to budge on cluster redvpt, may take battle to high court

Raina Assalnar
NAVI MUMBAI

The Navi Mumbai Municipal Corporation (NMMC) will approach the Bombay High Court if the state clears cluster redevelopment proposals without assessing the city's infrastructure capacity. Its general body on Monday passed a resolution seeking a stay on approvals under the Urban Renewal Scheme (URS) until a carrying capacity study is completed.

The resolution, passed 60–31 at a meeting chaired by Mayor Sujata Patil, directs the administration to convey its objections to the state and initiate legal proceedings if necessary.

The move follows an October 15, 2026, Urban Development Department letter directing NMMC to process notified proposals pending before the high-powered committee, despite an earlier civic resolution putting them on hold.

Leader of the House Sagar Naik warned that higher Floor Space Index (FSI) and additional construction could strain water supply, sewage and transport infrastructure. Citing water shortages in Ghansoli, he questioned the need for URS when redevelopment was possible under regular regulations through land amalgamation. Cluster projects, he said, should focus on densely populated areas lacking amenities.

Representational pic

NMMC clarified that redevelopment of C-1 category dangerous and dilapidated buildings should proceed under regular regulations.

Corporator Suraj Patil proposed filing a writ petition, seeking an interim stay on Cluster 1 and 2 and other pending approvals. He urged the Municipal Commissioner to obtain legal advice and appoint advocates.

Deputy Mayor Dashrath Bhagat backed the move and sought an independent assessment of development impacts on creek ecology and fisheries. Shiv Sena corporator Shivram Patil demanded a recorded vote. NMMC's earlier resolution 1002 will remain in force.

The debate exposed differences within the Eknath Shinde-led Shiv Sena over the Simplex cluster proposal in Ghansoli. Local corporator Prashant Patil alleged that middlemen were offering residents inducements and compromising their rights. Seeking cancellation of the scheme, he offered to submit a memorandum signed by 5,000 residents.

However, nominated corporator Dwarakanath Bhoir objected to the allegations.

Crux of the issue

- The NMMC passed a resolution 60-31 in a meeting the mayor chaired
- NMMC will approach HC if state clears proposals without assessing city's infrastructure capacity
- An earlier civic resolution putting notified proposals on hold was met with a state dept letter directing NMMC to process pending proposals
- NMMC said redvpt of C-1 category dangerous bldgs would proceed under regular regulations

State offers 20% waiver on traffic fines

Kalpesh Mhamunkar
MUMBAI

The state Cabinet on Wednesday approved a one-time amnesty scheme offering a 20% concession on pending traffic fines, allowing vehicle owners to clear outstanding e-challans and make their vehicles free of penalties. Chief Minister Devendra Fadnavis chaired the meeting that cleared the Maharashtra Traffic Police Challan Amnesty Scheme-2026. In the first phase, motorists get a 20% concession on outstanding compoundable e-challans issued between January 21 and October 31 for 30 days. The second phase offers a 20% early-payment discount on challans issued from November 1, if paid within 45 days of issuance. This concession remains available for one year. The third phase covers compoundable challans issued between January 30, 2019 and January 20, 2026, with recovery proceedings pending before courts. A 20% concession applies for 30 days.

CR plans signalling upgrade at 14+ stns

Abhishek Pathak
MUMBAI

CR seeks to install e-interlocking at these stations, days after a fire at Kanjurmarg that disrupted services

Central Railway has proposed installing electronic interlocking at more than 14 stations, including Kanjurmarg, following the October 26 fire that disrupted suburban services for over nine hours and left three passengers dead. The fire damaged signalling cables at Kanjurmarg, rendering 24 signals inoperative and stranding thousands of commuters. Three passengers died after alighting on the tracks during the disruption.

Electronic interlocking is a computer-based system controlling signals, routes and track points. It replaces conventional relay-based equipment and is intended to improve reliability and reduce human error. The proposal is yet to advance to implementation.

Meanwhile, Central Railway is restoring the original signalling arrangement at Kanjurmarg. Temporary cables installed to resume services are being removed during night hours to minimise disruption. A three-member committee comprising senior officials from the signalling and telecommunications, safety and electrical departments is investigating the fire, fixing responsibility and recommending preventive measures. Initially given seven days, the committee has delayed its report, drawing criticism from commuters. Senior railway officials said its findings are expected within two days.

Two Railway Board members and representatives of the Research Designs and Standards Organisation have inspected the site. Their assessments and the inquiry findings are expected to guide signalling upgrades at stations.

Bohra flyers to get trees planted in their names

The Dawoodi Bohra community announced 'Trees for Travellers', under which a tree will be planted for every member taking an international flight. The trust organises pilgrimages to Saudi Arabia, Iraq and elsewhere. The programme will begin with Friday's trip to Tunisia, with 60 trees to be planted in travellers' names at Oxy Park, Nagpur. A return flight from Mumbai to Tunis generates approximately one tonne of carbon dioxide per passenger.

– Manoj Ramakrishnan

Student hurt in second-floor fall

Vasai: A 15-year-old Class X student sustained serious head and leg injuries after falling from the second floor of Seth Vidyamandir Vasant Nagari school in Vasai East around 4pm on Tuesday. While school authorities said she fell, there were suspicions she jumped during classes. She is being treated at a private hospital. Senior inspector Sujitkumar Pawar said police had received no information or complaint.

HC weighs relief for 14 unrecognised schools

Urvi Mahajani
MUMBAI

The Bombay High Court on Wednesday indicated that 14 unrecognised schools in Malwani, Malad West, should be allowed to function until March–April 2027 to enable students to complete the academic year, while questioning the BMC's failure to act against the institutions despite issuing notices since 2019.

A bench of Chief Justice MC Tripathi and Justice Advait Sethna asked the state government to take instructions on whether it was willing to defer the schools' closure, observing that students should not suffer due to the authorities' prolonged inaction.

"Right now, we are concerned about the students. The transition has to be slow. You cannot uproot students from tomorrow," the bench observed. The court was hearing a Public Interest Litigation (PIL) filed by Nazir Khan, challenging the civic body's action against the 14 allegedly unauthorised schools.

BMC advocate Poornima Kantharia informed the court that notices had been issued annually since 2019. Questioning the lack of effective action, Justice Sethna remarked, "If notices have been issued since 2019, then all the more take action."

The bench stressed that while schools could not operate indefinitely without recognition, students should not be abruptly displaced because of administrative lapses.

In its affidavit, the BMC said it could accommodate students from all 14 schools in nearby municipal schools during the current academic year. It maintained that the unrecognised institutions should be shut and students shifted to municipal, aided, unaided or private schools.

However, the petitioner's advocate argued that several schools served children from slum areas and questioned the feasibility of shifting them at short notice. He also claimed there were no newly constructed BMC schools nearby.

The bench directed authorities to identify recognised neighbourhood schools capable of accommodating the affected students.

Clarifying that it was not examining relaxation of recognition norms, the court said its immediate priority was preventing disruption to students' education.

सावित्रीबाई फुले नाट्यगृहाच्या पुनर्विकासाला ३० कोटींचे बळ!

उर्वरित कामांसाठी राज्य शासनाच्या नगरविकास विभागाचा निधी मंजूर ; डोंबिवलीकरांना लवकरच आधुनिक नाट्यगृहाची भेट

डोंबिवली : डोंबिवलीच्या सांस्कृतिक वैभवाची ओळख असलेल्या सावित्रीबाई फुले नाट्यगृहाच्या पुनर्विकासाला आता गती मिळणार आहे. नाट्यगृहाच्या उर्वरित कामांसाठी राज्य शासनाच्या नगरविकास विभागाने ३० कोटी रुपयांचा निधी मंजूर केला आहे. खासदार डॉ. श्रीकांत एकनाथ शिंदे यांच्या सातत्यपूर्ण पाठपुराव्यामुळे हा निर्णय घेण्यात आला आहे. यापूर्वी मंजूर झालेल्या १५ कोटी रुपयांसह या प्रकल्पासाठी आता एकूण ४५ कोटी रुपयांची तरतूद झाली आहे.

डोंबिवलीच्या सांस्कृतिक परंपरेत सावित्रीबाई फुले

नाट्यगृहाचे महत्त्वपूर्ण स्थान आहे. अनेक वर्षे येथे नाट्यप्रयोग, संगीत मैफली, सांस्कृतिक कार्यक्रम आणि साहित्यिक उपक्रम रंगले. मात्र, इमारत जीर्ण झाल्याने नाट्यगृह बंद ठेवावे लागले होते. त्यामुळे कलाकार, नाट्यसंस्था आणि रसिकांची गैरसोय होत होती. नाट्यगृहाचा पुनर्विकास करून ते आधुनिक सुविधांनी सुसज्ज करण्यासाठी खासदार डॉ. श्रीकांत शिंदे यांनी राज्य शासनाकडे सातत्याने पाठपुरावा केला.

४ नोव्हेंबर २०२६ रोजी उपमुख्यमंत्री तथा नगरविकास मंत्री एकनाथ शिंदे यांच्या आदेशानुसार नगरविकास विभागाने शासन निर्णय जारी करून ३० कोटी रुपयांच्या निधीला मंजुरी दिली.

'महानगरपालिका क्षेत्रात मूलभूत सोयीसुविधांच्या विकासासाठी विशेष तरतूद' या योजनेअंतर्गत हा निधी मंजूर करण्यात आला आहे. या प्रकल्पाचा संपूर्ण १०० टक्के खर्च राज्य शासन करणार असून, कल्याण-डोंबिवली महानगरपालिका कामाची अंमलबजावणी करणार आहे.

अत्याधुनिक सुविधांनी सज्ज होणार नाट्यगृह

पुनर्विकसित नाट्यगृहात भव्य रंगमंच, उत्तम आसनव्यवस्था, आधुनिक प्रकाशयोजना आणि आकर्षक अंतर्गत सजावट असेल. छोटेखानी नाट्यप्रयोगांसाठी स्वतंत्र ब्लॅक थिएटर, कलाकारांसाठी सराव कक्ष आणि कलाविष्कारांसाठी स्वतंत्र आर्ट गॅलरी उभारण्यात येणार आहे. बाह्य परिसराचाही विकास केला जाणार आहे .पुनर्विकास पूर्ण झाल्यानंतर डोंबिवलीसह परिसरातील कलाकार आणि रसिकांना हक्काचे सांस्कृतिक व्यासपीठ उपलब्ध होणार आहे. त्यामुळे सावित्रीबाई फुले नाट्यगृहाचे पुनरुज्जीवन हा केवळ वास्तूचा विकास न ठरता डोंबिवलीच्या सांस्कृतिक परंपरेला नवी उभारी देणारा प्रकल्प ठरणार आहे.

निवडक

घोडबंदर रोडवर दोन वाहनांची धडक

ठाणे : घोडबंदर रोडवरील पातलीपाडा पुलाच्या चढणीवर बुधवारी पहाटे टेम्पो आणि केमिकल वाहतूक करणाऱ्या ट्रकची धडक झाली. या अपघातात ट्रक रस्त्यावर उलटला, तर टेम्पो चालक जखमी झाला.कळवा येथून ओवळ्याच्या दिशेने भाजी घेऊन जाणारा टेम्पो पहाटे २.४४ च्या सुमारास डिव्हायडरला धडकला. त्याचवेळी मागून केमिकल वाहून नेणाऱ्या ट्रकने टेम्पोला धडक दिली. यामध्ये ट्रक उलटला, त्यानंतर टेम्पोचालक सलीम यांना उपचारासाठी रुग्णालयात दाखल करण्यात आले. अग्निशमन दल, आपत्ती व्यवस्थापन कक्ष आणि पोलिसांनी घटनास्थळी धाव घेतली. रस्त्यावर सांडलेल्या तेलावर माती टाकून वाहने बाजूला करण्यात आली. या अपघातामुळे काही काळ वाहतूक मंदावली होती.

गोण्यांची थप्पी कोसळून हमालाचा मृत्यू

नवी मुंबई : एपीएमसीच्या दाणा मार्केटमध्ये धान्याच्या सुमारे ५० गोण्यांची थप्पी अंगावर कोसळल्याने रामराज लौटु (३७) या हमालाचा मृत्यू झाला. मंगळवारी सायंकाळी पाचच्या सुमारास ही दुर्घटना घडली. रामराज हे तुर्भे स्टोअर येथे राहत असून, दाणा मार्केटमधील 'श्रीराम कल्याणजी अॅग्रो' या दुकानात हमालीचे काम करत होते. कामादरम्यान गोण्यांचा ढिगारा अंगावर कोसळल्याने ते त्याखाली दबले. सहकाऱ्यांनी त्यांना बाहेर काढून वाशी येथील पीकेसी रुग्णालयात दाखल केले; मात्र डॉक्टरांनी सायंकाळी ५.३६ वाजता त्यांना मृत घोषित केले. एपीएमसी पोलिसांनी अकस्मात मृत्यूची नोंद करून तपास सुरू केला आहे. दरम्यान, गोण्या रचण्याची पद्धत आणि दुकानातील सुरक्षाव्यवस्थेची चौकशी करून दोषींवर कारवाई करावी, अशी मागणी कामगारांनी केली आहे.

कामगारांचे वेतन रखडले!

न्यायालयीन आदेशांनंतरही वेतनाचा प्रश्न कायम ; मनोरुग्णालयात दोन महिन्यांचे वेतन थकीत

ठाणे : ठाणे प्रादेशिक मनोरुग्णालयातील सफाई कर्मचाऱ्यांना गेल्या सात वर्षांपासून किमान वेतन कायद्यानुसार वेतन मिळत नसल्याचा गंभीर आरोप करण्यात आला आहे. औद्योगिक न्यायालय, मुंबई उच्च न्यायालय आणि सर्वोच्च न्यायालयाच्या आदेशांनंतरही वेतनाची योग्य आणि वेळेत अंमलबजावणी होत नसल्याने कामगारांवर आर्थिक संकट ओढवले आहे. या प्रकरणी ठाणे जिल्हाधिकारी तथा जिल्हा न्यायदंडाधिकारी श्रीकृष्ण पांचाळ यांनी तातडीने सुनावणी घेऊन न्याय मिळवून द्यावा, अशी मागणी श्रमिक जनता संघाचे सेक्रेटरी जगदिश खैरालिया यांनी निवेदनाद्वारे केली आहे.

ठाणे प्रादेशिक मनोरुग्णालय प्रशासन आणि संबंधित ठेकेदार मे. लोकराज्य स्वयंरोजगार सेवा सहकारी संस्था, पुणे यांच्या कारभारामुळे सफाई कर्मचारी किमान वेतनापासून वंचित राहत असल्याचा आरोप कामगारांनी केला आहे. किमान वेतन अधिनियम १९४८ चे उल्लंघन होत असल्याचेही निवेदनात नमूद करण्यात आले आहे.

या प्रकरणी ठाणे औद्योगिक न्यायालयाने ११ जून २०२४ रोजी सफाई कर्मचाऱ्यांना दर महिन्याच्या सात तारखेपूर्वी किमान वेतन कायद्यानुसार वेतन अदा करण्याचे आदेश दिले होते. त्यानंतर मुंबई उच्च न्यायालयाने १६ एप्रिल २०२६ रोजी औद्योगिक न्यायालयाचे आदेश कायम ठेवत चार आठवड्यांत त्यांची अंमलबजावणी करण्याचे निर्देश दिले.

संबंधित ठेकेदाराने सर्वोच्च न्यायालयात दाखल केलेली याचिकाही फेटाळण्यात आली असून, उच्च न्यायालयाच्या आदेशांची अंमलबजावणी करण्याचे निर्देश देण्यात आल्याचे निवेदनात म्हटले आहे. मात्र, या आदेशांनंतरही कामगारांना किमान वेतनानुसार आणि वेळेत वेतन मिळत नसल्याचा आरोप करण्यात आला आहे.

दिवाळीतही वेतनाची प्रतीक्षा

दिवाळीच्या पार्श्वभूमीवर सफाई कर्मचाऱ्यांचे ऑगस्ट आणि ऑक्टोबर महिन्यांचे वेतन थकीत होते. त्यापैकी केवळ एका महिन्याचे वेतन अदा करण्यात आले असून, तेही किमान वेतनाच्या निकषांनुसार नसल्याचे कामगारांचे म्हणणे आहे. आर्थिक वर्ष २०२५-२६ चा बोनसही अद्याप मिळालेला नाही. याशिवाय ठेकेदाराकडून भविष्य निर्वाह निधी (पीएफ) आणि कर्मचारी राज्य विमा महामंडळाचे (ईएसआयसी) हप्ते भरले जात नसल्याचा आरोपही करण्यात आला आहे. वेतनातील अनियमिततेमुळे कामगारांच्या कुटुंबीयांचे आरोग्य, मुलांचे शिक्षण आणि दैनंदिन जीवनमानावर विपरीत परिणाम होत असल्याचे निवेदनात नमूद करण्यात आले आहे.

मूळ मालकाच्या जबाबदारीचा मुद्दा उपस्थित

कंत्राटी कामगार अधिनियमनुसार ठेकेदाराने कामगारांना विहित वेळेत वेतन आणि सुविधा उपलब्ध करून न दिल्यास मूळ मालकावर ती जबाबदारी येते, असा दावा निवेदनात करण्यात आला आहे. मात्र, रुग्णालय प्रशासनाकडून ही जबाबदारी पार पाडली जात नसल्याचा आरोप कामगारांनी केला आहे. यापूर्वी जिल्हाधिकारी कार्यालयात वैद्यकीय अधीक्षक डॉ. नेताजी मुळीक आणि सहाय्यक कामगार आयुक्त विजय शिंदे यांच्या उपस्थितीत झालेल्या बैठकीत रुग्णालय प्रशासनाला किमान वेतन अदा करण्याचे निर्देश देण्यात आले होते. तरीही परिस्थितीत सुधारणा झाली नसल्याचे कामगारांचे म्हणणे आहे.

तातडीच्या सुनावणीची मागणी

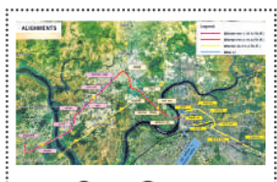

सफाई कर्मचाऱ्यांना किमान वेतन, थकीत वेतन, बोनस तसेच पीएफ आणि ईएसआयसीच्या सुविधा मिळाव्यात, यासाठी जिल्हाधिकाऱ्यांनी रुग्णालय प्रशासन आणि संबंधित ठेकेदाराच्या उपस्थितीत तातडीची बैठक आयोजित करावी, अशी मागणी करण्यात आली आहे. न्यायालयीन आदेशांची अंमलबजावणी होत नसल्याने कामगारांमध्ये असंतोष वाढत असून, मागण्यांची पूर्तता न झाल्यास आंदोलन छेडण्यात येईल, असा इशाराही जगदिश खैरालिया यांनी निवेदनातून दिला आहे. आंदोलनाची परिस्थिती निर्माण झाल्यास त्याची जबाबदारी रुग्णालय प्रशासन आणि संबंधित ठेकेदाराची राहील, असेही त्यांनी म्हटले आहे.

मेट्रोचे स्वप्न साकारण्याच्या दिशेने मोठे पाऊल!

४,५६४ कोटींच्या निविदा प्रसिद्ध

उल्हासनगर : वर्षानुवर्षे वाहतूककोंडीचा सामना करणाऱ्या कल्याण-उल्हासनगरकरांसाठी दिवाळीच्या मुहूर्तावर आनंदाची बातमी आली आहे. खासदार डॉ. श्रीकांत शिंदे यांच्या सातत्यपूर्ण पाठपुराव्यानंतर मेट्रो ५ आणि ५-अच्या विस्तारित मार्गिकांसाठी तब्बल ४ हजार ५६४ कोटी रुपयांच्या निविदा प्रसिद्ध झाल्या आहेत. त्यामुळे उल्हासनगरपर्यंत मेट्रो धावण्याच्या स्वप्नाला नवे बळ मिळाले असून, ठाणे, भिवंडी, कल्याण, उल्हासनगर आणि अंबरनाथ या पाच शहरांच्या वाहतूक व्यवस्थेत मोठे परिवर्तन घडण्याची अपेक्षा व्यक्त होत आहे.

मुंबई महानगर प्रदेश विकास प्राधिकरणाने (एमएमआरडीए) मेट्रो मार्गिका ५ आणि ५-अच्या पुढील टप्प्यांसाठी या निविदा प्रसिद्ध केल्या आहेत. कल्याण लोकसभा मतदारसंघाचे खासदार डॉ. श्रीकांत शिंदे यांनी या प्रकल्पासाठी राज्य शासन आणि एमएमआरडीएच्या वरिष्ठ अधिकाऱ्यांकडे सातत्याने पाठपुरावा केला होता. या प्रकल्पातील विशेष बाब म्हणजे रांजणोली ते दुर्गाडी परिसरात मेट्रो आणि उड्डाणपुलाची डबल डेकर मार्गिका उभारण्यात येणार आहे. तसेच जगदीश दूध डेपो परिसरापासून उल्हासनगरपर्यंत डबल डेकर मार्गिकेचे नियोजन करण्यात आले आहे.

भुयारी आणि उन्नत मार्गिकेचा समावेश

मेट्रो ५च्या पहिल्या टप्प्यात कापूरबावडी ते धामणकर नाका या मार्गाचे काम सुरू आहे. पुढील टप्प्यात धामणकर नाका ते रांजणोली आणि दुर्गाडीमार्गे भोईरवाडीपर्यंत मेट्रोचा विस्तार करण्यात येणार आहे .मेट्रो ५-अ अंतर्गत भोईरवाडी ते कल्याण रेल्वे स्थानक आणि पुढे उल्हासनगरमार्गे अंबरनाथ येथील जीएनपी गॅलेक्सीपर्यंत मेट्रोचा विस्तार प्रस्तावित आहे. त्यामुळे या शहरांमधील प्रवाशांना मेट्रोच्या माध्यमातून जोडणी उपलब्ध होण्याची अपेक्षा आहे.

डीपीएस फ्लेमिंगो तलावाच्या संरक्षणासाठी एनजीटीत धाव

मुख्यमंत्र्यांच्या मंजुरीअभावी संवर्धन राखीव दर्जा रखडला

उरण : नवी मुंबईतील १२ हेक्टर क्षेत्रफळाच्या डीपीएस फ्लेमिंगो तलावाला 'संवर्धन राखीव' दर्जा देण्याचा प्रस्ताव प्रलंबित असल्याने पर्यावरणवादी संघटनेने राष्ट्रीय हरित लवादाकडे (एनजीटी) धाव घेतली आहे. महाराष्ट्र राज्य वन्यजीव मंडळाने १७ एप्रिल २०२५ रोजी या प्रस्तावाला मंजुरी दिली होती. मात्र, आवश्यक अधिसूचना अद्याप जारी न झाल्याने तलावाला कायदेशीर संरक्षण मिळालेले नाही.

नैटकनेक्ट फाऊंडेशनचे संचालक बी. एन. कुमार यांनी याचिकेत तलावातील नैसर्गिक पाण्याचे मार्ग अडवल्याने भरती-ओहोटीचा प्रवाह बाधित होत असल्याचा आणि पाणी प्रदूषित होत असल्याचा आरोप केला आहे. कायदेशीर संरक्षणाअभावी तलाव सिडकोच्या नियंत्रणाखाली असून, त्याकडे विकसित करता येणारा भूखंड म्हणून पाहिले जात असल्याचेही याचिकेत नमूद करण्यात आले आहे.

वन्यजीव विभागाने २८ ऑक्टोबर २०२५ रोजी संवर्धन राखीव दर्जासाठी प्रस्ताव सादर केला होता. मात्र, माहिती अधिकारातून मिळालेल्या माहितीनुसार, हा प्रस्ताव मुख्यमंत्र्यांच्या मंजुरीसाठी प्रलंबित आहे.

सॅटिस पुलाच्या छतावर अडकलेल्या तरुणाची सुटका

ठाणे : ठाणे रेल्वे स्थानकाजवळील सॅटिस पुलाच्या छतावर ३० वर्षीय तरुण अडकल्याची घटना बुधवारी सकाळी उघडकीस आली. या घटनेची माहिती मिळताच पोलिस, अग्निशमन दल आणि आपत्ती व्यवस्थापन कक्षाच्या पथकांनी तातडीने घटनास्थळी धाव घेत बचावकार्य सुरू केले. संयुक्त प्रयत्नांतून तरुणाला सुखरूप खाली उतरविण्यात यश आले.

राम इंगोळे असे या तरुणाचे नाव आहे. बुधवारी सकाळी ८.५८ वाजण्याच्या सुमारास सॅटिस पुलाच्या छतावर एक व्यक्ती अडकल्याची माहिती ठाणे महापालिकेच्या आपत्ती व्यवस्थापन कक्षाला मिळाली. त्यानंतर ठाणे नगर पोलीस, अग्निशमन दलाचे जवान आणि आपत्ती व्यवस्थापन पथक घटनास्थळी दाखल झाले.

पथकांनी आवश्यक खबरदारी घेत बचावकार्य सुरू केले. काही वेळाच्या प्रयत्नांनंतर राम इंगोळे यांना सुरक्षितपणे छतावरून खाली उतरवण्यात आले.

त्यानंतर पुढील कार्यवाहीसाठी त्यांना ठाणे नगर पोलिसांच्या ताब्यात देण्यात आले. दरम्यान, संबंधित तरुणाच्या डोक्यावर परिणाम झाल्याची माहिती सूत्रांनी दिली. त्यामुळे तो पुलाच्या छतावर कसा आणि कोणत्या कारणाने गेला, हे अद्याप स्पष्ट झालेले नाही. या घटनेमुळे काही काळ परिसरात नागरिकांची गर्दी झाली होती.

Investors Commit Nearly $400 B to India's Green Energy Sector, says Joshi

Our Bureau

New Delhi: Investors have committed to investing nearly $400 billion in India's green energy and related works, renewable energy minister Pralhad Joshi said on Wednesday. The amount is preliminary and details of the commitment are to be worked out, he told reporters on the sidelines of the Bharat Renewable Energy Summit & Expo.

"In the roundtable that we had, it (commitment) was nearly around $400 billion," Joshi said, adding that it was a preliminary estimate, and the details would need to be worked out. The investment interest, from domestic and international companies, came during a roundtable meeting with companies, investors and fund managers, among others.

Joshi said international investors remained confident about India's economic prospects and consider it as one of the safest and best destinations for investment. India requires investments of around $320 billion by 2030 to meet its renewable energy targets.

"Even if 50% of this comes in, it is near to the requirement," the minister said.

The discussions covered different segments under the renewable energy ministry, including green hydrogen and energy storage. He also cited India's economic growth and assessments by international agencies as key factors supporting investor confidence.

Investors are confident about India's economic prospects and consider it as one of the best destinations for investment

On the concerns over availability of solar cells, the minister said India's solar cell manufacturing capacity currently stands at 47 GW and is expected to reach 70 GW by December 31. Some solar module manufacturers have asked for an extension of the mandatory local cells, that was extended till December from June. Solar cell makers, on the other hand, want policy consistency and the deadline to remain.

Joshi said the ministry will consult both sides of the industry before making a decision on the matter. The ministry will hold discussions with various associations in the next 1045 days on the matter. Joshi said for curtailment of renewable energy and bottlenecks in the grid are being resolved with energy storage systems and green energy corridor.

"We have invited them [companies and investors] for transmission projects as well because in the green energy corridor - III, the government is providing support of ₹54,000 crore," Joshi said.

Ficci Seeks LTCG Exemption, TDS Regime Recast in Budget

Our Bureau

New Delhi: India Inc has urged the government to restore the long-term capital gains (LTCG) exemption on listed securities, provide a 16-year tax policy stability commitment and overhaul the tax deduction at source (TDS) regime as part of its recommendations for the Union Budget 2026-27.

In its proposals submitted to the Revenue Secretary, the industry body FICCI has called for a comprehensive reset of direct and indirect tax provisions to boost investment, ease compliance and reduce tax litigation, to give a stable tax framework to attract investment.

Flagging foreign portfolio investor (FPI) outflows of around ₹3.08 lakh crore during the year, FICCI said the combination of LTCG tax, securities transaction tax (STT) and absence of foreign exchange adjustment was eroding post-tax returns and the attractiveness for investment in the Indian market.

It has proposed restoring the LTCG exemption on listed shares, with an appropriate increase in STT on delivery-based transactions, if necessary, to protect revenue. The revised regime, it said, should remain stable for at least 10 years. Foreign investors should alternatively be allowed to compute capital gains in the currency of their original investment.

On corporate restructuring, FICCI has sought to make the carry forward of accumulated losses and unabsorbed depreciation available across all sectors, including services, trading and organised retail, instead of restricting the benefit to specified industries. It has also sought protection of losses in intra-group reorganisations where ultimate beneficial ownership and control remain unchanged.

To prevent genuine mergers and acquisitions from attracting tax on notional income, FICCI has proposed a whitelist of exempt investors and transactions under fair market value deeming provisions, including sovereign funds, pension funds, banks, insurers, listed companies and intra-group transfers. A major compliance demand is exemption of GST-registered suppliers from 0.1% TDS on B2B purchases of goods and e-commerce transactions, arguing that these transactions are already captured in GST reporting systems.

'Explaining the US Midterm Polls 2026: How America finally 'woke' up — and smelt the (much pricier) coffee'

***Srijana Mitra Das** writes in Times Evoke about the American midterm elections, exploring the '5 C's that have led to a massive Democrat victory, unearthing what these key factors meant for the United States, in all its power, pathos — and profundity:*

Photo: Getty Images & iStock

A GREAT BIG FALL: Donald Trump encouraged US voters to imagine he was 'on the ballot' – however, given his track record on core issues like the cost of living and social cohesion, that move has now led to a blue wave and the Democrats controlling both House and Senate

The US midterms are done — and what an election it's been. All elections are interesting (ours are currently somewhat fogged by arguments over using EVMs versus, say, smoke signals) but America's polls are truly extraordinary. First, they capture the very essence of geopolitics, down to its soul hidden inside the cost of a tomato slice nestled in a hamburger made in Chattanooga, Tennessee. Second, they express the great ethical questions of our times, freedrawing American answers — sometimes wrong, often right — to these. Consider 2016's elections when Americans — applauded by a swathe of our own evanescin' desis' — chose crude misogyny over gender equality. Now, in the midterm polls of 2026, the United States suddenly 'woke', revolting against everything it was always meant to oppose. That 'everything' — which caused a Democrat victory and left Donald Trump's Republican Party sans red wave but with a red face — can be categorised as the five Cs'.

The first 'C' is cost. The US has always promised most of its people a mostly good life, comprising a steadily affluent income, a nice house with a yard or pool, a fridge like Aladin's cave, cozy cars zipping up and down sinuous highways and a sparkling-clean environment, pine forest to urban jungle, all at a reasonable price. Donald Trump's politics slashed that idea of cost — and ironically, through a very American strategy, petro-imperialism', where the US feels free to help itself to the fuels and minerals of other countries.

The Trump administration pulled off — literally — one petro-imperial coup in Venezuela, with a crude eye, sorry, an eye to its crude. However, it came unstuck in Iran where its misadventures made Tehran clamp down on the Strait of Hormuz. This normally carries 25% global oceanic oil and 20% liquified natural gas annually. Hence, it wasn't just the rest of the world which gasped — Brown University research shows Americans have paid over $83 billion extra for gasoline and $68 billion more for diesel due to the Iran War. Those costs crisscross the entire economy, hitting at transport prices, fertilisers (drying up Republican support in farming belts like Texas and Iowa), food, medicines and heating. All this crashed the American cost dream, making it the first 'C' to crush the Republican party.

The second is 'cruelty'. Donald Trump famously uses social media to express his thoughts — its style encourages single syllables and short words, mostly four — but, while harnessing its power, he apparently forgot its flipside. Social media, used cleverly by traditional media now, forms a formidable 'truth mirror' — it can capture the chilling moment ICE agents shoot unarmed women post in an American street. It can circulate pictures from a school bombed in Iran, students buried under rubble. It can display a US leader saying federal institution should be televised live. It can show American legal residents, illegally carted off to South America. It can present what happens to decent people — they get beaten savagely — when they stand up against genocide. Americans have long opposed systemic cruelty. Even before social media pressured them to themselves. Half their tactlessness and brutality, Americans had forced their government to end slavery, stop the rain of napalm on Vietnam, safeguard equality for women and protect people of non-normative identities. In America, the cry against cruelty is as strong a pull as the comforts cruelty provides. Sometimes, the comforts win — but over the long ark of US history, theory has prevailed. We see that in 2026 as well.

TORTURED GENIUS: Alan Turing of the UK

A NEW WOKE: Erykah Badu of the US

THE EPIC OF US...

The third 'C' is cloddishness. This may seem an old-fashioned word (ironic, given how our times simply heave with it) but for the US, not being cloddish — in terms of, say, accepting evolution, modern medicine, working women or diverse people taking to understand US voters' dislike.

The fourth 'C' is cloddishness. This may seem an old-fashioned word (ironic, given how our times simply heave with it) but for the US, not being cloddish — in terms of, say, accepting evolution, modern medicine, working women or diverse people taking the same bus — has been the foundation of its growth. The US desire to reject cloddishness, through philosophical discourse and scientific enquiry, made its universities a global jewel of episteme. The Trump administration has turned that pursuit of knowledge on its head. With universities attacked and withheld state support to research — which generated America's satellites, quantum computing, space and climate data, biochemistry, neuroscience, etc., — the United States suffers gashes on its scientific body.

Surveys find total PhD admissions at US science programs in leading universities now shrinking by 15% while PhD applications from foreign students to US science programs has dropped by 21%. The administration's thrust is to private science for profiteering — hence, its encouragement to AI companies building huge data centres, deeply unpopular with Americans worried about water and energy — while squeezing public science and social enquiry. The latter particularly inflames those against a 'woke' philosophy. Starting with African-American artists in the 1930s, this idea was recently energised by singer Erykah Badu who describes it as a worldview alive to universal dignity and opportunity. That isn't too popular with the Trump administration and many university programs found to have a 'woke' component, in subject or teams, have suffered.

American anti-wokism recalls the fate of British scientist Alan Turing who helped the Allies win World War II by cracking German naval ciphers, later inventing computing. Yet, Turing, being homosexual, was persecuted in the same nation whose freedoms he helped protect. After Turing's tragic suicide, scientific enquiry in England was never quite the same. Today, Donald Trump risks the Turing Effect in the US. America is already losing researchers to China. This has prompted some Americans to vote against dangerous cloddishness — but can US thought still be saved?

We can ponder this over the fifth 'C', dear reader, one which flows through America's veins. An American drinks 146 gallons of coffee annually, the cup cheering each aspect of life. Yet, since the Iran War, coffee's price in the US rose by 20% — making it the final 'C' to Cancel the Republicans' party.

Views expressed are personal

WHAT ABOUT WATER? The Trump govt's encouragement to tech groups building AI data centres cost it worried voters

AND QUIETLY FLOWS THE HORMUZ (NOT): Normally carrying 25% of the global oil trade, the Iran conflict hit US voters

READERS WRITE

Dear Times Evoke,

TE's interview with Duke University's Jeff Colgan (25th October) on the US midterm elections brilliantly highlighted how geopolitics directly impacts everyday life. From rising diesel costs to groceries like bread and tomatoes growing dearer, international conflicts hit home at citizens' wallets. This was a compelling reminder that global politics carries a real human cost.

— Dr Swati Singh, Indore

Jeff D. Colgan's deeply thought-provoking insights in TE captured a universal economic pain-point; when geopolitical conflicts drive up global crude and energy prices, emerging economies like India face intense pressure on inflation, currency stability and fiscal deficits. To safeguard its energy security, India must continue diversifying its crude sources as well as accelerate moving toward renewables.

— Trishith Mulia, Cuttack

It was fascinating to read Jeff Colgan's conversation with Sriiana Mitra Das on how US voters paid enormous extra costs for fuel due to the Iran crisis. This piece highlighted the debilitating economic impact created by war. Lee Tolstoy condemned warfare as chaotic and driven by irrational human impulses rather than representing neat tactical genius. Today, surging fuel costs, global trade imbalances and the loss of lives evoke Tolstoy's wisdom.

— Sitaram Popuri, Bengaluru

I really liked reading the TE interview with Jeff Colgan which made a lot of sense about America and the workings of the current Trump regime. It made me keenly expectant also to see how Americans respond at the midterm ballot! Thanks for an illuminating discussion, TE, I'd love more such articles.

— Vikas Agrawal, Raipur

Accused hacks HC site, uploads 3 fake bail orders

Jodhpur: An accused in an NDPS Act case was Wednesday booked for allegedly hacking into Rajasthan HC website and uploading forged bail orders to create an impression that he had got relief.

Jodhpur police registered a case of cheating and violation of IT Act against Kishvinder Singh Panesar after HC administration detected a suspicious order on its website. Sub-inspector Sahdev Bhati said Panesar allegedly uploaded three fake bail orders. Officials found discrepancies in order number and name of the prosecutor. TNN

Jio in tech-for-equity talks with Comcast and Charter

London/New Delhi: Jio Platforms has held talks with several companies including Comcast and Charter Communications about licensing its wireless broadband technology in exchange for potential stakes in the businesses, two people familiar with the matter said. Jio also held discussions with South Africa's MTN Group, but the two sides were unable to agree on valuation, the people said. Jio, MTN, Comcast and Charter did not respond to *Reuters* queries. Jio has signalled plans to expand with its proprietary broadband technology which runs on free, unlicensed Wi-Fi frequencies, making it cheaper to deliver internet to homes. REUTERS

Canva restructuring to affect 1,271 employees

Canva Inc announced job cuts and a structural overhaul that will impact more than one-fifth of the workforce, after the Sydney-based tech firm's growth slowed for the first time in a decade. Some 1,271 people, or 22 per cent of Canva's staff, will lose their jobs, change roles or relocate to central hubs, CEO Melanie Perkins said in a note to employees. Perkins, who co-founded Canva with Cliff Obrecht and Cameron Adams, didn't specify how many of those staff would lose their jobs. BLOOMBERG

Draft SAF policy proposes airlines buy at least 90% of fuel locally for intl flights

TO SUSTAIN DEMAND. Move seeks to discourage airlines from carrying additional fuel purchased elsewhere

Rohit Vaid
New Delhi

The Centre's draft National Sustainable Aviation Fuel (SAF) policy proposes that airlines buy at least 90 per cent of their annual fuel requirements for international flights departing India at domestic airports to ensure demand certainty for SAF.

The proposal seeks to discourage "economic tankering" or carrying additional fuel purchased elsewhere to reduce refuelling at Indian airports. The obligation would apply to Indian and foreign airlines operating scheduled international services.

According to the draft reviewed by *businessline*, the requirement would cover trip and taxi fuel, excluding contingency, alternate reserve and additional fuel.

NOT COVERED. The proposed fuel-uplift obligation would exclude domestic operations of Indian carriers REUTERS

The 90 per cent requirement relates to aviation fuel uplift, rather than the proportion of SAF blended into conventional jet fuel.

Besides, the draft sets out financial and fiscal support measures for developing the domestic SAF ecosystem.

On October 16, *businessline* first reported that the Centre was considering funding and tax support for early SAF deployment, including viability gap funding for initial production plants, concessional finance and feedstock assistance.

The draft now confirms that such support measures form part of the proposed policy framework. It envisages viability gap funding, green financing and long-term offtake agreements, alongside possible GST relief, import duty waivers, income-tax holidays and accelerated depreciation.

FINANCIAL OUTLAY

However, the measures remain proposals. The overall financial outlay would be determined by the Petroleum Ministry in coordination with the Civil Aviation Ministry.

The proposed fuel-uplift obligation would exclude domestic operations of Indian carriers.

Moreover, safety requirements, operational difficulties and supply constraints would be considered while assessing compliance.

Additionally, airlines would submit independently verified annual reports on actual fuel uplift at each airport to the Directorate General of Civil Aviation.

Nevertheless, unjustified deviations could attract penalties, with detailed rules to be developed by the Civil Aviation Ministry in consultation with the Petroleum Ministry.

Separately, the draft proposes mandatory SAF blending shares for international aviation falling within the scope of the Carbon Offsetting and Reduction Scheme for International Aviation.

The proposed trajectory is 1 per cent in 2027, 2 per cent in 2028, 3 per cent in 2029 and 5 per cent in 2030.

Subsequent targets, including 10 per cent in 2035 and 20 per cent in 2040, are indicative and would be subject to further decisions.

NPPA exempts indigenously developed nasal spray to treat epilepsy from price control for five years

Our Bureau
New Delhi

The National Pharmaceutical Pricing Authority (NPPA) has exempted Biodeal Pharmaceuticals Limited's indigenously developed midazolam nasal spray 1.25 per cent w/v from the provisions of the Drugs (Prices Control) Order (DPCO), 2013, for five years, allowing the company to fix its own prices for the formulation during this period.

Midazolam 1.25 per cent w/v nasal spray is a prescription rescue medicine used primarily for the emergency treatment of acute repetitive seizures and seizure clusters, as well as for pre-procedure sedation.

The exemption will be effective retrospectively from May 5, 2025, the date on which the Central Drugs Standard Control Organisation (CDSCO) granted marketing approval for the formulation. In an order dated November 2, 2026, the NPPA said it considered the recommendations of its Multidisciplinary Committee (MDC) at its 153rd meeting, held on October 29, before approving the exemption.

EPILEPSY MEDICINE

Biodeal claims to be the first company in India to receive permission from the Drugs Controller General of India (DCGI) for the midazolam nasal spray. According to the company, the DCGI also confirmed that no other strength of midazolam nasal spray had been approved in India before this grant.

According to Biodeal, the spray has an onset of action within five minutes and uses a metered-dose delivery system

The formulation has been developed indigenously through the company's in-house research and development programme.

Midazolam is an anti-epileptic drug used in the management of seizures. The nasal spray is intended to provide a non-invasive rescue option during seizure emergencies, particularly in situations where intravenous or intramuscular administration may not be immediately possible.

According to Biodeal, the spray has an onset of action within five minutes and uses a metered-dose delivery system to ensure consistency in drug administration. The company said its U-shaped bottle design is intended to deliver the full dose, including the last drop. The formulation comes in a 1.25 per cent w/v strength, with four metered doses in a 1.2 ml bottle.

Under the five-year exemption, Biodeal will be required to inform the NPPA of the price to retailer (PTR) and maximum retail price (MRP) fixed by the company by submitting a price list in Form V under the DPCO, 2013. Three months before the exemption expires, the company will have to comply with the applicable ceiling price or seek retail price approval for the formulation, as required.

NPPA revises ceiling prices for 35 drug formulations

Our Bureau
New Delhi

The National Pharmaceutical Pricing Authority (NPPA) has fixed retail prices for 35 drug formulations, including medicines used in cancer treatment, cardiac care, diabetes management and infections, while also reducing the ceiling price of a cancer drug following a review by the Department of Pharmaceuticals (DoP).

In a series of orders issued on November 2, the drug price regulator fixed prices for 35 formulations in one notification and a 7,000 IU vitamin D3 tablet in another.

Separately, it revised the ceiling price of oxaliplatin injection, a platinum-based chemotherapy drug used to treat colorectal and other gastrointestinal cancers.

The prices notified for the new formulations are exclusive of applicable Goods and Services Tax (GST).

Among the 35 formulations covered in the first price-fixation order, the NPPA fixed the retail price of gemcitabine injection at ₹5,623.07 per vial. The medicine used in the treatment of several cancers.

CANCER DRUGS

The order also covers two strengths of a combination of rosuvastatin, aspirin and clopidogrel, with the 20 mg rosuvastatin formulation priced at ₹25.21 per capsule and the 10 mg formulation at ₹16.56 per capsule.

Two combinations of bisoprolol, telmisartan and cilnidipine, used in the management of cardiovascular conditions, have also been included.

The formulation containing bisoprolol 2.5 mg has been priced at ₹19.11 per tablet, while the 5 mg strength has been fixed at ₹20.87 per tablet.

The list also includes metformin and sitagliptin tablets, priced at ₹13.92 per tablet, and a sustained-release combination of myo-inositol and metformin, priced at ₹24.45 per tablet.

Several antibiotic formulations have been covered, including ceftriaxone and tazobactam injection at ₹125.07 per vial, amoxicillin and clavulanate oral suspension at ₹5.1 per ml, and combinations of vonoprazan with amoxicillin and clarithromycin.

The latter include a three-drug combikit priced at ₹118.52 per strip, a vonoprazan-amoxicillin combikit at ₹50.53 per strip and another three-drug combipack at ₹122.34.

EYEDROPS

The NPPA also fixed prices for different eye-drop formulations, including ciprofloxacin and dexamethasone at ₹2.71 per ml, gentamicin and dexamethasone at ₹1.75 per ml, moxifloxacin at ₹35.37 per ml and moxifloxacin with dexamethasone at ₹20.4 per ml.

Other formulations include methotrexate oral solution at ₹12.7 per ml, carbimazole tablets at ₹1.34 per tablet, methylprednisolone tablets in two strengths at ₹5.3 and ₹10.28 per tablet, and a paracetamol injection at ₹341.26 per vial.

Indian, Dutch doctors join hands to get drug for children with rare genetic disorder

Mumbai

Seven children in India with a rare thyroid-related genetic disorder will receive a six-month supply of Tiratricol, a drug to treat their condition, through a collaboration between Dutch and Indian physicians, along with civil society support, later this month.

Paediatrician Sivaranjani Santosh told *businessline* that the six-month supply of the medicine is being imported from the Netherlands, through legally-approved channels for "personal use".

She said she would approach the government for generic versions of the drug, given that Tiratricol is not available in India and its international price would translate to about ₹4 crore per patient, per year.

The imported "compounded" drug costs about ₹2.5 lakh a year, she said, adding that she had raised funds to support the patient-family.

RARE THYROID DEFECT

Santosh's patient Arav is about 20 months, and the medicine is to be taken lifelong. The genetic defect prevents certain thyroid hormones from reaching the brain, affecting the child's development and metabolism, she explained.

Tiratricol, marketed by Swedish company Egetis Therapeutics, is a thyroid hormone receptor agonist used to treat the MCT8 (monocarboxylate transporter 8) deficiency, also known as the Allan–Herndon–Dudley syndrome.

Wilbert Bannenberg, Chairperson with the Pharmaceutical Accountability Foundation, said the drug was an existing one that was repurposed in the Netherlands and sold to the company.

Tiratricol is not available in India and its international price would translate to about ₹4 crore per patient, per year

Tiratricol costs nearly €180 per tablet in Europe, but in Netherlands it can compounded — prepared by a pharmacist — for a fraction of that price, PAF said. Along with Universities Allied for Essential Medicines Netherlands, PAF was also raising funds for the children's year-long treatment. Chetali Rao, with India's Working Group on Access to Medicines and Treatments, clarified that compounding was recognized in India, but not actively pursued.

Pointing out that Tiratricol was known since 1953, PAF said it was available in France since 1974 for thyroid conditions. In 2014, researchers found that tiratricol could also be used to treat the rare disease AHDS, it added.

"In 2017, Erasmus MC sold the intellectual property rights related to that research to the Swedish pharmaceutical company Egetis. Unfortunately, the contract did not include a fair price clause," PAF said, adding that Tiratricol costs about €441,000 per year in Germany.

An email was sent to Egetis for comment on developments involving its medicine, but a response is awaited.

Egetis had done a clinical trial on the drug in India, PAF alleged, but did not accept a subsequent request from Arav's doctor for compassionate use.

Centre proposes changes to contamination limits for sterile drug manufacturing

Our Bureau
New Delhi

The Union Health Ministry has proposed revising the permissible microbial contamination limits for pharmaceutical manufacturing facilities producing sterile medicines, including injectable drugs and ophthalmic preparations, as part of an amendment to the Drugs Rules, 1945.

In a draft notification issued last week, the Ministry proposed replacing the existing Table 3 under Schedule M, which specifies the recommended limits for microbial contamination in manufacturing environments for sterile products.

The proposed changes cover four parameters, which include air samples, settle plates, contact plates and glove prints; they are used to monitor the presence of microorganisms in pharmaceutical manufacturing areas.

Under the proposed limits, Grade A areas are critical zones in sterile pharmaceutical manufacturing, where exposed products, containers and sterilised components are handled. Maintaining stringent microbial control in these areas is essential to ensuring the quality and safety of sterile pharmaceutical products.

CFU LIMITS

For Grade B areas, the proposed limits are 10 colony-forming units (CFU) per cubic metre of air, five CFU per settle plate over four hours, five CFU per contact plate and five CFU per glove print.

For Grade C areas, the proposed limits are 100 CFU per cubic metre of air, 50 CFU per settle plate and 25 CFU per contact plate. For Grade D areas, the corresponding limits are 200, 100 and 50 CFU, respectively.

CFU is a measure used to estimate the number of viable microorganisms in a sample.

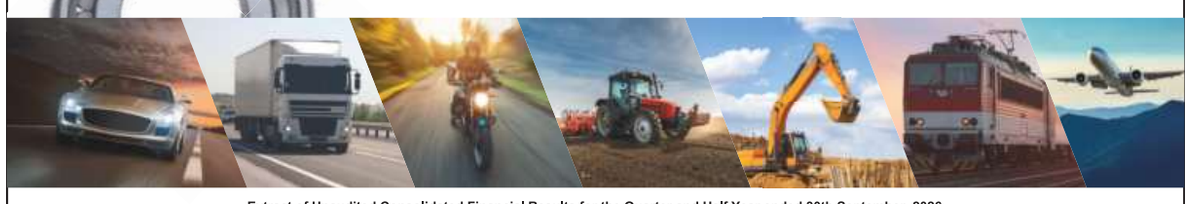

The proposed amendment falls under Schedule M, Part II, Requirement 4, paragraph 4.9 of the Drugs Rules, which lays down specific requirements for the manufacture of sterile products, including small and large volume parenterals and sterile ophthalmic preparations.

The Ministry has invited objections and suggestions from stakeholders and other affected persons within 30 days of the gazette notification being made available to the public. These submissions will be considered before the government finalises the amendment.

BORIVALI LAND ENCROACHMENT

After SC freezes BMC chief's salary, 27 structures razed

Officials cite court order; residents say they have been paying rent as well as other charges

Pratip Acharya
Mumbai, November 4

A DAY after the Supreme Court ordered an immediate freeze on the salary of Mumbai Municipal Commissioner Ashwini Bhide and other officials for failing to remove encroachments from a land parcel in Borivali, the Brihanmumbai Municipal Corporation early Wednesday demolished 27 properties on a 750-square-metre plot in the suburban area.

The plot stood adjoining the MG Road and the razed properties included residential and commercial units, each having a dimension of 50 feet by 50 feet. Most of these occupants hail from low income group and pay a nominal rent ranging between Rs 50 and 200.

The civic body initiated the demolition action under heavy police deployment around 7 am and the authorities said that the drive was completed by 6 pm. The plot has remained in a legal hurdle for more than five decades. Some of these properties have remained on the plot since the 1970s and are now being protected under the state government's Rent Control Act, according to an affidavit submitted to the SC by the BMC, last November.

Meanwhile, the occupants of the demolished structures have temporarily shifted their belongings to a passenger shelter on the footpath along MG Road, opposite the plot.

"Last night, some officers came to our huts and said that we will have to vacate our premises by morning or else we will be evicted forcefully. In the morning, police officers came and asked us to move out, following which JCBs zoomed past and made our houses into a rubble," Aftab Alam a resident from one of the housing units told The Indian Express.

BMC workers demolish structures at a land parcel reserved for an electrical substation for Brihanmumbai Electric Supply and Transport, at Borivali East on Wednesday. SANKHADEEP BANERJEE

Another displaced occupant, Ashfaque Naser, said that his father had a motor vehicle repair shop on the plot for three decades. "We paid our rent to the owners along with water and electricity charges. How can an unauthorised structure get a legal electric connection," he asked. The land parcel was part of a township plan of the Brihanmumbai Electric Supply and Transport (BEST) administration.

The land was leased to the families of Harshad Shah and Bhagwan Badre in a 99-year agreement in 1978 by the original land owners. Three years later, the Bombay High Court put the land up for auction after a dispute arose among the original family members of the plot, which led to non-payment of property tax.

Harshad Shah told The Indian Express that his family has remained the original leaseholder of the plot since 1978.

"As of today, the rent paid by the tenants is very nominal. We pay our property tax to the civic authorities and there are all paper records showing that we are the original owner of the plot. This action from the administration came as a shock to us," Shah said.

Assistant Municipal Commissioner Praful Tambe said that the civic body has just followed the SC's direction.

In the affidavit submitted to the SC, the BMC had maintained that the land parcel belonged to a private owner and it had no role in the eviction drive. "Whatever is there in the affidavit is correct. We tried to abide by our stand that in that affidavit for the last 9 months. However, the court gave us an order yesterday to remove the encroachments, which we have followed," Tambe said.

Following the drive, Gopal Shetty, former BJP MP from Mumbai (North), held a demonstration at the site.

Meanwhile, the demolition action also created much furore in the civic standing committee panel, with corporators raising demands for the suspension of the responsible authorities owing to the damage caused to the civic body.

(INPUTS FROM NAYONIKA BOSE)

The 50-yr-old land dispute behind Borivali demolition

Demolition follows 18-year legal battle over private plot and protected tenants

Pratip Acharya
Mumbai, November 4

THE DEMOLITION of 27 properties on a 750-square-metre plot in Borivali on Wednesday brought to a head a decades-long dispute over private ownership, protected tenants and a larger civic development project. The dispute dates back to the 1970s and has led to an 18-year legal battle between the developer and the Brihanmumbai Municipal Corporation (BMC).

Government land records accessed by The Indian Express show that the properties stood on privately owned land and that their occupants enjoyed protection under the Maharashtra Rent Control Act. In an affidavit submitted to the Supreme Court last November, the BMC maintained that since the land was privately owned, the developer was responsible for clearing it of encroachments. The dispute originated with a 6,400-square-metre plot earmarked in the 1970s for a bus depot for the Brihanmumbai Electric Supply and Transport (BEST) undertaking.

Under a consent-term agreement, private developer Parag Construction was to build an administrative building and bus depot for BEST and hand them over to the BMC. In return, it was to receive Floor Space Index (FSI) benefits to construct a multi-storey building on part of the land.

Adjacent to this larger plot was the 750-square-metre parcel at the centre of the dispute. The owners leased it to the families of Harshad Shah and Bhagwan Badre for 99 years in 1978. Following a dispute among the original family members and non-payment of property tax, the Bombay High Court ordered an auction of the land in 1981.

Parag Construction subsequently became a co-owner along with Shah and Badre.

The smaller plot was later included in the larger development project.

However, the BMC and BEST had pointed out that 27 tenants occupied the land and that the developer would have to settle their claims before evicting them.

In 2008, Parag Construction approached the Supreme Court, arguing that the civic authorities had failed to remove the occupants.

The court observed that the structures fell within a development project and that the occupants should be evicted. However, the BMC maintained that it could not directly evict tenants protected under the Maharashtra Rent Control Act, 1998.

The developer subsequently initiated contempt proceedings against the civic body, arguing that its failure to clear the plot was holding up a public project.

"The project that we undertook is a city development project and as per the Mumbai Regional Town Planning (MRTP) Act, the BMC was supposed to remove the encroachments from the plot. By not doing so, they were hindering a public project. Therefore, we had to file contempt in the court which was later ordered in our favour," Anil Shah, the project's developer and a spokesperson for Parag Construction, told The Indian Express.

Shah said the developer had handed over the depot and administrative building to BEST, but was yet to construct the private building planned on the 750-square-metre plot.

In its affidavit to the Supreme Court last November, the BMC reiterated that the land was privately owned and that the developer was responsible for protecting it from encroachments.

"The Urban Development Department, government of Maharashtra also had taken a decision that the encroachment which was sought to be removed stands on private land and as such it is the responsibility of the applicant (the developer) to protect the land," the affidavit stated.

In August, the Supreme Court gave Parag Construction three months to complete the project and hand over the BEST depot.

After the developer failed to meet the deadline, it approached the court again. The court subsequently ordered the freezing of BMC Commissioner Ashwini Bhide's salary.

Former Mumbai North MP and senior BJP leader Gopal Shetty said the developer had already handed over the BEST depot, while the remaining structures housed protected tenants.

"There was no question of proceeding with their demolition. The corporation should have clearly placed these facts before the Supreme Court and explained that the BEST depot had already been handed over and that the remaining structures were protected. Instead, rather than explaining the actual position, the corporation sought additional time from the Supreme Court. This angered the court, which imposed a fine of Rs 5 lakh on the Municipal Commissioner and directed that action be taken," Shetty said.

Construction site sensors to face third-party audit

AMID CORPORATORS raising concerns over the deteriorating air quality index (AQI), the Brihanmumbai Municipal Corporation standing committee on Wednesday cleared a proposal to conduct a third party audit of all sensors installed by developers across city's construction sites. While corporators raised concerns over the efficiency of the third party audit, the BMC administration said that the move is critical to ensure compliance of monitoring devices to measure pollution levels across 3,100 construction sites.

Engineer held for siphoning shares worth Rs 4.58 cr

A 35-YEAR-OLD woman engineer has been arrested by the South Cyber police for allegedly hacking a man's Demat account and siphoning of shares worth over Rs 4.58 crore. The accused used 1.71 crore to purchase penny stocks at lower prices. The accused, identified as Pushpa Bind, was allegedly involved in similar cases earlier and was arrested in three cases, police said. She is an IT engineer and worked in 5 to 6 firms.

RECRUITMENT FOR CONTRACT POSITIONS IN SAMEER

Society for Applied Microwave Electronics Engineering and Research (SAMEER) is a premier R&D laboratory in RF and microwave technology. It is an autonomous society under the Ministry of Electronics and Information Technology (MeitY), Government of India. SAMEER has five Centres across the country. It carries out design and development projects in advanced and next-generation technologies, and provides Electromagnetic Compatibility (EMC) testing and consultancy services to industry. Candidates may visit the official SAMEER website (**www.sameer.gov.in**) to learn more about the activities of its various Centres.

SAMEER invites applications from eligible candidates for contract positions under its various projects at Mumbai / Navi Mumbai, on a consolidated remuneration basis. These appointments are purely contractual and project-specific. They shall not confer any right to regularisation, absorption or continuation of service in SAMEER. Details of the posts, essential qualifications and experience requirements are available on the recruitment link given below.
