Introduction

Introduction To Ramkrishna Forgings

- Incorporated in 1981 by Mr. Mahabir Prasad Jalan, a technocrat from BITS Pilani
- Ably supported by Mr. Naresh Jalan (MBA Finance), having more than 20 years of forging experience and a professional management team
- Based out of Kolkata with five manufacturing facilities located in Eastern India close to key automobile manufacturing hubs, manufacturing with a capacity of 150,000 tonnes
- We are a leading forging player in India with best in class infrastructure recently completed capacity addition for a 12,500 tonne press, only second company in India to have this press
- Manufacture forged and machined components for Commercial Vehicles, Earth Moving Equipment, Railways, General Engineering, Defence, etc., will cater to Oil and Gas Segment soon
- Marquee customer base of more than 17 OEMs and Tier – I companies, successfully completed several audits with international OEMs and Tier I component manufacturer
- Leveraging existing relationship to expand into new product lines, focus on expanding presence with international OEMs and Tier I
- Diversified product portfolio with complimentary products focus on more complex products with higher margins
- Ability to manufacture 100% of forged component required for a commercial vehicles
- Company's Statutory Auditor are M/s Singhi & Co. and Internal Auditors are M/s. Deloitte Haskins & Sells

Company Highlights & Business Overview

Diversified Product Portfolio

Capacity to Manufacture Products between 2–200 KGs

Front Axle Products

Engine Components

Transmission – Gears & Shafts

Rear Axle Products

Crown Wheels

Bell Crank Assembly

Geographic Diversification

FY11-12 | Sales

FY13-14 | Sales

FY15-16 | Sales

FY16-17 | 9M Sales

- Company has focused on exports over the last few years due to significant competitive advantage over international peers
- Exports as a percentage of sales has kept on expanding
- Bagged few marquee export orders from international Tier 1 and OEMs
- Has completed audit with several OEMs and Tier I which is expected to lead to contracts

Global Footprints, Focus on Intl. OEM's & Tier I Customers

Continuous Focus on Product Development

Strong Engineering Capabilities

New Products Development Over the last 5 Years by Category

- Strong in-house engineering capabilities for product design – 2D Drawing, 3D Modelling, Reverse engineering, etc.
- Investment on in-house Rig Testing Facility planned from 2017 onwards as part of R&D efforts

CUSTOMERS SHOWING INCREASED SALES FOR THE RESPECTIVE YEARS

Growth Through Investments

- Continuous focus on investments to augment capacity
- Investment Driving Revenue Growth
- Investments in manufacturing higher value and quality products
- Conservative capital funding through mix of equity and long term debt during expansion

**Production Capacity
(In Tonnes)**

■ Forging ■ Ring Rolling ■ Press

■ Gross Block (INR Crore) — Sales (INR Crore)

State Of The Art Manufacturing Facilities

Plants	Process	Facilities
Plant 1 - Jamshedpur	• Hammer Forging • Upset Forging • Die Making • Heat Treatment • Shot Blasting • Testing	
Plant 2 - Liluah	• Machining/Assembly • Light Fabrication • Functional Testing	
Plant 3 & 4 - Jamshedpur	• Computer Numerical Control Machining • Gear Cutting • Horizontal Machining Centers • Vertical Machining Centers • Broaching Machine • Shaving Machine • Shaping Machine • ISO Annealing • Sealed Quenching • Plug Quenching • Induction Hardening • Ring Rolling Press line with machining facilities	
Plant 5 - Jamshedpur	• Press Forging • Integrated Paint Shop • Horizontal Machining Centers • Vertical Machining Centers • Die Making & Heat Treatment Facilities • Integrated Front Axle Beam Machining Line	

Recent Capacity Addition in Press Forging (Plant V)

Press Forge Machinery Details

#.	Machine Details	Weight Range (In KGs)
1	Press – 12500 Tons	80 - 250
2	Press – 6300 Tons	40 - 65
3	Press – 4500 Tons	20 - 40
4	Press – 3150 Tons	10 - 20
5	Press – 2000 Tons	05 - 10

- IN FY 2015-16 Plant V was commissioned with a 12500 tonne press, only second company in India to have this press
- Funds were raised from Private Equity investor Wayzata Partners and also International Finance Corporation provided Equity and Debt to finance the project
- Plant V will help manufacture complex and heavy-forged components, these will be high value products which will earn a higher margin
- Will improve content per vehicle for the company and improve the supplier relationship with customers
- Will help tap new opportunities with OEMs and Tier I players across India, USA and Europe, ability to leverage current relationships for more complex and large products
- Will significantly enhance growth especially in FY18 and FY19 as the capacity utilisation levels improve
- Latest technology used will also help manufacture better quality product and raw-material saving

One-Stop-Shop, Complete Manufacturing Capabilities

Engineering & Designing	• Capability to design parts as per customer requirement, provide testing and engineering capabilities for newly developed parts • Develop high quality products for better yield • Software's like Auto Cad, Forge 3D and Deform 3D , etc., help with design and development of parts • Investment on in-house Rig Testing Facility planned from 2017 onwards as part of R&D efforts	
Tool & Die	• Complete facilities of die making using software for die designs and for die sinking • Best in class machines and technical knowhow for design and development	
Forging	• 5 belt drop Hammers • 2 Pneumatic Close die Hammer • 2 Pneumatic Open die hammer • 2 Nos. 5 inch Upsetter • 1 Nos. 6 inch Upsetter • Production range from 500 gms to 130 KGs	
Press Forging	• Capacity to forge components upto 250 KGs through 5 Presses • Only second company in India to have 12500 tonne presses	
Ring Rolling	• State of The Art Ring-Rolling Facility can roll crown wheels upto 500 mm in diameter • Capacity to forge components from 20 -75 KGs • Ability to forge one component in 25 -32 Seconds	

Heat Treatment	- State-of-the-art hardening and tempering furnaces are PLC controlled and have integral graphic recorder - New Press Plant the furnace is run by SCADA control system and entire heat treatment is automatic	
Machining	- Machinery for Turning Centre, Gear Hobbing, Gear Shaping / Shaving, Tooth Rounding, Broaching, Rolling, etc. - All machineries are CNC controlled, operational line also complements the plant's just-in time manufacturing practices	
Surface Treatment	- Surface treatment is exclusively designed for the forging components like Front axle beam, Knuckles, Stub axle, Arms etc. - Pre-treatment and Surface Treatment process to meet the world class quality consisting of 8 stage Pretreatment process	
Quality Inspection	- Partnerships with customers and suppliers for continuously improving the quality of our processes and products - Advanced technical machineries, on-board diagnostics and easy-to-setup measurement routine

Opportunity & Strategy

Manufacturing Capability & Economies of Scale

- 5 manufacturing set ups with 48,000T Hammers and Upsetters, 24,000T ring rolling pressline and 4 presslines of totaling to 80,000T capacity (3150T, 4500T, 6300T and 12500T)
- Best in class technology for precision and industry leading cycle time

Diversified Product Portfolio & Proximity to Raw Material Source

- Diversified product portfolio comprising of axle components, transmissions components, crown wheels, engine components, front and rear axle assemblies, etc.
- Large set up in Jamshedpur, Baliguma and Howrah close to steel capital of India

Innovation Capability

- Successfully transformed from a forging company to an integrated product development firm providing cutting edge solutions
- Developed expertise in ring-rolling and machining complementing the forging business

Experienced Management & Marquee Client Base

- Strong management with experience in Innovation, Product Development and Manufacturing
- Has marquee client base with all Top OEMs as clients including TATA Motors, Ashok Leyland, VE Commercials, along with Tier I Vendors

Increasing Content per Vehicle

- Focus on large and complex products, requiring higher skills and technical capabilities
- Higher Value Products with better margins

Key Supplier across Value Chain

- Diversified product portfolio with ability to provide products across category
- Strong relationship with OEMs and Tier I players due to large and quality offering

Ability To Tap International Markets

- High quality products combined with lower cost - a key advantage for international clients
- Completed several audits from international OEMs and Tier 1 players

New Product offering

- Consistently developed new products across category diversifying revenue profile
- Ability to leverage existing relationship to cross-sell new products

Source : Bloomberg

North American Market Growth Drivers

- New Government to likely focus on Infrastructure through Capex spending
- Cyclical downturn seems to have bottomed-out

(#. Units)

Source : SIAM

Domestic Market Growth Drivers

- Implementation of BS IV from April 1st 2017
- Commercial Vehicle older than 15 years likely to be scrapped

Leadership

Management Team Overview

Name	Designation	Brief Background & Experience
Mr. Mahabir Prasad Jalan	Chairman Director	- Completed his graduation in Mechanical Engineering from BITS, Pilani - More than 45 years of work experience in Forgings sector having started his Career from the shop floor - First independent venture as Managing Partner of Tribeni Steel Forgings in the Year 1974 - Started Ramkrishna Forgings in 1981 and leading the organisation
Mr. Naresh Jalan	Managing Director	- Completed MBA in Finance and Marketing 20 years of experience in Forging industry - Dynamic leader his vision has helped company achieve significant growth
Mr. Pawan Kumar Kedia	Director (Finance)	- Bachelor in Commerce and a diploma holder in Taxation - Possesses more than 28 years of experience in the accounting
Mr. Padam Kumar Khaitan	Independent Director	- An Attorney-at-law - Has more than 34 years of experience in the legal profession - Currently he is one of the leading Partner of M/s. Khaitan & Co.
Mr. Ram Tawakya Singh	Independent Director	- B.Sc. Engg in Metallurgy from RIT Jamshedpur - More than 50 years of experience across various Companies - During his tenure he rose to the level of VP in TATA Motors. He helped the company to reduce cost and improve plant Productivity
Mr. Sandipan Chakravorty	Independent Director	- B.tech and M.tech from IIT Kharagpur - Had been associated with TATA group Companies for more than 40 years. - Has wide experience in materials management, mines and minerals, steel business – especially commercial activities, steel value added supply chain business, logistics, etc.
Mr. Partha Sarathi Bhattacharyya	Independent Director	- M.Sc (Physics), FICMA - Ex- Chairman, Coal India Ltd (CIL) - Steered CIL through Miniratna (2007), Navratna (2008) and finally Maharatna (2011) - Spearheaded the historic 10% stake sale thru IPO in 2010 - the largest so far in Indian Capital Market fetching Rs.15,200 crores for GOI. Post retirement, had a brief 15 month stint as MD of Haldia Petrochem till June 2012
Mr. Amitabha Guha	Independent Director	- M.Sc. Physics - Has been a banker throughout his life. Rose to level of Deputy Managing Director, SBI - Was also the Non- Executive Chairman, South Indian Bank
Mr. Yudhisthir Lal Madan	Independent Director	- MBA (Finance), M.Sc. (Physics) and a CAIIB from Institute of Bankers, Mumbai - Retired banker with 38 years of rich and varied experience in the field of General Banking, with expertise in Corporate finance, Retail finance, SME lending, Risk management with focus on Credit monitoring, etc.
Ms. Aditi Bagri	Independent Director	- A LLB holder and a Diploma in IPR from Mumbai University - Has 10 years of experience in the legal field - Currently associated with M/s. Juris Corp as Senior Associate
