Corporate Communication

About Vikas GlobalOne Limited

Vikas GlobalOne Limited (NSE and BSE Listed Company) was incorporated in 1984 in New Delhi. The company is engaged in the business of manufacturing and distribution of Specialty Polymers Compounds and Additives. The company manufactures high end quality products used in agricultural pipes, auto parts, wires and cables, artificial leather, footwear components, organic chemicals, pharmaceutical and packaging industries. The company also acts as a distributor for various global conglomerates with a niche product line in Specialty Chemicals and Polymer Compounds.

The company's manufacturing plants are strategically located in the States of Jammu and Kashmir and Rajasthan in India providing advantages in geographical location with regards to the availability of raw material, tax incentives, subsidy grants as well as the market potential for finished goods. The manufacturing plants are well equipped with the best machinery and technical knowhow available for manufacturing specialty polymer products procured from world's leading suppliers. Also the manufacturing plants are well connected by road, rail as well as air.

The company's products are well received in Indian as well as Global market and the company is very much confident that it can enhance its market share with increased production capacities. The products manufactured by the company are environmental friendly.

The Company pursuing the target of offering niche products, comparable to the elite materials from the leading producers of the relevant materials across the globe, has started producing a new range of products "Flame Retardants for Plastics & Rubbers".

Vikas GlobalOne Limited announces successful commencing its two new products namely UPVC Compounds for Rigid PVC Pipes and Flame Retardant for plastic & rubber applications.

Brief Introduction of Products:

A) UPVC Compounds

Rigid PVC pipes/tubes/fittings are mainly used in agricultural & infrastructure projects.

The Company has commences its new green field projects with a Capital expenditure of INR 1.50 crores with annual capacity of around 2500 MT/PA. This project is expected to generate revenues of around INR 15 crores per year. The market for UPVC pipes/tubes/fittings is increasing at annual rate of 12% for last 5 years.

The Company is using good quantities of recycled & environment friendly products thus contributing its bit for environment protection.

The Company has been able to enter into an MOU for the supplies of this product with Apollo Pipes Limited (APL Apollo Group) & Rukmini Polytubes Pvt. Ltd., for the sales of their compounds which will leads to initiating instant expansion of the capacities production & sales.

B) Flame Retardant

The fire safety norms & standards in India are witnessing a continuous incorporation of safety standards as the primary requirements for qualifying the products for use at various public & private sectors for products like electrical wires & cables, insulation materials, PVC doors , windows profiles, paints, coatings for the ever growing building & construction sectors, various auto parts etc. thus newer markets have developed with immense potential for such essential, technical & sophisticated products which requires addition of Flame Retardant in all formulation. Even Law has mandated compulsory use of Flame Retardant in many products.

The Company has commenced its new green field projects with a Capital expenditure of INR 2 crores with annual capacity of around 3000 MT/PA. This project is expected to generate revenues of around INR 20 crores per year.

The company has put up the most refined, sophisticated & first of its kind plant in India to produce Flame Retardant matching the specifications offered by the top producers across the globe. The specifications of the material produced by company has been tried & approved in comparison to the expensive Imports from The USA, EU & Korea etc. thus saving the precious foreign exchange for the country.

The Company has entered into an MOU with NALCO, The National Aluminium Company Limited, for sourcing of the raw material for this venture.

As regards the sales, the company is targeting various leading wire and cable producers like:-

1. Havells India Limited
2. KEI Industries Limited
3. Torrent Cables Limited
4. R.R.Kable Limited
5. Cords Cables Industries Limited
6. Polycab Wires Private Limited

Also, the company would be targeting the global market through its network which is already connected via supplying of various PVC additives being exported by the company.
