L&T Construction Wins Orders Valued ₹ 2683 Cr

Mumbai, September 26, 2013: L&T Construction has won new orders worth ₹ 2683 crores during September 2013 across various business segments in the domestic and international markets.

The **Water & Renewable Energy Business** has secured new orders worth ₹ 1334 crores from various customers.

Three of the major turnkey orders received are from the Public Health Engineering Department of Rajasthan for integrated regional drinking water supply projects linking several towns and 650 villages in Barmer, Banswara and Pratapgarh districts. The scope of the contract includes supply and laying of transmission pipelines, construction of water treatment plants, clear water reservoirs and pumping stations. Another turnkey order has been received from Bangalore Water Supply and Sewerage Board, Karnataka, for improving water distribution system in west division of Bangalore. The project aims to reduce unaccounted for water and to ensure uninterrupted 24-hour water supply to 1.5 lakh houses in Bangalore. This project, funded by the Japan International Cooperation Agency, was bagged against tough international competition. The company is currently executing another unaccounted for water reduction project in Bangalore covering 1.1 lakh houses.

In the **Buildings & Factories Business**, there are new orders worth ₹ 1194 crores from various customers, including a major order received for design and construction of a mega residential project in Chennai. The scope includes architectural, structural and electro-mechanical works and other associated services. Additional orders have also been received from various ongoing projects.

The **Power Transmission & Distribution Business** has bagged an international order worth ₹155 crores from a reputed customer in UAE. The scope of work includes engineering, procurement and construction of power interconnection works involving construction of 220 kV and 33 kV gas insulated substations, auxiliary power supply, underground cabling and associated civil and electrical work.

Background:

Larsen & Toubro is a USD 14 billion technology, engineering, construction, manufacturing and financial services conglomerate, with global operations. Its products and systems are marketed in over 30 countries worldwide. L&T is one of the largest and most respected companies in India's private sector.
